Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company’s financial data. For details in connection with risks involving differences between Ind AS, U.S. GAAP and IFRS see “*Risk Factor – We have included certain non-GAAP financial measures and other selected statistical information related to our operations in this Draft Red Herring Prospectus. Such non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry and may not be comparable with financial or statistical information of similar nomenclature computed and presented by other companies*” on page 37. The degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, 2013 and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Unless the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 26, 190 and 266, respectively, and elsewhere in this Draft Red Herring Prospectus have been calculated on the basis of amounts derived from our Restated Financial Statements.

Certain Non-GAAP Measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, Direct Costs, PAT Margin, CAGR and others, have been included in this Draft Red Herring Prospectus. We compute and disclose such Non-GAAP Measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures

of our business and financial performance. These Non-GAAP Measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies

Currency and Units of Presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and
- “USD” or “US\$” or “\$” are to United States Dollar, the official currency of the United States.

All references to ‘Rupees’ or ‘Rs.’ or ‘₹’ or ‘INR’ are to Indian Rupees, the official currency of the Republic of India. In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “ten lac / lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crore”. Figures sourced from third-party industry sources may be expressed in denominations other than millions or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Draft Red Herring Prospectus in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

Exchange Rates

This Draft Red Herring Prospectus may contain conversion of certain other currency amounts into Indian Rupees. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between Rupee and US\$.

(in ₹ per US\$)

Currency	As on September 30, 2022	As on March 31, 2022	As on March 31, 2021	As on March 31, 2020

Industry and Market Data

Unless stated otherwise, industry and market data used in this Draft Red Herring Prospectus has been obtained or derived from a report titled “NBFC Industry in India” dated January 2023 prepared by Dun & Bradstreet Information Services India Private Limited, and exclusively commissioned and paid by our Company only for the purposes of the Issue. We commissioned and paid for the Dun & Bradstreet Report for an agreed fee for the purposes of confirming our understanding of the industry exclusively in connection with the Issue. The data included in the DRHP includes excerpts from the Dun & Bradstreet Report and may have been re-ordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the Issue), that have been left out or changed in any manner. Unless otherwise indicated, all financial, operational, industry and other related information derived from the Dun & Bradstreet Report and included herein with respect to any particular year, refers to such information for the relevant year. Actual results and future events could differ materially from such forecasts, estimates, predictions, or such statements. In making any decision regarding the transaction, the recipient should conduct its own investigation and analysis of all facts and information contained in the prospectus and the recipient must rely on its own examination and the terms of the transaction, as and when discussed. Industry publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. For risks in relation to commissioned reports, please see the section entitled “Risk Factors – This Draft Red Herring Prospectus contains information from third parties and an industry report obtained from Dun and Bradstreet Information Services India Private Limited, which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Issue. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.” on page 38.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “propose”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to, *inter alia*, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. We require substantial capital for our business and any disruption in our sources of capital could have an adverse effect on our business, results of operations and financial condition;
2. The risk of non-payment or default by our borrowers may adversely affect our business, results of operations and financial condition;
3. Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations and financial condition;
4. Any deterioration in the performance of any pool of receivables securitized to banks and other institutions may adversely impact our results of operations;
5. Non-compliance with the RBI’s observations made pursuant to its periodic inspections and violations of regulations prescribed by the RBI, could expose us to certain penalties and restrictions;
6. The COVID-19 pandemic and measures intended to prevent its spread; and
7. Outstanding legal proceedings involving our Company, our Promoters and our Directors.

For further discussion of factors that could cause the actual results to differ from the expectations, see “*Risk Factors*”, “*Our Business*” “*Industry Overview*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 26, 190, 163, 266 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to the investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, the investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the BRLM, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the BRLM will ensure that the investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges.

SUMMARY OF THE OFFER DOCUMENT

This section is a general summary of the terms of the issue and of certain disclosures included in this Draft Red Herring Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Draft Red Herring Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including the sections titled “Risk Factors”, “Our Business”, “Industry Overview”, “Capital Structure”, “The Issue”, “Objects of the Issue”, “Our Promoters and Promoter Group”, “Financial Information”, “Outstanding Litigation and Other Material Developments”, “Issue Structure” and “Issue Procedure” beginning on pages 26, 190, 163, 64, 50, 146, 243, 256, 295, 327 and 331 respectively of this Draft Red Herring Prospectus.

Primary business of our Company

We are a non-banking finance company (“NBFC”) incorporated in the year 1996 registered with the Reserve Bank of India as a Non-systemically important non-deposit taking company with over two decades of lending experience in rural and semi-urban geographies in India. We are primarily engaged in rural and semi-urban centric lending solutions to look after the needs and aspirations of rural and semi-urban populace. Our portfolio includes Vehicle Finance and Business Finance Products to small business owners. We have a long history of serving rural and semi-urban markets with high growth potential and have maintained a track record of financial performance and operational efficiency through consistently high rates of customer acquisition and retention and low cost expansion into underpenetrated areas. Therefore, we strategically focus on clients in the rural and semi-urban sector.

Our digital lending platform www.aasaanloans.com is currently under development and will be rolled out in a phased manner. Initially the vehicle loans would be launched and the Business Finance would be rolled out for making the operational process easier and faster. We have taken a baby step towards the same by launching a website aasaanloans.com. This differentiated approach aids in the identification of businesses with low risk and high promise, thereby providing opportunities for those who previously had no access to long or short-term financing.

We have our footprints in rural and semi-urban geographies in 4 Indian states Rajasthan, Maharashtra, Madhya Pradesh and Gujarat through registered office located at Udaipur, Rajasthan, 7 branches and over 20+ points of presence including digital and physical branches having served over 200,000 customers till date. For further details, see “Our Business” beginning on pages 190 .

Industry in which our Company operates

NBFCs’ Assets Under Management is expected to grow in single digits (between 7-8%) in FY23 on the back of NBFCs continued focus on extending credit facilities to that segment of consumers where the penetration of bank is relatively low, the demand for credit from the retail segment will also continue to flow to NBFCs. Continuous investments in technology infrastructure and ease of access to internet will fuel the growth of NBFC in upcoming years. There would be steady demand from retail segments specially from Housing loans and Vehicle loans segments which will continue growth momentum of NBFC sector.

In the recent past, many NBFCs have improved in terms of liquidity, capital and provisioning which along with improving economic activity would enable NBFCs to comfortably position itself to capitalize the growth opportunities in the years to come, however there will be competition from banks. On Asset Quality front the recent change in NPA recognition norms by RBI to a daily due-date basis instead of the month-end will have implications. However, the increase in GNPA’s because of the revised income recognition, asset classification and provisioning norms will be largely an accounting impact because given the improving economy, the credit profiles of borrowers are not expected to deteriorate. Consequently, ultimate credit losses are not expected to change significantly.

NBFC Presence in Vehicle Financing

As on March 2022, the total outstanding vehicle loan portfolio of NBFC segment is estimated to be nearly INR 5.9 Lakh Crore, with nearly 72% of them being commercial vehicle loans. NBFC share in total two-wheeler loan portfolio is estimated to be nearly 65% while its share in passenger vehicle is estimated to be nearly 25%. In CV financing segment, the market share of NBFC is estimated to be nearly 62% (including new and used CV financing).

SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider each of the following risk factors and all other information set forth in this Draft Red Herring Prospectus, including in “Our Business”, “Industry Overview”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Selected Statistical Information” and “Financial Statements” before making an investment in Equity Shares. The risks and uncertainties described below are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations and cash flows.

If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition, results of operations and cash flows could suffer, the trading price of, and the value of your investment in, Equity Shares could decline and you may lose all or part of your investment. In making an investment decision with respect to this Issue, you must rely on your own examination of our Company and the terms of this Issue, including the merits and risks involved. To the extent the novel coronavirus (“COVID-19”) pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in this section.

Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the issue.

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus.

Unless the context otherwise requires, in this section, reference to “we”, “us” or “our” refers to Akme Fintrade (INDIA) Limited.

Internal Risk Factors

Risks Relating to our Business

- 1. The Coronavirus pandemic (COVID-19) has had certain adverse effects on our business, operations, cash flows and financial condition and the extent to which it or the effect of outbreaks of any other severe communicable disease may continue to do so in the future, is uncertain and cannot be predicted.**

In late 2019, the outbreak of COVID-19 spread globally and on March 11, 2020 it was declared as a global pandemic by the World Health Organization. Governments and municipalities around the world instituted measures in an effort to control the spread of COVID-19, including quarantines, shelter-in-place orders, school closings, travel restrictions, closure of non-essential businesses and restrictions on essential businesses. By the end of March 2020, the macroeconomic impacts became significant, exhibited by, among other things, a rise in unemployment, reduction in discretionary spending and market volatility. The Government of India initiated a nationwide lockdown from March 25, 2020 for three weeks which has been thereafter being eased in a phased wise manner. In compliance with the orders being announced by the Indian Government, we have been operating physical as well as remote working combinations for our employees. We had to incur additional costs linked to up gradation of our IT systems to enable employees to work from home, social distancing measures and sanitization at our offices, additional allowances, reimbursement of medical costs of employees and their families, additional insurance coverage, support in case of hospitalization and access to a doctor on call for our employees. Additionally, many of our borrowers’, lenders’ and service providers’ operations were hampered. As a result, we experienced a fluctuating business, reduced disbursements and consolidations in our loan portfolio. The impact of the pandemic on our business, operations and future financial performance has included and may include the following:

- We have experienced and may continue to experience a decline in business activities. Since significant portion of our businesses are dependent on economic activities, all of which have been affected due to the nationwide lockdown that had been imposed from time to time. This decline in trading activity could persist through and beyond the current fiscal year.
- There has been amendments and restructuring for some of the terms of our debt by our lenders with our past loans.
- There has been and there may continue to be lower loan disbursements due to reduced economic activity. As a result, related revenue generation from interest, processing fees and documentation charges has and may continue to be lower.
- Our borrowers may default on loan and other payments or other commitments. Our delinquency ratios may increase, and our asset quality may deteriorate.
- We have amended our internal processes, controls and policies in light of the COVID-19 pandemic. These measures include revising our strategies, providing restructuring options to our borrowers, conducting enhanced analysis of our loan portfolio, analysing the impact pandemic, conducting enhanced checks with internal audits, running a risk model to understand losses, counselling clients and giving moratorium to clients, among other things. We cannot assure you that such measures will assist in the timely mitigation of the impact of the COVID-19 pandemic on our business and operations.
- An overall deterioration in the economy may also lead to a reduction in the value of collateral provided for our loans, leading to higher than anticipated losses on default. Further, as our unsecured loan portfolio is not supported by any collateral, in the event of non-payment by borrowers under these loans, we may be unable to collect the unpaid balance.
- Should there be a similar situation in the future, the Government of India and local governments may impose lockdowns and/or other restrictions that hamper economic activity and impact our business and financial results. Based on the restated consolidated financial statements.

For details please see chapter “Financial Information” and “Management Discussion and Analysis of Financial Condition and Results of Operations” on page 256 and 266 respectively.

**The proceedings may not individually exceed the materiality threshold as determined under the materiality policy adopted by our Board in respect of material outstanding civil litigations.*

(1) Excluding legal proceedings against one of our Promoters who is also our Director.

There can be no assurance that these litigations will be decided in favour of our Company, our Promoters and our Group Companies, respectively, and consequently it may divert the attention of our management and Promoters and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For the details of the cases please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page no.295 of this Draft Red Herring Prospectus.

3. We require substantial capital for our business and any disruption in our sources of capital could have an adverse effect on our business, results of operations and financial condition.

Our business and results of operations depend on our ability to raise both, debt and equity from various external sources on suitable terms and in a timely manner. Our financing requirements historically have been met from several sources, including term loans and working capital facilities; proceeds from loans securitized; proceeds from the issuance of NCDs; and debt from other domestic and international financial institutions to meet our capital requirements. See “Financial Indebtedness” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Significant Factors Affecting our Results of Operations”. Our business thus depends on, and will continue to depend on, our ability to continually access these sources of capital and secure low cost funding at rates lower than the interest rates at which we lend to our customers.

Our ability to raise funds on acceptable terms, at competitive rates and in a timely manner, depends on various factors including our current and future results of operations and financial condition, our risk management policies, our credit ratings, our brand equity, the regulatory environment and policy initiatives in India and developments in the domestic

markets including capital markets and international markets affecting the Indian economy including the effect of events such as the COVID-19 pandemic, macro and micro economic and financial conditions or continuing lack of liquidity in the market. The terms of any additional financing may also place limits on our financial and operational flexibility.

We cannot assure you that our business will continue to generate sufficient cash to enable us to service our existing and future debt or to fund our other liquidity needs. Recently, certain NBFCs in India have defaulted in the repayment of their borrowings, which has adversely affected the availability and cost of funds to NBFCs in general. Any such events in the future may lead to adverse perceptions about the finance sector as a whole and affect our ability to obtain financing at commercially reasonable terms.

Further, changes in economic, regulatory and financial conditions or any lack of liquidity in the market could adversely affect our ability to access funds at competitive rates, which could adversely affect our liquidity and financial condition. Our ability to raise debt to meet our financing requirements is also restricted by the limits prescribed under applicable regulations. If we are unable to obtain adequate financing in a timely manner and on acceptable terms, our business, results of operations and financial condition may be adversely affected.

4. The risk of non-payment or default by our borrowers may adversely affect our business, results of operations and financial condition.

We primarily serve customers in the low and middle-income groups, with majority of our borrowers being small business owners, salaried or working class individuals, and self-employed individuals. A significant portion of our customer base is typically less economically stable than large corporates, and as a result, is usually adversely affected by declining economic conditions. Earning capacity of customers in these segments depends on various macro and micro economic factors that affect them from time to time. Our customers may default on their repayment obligations due to various reasons including business failure, insolvency, lack of liquidity, loss of employment or personal emergencies such as the death of an income-generating family member, including on account of events such as the COVID-19 pandemic.

In addition, our customers may have limited credit histories that would enable us to assess their creditworthiness. Further, we may not receive updated information regarding change in the financial condition of our customers and may receive inaccurate or incomplete information as a result of any misrepresentation by our customers or employees. It may therefore be difficult for us to carry out the necessary credit risk analysis on all of our customers. Although we follow procedures to evaluate the credit profiles of our customers prior to sanctioning a loan, we also rely on the value of the property provided as underlying collateral valued by valuer.

Following table set forth shows details of our customer base:

Sr.No.	Particulars	September 30, 2022	March 31, 2022	March 31, 2021	March 31, 2020
1	Vehicle Finance	45944	41046	29671	26551
2	Business Loans	4769	4269	4288	3910
	Total	50713	45315	33959	30461

To the extent we are unable to successfully manage the risks associated with lending to customers new to credit, it may become difficult for us to recover outstanding loan amounts (including interest) provided to such customers. We cannot assure you that our risk management controls will be sufficient to prevent losses on account of customer defaults, increasing our Net NPA and adversely affecting our business, results of operations and financial condition.

The rise in interest rates may adversely affect our customers' cash flows and increase our NPAs. Due to the circumstances of our customers and our lending practices, we may, in the future, experience increased levels of NPAs and related provisions and write-offs that may adversely affect our business, financial condition and results of operations. We cannot assure you that our monitoring and risk management controls will be sufficient to prevent future losses on account of customer defaults, thereby increasing our Gross NPAs and adversely affecting our business, results of operations and financial condition. We cannot assure you that there will not be a significant increase in the portion of our loans that are classified as NPAs as our loan portfolio matures.

5. Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements, could adversely affect our business, results of operations and financial condition.

As on date, our total borrowings are Rs 17469.06 Lakh. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated by our business, which depends on the timely repayment by our customers. Our financing agreements contain certain restrictive covenants that limit our ability to undertake certain types of transactions such as issue any further share capital whether on a preferential basis or otherwise and formulate or effect any scheme of amalgamation or merger or compromise or reconstruction, any of

which could adversely affect our business, results of operations and financial condition. For details in relation to our outstanding indebtedness and certain indicative terms of our borrowing facilities, see “Financial Indebtedness” on page 263. We are required to obtain prior approval from our lenders for undertaking various actions, including:

- make any amendments to the memorandum of association and articles of association;
- effect any changes to or alter our Company’s capital structure, including by way of a buyback;
- issue any further share capital whether on a preferential basis or otherwise;
- formulate or effect any scheme of amalgamation or merger or compromise or reconstruction;
- approach capital market for mobilizing additional resources either in the form of debts or equity;
- effect any change in the constitution of our Company, including shareholding pattern, ownership, controlling interest and control;
- declare dividend for any year except out of profits relating to that year;
- effect any changes in the management of our Company, including changes in the composition of the Board of Directors and change in the practice with regard to remuneration of directors;
- undertake guarantee obligations on behalf of any other person or provide any loan/advance to any third party;
- incur further indebtedness by the Company; • make any prepayment of amounts due under the facilities;
- pay any brokerage or fees to the promoters/directors other than sitting fees as paid to directors;
- enter into long term contractual obligations directly affecting the financial position of our Company; and
- delist debentures or permit or suffer the debentures to be delisted.

Our failure to meet our obligations under our financing agreements could have an adverse effect on our business, results of operations and financial condition. For details in relation to our outstanding indebtedness and certain indicative terms of our borrowing facilities, see “Financial Indebtedness” on page 263. Our future borrowings may also contain similar restrictive provisions. If we fail to meet our debt service obligations or covenants provided under the financing agreements, the relevant lenders could declare us to be in default under the terms of our agreements or accelerate the maturity of our obligations. We cannot assure you that, in the event of any such acceleration, we will have sufficient resources to repay the borrowings. For, the restrictive clauses/covenants, please see section “Financial Indebtedness” on page 263.

6. Non-compliance with the RBI’s observations made pursuant to its periodic inspections and violations of regulations prescribed by the RBI, could expose us to certain penalties and restrictions.

As an NBFC, we are subject to periodic inspections by the RBI under Section 45N of the RBI Act, wherein the RBI inspects our books of accounts and other records for the purpose of verifying the correctness or completeness of any statement, information or particulars furnished to the RBI or for obtaining any information, which we may have failed to furnish when called upon to do so. In its past inspection reports, the RBI has (a) identified certain deficiencies in our operations, (b) made certain observations in relation to our operations during its periodic inspections and (c) sought certain clarifications on our operations.

While we attempt to comply with all regulatory provisions, directions or observations applicable to us, including in connection with the RBI inspection reports (all of which have been responded to by us), if we are unable to comply with the RBI’s observations or directions, we could be subject to penalties and restrictions which may be imposed by the RBI. Imposition of any penalty or adverse finding by the RBI during any future inspection may have a material adverse effect on our reputation, business, financial condition, results of operations and cash flows.

7. We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to vary and consequently affect our profitability.

Our results of operations depend substantially on the level of our net interest income, which is the difference between our interest and other income charges, and interest expense and other borrowing costs. Any change in interest rates would affect our interest expense on our floating interest-bearing liabilities as well as our net interest income and net interest margins. Any increase in our cost of funds may lead to a reduction in our net interest margin, or require us to increase interest rates on loans disbursed to customers in the future to maintain our net interest margin.

Our interest income is affected by any volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors, which have historically

generated a relatively high degree of volatility in interest rates in India. Moreover, if there is an increase in the interest rates we pay on our borrowings that we are unable to pass to our customers, we may find it difficult to compete with our competitors, who may have access to low-cost funds or lower cost deposits. Further, to the extent our borrowings are linked to market interest rates, we may have to pay interest at a higher rate than lenders that borrow only at fixed interest rates. In a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could lead to a reduction in our net interest income and net interest margin.

Fluctuations in interest rates may also adversely affect our treasury operations. In a rising interest rate environment, especially if the rise is sudden or sharp, we could be adversely affected by the decline in the market value of our securities portfolio and other fixed income securities. In addition, we currently do not enter into any interest rate hedging instruments to protect against interest rate volatility. Our inability to effectively and efficiently manage interest rate variations and our failure to pass on increased interest rates on our borrowings may cause our net interest income to decline, which would decrease our return on assets and could adversely affect our business, future financial performance and result of operations.

8. We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.

We operate in a highly competitive industry. Given the diversity of our businesses, and the products and services which each of those issue, we face competition from the full spectrum of public sector banks, private sector banks (including foreign banks), small finance banks, financial institutions and other NBFCs who are active in business finance and vehicle finance. Many of our competitors have greater resources than we do, may be larger in terms of business volume and may have significantly lower cost of funds compared to us. Many of them may also have greater geographical reach, long-standing partnerships and may issue their customers other forms of financing that we may not be able to provide. We believe that the competition we face from other NBFCs is increasing as more NBFCs are targeting products and services similar to ours. Competition in our industry depends on, among other things, the ongoing evolution of government policies, the entry of new participants and the extent to which there is consolidation among other financial institutions in India.

Our ability to compete effectively will depend, in part, on our ability to maintain or increase our margins. We cannot assure you that we will be able to react effectively to market developments or compete effectively with new and existing players in the industries in which we operate. Increasing competition may adversely affect our net interest margins, income and market share.

9. Any downward revision in our credit ratings could adversely affect our ability to service our debts as well as raise funds in the future hence affecting our results of operations and financial conditions.

Our company being NBFC is heavily dependent on its ability to raise funds from the debt markets and other financial institutions. The cost and availability of capital depends in part on our short-term and long-term credit ratings. Credit ratings reflect the opinions of ratings agencies on our financial strength, operating performance, strategic position and ability to meet our obligations. We are hence highly sensitive to changes in our credit ratings. The debt instruments issued by us are currently rated ACUITE BB+ | Reaffirmed by Acuite Rating downgraded from ACUITE BB+/ Stable from Acuite Rating. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under certain of our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows. In addition, any downgrade in our credit ratings could result in a recall of existing facilities, increase the probability that our lenders impose additional terms and conditions to any financing or refinancing arrangements we enter into in the future, impair our future issuances of debt and equity, and our ability to raise new capital on a competitive basis, which may adversely affect our business, results of operations and financial condition.

The details of credit rating, which has been obtained by us from credit rating agency is given below:

Date	Particulars	Amount (in Crore)	Rating
12.06.2020	Total Bank Facilities	247.00	ACUITE BBB+ / Stable (Reaffirmed)
	Fixed Deposit	3.00	ACUITE FA (Withdrawn)
	Total Bank Facilities	247.00	ACUITE BBB / Negative

26.06.2020	Secured Redeemable Nonconvertible Debentures	20.00	ACUITE Provisional BBB / Negative
	Proposed Secured Redeemable Nonconvertible Debentures	80.00	ACUITE BBB / Negative (Assigned)
31.12.2021	Total Bank Facilities	150.00	ACUITE BB+/ Stable
	Total Bank Facilities	97.00	ACUITE BB+
	Secured Redeemable Nonconvertible debentures	10.00	ACUITE BB+/ Stable
	Proposed Secured Redeemable Nonconvertible Debentures	10.00	ACUITE Provisional BB+/Stable
	Proposed Secured Redeemable Nonconvertible Debentures	80.00	ACUITE BB+
28.06.2022	Bank Loan	150.00	ACUITE BB+ Reaffirmed
	Non Convertible Debentures (NCD)	10.00	ACUITE BB+ Reaffirmed
	Non Convertible Debentures (NCD)	10.00	Provisional ACUITE BB+ Reaffirmed

We have been able to successfully honour all our outstanding debt instruments and have been servicing our debt obligation. However, we cannot assure that we will be able to improve our credit ratings and/or we would be able to ensure that the same may not be downgraded in the future due to some internal or external event. Any such adverse position by our rating agencies will affect our ability to raise funds and hence affect our results of operations and financial condition. For information on our current credit ratings, see “Our Business – Credit Ratings” on page 200190.

10. We have in the past, made certain issuances and allotments of our equity shares which may not be in compliance with the applicable provisions and rules of the Companies Act, 1956. We may be subject to regulatory action, including monetary penalty that may be imposed on us.

The number of allottees for allotments of Equity Shares made on September 30, 2011, March 31, 2012, March 29, 2013, August 10, 2013 and March 31, 2014 exceeded 50 allottees (“**Stated Allotments**”). For further information, see “Capital Structure –Notes to Capital Structure” on page 64 of this Draft Red Herring Prospectus. The management of the Company perceives that (i) these allotments were a domestic concern of the Company and the persons receiving the offers for subscription to the Equity Shares of the Company; and (ii) since the Company is an NBFC, it qualifies for the exemption under Section 67 of the Companies Act, 1956 in as much as the threshold of 50 allottees does not apply to an NBFC. However, these allotments may be perceived not to have been in compliance with the provisions governing a public offering of securities under the Companies Act, 1956, including those mandating the issuance and registration of a Prospectus, by the Registrar of Companies, Jaipur or the concerned Regional Director. Without prejudice and as a matter of abundant precaution, and in due compliance of the SEBI Circular No. CIR/CFD/DIL3/18/2015 dated December 31, 2015 and SEBI Circular dated May 3, 2016, the Company has suo-moto volunteered to provide an exit offer to eligible shareholders of the Company who held (i) Equity Shares allotted by the Company through the Stated Allotments; and/or (ii) who held Equity Shares of the Company which were acquired by them on account of transfers to them of the Equity Shares allotted through the Stated Allotments. All formalities pertaining to the above exit offer have been completed. Apart from providing the exit offer, the Company filed, on February 1, 2023, an application with the Registrar of Companies, Rajasthan, Jaipur and the Regional Director, Ahmedabad, seeking to compound these breaches of Companies Act, 1956, if any, occasioned by the Stated Allotments and subsequent transfer of such Equity Shares. This application is presently pending.

We cannot guarantee that we may not be penalised by the Registrar of Companies, Jaipur or the concerned Regional Director and that SEBI may not initiate appropriate proceedings for violating public issue norms including adjudication proceedings against the Company. Also, we may be subject to complaints in the future regarding the said violations. If any of the above events were to occur, we have to divert substantial resources including our management’s attention on such proceedings or complaints or both. Any such proceeding or action or any adverse order may result in fines, penalties, payment of additional amounts and potentially criminal liability and adversely affect our Company’s ability to raise funds, its reputation, financial condition, results of operations and the trading prices of the Equity Shares.

11. We depend on the services of our management team and employees. Our inability to retain existing members of our management team and recruit new members for our management team may adversely affect our business.

Our future success depends substantially on the continued service and performance of members of our management team and employees and also upon our ability to manage key issues relating to human resource such as selecting and retaining key managerial personnel, developing managerial experience, addressing emerging challenges and ensuring a high standard of customer service. There is intense competition for experienced senior management and other qualified personnel, particularly office managers, field executives and employees with local knowledge in customer procurement, loan disbursement and instalment collections in vehicle finance and small business finance which we expect to scale up significantly. If we cannot hire additional or retain existing management personnel and employees, our ability to expand our business will be impacted and our revenue could be adversely affected. Failure to train and motivate our employees properly may result in an increase in employee attrition rates affect our origination and collection rates, increase our exposure to high-risk credit and impose significant costs on us. While we have an incentive based remuneration structure, employee stock option schemes and training and development programs designed to encourage employee retention, our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance. For details in relation to changes in our Board and Key Management Personnel, see “Our Management Changes in our Board during the last three years” and “Our Management - Changes in Key Management Personnel during the last three years” on pages 231 and 242 respectively.

There can be no assurance that we will not experience any disruptions to our operations due to disputes or other problems with our employees, which may adversely affect our business and results of operations.

12. Any failure or significant weakness of our internal controls system could cause operational errors or incidents of fraud, which would adversely affect our profitability and reputation.

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal or concurrent audit functions make an evaluation of the adequacy and effectiveness of internal controls on an ongoing basis so that business units adhere to our policies, compliance requirements and internal circular guidelines. While we periodically test and update, as necessary, our internal controls systems, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to guarantee effective internal controls in all circumstances. Given the size of our operations, it is possible that errors may repeat or compound before they are discovered and rectified.

Our management information systems and internal control procedures that are designed to monitor our operations and overall compliance may not identify every instance of non-compliance or every suspicious transaction. If internal control weaknesses are identified, company may take definitive steps to mitigate the risk but our actions may not be sufficient to correct such internal control weakness. Failures or material errors in our internal controls systems may lead to deal errors, pricing errors, inaccurate financial reporting, fraud and failure of critical systems and infrastructure. Such instances may also adversely affect our reputation, business and results of operations. There can also be no assurance that we would be able to prevent frauds in the future or that our existing internal mechanisms to detect or prevent fraud will be sufficient. Any fraud discovered in the future may have an adverse effect on our reputation, business, results of operations and financial condition.

13. We utilize the services of certain third parties for parts of our operations. Any deficiency or interruption in their services could adversely affect our business and reputation.

We engage third party service providers for certain parts of our operations including the recovery, legal services, valuation and investigating agencies. Such third parties are typically proprietorships or professionals. Our engagements with them do not provide for any exclusivity, and accordingly, they can work with other lenders, including our competitors. There can be no assurance that our Third parties will continue to provide a services to us in comparison with our competitors. Our ability to control the manner in which services are provided by third party service providers is limited and we may be held liable on account of any deficiency of services on the part of such service providers.

Though we have internal systems in place our business is also susceptible to fraud by third parties on our behalf. We cannot assure you that we will be successful in continuing to receive uninterrupted and quality services from our third party service providers. In addition, if we fail to supervise and control the sales and marketing activities of such third parties, the quality of services they provide may deteriorate, which could adversely affect our brand value. This may result in a delay of services or products delivered to us and we may be unable to find alternative vendors. Any disruption or inefficiency in the services provided by our third party service providers could affect our business and reputation.

14. A substantial portion of our customers are first time borrowers which increases risks of non-payment or default for us.

We have customers who are first-time borrowers from the formal secured lending ecosystem. Our customers were new to the lending ecosystem. Such customers generally may have higher risk of non-payment or default due to a number of reasons such as not having the experience of payment of interest and repayment of principal, as well as other reasons applicable to our other customers such as business failure, insolvency, lack of liquidity, loss of employment or personal emergencies such as the death of an income-generating family member, including on account of events such as the COVID-19 pandemic. To the extent we are unable to successfully manage the risks associated with lending to customers new to credit, it may become difficult for us to recover outstanding loan amounts (including interest) provided to such customers. We cannot assure you that our risk management controls will be sufficient to prevent future losses on account of customer defaults and hence increasing our Stage 3 Gross Term Loans and adversely affecting our business, results of operations and financial condition.

15. Our liquidity may be affected by the COVID-19 pandemic which may affect our ability to continue to operate and grow our business.

There is no guarantee that we and the Indian financial services industry in general, notwithstanding measures taken by the Government, will be able to maintain sufficient liquidity given the uncertain scope and duration of the COVID-19 pandemic. We fund substantially all of the loans through borrowings under our several financial facilities. Given the broad impact of COVID-19 on the financial markets, our ability to borrow money to fund our current and future customer demand is uncertain. Our liquidity could also be affected as our lenders reassess their exposure to NBFCs and either curtail access to financing facilities or impose higher costs to access such facilities. Our liquidity may be further constrained as there may be less demand by investors to acquire our loans in the secondary market. Even if such demand exists, we face a higher risk as a result of the COVID-19 pandemic stemming from our customers inability to repay the underlying loans. Further, if as a consequence of COVID-19, NBFCs are unable to meet their market commitments, this could affect investor confidence in NBFCs generally and result in a loss of investors in NBFCs. A liquidity shortage for the industry as a whole may adversely affect our cash flows.

16. We may be exposed to potential losses due to a decline in value of assets secured in our favor, and due to delays in the enforcement of such security upon default by our borrowers.

We secured total credit exposure by a mix of movable and immovable assets or other forms of collateral, depending on the nature of the loans. The value of certain types of collaterals may decline due to inherent operational risks, the nature of the asset secured in our favor and adverse market and economic conditions (both global and domestic). For example, the value of the vehicle, is subject to depreciation, deterioration, and/or a reduction in value on account of a number of factors (such as wear and tear), over the course of time. Consequently, the realizable value of the collateral for the loan provided by us, when liquidated, may be lower than the outstanding loan from such customers. Any default in repayment of the outstanding credit obligations by our customers may expose us to losses. Furthermore, in the case of a default, we typically repossess the commercial vehicles financed and sell such vehicles through auctions. The hypothecated vehicles, being movable property, may be difficult to locate or seize in the event of any default by our customers.

In the event of default by our customers, there can be no assurance that we will be able to sell our collateral including property, machinery, stock or vehicles provided as security at all or at prices sufficient to cover the amounts under borrower defaults, or that we would be able to invoke other securities, such as personal guarantees, due to among other things, unforeseen delays in our ability to take immediate action, winding up and foreclosure proceedings, defects in title, defects in perfection of the collateral or documentation relevant to the assets, stock market downturns, fraudulent transfers by our customers, difficulty in locating movable assets and the necessity of obtaining regulatory approvals and/or court orders for the enforcement of our collateral over those assets. Further, if any of our borrowers take recourse of arbitration or litigation against our repayment claims, it may cause a further delay in our recovery process leading to depreciation of the secured asset. A failure or delay in recovering the expected value from sale of collateral could expose us to a potential loss. Any such losses could adversely affect our business prospects, financial condition and results of operations. As a result, if our customers default, we may receive less money from liquidating collateral than is owed under the relevant financing facility, and, in turn, incur losses, even where we successfully repossess and liquidate the collateral, thereby adversely affecting our business, future financial performance and results of operations.

In addition, we may face additional delay and expense in conducting an auction to sell the collateral and may face significant delay in repossessing collateral, as litigation against defaulting customers, even if governed by an arbitration clause, can be slow and expensive in India. In the event a specialized regulatory agency gains jurisdiction over the

borrower, creditor actions can be further delayed. In the event of any inability or delay in the repossession and liquidation of the collateral securing loans in default, we may incur losses, which could adversely affect our results of operations and financial condition.

17. We may face asset-liability mismatches, which could affect our liquidity and consequently may adversely affect our operations, cash flows and profitability.

We face potential liquidity risks because our assets and liabilities mature over different periods. Asset and liability mismatch (“ALM”), which represents a situation when the financial terms of an institution’s assets and liabilities do not match, is a key financial parameter for us. We carefully monitor the contractual maturity periods of our assets and liabilities and categorize them on the basis of the number of years in which they mature. Although we had a positive asset-liability position as of September 30, 2022 across various maturities and had no cumulative mismatch in ALM up to the five years maturity, we cannot assure you that we will be able to continue to maintain a favourable asset-liability maturity profile in the future. We meet a significant portion of our financing requirements through term loans and working capital facilities; proceeds from loans securitized; proceeds from the issuance of NCDs; and principal protected market linked debentures from banks, financial institutions, mutual funds, and other domestic and international development financial institutions. Any ALM in the maturity profile may lead to a liquidity risk and have an adverse effect on our business, cash flows and results of operations. See “Selected Statistical Information”.

18. Our inability to maintain our capital adequacy ratio could adversely affect our business.

We provide secured loans to small business owners and self-employed individuals, as well as small mortgage loans to fund certain significant economic events in our customers lives, where the primary collateral is typically land and building of between ₹ in value. Though all of our loans are secured, the value of the collateral, however, may decline during the term of the loan for a variety of reasons, including due to adverse market conditions. As a result, if our customers default in future, we may not be able to fully recover the outstanding loan balance by liquidating the collateral under the relevant financing facility, and, in turn, incur losses, even where we are able to successfully repossess and liquidate the collateral.

While we have been able to recover principal and interest from a majority of our defaulting customers in the past without having to repossess their collateral, we cannot assure you that we will be able to continue to recover principal and interest in the future without having to repossess collateral, and even if we do, we cannot assure you that we will be able to liquidate the collateral to recover the full amounts due to us. Any failure to recover the expected value of collateral security could expose us to a potential loss.

We may also encounter difficulties in repossessing and liquidating collateral. We cannot assure you that we will be able to successfully repossess and sell the collateral in the event of default under a loan agreement. We may also face challenges in title verification of the collateral provided by the customer, as there is no central land registry in India and title to the property can be disputed, including on account of local land records not being duly updated, or not being maintained in a legible manner, or only being available in the local vernacular languages, as well as on account of actual or alleged short payment of stamp duty or registration fees (which may render the title documents inadmissible in evidence, unless stamped prior to enforcement with payment of requisite penalties). Moreover, we may also not be able to sell the collateral at a price sufficient to cover the amount owed under the financing facility, or at all. We may face additional delay and expense in conducting an auction to sell the collateral and may face significant delay in repossessing collateral, as litigation against defaulting customers, even if governed by an arbitration clause, can be slow and expensive in India. In the event of any inability or delay in the repossession and liquidation of the collateral securing loans in default, we may incur losses, which could adversely affect our business, cash flows, results of operations and financial condition.

19. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.

Our Company has experienced negative net cash flow in operating, investing and financing activities in the past. Following are the details of our cash flow position during the last three financial years based on financial statements are;

(Rs. In Lakh)

Particulars	Period Ended September 30, 2022	Year Ended March 31, 2022	Year Ended March 31, 2021	Year Ended March 31, 2020
Net cash flow from / (used in) operating activities	3,083.54	6,563.05	8,623.37	2,096.52
Net cash flow from / (used in) investing activities	(139.45)	152.85	254.02	(214.90)
Net cash flow from / (used in) financing activities	(2,813.33)	(7,701.86)	(8,516.97)	(3,321.58)

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

20. Certain statutory and regulatory licenses and approvals are required for conducting our business and any failure or omission to obtain, maintain or renew these licenses and approvals in a timely manner, or at all, could adversely affect our business and results of operations.

Our operations in India are subject to government regulation and we are required to obtain and maintain certain statutory and regulatory licenses and approvals and we have obtained the necessary licenses and approvals required under central, state and local government regulations in India for our operations. In addition, we may apply for additional licenses and approvals, including the renewal of certain approvals which may expire from time to time, and approvals in the ordinary course of business. If we are unable to obtain, maintain or renew all necessary licenses and approvals required for our continued operations or for continued provision of the services being issued by us, this may have consequences on our operations, which may be limited or suspended to that extent, which in turn may have an adverse impact on our business and results of operations.

In the future, we may be required to obtain new registrations, permits and approvals for our business, as a result of change in current regulations or for any proposed expansion strategy or diversification into additional business lines or new financial products. There can be no assurance that the relevant authorities will issue any permits or approvals required by us in a timely manner, or at all, and/or on favorable terms and conditions. As part of our business operations, we have various branches spread across India. Certain approvals that are required to operate such branches expire from time to time. Accordingly, we have either made an application to the appropriate authorities for renewal of such approvals/ seeking fresh approvals or are in the process of making such applications. There can be no assurance that the relevant authorities will renew such approvals in a timely manner or at all. If we fail to obtain any applicable approvals, licenses, registrations or consents in a timely manner or at all, some of our contracts with third parties may be terminated and we may not be able to undertake certain operations of our business which may affect our business, results of operations and cash flows.

A majority of these approvals are granted for a limited duration and are subject to numerous conditions. For example, our Company has a certificate of registration from the RBI to operate as an NBFC, which requires our Company to comply with certain terms and conditions for our Company to continue our operations as an NBFC. The RBI conducts an annual inspection of our Company's books of accounts and other records relating to our financial position every year. We cannot assure you that these approvals would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations, or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

21. Failure to train and motivate our employees may lead to an increase in our employee attrition rates and our results of operations could be adversely affected as a result of any disputes with our employees.

Our operations are employee-driven, and we place significant emphasis on the effective training of our personnel in communication and service orientation skills. However, failure to train and motivate our employees may lead to an increase in our employee attrition rates, erode the quality of customer service, divert management resources and impose significant costs on us which may have an adverse effect on our results of operations. We employed 119 permanent employees as of December 31, 2022 and place significant emphasis on our employees' overall welfare. However, we cannot assure you that there will not be any future disruptions in our operations due to any disputes with our employees. Further, we depend on our branch-level employees for sourcing, disbursements and collections and

customer liaison, and significant attrition at any of our branches could adversely affect our operations. Moreover, in the event of a labour dispute, protracted negotiations and strike action may impair our ability to carry on our day-to-day operations, which could adversely affect our results of operations.

22. We are exposed to risks that may arise if our customers opt for balance transfers to other lenders.

It is possible that interest rates on loans for some of our customers may be higher than the interest rates on loans being issued to these customers by our competitors. Some such customers may seek to refinance their loans through balance transfer to other banks and financial institutions. While refinancing of loans by other lenders could in certain circumstances be beneficial for our customers, it results in a loss of interest income expected from such loans over the course of their tenure and may cause us to incur increased origination costs. As competition in the small business finance sector intensifies, some of our customers may be able to find balance transfer options at comparably lower interest rates or other financing alternatives which could have an adverse effect on our business, results of operations and financial condition.

23. A small portion of our collections from customers is in cash, exposing us to certain operational risks.

A small portion of our collections from our customers is in cash and such cash collections expose us to the risk of theft, fraud, misappropriation or unauthorized transactions by employees responsible for dealing with such cash collections. These risks are exacerbated by the high levels of responsibility we delegate to our employees and the geographically dispersed nature of our network.

As we grow our retail presence, the cash collections are likely to increase. While we have taken insurance policies, including coverage for cash in safes and in transit, and undertaken measures to detect and prevent unauthorized transactions, fraud or misappropriation, this may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our operations and profitability. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transactions, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill. We may also be party to criminal proceedings and civil litigation related to our cash collections.

24. We have included certain non-GAAP financial measures and other selected statistical information related to our operations in this Draft Red Herring Prospectus. Such non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry and may not be comparable with financial or statistical information of similar nomenclature computed and presented by other companies.

Certain non-GAAP measures, such as EBITDA, EBITDA Margin, Average Cost of Borrowing, Stage 3 Gross term loans (net), Stage 3 Gross term loans to Gross term loans, Net Worth, Return on Equity, Total Borrowings to Total Equity Ratio, Gross Term Loans to Net Worth and Operating Expenses to Average Total Assets presented in this Draft Red Herring Prospectus are a supplemental measure of our performance and liquidity that are not required by, or presented in accordance with, Ind AS, Indian GAAP, or IFRS. Further, these Non-GAAP measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the periods/years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, or IFRS. In addition, these Non-GAAP measures are not a standardised term, hence a direct comparison of similarly titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its utility as a comparative measure. Although the Non-GAAP measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance.

25. Negative publicity could damage our reputation and adversely impact our business and financial results.

Reputational risk, or the risk to our business, earnings and capital from negative publicity, is inherent in our business. The reputation of the banking and financial services industry in general has been closely monitored as a result of the global financial crisis and other matters affecting the financial services industry. Negative public opinion about the banking and financial services industry generally or us specifically could adversely affect our ability to attract and retain customers and may expose us to litigation and regulatory action. While we have developed our brand and

reputation over our history, and although we have been subject to minor adverse publicity in localised media outlets, any negative incidents or adverse publicity could rapidly erode customer trust and confidence in us, particularly if such incidents receive widespread adverse mainstream and social media publicity or attract regulatory investigations. Negative publicity can result from our own or our third-party service providers' actual or alleged conduct in any number of activities, including lending practices, mortgage servicing and foreclosure practices, technological practices, corporate governance, regulatory compliance, mergers and acquisitions, and related disclosure, sharing or inadequate protection of customer information, and actions taken by government regulators and community organizations in response to that conduct. Although we take steps to minimize reputational risk in dealing with customers and other constituencies, we, as a financial services organization with a high industry profile, are inherently exposed to this risk. In recent years, there has been a marked increase in the use of social media platforms in India, including blogs, social media websites and applications, and other forms of internet-based communications which allow individuals access to a broad audience of customers and other interested persons. Many social media platforms immediately publish the content that their subscribers and participants post, often without filters or checks on accuracy of the content posted. The dissemination of inaccurate information online could harm our business, reputation, prospects, financial condition and operating results, regardless of the information's accuracy. The damage may be immediate without affording us an opportunity for redress or correction. Other risks associated with the use of social media include negative comments about us, fraud, hoaxes or malicious exposure of false information. Such inappropriate, unverifiable or false information regarding us may be published online or on social media by third parties, or any other such damage to our brand or our reputation may result in withdrawal of business by our existing customers and loss of new business from potential customers, could increase our costs, lead to litigation or result in negative publicity that could damage our reputation and adversely affect our business, results of operations and financial condition.

26. Some of our secretarial records are not traceable.

The secretarial records for one past allotment of securities of our Company and certain Forms 20B and 66 could not be traced as the relevant information was not available in the records maintained by our Company, or at the MCA Portal maintained by the Ministry of Corporate Affairs and the Registrar of Companies, despite conducting internal searches and engaging an independent practicing company secretary to conduct the search.

While no legal proceedings or regulatory actions have been initiated against our Company in relation to untraceable secretarial and other corporate records and documents as of the date of this Draft Red Herring Prospectus, we cannot assure you that such legal proceedings or regulatory actions in relation to missing filings and corporate records will not be initiated against our Company in the future.

27. This Draft Red Herring Prospectus contains information from third parties and an industry report obtained from Dun and Bradstreet, which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Issue. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.

The industry and market information contained in this Draft Red Herring Prospectus includes information that is derived from the Dun & Bradstreet Report dated January 2023 prepared by an independent third-party research agency, Dun & Bradstreet. The Dun & Bradstreet Report has been commissioned and paid for by us for the purposes of confirming our industry exclusively in connection with the Issue. The report uses certain methodologies for market sizing and forecasting, and may include numbers relating to our Company that differ from those we record internally. While we believe such information to be true, we cannot assure you that such information is complete or reliable. Accordingly, investors should read the industry-related disclosure in this Draft Red Herring Prospectus in this context. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus. While these industry sources and publications may take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data. Accordingly, investors should not place undue reliance on, or base their investment decision solely on this information.

28. We may enter into related party transactions in the ordinary course of our business and we cannot assure you that such transactions will not have an adverse effect on our results of operation and financial condition.

We may, from time to time, enter into related party transactions in the future. All related party transactions that we may enter into post-listing, will be subject to an approval by our Audit Committee, Board, or Shareholders, as required under the Companies Act and the SEBI Listing Regulations. For information on the related party transactions, see “Restated Financial Information – . Related Party Disclosures” on page -- . Such related party transactions in the future or any other future transactions may potentially involve conflicts of interest which may be detrimental to the interest of our Company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects.

29. Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures and the terms of our financing arrangements.

Any dividends to be declared and paid in the future are required to be recommended by our Company’s Board of Directors and approved by its Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. Further, the RBI has issued circular dated June 24, 2021 on Declaration of Dividends by NBFCs (“Dividend Circular”). The Dividend Circular specifies, inter alia, certain minimum prudential requirements (relating to capital adequacy, Net NPA and other criteria) for an NBFC to be eligible to declare dividend, the maximum permissible dividend payout ratio, the considerations to be taken into account by the board of directors of an NBFC while considering the proposal to declare dividend (such as supervisory findings of the RBI on divergence in classification and provisioning of NPAs, qualifications in the auditors’ report to the financial statements, and long term growth plans) and the manner of reporting details of dividends declared. The Dividend Circular will be applicable to NBFCs for the declaration of dividends from the profits of the financial year ending onwards. Our Company’s ability to pay dividends in the future will depend upon our future results of operations, financial condition, cash flows, sufficient profitability, working capital requirements and capital expenditure requirements. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our Company’s shareholders in future consistent with our past practices, or at all. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time and may be subject to other requirements prescribed by the RBI. For information pertaining to dividend declared by our Company in the past, see “Dividend Policy” on of this Draft Red Herring Prospectus.

30. Our Company has issued Equity Shares during the preceding one year at a price that may be below the Issue Price.

We have, in the preceding one year prior to filing this Draft Red Herring Prospectus, issued equity shares which may be lower than the issue price. The price at which the Equity Shares have been issued by our Company in the preceding one year is not indicative of the Issue Price, or the price at which the Equity Shares will be traded going forward. Further, our Company may, in the future, continue to issue Equity Shares at prices that may be lower than the Issue Price, subject to compliance with applicable law. Any issuances of Equity Shares by our Company may dilute your shareholding in the Company, thereby adversely affecting the trading price of the Equity Shares and our ability to raise capital through any issuance of new securities. For further details, see “Capital Structure — Notes to the Capital Structure — Equity share capital history of our Company”

31. The average cost of acquisition of Equity Shares by our Promoter and may be lower than the Floor Price.

The average cost of acquisition of Equity Shares by our Promoter may be lower than the Floor Price. The Floor Price as per the price band announced is ₹ [●]. For further details regarding the average cost of acquisition of Equity Shares by our Promoter please see page-- 23

32. Some of our Directors/Promoters may be interested in companies or entities which are in the same line of business as us.

Some of our Directors/Promoters, are interested in other companies or entities, as directors or shareholders or otherwise, which are engaged in a similar line of business as compared to ours. For more details regarding other directorships of our Directors, see “Our Management” on page 225. Further there is no assurance that our Directors will not provide competitive services or otherwise compete in business lines in which we are already present or will enter into in future. Such factors may have an adverse effect on the results of our operations and financial condition.

33. We may face difficulties and incur additional expenses in operating in rural and semi-urban markets, where infrastructure may be limited.

A significant number of our customers are located in the rural and semi-urban markets in India, which may have limited infrastructure, particularly for transportation, electricity and internet bandwidth. We also intend to expand our business in rural areas where we may face difficulties in conducting operations, such as accessing power facilities, transporting our personnel and equipment and implementing technology measures. We may also face increased costs in conducting our business and operations, implementing security measures and expanding our advertising. We cannot assure you that such costs will not increase in the future as we expand our network in rural and semi urban markets, which could adversely affect our profitability.

34. We significantly depend on our vehicle finance business and any adverse developments in this sector, or in the other industries in which our Business loan customers operate, could adversely affect our business, results of operations, financial condition and cash flows.

We operate in two business lines of vehicle finance and Business loans. Consequently, our financial performance significantly depends on our vehicle finance business, which in turn depends on various factors that affect the demand for vehicles, including the demand for transportation services in India, changes in Indian regulations and policies affecting such vehicles, natural disasters, calamities, fuel prices and other macroeconomic conditions in India and globally. Moreover, demand for such vehicles from our customers who are individuals or small and medium sized enterprises that typically have less financial wherewithal than corporate borrowers or fleet owners, is more likely to be adversely affected by such factors. Any decline in sales of, or in demand for financing of such vehicles could adversely affect our business, results of operations, financial condition and cash flows. Further, any adverse development in the industries in which our Vehicle and business customers operate, could adversely affect their ability to repay us, which in turn could have an adverse effect on our business, results of operations, financial condition and cash flows.

35. We do not own premises where our branch offices are located. Any termination or failure by us to renew the rent and license agreements in a favorable and timely manner, or at all, could adversely affect our business and results of operations. Moreover, many of the lease and license agreements entered into by us may not be duly registered or adequately stamped.

Our, as well as all of our branches, are located on rented or licensed premises. The typical period for which licenses are generally entered into by our Company for its branches ranges from eleven months to nine years. These agreements can be terminated, and any such termination could result in any of our branches being shifted or shut down. Some of the rent and license agreements may have expired in the ordinary course of business and we are currently involved in negotiations for the renewal of these rent and license agreements. While we have not faced major issues renewing the licenses of our branches in the past, if these rent and license agreements are not renewed or not renewed on terms favorable to us, we may suffer a disruption in our operations or increased costs, or both, which may affect our business and results of operations. Further, our rent and license agreements are required to be adequately stamped and duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on the continuance of our operations and business. For information in relation to our premises, see “*Our Business – Properties*” on page 207.

36. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations.

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits, approvals and licenses would adversely affect our operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits, approvals and licenses in the time-frame anticipated by us or at all. For further details, please see chapters titled “*Key Regulations and Policies in India*” and “*Government and Other Statutory Approvals*” at pages 209 and 302 respectively of this Draft Red Herring Prospectus.

We operate our business through our branch offices in India. Certain approvals required for such branches expire from time to time. We are in the process of making applications for some approvals. Any cancellation or suspension or non-renewal of any of the permits, licenses or approvals resulting from any regulatory non-compliance or otherwise or refusal of the relevant authorities to issue fresh approvals may materially and adversely affect our business prospects, results of operations and financial condition or comply with applicable rules and regulations or apply in time, renew or

requisite licenses or maintain certifications with respect to our processing facilities, procurement and processing operations, and raw material and product quality, or an inability to otherwise comply with applicable laws, may result in the prohibition on sale of, our products in certain markets, may result in the interruption of our operations and may have a material adverse effect on the business.

37. Any failure to protect or enforce our rights to own or use trademarks and brand names and identities could have an adverse effect on our business and competitive position.

As on the date of this Draft Red Herring Prospectus, our Company has applied for registration of its logo  which application is presently pending. Hence, we do not enjoy the statutory protection accorded to a registered trademark. Since we have not obtained registration, we may remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our logo which may adversely affect our reputation and business and could require us to incur additional costs. Our Company has also obtained 2 (two) registrations for the 2 (two) trademarks “” and “” from the Registrar of Trademarks under Classes 36 and 37, respectively. The Company has entered into agreement with Akmedream Homes LLP, Akme Automobiles Private Limited, Akme Fincare LLP, Akme Build Estate Limited, Akme Finnova Advisors LLP, Akme Sarvoday Dreamventures LLP, Akme Buildmart Private Limited and Akme Mineral Exim Private Limited (“**Akme Entities**”) in respect of use of ‘Akme’ name and label, by these entities in respect of their respective goods and services. For further details please refer the chapter titled “*Government and Other Statutory Approvals*” beginning on page 302 of this Draft Red Herring Prospectus. Any failure to register our logo or renew registration of our registered trademarks may affect our right to use them in future. Our efforts to protect our intellectual property may not be adequate and any third party claims on any of our unprotected brands or misuse of the ‘Akme’ name and label by the Akme Entities may lead to erosion of our business value and our reputation, which could adversely affect our operations. Third parties may also infringe or copy our registered trademarks. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our trademarks.

Further, if we do not maintain our brand identity, which is an important factor that differentiates us from our competitors, we may not be able to maintain our competitive edge. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand is subject to risks, including general litigation risks. Furthermore, we cannot assure you that our brand will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source. Any damage to our brand identity, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position.

Finally, while we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Any of the foregoing could have an adverse effect on our business and competitive position.

38. The Company has inadvertently failed to submit certain intimations as required under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 to the Bombay Stock Exchange.

There have also been instances of delay from Company's end with regards to submission of requisite disclosures to the Bombay Stock Exchange relating to details of payment of interest on debentures, record date for quarterly payment of interest, Financial results for quarter ended September 30, 2020 and March 31, 2021. If our Company, fails to submit requisite disclosures to the Stock Exchange in future we may be penalised from Regulatory authorities and which may affect our results and operations.

39. We are yet to obtain consent from one of our lender bank for the Issue, the same is under process and are subject to certain conditions and restrictions in terms of our financing arrangements.

As on date our total borrowings are Rs. 17,469.06 Lakh, and we will continue to incur additional indebtedness in the future. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;

- affecting our credit ratings;
- limiting our ability to borrow additional amounts in the future;
- affecting our capital adequacy requirements; and
- increasing our finance costs.

Our Company has entered into several types of borrowing facilities of varying terms and tenures from lenders. Our Company sought to obtain the relevant consent from the respective lenders in advance of the date of this Draft Red Herring Prospectus. While we have obtained lender consents from most of our lenders, however, as on date of this Draft Red Herring Prospectus, we are yet to receive consent from one lender bank and the same is under process. Our Company proposes to obtain such consents prior to filing the Red Herring Prospectus with the RoC. Undertaking any of the above including the Issue without such consent constitutes a default under the relevant financing documents and will entitle the lender to declare a default against our Company and enforce remedies under the terms of the financing documents. A default by our Company under the terms of any financing document have an adverse effect on our operations, financial position and credit rating. For further details of our Company's borrowings, see "Financial Indebtedness" on page 263.

40. We have in the past, made certain issuances and allotments of our equity shares which may not be in compliance with the applicable provisions and rules of the Companies Act, 1956. We may be subject to regulatory action, including monetary penalty that may be imposed on us.

The number of allottees for allotments of Equity Shares made on September 30, 2011, March 31, 2012, March 29, 2013, August 10, 2013 and March 31, 2014 exceeded 50 allottees ("Stated Allotments"). For further information, see "Capital Structure –Notes to Capital Structure" on page 64 of this Draft Red Herring Prospectus. The management of the Company perceives that (i) these allotments were a domestic concern of the Company and the persons receiving the offers for subscription to the Equity Shares of the Company; and (ii) since the Company is an NBFC, it qualifies for the exemption under Section 67 of the Companies Act, 1956 in as much as the threshold of 50 allottees does not apply to an NBFC. However, these allotments may be perceived not to have been in compliance with the provisions governing a public offering of securities under the Companies Act, 1956, including those mandating the issuance and registration of a Prospectus, by the Registrar of Companies, Jaipur or the concerned Regional Director. Without prejudice and as a matter of abundant precaution, and in due compliance of the SEBI Circular No. CIR/CFD/DIL3/18/2015 dated December 31, 2015 and SEBI Circular dated May 3, 2016, the Company has suo-moto volunteered to provide an exit offer to eligible shareholders of the Company who held (a) Equity Shares allotted by the Company through the Stated Allotments; and/or (b) who held Equity Shares of the Company which were acquired by them on account of transfers to them of the Equity Shares allotted through the Stated Allotments. All formalities pertaining to the above exit offer have been completed. Apart from providing the exit offer, the Company filed, on February 1, 2023, an application with the Registrar of Companies, Rajasthan, Jaipur and the Regional Director, Ahmedabad, seeking to compound these breaches of Companies Act, 1956, if any, occasioned by the Stated Allotments and subsequent transfer of such Equity Shares. This application is presently pending.

We cannot guarantee that we may not be penalised by the Registrar of Companies, Jaipur or the concerned Regional Director and that SEBI may not initiate appropriate proceedings for violating public issue norms including adjudication proceedings against the Company. Also, we may be subject to complaints in the future regarding the said violations. If any of the above events were to occur, we have to divert substantial resources including our management's attention on such proceedings or complaints or both. Any such proceeding or action or any adverse order may result in fines, penalties, payment of additional amounts and potentially criminal liability and adversely affect our Company's ability to raise funds, its reputation, financial condition, results of operations and the trading prices of the Equity Shares.

41. We have made Company Law related non-compliances in the past. We may be subject to regulatory action, including monetary penalty that may be imposed on us.

There have been certain non-compliances in respect of company law related matters. Notices maybe issued upon our Company and fines or penalties may also be imposed upon our Company, which may adversely affect our administration from compliance perspective. There can be no assurance that no penal action will be taken against us by the regulatory authorities with respect to the non-compliances. If any adverse actions are taken against us, our financial results could be affected. For instance, non-compliances with regards to Companies Act, 2013 are mentioned below: Our Company has not filed E-form 23 for appointment of Nirmal Kumar Jain as a Managing Director of the Company for the period between December 2006 to December 2013 and Form MGT-14 in respect of fixing tenure of our Directors, Ramesh Kumar Jain and Rajendra Chittora. The Company has inadvertently furnished incorrect details in

Form CHG-1 for creation of charge of Rs.100,00,000/- as against the charge required to be created for Rs.10,00,00,000/-.

The Company is also unable to trace Form-2 for the allotment of Equity Shares made on March 28, 1996 in its records.

External Risk Factors

42. Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Our Company is incorporated in India, and all of our assets and employees are located in India. As a result, we are dependent on prevailing economic conditions in India and our results of operations are affected by factors influencing the Indian economy. Further, the following external risks may have an adverse impact on our business and results of operations, should any of them materialize:

- 1) increase in interest rates may adversely affect our access to capital and increase our borrowing costs, which may constrain our ability to grow our business and operate profitably;
- 2) downgrade of India's sovereign debt rating by an independent agency;
- 3) political instability, resulting from a change in governmental or economic and fiscal policies, may adversely affect economic conditions in India. In recent years, India has implemented various economic and political reforms. Reforms in relation to land acquisition policies and trade barriers have led to increased incidents of social unrest in India over which we have no control;
- 4) change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- 5) civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war;
- 6) India has experienced epidemics, and natural calamities such as earthquakes, tsunamis, floods, and drought in recent years;
- 7) high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins; and
- 8) contagious diseases such as the COVID-19 pandemic, the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine. A worsening of the current COVID-19 pandemic or any similar future outbreaks of COVID-19, avian or swine influenza or a similar contagious disease could adversely affect the Indian economy and economic activity in the region.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares. Our performance and the growth of our business depend on the overall performance of the Indian economy as well as the economies of the regional markets in which we operate.

43. Macroeconomic conditions in India could have a material adverse effect on our business, results of operations and financial condition.

We conduct all of our business activities in India, and rely primarily on interest income from loans, income from investments, and fee income (which includes login fees and processing fees) to generate our revenues. These revenue streams have historically been affected by key macroeconomic conditions in India, and are likely to continue being affected by them in the future. In addition, our ECL models take into account macroeconomic factors such as India's prevailing GDP and interest rates, which could adversely affect our ECLs and, in turn, our profitability.

Consumer confidence, consumer spending, unemployment and overall economic growth rates are among the main factors that often impact the demand for credit. Poor economic conditions and regulatory forbearances or relaxations tend to adversely affect our end-customers' ability and willingness to repay the amounts borrowed, thus increasing delinquencies, charge-offs and provisions for credit losses, and decreasing recoveries.

Economic growth in India is influenced by, among other things, inflation, unemployment rates, interest rates, foreign trade and capital flows, as well as the monsoon season. The level of inflation or depreciation of the Indian rupee may limit monetary easing or cause monetary tightening by the RBI. Any increase in inflation, due to increases in domestic food prices or global prices of commodities, including crude oil, the impact of currency depreciation on the prices of

imported commodities and additional pass-through of higher fuel prices to consumers, or otherwise, may result in a tightening of monetary policy.

While our results may not necessarily track India's economic growth figures, the Indian economy's performance affects the environment in which we operate. These factors could have a material adverse effect on our business, financial condition and results of operations.

44. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

45. If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.

Inflation rates could be volatile, and we may face high inflation in the future as India had witnessed in the past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, salaries, and other expenses relevant to our business. Further, high inflation leading to higher interest rates may also lead to a slowdown in the economy and adversely impact credit growth. Consequently, we may also be affected and fall short of business growth and profitability.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our operating expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

While the Government of India through the RBI has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not rise in the future.

46. The growth rate of India's small business finance industry may not be sustainable.

We expect the small business finance industry in India to continue to grow as a result of anticipated growth in India's economy, increases in household income and demographic changes. In addition, the Government of India is pursuing various schemes and initiatives to create an enabling and supportive environment to enhance the flow of credit to the small business sector in India. Initiatives such as the "Credit Guarantee Fund Trust Scheme for Micro and Small Enterprises" scheme have reinforced the flow of credit to the small business finance sector. However, it is not clear how certain trends and events, such as the pace of India's economic growth, the development of domestic capital markets and the on-going reform will affect India's small business finance industry. In addition, there can be no assurance that the Government policies and initiatives for the small business finance industry will continue at the same

or expected pace in the future. Consequently, there can be no assurance that the growth and development of India's small business finance industry will be sustainable.

47. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations and prospects and could lead to new compliance requirements that are uncertain.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example:

- The Government of India has announced the union budget for Fiscal 2022 and the Finance Act, 2021 has received the President's assent on March 28, 2021. There is no certainty on the impact that the Finance Act, 2021 may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act, 2021 would have an adverse effect on our business, financial condition and results of operations. Further, the Government of India has announced the Union Budget for the Financial Year 2023 pursuant to which the Finance Act of 2022 has introduced various amendments. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.
- In India, the Supreme Court, in a judgment delivered on 24 August 2017, has held that the right to privacy is a fundamental right. Following this judgment, the Government of India is considering enactment of a bill on personal data protection for implementing organizational and technical measures in processing personal data and lays down norms for cross-border transfer of personal data and to ensure the accountability of entities processing personal data. The enactment of the aforesaid bill may introduce stricter data protection norms for a company such as us and may impact our processes.
- On September 7, 2021, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 were notified, pursuant to which the SEBI Listing Regulations stand amended. The amended SEBI Listing Regulations, amongst other matters, require entities that have listed non-convertible securities to disclose financial results on a quarterly basis (as opposed to a half yearly basis), including assets and liabilities, and cash flows. This will impose additional compliance requirements on companies such as us, which have listed their non-convertible debentures on the debt segments of the stock exchanges. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our businesses in the future.

48. Investors may not be able to enforce a judgment of a foreign court against our Company outside India.

Our Company is incorporated under the laws of India. Our Company's assets are located in India and all of our Company's Directors and all of the Key Managerial Personnel are residents of India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with Indian public policy.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, which includes, the United Kingdom, Singapore and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Civil Code. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in a non-reciprocating territory, such as the United States, for civil liability, whether or not predicated solely upon the

general securities laws of the United States, would not be enforceable in India under the Civil Code as a decree of an Indian court. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments.

The United Kingdom, Singapore, UAE and Hong Kong have been declared by the Government of India to be reciprocating territories for purposes of Section 44A of the Civil Code. A judgment of a court of a country which is not a 48 reciprocating territory may be enforced in India only by a suit on the judgment under Section 13 of the Civil Code, and not by proceedings in execution. Section 13 of the Civil Code provides that foreign judgments shall be conclusive regarding any matter directly adjudicated on except-

- (i) where the judgment has not been pronounced by a court of competent jurisdiction,
- (ii) where the judgment has not been given on the merits of the case,
- (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable,
- (iv) where the proceedings in which the judgment was obtained were opposed to natural justice,
- (v) where the judgment has been obtained by fraud or
- (vi) where the judgment sustains a claim founded on a breach of any law then in force in India.

Under the Civil Code, a court in India shall, on the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. The Civil Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favor such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States or other such jurisdiction within three years of obtaining such final judgment. It is unlikely that an Indian court would award damages on the same basis as a foreign court if an action is brought in India.

Moreover, it is unlikely that an Indian court would award damages to the extent awarded in a final judgment rendered outside India if it believes that the amount of damages awarded were excessive or inconsistent with Indian practice. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered.

49. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Foreign ownership of Indian securities is subject to Government regulation. Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions), if they comply with the pricing and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then RBI's prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. Further, this conversion is subject to the shares having been held on a repatriation basis and, either the security having been sold in compliance with the pricing guidelines or, the relevant regulatory approval having been obtained for the sale of shares and corresponding remittance of the sale proceeds. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. We cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all.

As provided in the foreign exchange controls currently in effect in India, the RBI has provided that the price at which the Equity Shares are transferred be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm's length basis, and a higher (or lower, as applicable) price per share may not be permitted. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border

with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India, as prescribed in the Consolidated FDI Policy and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Furthermore, on April 22, 2020, the Ministry of Finance has also made similar amendment to the FEMA Rules. While the term “beneficial owner” is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term “beneficial owner”. The interpretation of “beneficial owner” and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular term or at all. For further details, see “Restrictions on Foreign Ownership of Indian Securities” beginning on page 346

50. Significant differences exist between Indian Accounting Standards and other accounting principles, such as Indian Generally Accepted Accounting Principles, United States Generally Accepted Accounting Principles and 49 International Financial Reporting Standards, which may be material to investors' assessments of our financial condition, results of operations and cash flows.

The Restated Summary Information included in this Draft Red Herring Prospectus have been derived from our audited financial statements and restated in accordance with SEBI ICDR Regulations and the Guidance Note. There are significant differences between Ind AS, Indian Generally Accepted Accounting Principles, United States Generally Accepted Accounting Principles and International Financial Reporting Standards. Our Company does not provide reconciliation of its financial information to International Financial Reporting Standards or United States Generally Accepted Accounting Principles. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, Indian Generally Accepted Accounting Principles and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited.

51. Rights of shareholders under Indian laws may differ to those under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be similar to the shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as a shareholder of an entity in another jurisdiction.

Risks Related to the Issue

52. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.

The Issue Price of the Equity Shares will be determined by our Company, in consultation with the BRLM, and through the Book Building Process. This price will be based on numerous factors, as described under “Basis for Issue Price” on page 150 and may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price owing to various factors including quarterly variations in our results of operations, results of operations that vary from the expectations of securities analysts and investors and results of operations that vary from those of our competitors. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Issue Price.

53. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. The Income Tax Act levies taxes on such long-term capital gains exceeding ₹100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealized capital gains earned up to January 31, 2018 on such equity shares subject to specific conditions. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of a securities transaction tax (“STT”), on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Any gain realized on the sale of Equity Shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

Additionally, the Finance Act, 2020 does not require dividend distribution tax ("DDT") to be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. Earlier, the Finance Act, 2019, had clarified that in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor.

The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These provisions have been notified with effect from July 1, 2020. Further, the 50 Government of India recently proposed additional tax measures in Finance Bill, 2022 and Union Budget for Fiscal 2023 which, among others, require the taxpayers to explain sources of cash credits, introduce a separate 30% tax on income from virtual digital assets, extend the anti-tax avoidance provision to bonus stripping of securities and repeal the 15% concessional rate on foreign dividends. The Finance Bill has received assent from the President of India on March 30, 2022, and has been enacted as the Finance Act, 2022.

54. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations. Further, the Issue may not result in an active trading market for the Equity Shares and the investors may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares.

The Issue Price of the Equity Shares is proposed to be determined through a book-building process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all, and may as a result lose all or a part of your investment. Our Equity Shares are expected to trade on the Stock Exchanges after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops, that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

55. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by the Shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

56. Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by us may dilute your shareholding and adversely affect the trading price of the Equity Shares and sale of Equity Shares by the Promoter(s) may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoters, Promoter Group or other significant Shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoters and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future. Such securities may also be issued at prices below the Issue Price. We may also issue convertible debt securities to finance our future growth or fund our business activities.

57. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

A public company incorporated in India must issue its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new 51 equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an issuing document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted.

58. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges or such period as may be prescribed under applicable law. The Allotment of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid/Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid/Issue Closing Date or such period as may be prescribed under applicable law. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

Bidders should note that the Issue is also subject to obtaining (i) final approval of the RoC after the Prospectus is filed with the RoC; and (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment within 6 (six) Working Days of the Bid/Issue Closing Date or such other time as prescribed under applicable law.

Each Bidder, by submitting a Bid in the Issue, will be deemed to have acknowledged the above restrictions and the terms of the Issue.

UNDERWRITING AGREEMENT

After the determination of the Issue Price, but prior to the filing of the Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through this Issue. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions specified therein. The Underwriting Agreement is dated [●].

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

(This portion has been intentionally left blank and will be filled in before filing of the Prospectus with the RoC)

Name, address, telephone number and e-mail address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten (₹ in lakhs)
[●]	[●]	[●]

The above mentioned is indicative underwriting and will be finalized after determination of the Issue Price and actual allocation subject to the provisions of Regulation 40(2) of the SEBI ICDR Regulations.

In the opinion of our Board (based on a certificate given by the Underwriters), the resources of the abovementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI under Section 12 (1) of the SEBI Act or registered as merchant bankers with SEBI or as brokers with the Stock Exchange(s). Our Board of Directors, at its meeting held on [●], approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Notwithstanding the table above, the BRLM and the Syndicate Members shall be responsible for ensuring payment with respect to the Equity Shares allocated to the Bidders procured by them. The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus and will be executed after determination of the Issue Price and allocation of Equity Shares, but prior to filing the Prospectus with the RoC. The extent of underwriting obligations and the Bids to be underwritten in the Issue by the BRLM shall be as per the Underwriting Agreement.

The underwriting agreement shall list out the role and obligations of each Syndicate Member, and *inter alia* contain a clause stating that margin collected shall be uniform across all categories indicating the percentage to be paid as margin by the bidders at the time of Bidding. The extent of underwriting obligations and the Bids to be underwritten in the Issue shall be as per the Underwriting Agreement.

We have placed reliance on the disclosures made in the Board minutes, to ascertain the details of the issue of Equity Shares, the nature of allotment and the nature of consideration since Form 2 for the relevant allotment is not present in the records of the Company and is not found in the records of the RoC, as certified by Ronak Jhuthawat and Associates, Company Secretaries, under their search report dated February 12, 2023. For further information, please refer to risk factor no. 38 under chapter titled 'Risk Factors' beginning on page 26 of the DRHP.

The number of allottees for allotments of Equity Shares made on September 30, 2011, March 31, 2012, March 29, 2013, August 10, 2013 and March 31, 2014 exceeded 50 allottees ("Stated Allotments"). The management of the Company perceives that (i) these allotments were a domestic concern of the Company and the persons receiving the offers for subscription to the Equity Shares of the Company; and (ii) since the Company is an NBFC, it qualifies for the exemption under Section 67 of the Companies Act, 1956 in as much as the threshold of 50 allottees does not apply to an NBFC. However, these allotments may be perceived not to have been in compliance with the provisions governing a public offering of securities under the Companies Act, 1956, including those mandating the issuance and registration of a Prospectus by the Registrar of Companies, Jaipur or the concerned Regional Director. Without prejudice and as a matter of abundant precaution, and in due compliance of the SEBI Circular No. CIR/CFD/DIL3/18/2015 dated December 31, 2015 and SEBI Circular dated May 3, 2016, the Company has suo-moto volunteered to provide an exit offer to eligible shareholders of the Company who held (i) Equity Shares allotted by the Company through the Stated Allotments; and/or (b) who held Equity Shares of the Company which were acquired by them on account of transfers to them of the Equity Shares allotted through the Stated Allotments. All formalities pertaining to the above exit offer have been completed. Apart from providing the exit offer, the Company filed, on February 1, 2023, an application with the Registrar of Companies, Rajasthan, Jaipur and the Regional Director, Ahmedabad, seeking to compound these breaches of Companies Act, 1956, if any, occasioned by the Stated Allotments and subsequent transfer of such Equity Shares. This application is presently pending.

- 27. The Promoters and members of our Promoter Group will not receive any proceeds from the Issue.

28. At any given time, there shall be only one denomination of the Equity Shares of our Company, unless otherwise permitted by law.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the Net Proceeds towards augmenting its capital base.

In addition, our Company expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges and enhancement of our Company's brand name amongst our existing and potential customers and creation of a public market for our Equity Shares in India.

The main objects clause and objects incidental and ancillary to the main objects clause as set out in the Memorandum of Association enables our Company to undertake its existing activities and the activities for which funds are proposed to be raised by our Company through the Issue.

Net Proceeds

The following table sets forth details of the Net Proceeds:

Particulars	Estimated Amount (in ₹ Lakhs) ⁽¹⁾
Gross proceeds from the Issue	[●]
Less Issue related expenses	[●]
Net proceeds from the Issue after deducting the Issue related expenses to be borne by our Company ("Net Proceeds")	[●]

(1) To be determined after finalisation of the Issue Price and updated in the Prospectus prior to filing with the RoC.

Details of the Objects

1. Augment the capital base of our Company

As an NBFC, we are subject to regulations relating to the capital adequacy, which determine the minimum amount of capital we must hold as a percentage of the risk-weighted assets on our portfolio and of the risk adjusted value of off-balance sheet items, as applicable. As per the capital adequacy norms issued by the RBI, we are required to have a regulatory minimum CRAR of 15%. Our CRAR as of September 30, 2022 was 43.24% of which Tier 1 was 39.80% and as of March 31, 2022 was 36.25%, of which Tier 1 was 33.09%. Our Company proposes to utilise the Net Proceeds towards augmenting its capital base to meet future capital requirements. As we continue to grow our loan portfolio and asset base, we will require additional capital in order to continue to meet applicable capital adequacy ratios with respect to our business. In the coming years, our Company plans to grow its loan advances which would require Tier 1 capital to comply with the applicable capital adequacy regulations. With the primary capital raise planned through the Issue, the management of our Company believes that it would have adequate capital without any further need of fresh capital in the short to medium term.

Means of Finance

Our Company proposes to utilise the Net Proceeds from the Issue towards augmenting its capital base to meet future capital requirements. Accordingly, we confirm that there is no need for us to make firm arrangements of finance under Regulation 7(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Issue.

Issue related expenses

The total expenses of the Issue are estimated to be approximately ₹ [●] Lakhs.

(7) Selling commission payable to the Registered Brokers on the portion for Retail Individual Investors and, Non-Institutional Investors which are directly procured by the Registered Brokers and submitted to SCSB for processing, shall be ₹ [●] per valid Bid cum Application Form (plus applicable taxes).

The Selling Commission payable to the Syndicate / Sub-Syndicate Members will be determined on the basis of the application form number / series, provided that the application is also bid by the respective Syndicate / Sub-Syndicate Member. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate / Sub-Syndicate Member, is bid by an SCSB, the Selling Commission will be payable to the SCSB and not the Syndicate / Sub-Syndicate Member. The selling commission and bidding charges payable to Registered Brokers the RTA and CDPs will be determined on the basis of the bidding terminal ID as captured in the bid book of BSE or NSE.

In addition to the selling commission referred above, any additional amount(s) to be paid by our Company shall be as mutually agreed amongst the Book Running Lead Manager, their respective Syndicate Members and our Company before the opening of the Issue.

Monitoring of Utilisation of Funds

Our Company has appointed [●] as the monitoring agency in accordance with Regulation 41 of the SEBI ICDR Regulations. Our Company will disclose the utilisation of the Net Proceeds, including interim use under a separate head in our balance sheet for such Financial Years as required under applicable law, specifying the purposes for which the Net Proceeds have been utilised. Our Company will also, in its balance sheet for the applicable Financial Years, provide details, if any, in relation to all such Net Proceeds that have not been utilised, if any, of such currently unutilised Net Proceeds.

Pursuant to Regulation 32(3) of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Net Proceeds. On a quarterly basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in this Draft Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Net Proceeds remain unutilised. Such disclosure shall be made only until such time that all the Net Proceeds have been utilised in full. The statement shall be certified by the statutory auditor of our Company. Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Issue from the Objects; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Issue from the objects of the Issue as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results and explanation

for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

Appraising Agency

The Objects has not been appraised by any bank or financial institution or any other independent agency.

Bridge Financing

Our Company has not raised any bridge loans from any bank or financial institution as at the date of this Draft Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds

Interim use of Net Proceeds

Pending utilization of the Net Proceeds for the purposes described above, our Company may temporarily invest the Net Proceeds only as deposits in one or more scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board or the IPO Committee.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Other Confirmations

There are no material existing or anticipated transactions with our Promoters, our Directors, our Company's Key Managerial Personnel in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoters, our Directors or Key Managerial Personnel except in the normal course of business and in compliance with the applicable laws.

Variation in Objects

In accordance with Sections 13(8) and 27 of the Companies Act, 2013 and the applicable rules, and the SEBI ICDR Regulations, our Company shall not vary the objects of the Issue without our Company being authorised to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act. The Notice shall simultaneously be published in the newspapers, one in English and one in Hindi, the language of the jurisdiction where our Registered Office is situated. Our Promoters will be required to provide an exit opportunity to such Shareholders who do not agree to the above stated proposal, at a price as prescribed by SEBI, in this regard, in accordance with applicable law.

BASIS FOR ISSUE PRICE

The Price Band will be determined by our Company, in consultation with the BRLM, and the Issue Price will be determined by our Company in consultation with the BRLM, on the basis of the Book Building Process and the quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹ 10 each, the Issue Price is [●] times of the face value at the lower end of the Price Band, and [●] times of the face value at the higher end of the Price Band. Investors should refer to “*Risk Factors*”, “*Our Business*”, “*Restated Financial Information*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 26, 190, and 266, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors, which form the basis for the Issue Price, are:

- Proven execution capabilities with a strong rural focus
- Well established Vehicle Finance, small businesses lending business
- Stable and experienced management team
- Customer centric approach and deep understanding of target customers
- Access to Diversified Sources of Capital and Effective Asset Liability Management
- Robust underwriting process and risk management policies
- Hub and Spoke business model that improves efficiencies and decreases costs

For further details, see “*Risk Factors*” and “*Our Business*” beginning on pages 26 and 190, respectively.

Quantitative Factors

Some of the information presented in this chapter is derived from the Restated Financial Information. For further information, see “*Financial Information*” beginning on page 256.

Some of the quantitative factors which may form the basis for computing the Issue Price are as follows:

1. Basic Earnings and Diluted Earnings per Equity Share (EPS) as per Indian Accounting Standard 33

As per Restated Financial Statements

Period	Basic and Diluted EPS (in ₹)	Weight
March 31, 2020	7.57	1
March 31, 2021	6.68	2
March 31, 2022	1.68	3
Weighted Average	4.33	
For the six months period ended September 30, 2022[#]	2.49	

[#]Not annualized

Notes:

1. *Basic and diluted earnings/ (loss) per equity share: Basic and diluted earnings per equity share are computed in accordance with Indian Accounting Standard 33, notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with the requirements of SEBI ICDR Regulations.*
2. *The ratios have been computed as below:*
 - *Basic EPS is calculated as Profit/(loss) for the year/period attributable to Equity shareholders divided by the adjusted weighted average number basic equity shares outstanding during the year/period.*
 - *Diluted EPS is calculated as Profit/(loss) for the year/period attributable to Equity shareholders divided by the adjusted weighted average number of adjusted diluted equity shares outstanding during the*

year/period.

3. *Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year/period adjusted by the number of equity shares issued during the year/period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year/period.*
4. *Weighted average is aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. $\{(EPS \times Weight) \text{ for each year}\} / \{Total \text{ of weights}\}$.*

For further details, see “Other Financial Information” on page 261.

2. Price/Earning (“P/E”) Ratio in relation to the Price Band of ₹ [●] to ₹ [●] per Equity Share:

Particulars	P/E at Floor Price (no.of times)	P/E at Cap Price(no. of times)
Based on basic EPS for the financial year ended March 31, 2022	[●]	[●]
Based on diluted EPS for the financial year ended March 31, 2022	[●]	[●]

3. Industry P/E ratio

Based on the peer group information (excluding our Company) given below in this section, the highest P/E ratio is 29.88, the lowest P/E ratio is 22.67 and the average P/E ratio is 26.28.

4. Average Return on Net Worth as per Restated Financial Statements

March 31, 2020	18.02	1
March 31, 2021	13.57	2
March 31, 2022	3.09	3
Weighted Average	9.07	
For the six months period ended September 30, 2022[#]	4.26	

[#]Not annualized

Note: Return on average net worth %: Profit after tax for the period/year divided by the simple average of Net Worth of the Company as of the last day of the relevant financial year and last day of the previous financial Year.

5. Net Asset Value (NAV) per Equity Share

As per Restated Financial Statements

Particulars	Amount (₹)
As on March 31, 2022	62.73
As on September 30, 2022	57.76

Notes:

1. *Net assets value per share (in Rs.): Net asset value per share is calculated by dividing net worth of the Company by number of equity shares outstanding at the end of the relevant period/year.*
2. *Net worth is equivalent to Total Equity, and is the sum of Equity share capital and other equity*

Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Consolidated Financial Information. We use these KPIs to evaluate our performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing results, when taken collectively with financial measures prepared in accordance with Ind AS.

Dear Sirs,

Re: Proposed initial public offering of equity shares of face value of Rs. 10/- each (the “Equity Shares”) of Akme Fintrade (India) Limited (the “Company”) (the “Issue”)

Sub.: Statement of possible Special Tax Benefits available to the Company and its equity shareholders under the direct and indirect tax laws

We refer to the proposed initial public offering of equity shares (the “**Issue**”) of the Company. We enclose herewith the statement (the “**Annexure**”) showing the current position of special tax benefits available to the Company and to its shareholders as per the provisions of the Indian direct and indirect tax laws including the Income-tax Act, 1961, (“**Act**”) the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017 (collectively the “**GST Act**”), the Customs Act, 1962 (“**Customs Act**”) and the Customs Tariff Act, 1975 (“**Tariff Act**”) (collectively the “**Taxation Laws**”) including the rules, regulations, circulars and notifications issued in connection with the Taxation Laws, as presently in force and applicable to the assessment year 2023-24 relevant to the financial year 2022-23 for inclusion in the Draft Red Herring Prospectus (“**DRHP**”) for the proposed initial public offering of shares of the Company as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“**ICDR Regulations**”).

Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the direct and indirect taxation laws including the Income-tax Act 1961. Hence, the ability of the Company or its shareholders to derive these direct and indirect tax benefits is dependent upon their fulfilling such conditions.

The benefits discussed in the enclosed Annexure are neither exhaustive nor conclusive. The contents stated in the Annexure are based on the information and explanations obtained from the Company. This statement is only intended to provide general information to guide the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultants, with respect to the specific tax implications arising out of their participation in the Issue particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail. We are neither suggesting nor are we advising the investors to invest or not to invest money based on this statement.

The contents of the enclosed Annexure are based on the representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

We do not express any opinion or provide any assurance whether:

- The Company or its Shareholders will continue to obtain these benefits in future;
- The conditions prescribed for availing the benefits have been/would be met;
- The revenue authorities/courts will concur with the views expressed herein.

This statement is provided solely for the purpose of assisting the Company in discharging its responsibilities under the ICDR Regulations.

We hereby give our consent to include this report and the enclosed Annexure regarding the tax benefits available to the Company and its Shareholders in the DRHP for the proposed initial public issue of equity shares which the Company intends to submit to the Securities and Exchange Board of India and the National Stock Exchange of India Limited and BSE Limited (the “**Stock Exchanges**”) where the equity shares of the Company are proposed to be listed, as applicable, provided that the below statement of limitation is included in the DRHP.

All capitalized terms not defined hereinabove shall have the same meaning as defined in the Issue Documents.

**ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO AKME
FINTRADE (INDIA) LIMITED (“COMPANY”), THE SHAREHOLDERS OF THE COMPANY
 (“SHAREHOLDERS”)**

Outlined below are the possible Special Tax Benefits available to the Company and its shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have different interpretation on the benefits, which an investor can avail.

Under the Income Tax Act, 1961 (‘the Act’)

1. Special tax benefits available to the company under the Act

Section 115BAA of the Act: Corporate Tax Rate as per new tax regime

- Section 115BAA, as inserted vide The Taxation Laws (Amendment) Act, 2019, provides that domestic company can opt for tax rate of 22% plus surcharge @ 10% and health and education cess @ 4% (effective tax rate of 25.168%) for the financial year 2019-20 and onwards, provided the total income of the Company is computed without claiming certain specified deductions and specified brought forward losses and claiming depreciation determined in the prescribed manner.
- In case a company opts for section 115BAA, provisions of Minimum Alternate Tax (MAT) would not be applicable and earlier year MAT credit will not be available for set – off.
- The option needs to be exercised on or before the due date of filing the income tax return. Option once exercised, cannot be subsequently withdrawn for the same or any other subsequent assessment year.
- Further, if the conditions mentioned in section 115BAA are not satisfied in any financial year, the option exercised shall become invalid for assessment year in respect of such financial year and subsequent assessment years, and the other provisions of the Act shall apply as if the option under section 115BAA had not been exercised.
- The company has represented to us that they have opted section 115BAA of the Act for AY 2020-2021 and onwards.

Section 80JJAA of the Act: Deduction in respect of employment of new employees

- In accordance with and subject to the conditions specified under Section 80JJAA of the Act, a company is entitled to a deduction of an amount equal to 30% of additional employee cost incurred in the course of business in a financial year, for 3 consecutive assessment years including the assessment year relevant to the financial year in which such additional employment cost is incurred.
- Additional employee cost means the total emoluments paid or payable to additional employees employed in the financial year. The deduction under section 80JJAA would continue to be available to the company even where the company opts for the lower effective tax rate of 25.168% as per the provisions of section 115BAA of the Act (as discussed above).
- The company should be eligible to claim this deduction in case it incurs additional employee cost within the meaning of Explanation (i) to sub-section (2) of section 80JJAA of the Act and satisfies the conditions as mentioned in the said section.

2. Special tax benefits available to the shareholders under the Act

- Dividend income will be subject to tax in the hands of shareholders at the applicable slab rate / corporate tax rate (plus applicable surcharge and cess) or as per the applicable Double Tax Avoidance Agreements (as shall be relevant).
- In case of dividend income earned by domestic shareholders, reported under the head “Income from other sources”, shall be computed after making deduction of a sum paid by way of interest on the capital borrowed for the purpose of investment. However, no deduction shall be allowed from the dividend income, other than deduction on account of interest expense, and in any financial year such deduction shall not exceed 20% of the dividend income under section 57 of the Act.
- As per section 2(29AA) read with section 2(42A) of the Act, a listed equity share is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer.

- Long term capital gains on transfer on shares on which Securities Transactions Tax has been paid will be subject to tax in the hands of shareholders as per the provisions of Section 112A of the Act at 10% (plus applicable surcharge and cess). The benefit of indexation of costs shall not be available.
- Short term capital gains arising on transfer of shares on which Securities Transactions Tax has been paid will be subject to tax in the hands of shareholders as per the provisions of Section 111A of the Act at 15% (plus applicable surcharge and cess).
- Non-resident shareholders including foreign portfolio investors may choose to be governed by the provisions of Double Taxation Avoidance Agreement, to the extent they are more beneficial and subject to provision of the prescribed documents.

Notes:

- These tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the Company or its shareholders may or may not choose to fulfil.
- This statement does not discuss any tax consequences in the country outside India of an investment in the shares. The shareholders / investors in the country outside India are advised to consult their own professional advisors regarding possible income-tax consequences that apply to them.
- Surcharge rate shall be maximum 15% in case of dividend income and capital gains.
- Health and Education Cess ('cess') @ 4% on the tax and surcharge as shall be applicable, is payable by all category of taxpayers.
- We understand that the Company has opted for concessional income tax rate under section 115BAA of the Act. Accordingly, surcharge shall be levied at the rate of 10% irrespective of the amount of total income.
- We understand that the Company has opted for concessional tax rate under section 115BAA of the Act. Hence, it will not be allowed to claim any of the following deductions:
 - Deduction under the provisions of section 10AA (deduction for units in Special Economic Zone);
 - Deduction under clause (iia) of sub-section (1) of section 32 (Additional depreciation);
 - Deduction under section 32AD or section 33AB or section 33ABA (Investment allowance in backward areas, Investment deposit account, site restoration fund);
 - Deduction under sub-clause (ii) or sub-clause (iia) or sub-clause (iii) of sub-section (1) or subsection (2AA) or sub-section (2AB) of section 35 (Expenditure on scientific research);
 - Deduction under section 35AD or section 35CCC (Deduction for specified business, agricultural extension project);
 - Deduction under section 35CCD (Expenditure on skill development);
 - Deduction under any provisions of Chapter VI-A other than the provisions of section 80JJAA and section 80M;
 - No set off of any loss carried forward or depreciation from any earlier assessment year, if such loss or depreciation is attributable to any of the deductions referred above;
 - No set off of any loss or allowance for unabsorbed depreciation deemed so under section 72A, if such loss or depreciation is attributable to any of the deductions referred above.
- Further, it is also clarified in section 115JB(5A) that if the Company opts for concessional income tax rate under section 115BAA, the provisions of section 115JB regarding Minimum Alternate Tax (MAT) are not applicable. Further, such Company will not be entitled to claim tax credit relating to MAT.
- The above statement of possible direct tax benefits sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.

- **Macroeconomic Scenario**
- **Global Scenario**

Global economy rebounded well in 2021 from its Covid-induced historic decline. Despite the worsening pandemic dynamics at the start of year and eventual lockdown in many parts of the world, the world GDP grew by 5.9% (est.) in 2021. Gradual unlocking of economy, accelerating vaccination, dropping infection rate during majority part of H2 2021 and government stimulus in many countries, all played its role in supporting the economic revival. However, emergence of Covid-19 new variants (Omicron) and its rapid spread towards the end of 2021 again presented an uncertainty about when pandemic going to end. Consequently, IMF in its October 2021 forecast, did a downward revision in global GDP growth by 0.1% against its July 2021 forecast. As per IMF, the world GDP is estimated to have grown at 5.9% in 2021. The low base effect also translated in higher rate of growth in 2021.

Real GDP growth	2020	2021Est.	2022 P	2023P
World	-3.2%	5.9%	4.4%	3.8%
India	-7.3%	9%	9%	7.1%
China	2.3%	8.1%	4.8%	5.2%
Japan	-4.7%	1.6%	3.3%	1.8%
USA	-3.5%	5.6%	4%	2.6%
UK	-9.8%	7.2%	4.7%	2.3%
EU	-6.5%	5.2%	3.9%	2.5%

In current year, the geopolitical event and changes in world economic dynamics shaping as a result ongoing Russia-Ukraine war threaten to derail the global GDP growth in 2022. Disrupted business operation, supply chain disruption, elevated crude oil prices, surging freight cost, inaccessibility of critical raw material and insecurity risk may aggravate food and fuel prices. As per IMF most recent outlook released in January 2022, the global GDP is projected to grow by 4.4% in 2022.

- **India Scenario**

Hit by the coronavirus pandemic and subsequent lockdown that was imposed in March 2020, India’s annual GDP growth shrunk by 6.6% in FY 2021 as compared to 3.7% y-o-y growth in the previous year. As per Mospri advance estimates, despite the adverse effect of second wave of COVID-19 and associated localized lockdowns, the Indian economy rebounded well in FY 2022 and is estimated to have grown by 8.9%. The country is set to

overachieve its export target despite the supply chain disruptions posed by COVID-19 restrictions, skyrocketing freight charges and container shortages.

Sources: MOSPI

On quarterly basis, the country recovered well from the Covid slump as it registered healthiest ever quarterly GDP growth of 20.33% in Q1 FY 2022 on y-o-y basis. Though much of this sharp surge in GDP growth is attributed to the low base-effect (as country observed a contraction of nearly 24% in GDP during Q1 FY 2021). While a surge in the Delta variant during the second wave of pandemic starting from end of February and strengthening till May 2021 was a drag on the overall economic recovery. On sequential Q-o-Q basis, India's GDP fell by 17% in Q1 FY 2022 as compared to the previous quarter output (Q1 FY 2022 change over Q4 FY 2021).

Major relaxations in Covid-related restrictions and government relief measure such as INR 6.29 trillion stimulus package for the pandemic hit sectors, higher healthcare spending, accommodative policy rate etc. supported economic recovery in the subsequent quarter. During Q2 FY 2022, broader economic indicators bounced back above pre-pandemic level which was well captured in the improved quarterly result announcement of the corporates.

Other economic indicators such as increase in bank credit growth and higher m-o-m GST collections from August 2021 onwards too indicated economic recovery. With over INR 1.3 trillion for the second straight month, the GST collection in November 2021 grew by over 25% (y-o-y) while it was 27% higher than the FY 2020 collection. In the quarter ending 30th September 2021, the country's GDP grew by 8.4% on y-o-y basis against 7.4% decline in the same quarter in the previous fiscal. On sequential basis, it registered 10% growth over the previous quarter. The y-o-y growth moderated in subsequent quarter (Q3 FY 2022) to 5.4% due to the weaning impact of high base effect.

• Industrial Activity

Covid-19 pandemic hit the industrial activity hard in FY 2021. India's over all IIP fell by 8.5% in FY 2021 with negative growth being evenly spread across all sub-segments. Decline in manufacturing activity was steepest followed by mining and electricity sector.

Sources: MoSPI

Source: MoSPI

IIP index surged sharply by over 134% in April 2021 on yearly basis. The steep annual growth in overall index was triggered by healthy recovery in manufacturing activity which has 77.6% weightage in the overall index, and it grew by over 197% in the April 2021 against 28% growth in the previous month. Low base effect also contributed to this sharp growth during April 2021. Growth in other sub segment too observed positive change with growth rate strengthening in the April month. Yearly monthly IIP growth in later month moderated gradually amidst the vanishing impact of low base effect and second covid wave adversely impacting the recovery momentum in the current fiscal. In January 2022, IIP grew by 1.3% in against -0.6% (y-o-y) in same month in 2021.

On use-based classification basis, primary good, infrastructure/construction goods, and intermediate good segment performed well over the consumer durables and capital good during January 2022. However, yearly growth across all segment (excluding primary good) moderated during January 2022 compared to previous month.

• Inflation Scenario

India's inflation rate based on Wholesale Price Index (WPI) spiked to a 4-month high and highest inflation in the current fiscal with 14.9% y-o-y change in November 2021 against 13.8% (y-o-y) increase in the previous month. In two subsequent months, it moderated gradually but again observed mild increase in the February month of current year. Surge in prices of manufactured products contributed to the rise in wholesale inflation.

Source: MoSPI, Office of Economic Advisor

Source: CMIE Economic Outlook

Even with cut in levies on fuel, retail inflation rate (as measured by Consumer Price Index) strengthened for the second straight month to measure at 6.1% in February 2022 as compared to 6% in the previous month due to an increase in food & beverages inflation. Food & beverages inflation increased to 5.9% in February 2022 against 5.58% in the previous month while fuel inflation exhibited moderation to 8.73% on y-o-y basis in February compared to 9.32% in the previous month. Beside food & beverages inflation, price increase in housing, clothing, and footwear were few other contributors for rise in CPI inflation in February 2022. In contrast, Paan, tobacco and intoxicants, and miscellaneous items observed moderation in prices. As a part of anti-inflationary measure, the central bank increased the repo rate for the first time since August 2018 from record low 4% to 4.4% in its latest monetary policy review meet. The Reserve Bank of India (RBI) has also increased the cash reserve ratio (CRR) by 50 basis points to 4.5% which will leave the banks with less money to lend it to consumers and corporate. As per the RBI governor, this rate hike would drain the banking sector with nearly INR 870 Bn liquidity.

Previously, the Government has also made positive supply side intervention to control the pass-through of elevated international edible oil prices to domestic retail inflation. For current fiscal, The Reserve Bank of India has estimated an average inflation rate of 5.3% for FY 2022 and 5.7% for FY 2023.

• **Economic Growth Outlook**

The ongoing spread of Omicron ba.2 in many parts of the world and recent external risk shaping up due to Russia-Ukraine crises have potential to restrain the pace of economic recovery especially in the manufacturing sector. Profitability of businesses are under pressure. The high-risk averseness of foreign investors, volatility and sharp downward movement in rupee, surge in commodity prices and the consequent rise in interest rates will impact India's short-term growth. Though in immediate term, the balance of risks facing the Indian economy are tilted to the downside, but various structural measure introduced by the government post Covid to revive economy is going to have a long-lasting impact on India's growth story.

The new free trade agreements that India has inked with UAE and is likely to forge with several countries such as UK and Australia along with the PLI scheme would provide a boost to India's export. Effective implementation of various policies such as Atmanirbhar Bharat, Gati Shakti for multi-modal connectivity and the National Monetization Pipeline (NMP) to finance infrastructure creation, will determine the future roadmap of India's growth story. If implemented well, it will have a crowd in effect on private investments and help India to move closer to its target of reaching USD 5 trillion GDP goal by 2024.

For CY 2022, backed by the supportive structural reforms, IMF in its latest economic outlook review (Jan 2022) have projected India to continue growing at 9% while growth outlook for many other major countries excluding Japan was revised downwards.

• **Credit Market in India**

Total outstanding credit in India market is estimated to be INR 174 lakh crore, as on 31st March 2022, growing by 11% over previous year. Total outstanding credit has nearly doubled in the last five to six years, indicating the higher appetite for credit in the market. India's lending market is dominated by scheduled commercial

banks (SCBs) while other players include Housing Finance Companies (HFCs), Non-Banking Financial Companies (NBFCs) and Micro Finance Institutions (MFIs). Among them, these lending agencies (which form a part of institutional credit source in India) offer a wide range of credit products from commercial loans to personal loans to microfinance loans.

Source: CRIF High Market Report

- **Retail Loans**

Home loans is the largest segment within the retail loan segment in India, accounting for approximately 30% of total outstanding retail credit as on 31 March 2022. Agriculture loan & personal loan, the next largest segments accounts for 9% of the total each. Nearly 70% of total retail credit outstanding on 31st March 2022 was accounted by nine credit products. Retail loan segment probably has the highest level of competition, with active presence from all type of financial services companies – including banks, home finance companies, NBFCs, MFI, insurance firms, and specialized boutique lending firms (including digital lending). On the other hand, commercial loan segment is clearly dominated by banks. In retail loan segment, NBFCs has an active presence in almost all segments except home loans which is dominated by banks and housing finance companies.

Source: CRIF High Market Report

Although NBFCs has made rapid inroads into all major retail loan segments (except home loans), their penetration is particularly high in consumer durable loans, followed by two-wheeler loans.

Penetration of NBFC in Indian Retail Lending Market (percentage of total outstanding loans)			
Type of Retail Loan	Banks	NBFC	Others
Personal Loans	80.0%	16.5%	3.5%
Two Wheeler Loans	32.2%	64.4%	3.4%
Auto Loans	73.0%	24.6%	2.4%
Business Loans	77.9%	13.0%	9.1%
Consumer Durable Loans	26.9%	73.1%	0.0%

- **Non-Banking Financial Companies**

Non-Banking Financial Companies or NBFCs forms an integral part of Indian financial services industry, often complementing the banking segment. NBFCs has played an integral role in deepening credit outreach, as well as has become an integral tool in extending credit to unorganized segments / rural households / other segments which are considered inherently risky by the formal banking sector. In that sense, NBFCs has played a key role in expanding financial inclusion in the country.

As per RBI, close to 9,500 NBFCs operate in Indian financial service industry, spread across the country and catering to the financial needs of consumers in urban, semi-urban, and rural markets. These include both investment as well as lending companies, who together offers a wide range of products ranging from loans & advances, leasing, hire-purchase, to chit funds.

Based on their nature of operations, NBFCs in India are segmented into four, namely Deposit taking NBFC (NBFC D), Non-deposit taking NBFC (NBFC ND), Asset Reconstruction Companies, and Housing Finance Companies. NBFC ND is further sub-divided into two: systematically important NBFC ND (As per RBI NBFCs whose asset size is of ₹ 500 crore or more as per last audited balance sheet are considered as systemically important NBFCs. The rationale for such classification is that the activities of such NBFCs will have a bearing on the financial stability of the overall economy), and other NBFC ND (NBFCs with asset size less than INR 500 Crore) (not systematically important). Among these NBFC NDs (which are not systematically important) is the dominant segment, accounting for 95% of total NBFCs operating in India.

- **Regulatory Landscape in Indian Financial Services Industry**

The Indian financial system is regulated by independent regulatory bodies in different fields namely banking, capital market, insurance, commodity market, and pension funds. The Government of India (GoI) also plays an important role in influencing the regulatory framework of these institutions.

Reserve Bank of India (RBI), Securities and Exchange Board of India (SEBI), Insurance Regulatory and Development Authority (IRDA), and Pension Funds Regulatory and Development Authority (PFRDA) are few of the major regulatory agencies operating in Indian financial services space. In addition, there are also few

specialized agencies like SIDBI, NHA designed to focus on certain aspects of the industry (like credit to MSMEs, regulating home financing sector etc).

Regulatory Body	Role & Responsibilities
Reserve Bank of India (RBI)	Established under the RBI Act, 1934, RBI is the central bank of India; and is vested with various responsibilities under the Banking Regulation Act, 1949. Its primary functions include issuance of banknotes, banker to Government, custodian of cash reserves of commercial banks, custodian of foreign exchange reserves, controller of credit, and lender of the last resort.
Securities & Exchange Board of India (SEBI)	Established on April 12, 1992, under the SEBI Act 1992, the Securities and Exchange Board of India (SEBI) is a statutory body owned by the government of India. Its primary function is to safeguard the interests of investors in securities exchange and regulate the securities market.
Insurance Regulatory & Development Authority of India (IRDA)	Established under the Insurance Regulatory and Development Authority Act, 1999, IRDAI is an autonomous statutory body responsible for regulating and promoting the insurance and re-insurance industries in India. Headquartered in Hyderabad, it is a 10-member body consisting of Chairman, five full-time members, and four part-time members appointed by the government of India.
Pension Fund Regulatory & Development Authority (PFRDA)	Established by the government of India on August 23, 2003, by executive order, Pension Fund Regulatory and Development Authority (PFRDA) is mandated to act as a regulator and supervisor of pension in India. It is under the jurisdiction of Ministry of Finance.
National Bank for Agriculture & Rural Development (NABARD)	Established on 12 July 1982 by an Act of the Parliament, NABARD is an apex regulatory body for overall regulation of regional rural banks and apex cooperative banks in India. It falls under the jurisdiction of Ministry of Finance, Government of India. It is mandated for providing and regulating credit and other facilities for the promotion and development of agriculture, small scale industries, cottage and village industries, handicrafts, and other rural crafts and other allied economic activities in rural areas with a view to promoting integrated rural development and securing prosperity of rural areas, and for matters connected therewith or incidental thereto.
Small Industries Development Bank of India (SIDBI)	SIDBI was established under an Act of the Parliament in 1990. It is the principal financial institution engaged in promotion, financing & development of the Micro, Small and Medium Enterprises (MSMEs) sector and coordination of the functions of the various institutions engaged in similar activities.
National Housing Bank (NHB)	National Housing Bank was set up on 9 July 1988 under the National Housing Bank Act, 1987. It is the apex regulatory body for overall regulation and licensing of housing finance companies in India. It is under the jurisdiction of Ministry of Finance.
Insolvency and Bankruptcy Board of India (IBBI)	The Insolvency and Bankruptcy Board of India was established on 1st October 2016 under the Insolvency and Bankruptcy Code, 2016 (Code). It is the regulating authority for insolvency and bankruptcy proceedings in the country. It also oversees the activities of bodies such as the Insolvency Professional Agencies (IPA), Insolvency Professionals (IP) and Information Utilities (IU), Registered Valuers, and Registered Valuer Organisations.

• Regulatory Framework in NBFC Sector

NBFC sector has over the years, evolved considerably in terms of size, operations, technological sophistication, and entry into newer areas of financial services and products. The number of NBFCs as well as the size of the sector have grown significantly. There is an increasingly complex web of inter-linkages of the sector with banks, capital market and other financial sector entities, on both sides of the balance sheet. Over the last decade, NBFCs have witnessed phenomenal growth. From being around 12% of the balance sheet size of banks (2010), they are now more than a quarter of the size of banks. While the development of a robust non-bank intermediation channel provides a good 'spare tyre' to the economy, uncontrolled growth fuelled by lighter regulatory framework can also lead to potential systemic risks.

The Department of Non-Banking Supervision (DNBS) is delegated with the responsibility of regulation and supervision of Non-Banking Financial Companies (NBFCs) under the regulatory and supervisory framework of the Reserve bank which provides for, among other things, registration of NBFCs, prudential regulation of

various categories of NBFC, issue of directions on acceptance of deposits by NBFCs and surveillance of the sector through off-site and on-site supervision. Deposit taking NBFCs and Systemically Important Non-Deposit Accepting Companies are subjected to a greater degree of regulation and supervision. The focus of regulation and supervision is threefold as mentioned below: depositor protection, consumer protection and financial stability.

- **Recent Changes in NBFC Regulations**

Tightening of NBFC Lending

In October 2021, RBI had introduced a scale based regulatory framework for NBFCs. The structure consists of four layers based on size, activity and perceived riskiness – base layer, middle layer, upper layer, and top layer. In April 2022, RBI has brought amendments to the October 2021 circulars by issuing four separate circulars, especially for Upper Layer NBFCs:

- **Large Exposures Framework** – for addressing credit risk concentration in NBFCs and is set out to identify large exposures, refine the criteria for grouping of connected counterparties and put in place reporting norms for large exposures.
- **Disclosures in Financial Statements** – the new circular makes it mandatory for NBFCs to make disclosures in financial statements in accordance with the new prudential guidelines, applicable accounting standards, laws, and regulations. These additional disclosure requirements are in accordance with the scale based regulatory framework and are an addition to the disclosure requirements specified under other laws, regulations, or accounting and financial reporting standards. The new disclosure requirements shall be effective for annual financial statements for FY 2023.
- **Scale-based Regulation for Capital Requirements** – As per new circular, large NBFCs have to maintain an equity tier-1 capital of at least 9% of the risk-weighted assets, wherein the common equity tier-1 capital will comprise the paid-up equity share capital, share premium resulting from equity shares, capital reserves representing surplus arising out of asset sales, statutory reserves, revaluation of reserves arising out of change in the carrying amount of property consequent to its revaluation in accordance with the applicable accounting standards.
- **Regulatory Restrictions on Loans and Advances** – On the regulatory restrictions on loans and advances of NBFCs based on the scale based regulation, which was first issued on October 22, 2021, it said the new guidelines will come into effect from October 1, 2022.

Large Exposure Framework for Upper Layer NBFCs

In the latest rules issued in April 2022, RBI stated that the exposure of a NBFC to a single entity must not cross 20% of its available capital base and, subject to board approval, an additional 5% exposure will be allowed. For a group of connected entities, the aggregate exposure will be limited to 25% of the non-bank's capital base. The rules, however, provide more headroom for infrastructure finance companies.

In October 2021, RBI had released a set of rules to classify NBFCs based on their size and perceived risks. RBI had said the upper layer of NBFCs could have group exposure of up to 40% of the capital base. While RBI has now reduced the exposure for group entities, the single borrower exposure limit has been retained.

With these rules, the RBI has now harmonized regulations for upper layer non-banks, commercial banks, and co-operative banks, leaving minimum room for arbitrage. The rules will help avoid concentration of risk and insulate lenders from shocks owing to failure of any large borrower account. The large exposure framework was first introduced for banks in the year 2016, and subsequently revised in 2019. In 2020, the guidelines were extended to urban cooperative banks, in the wake of collapse of the Punjab and Maharashtra Cooperative Bank in 2019.

This move by RBI will help to bring NBFCs on par with banks on large exposures. This has also led to speculation that the sector may enter a phase consolidation, especially after HDFC Bank's merger announcement with Housing Development Finance Corp. in April 2022.

End of Dual Regulation

Previously, there used to be tussles between the RBI and state governments over certain aspects of NBFC regulation. However, in May 2022, the Supreme Court ruled that state moneylending laws will no longer be applicable to NBFCs. Which means now only the RBI can oversee NBFCs and the order ends the dual regulation of such entities.

State governments could previously mandate the capping of interest rates and set additional norms for know-your-customer (KYC) processes. Such state regulations used to increase the cost of compliance for NBFCs. According to regulatory experts, small NBFCs often came under political pressure due to alleged interference by

the states. This vulnerability will now be minimised with this recent rule. Now, with zero interference by state, NBFCs can decide the rate of interest based on their assessment of a borrower's risk profile.

New Regulations for NBFC Base Layer

NBFCs in the Base Layer (NBFC-BL) shall be subject to the regulations as are currently applicable to Non-Deposit taking NBFCs (NBFC-ND) except the following provisions:

Minimum Net Owned Fund Requirements:

- NBFC-Peer to Peer Lending Platform (NBFC-P2P), NBFC-Account Aggregator (NBFC-AA), and NBFCs with no public funds and no customer interface shall continue to adhere to the Net Owned Fund (NOF) requirements of INR 2 crores.
- Also, no change has been proposed in the existing regulatory minimum NOF requirements for Infrastructure Debt Fund – Non-Banking Financial Companies (IDF-NBFCs), Infrastructure Finance Companies (NBFC-IFCs), Mortgage Guarantee Companies (MGCs), Housing Finance Companies (HFCs), and Standalone Primary Dealers (SPDs).
- Regulatory minimum NOF requirements for NBFC – Investment and Credit Company (NBFC-ICC), NBFC – Micro Finance Institutions (NBFC-MFI), and NBFC-Factors shall be increased to INR 10 crores.
- The glide path to achieve the revised NOF requirements for the existing NBFCs is provided in the table below:

NBFCs	Current NOF	By March 31, 2025	By March 31, 2027
NBFC-ICC	INR 2 Crores	INR 5 Crores	INR 10 Crores
NBFC-MFI	INR 5 Crores (INR 2 Crores in NE Regions)	INR 7 Crores (INR 5 Crores in NE Regions)	INR 10 Crores
NBFC-Factors	INR 5 Crores	INR 7 Crores	INR 10 Crores

Non-Performing Asset Classification

Modifying the classification norm of the Non-Performing Asset (NPA) to the overdue period of more than 90 days for all categories of NBFCs. NBFC-BL shall follow the glide path so as to adhere to the NPA classification provided as under:

NPA Norms	Timeline
>150 Days overdue	By March 31, 2024
>120 Days overdue	By March 31, 2025
>90 Days overdue	By March 31, 2026

Provisioning Norms for Standard Assets by Upper Layer NBFCs

In June 2022, RBI released provisioning norms for standard assets by upper layer (large) NBFCs. According to the regulations, upper layer NBFCs will have to set aside a loan amount in the range of 0.25-2% for standard assets as provisions. The rate of provision depends on different asset categories like small and micro enterprises (SMEs), real estate, and housing loans. These new norms will come into effect from October 1, 2022.

This move is aimed at regulating NBFCs, given their increasing role in the financial system. Through provisioning in advance, NBFCs can account for potential defaults and expenses in order to ascertain their financial standing.

• Reclassification

NBFC industry underwent a regulatory overhaul in October 2022, which introduced a four-tier segregation based on asset size, activity, and perceived level of risk. The four layers are named as Base Layer (NBFC BL), Middle Layer (NBFC ML), Upper Layer (NBFC UL), and Top Layer (NBFC TL).

Revised Categorization	
NBFC BL	All NBFC NDs with asset size below INR 1,000 Crore
NBFC ML	NBFC NDs with asset size above INR 1,000 Crore as well as NBFC D
NBFC UL	NBFCs that are monitored by RBI based on a set of parameters and scoring methodology. As per this framework, top ten eligible NBFCs in terms of asset size will always be categorized into this segment. RBI has identified and placed 16 NBFCs in NBFC UL category.
NBFC TL	At present this level is not populated. Any NBFCs in NBFC UL category which witnesses an

increase in systematic risk will be placed in this category.

- **Global NBFC Industry**

Globally, NBFC (Also referenced to as NBFI – Non-Banking Financial Intermediaries) segment began to grow in strength in the aftermath of financial crisis of 2008 which impacted the credit disbursement capability of all major global banks. NBFCs stepped into this vacuum and provided an alternative to bank financing. On the back of this enhanced role, NBFC credit in global stage increased from USD 52 Trillion in 2002 to USD 226 Trillion in 2020. By then NBFCs accounted for nearly 50% of global financial assets.

Source: RBI, Representation for 2020 pattern

- **Indian NBFC Industry**

Indian NBFC industry is a minor player in global NBFC space, and accounts for less 1% of the total NBFC asset base globally. Between 2002 and 2020, share of India's NBFC industry in global NBFC asset base have increased by 50 to 60 basis points. This reflects the aggressive credit growth achieved by Indian NBFC sector, as it supplemented the mainstream bank financing segment. During the same period, the size of India's NBFC sector as a share of the country's GDP increased from 18% to nearly 60%, underlining the importance of NBFC to the growth of Indian economy.

The last eight to ten years has witnessed strong growth in NBFC credit, due to a mix of favourable regulations, innovative product offering, and high credit appetite by consumers. The credit growth in NBFC sector has come at the expense of bank, with whom they are competing in the small sized retail loan segment. The significance of NBFCs can be gauged by the increasing share of NBFC credit to GDP, as against a declining trend visible in SCBs.

Source: RBI

- **Growth in Loan Book**

Gross loans & advances outstanding in the NBFC sector stood at INR 29.4 Lakh Crore as on 30th September 2022. There was a slight dip in credit growth in this sector during first couple of quarters of FY 2021, but since then the growth has remained strong.

Source: RBI

Credit disbursement in NBFC sector has grown at a faster pace than bank credit, a trend that has been continuation for the past eight to ten years. Although the overall slowdown in credit growth in last couple of years have impacted the pace of growth, NBFC sector has managed to maintain higher growth rate compared to bank credit.

Source: RBI,

- **Credit Disbursement Pattern**

Approximately 38% of total credit outstanding by the NBFC sector is concentrated in the industrial sector, making it the largest recipient of NBFC credit. Within the industry sector, nearly 80% of the outstanding credit is concentrated in large industrial segment. The MSME sector, which faces credit rationing and finds it challenging to raise credit from banking sector, continues to be under penetrated by the NBFC sector. Retail loans and loans to services sector form the second and largest recipient of NBFC credit, as on September 2022.

Source: RBI, Scenario as on end September 2022

Source: RBI, Scenario as on end September 2022

• Retail Loan Disbursement Pattern

FY 2022 witnessed aggressive growth of NBFC retail credit portfolio, as the segment became the largest disburser of retail loans. Out of 24 crore retail loans disbursed in FY 2022, NBFC segment accounted for nearly 50%. The count of retail loans disbursed by NBFC sector in FY 2022 was nearly 64% higher than previous year. By end of September 2022, the total outstanding retail credit portfolio of the NBFC sector stood at INR 8.8 Lakh crore, accounting for nearly 30% of the total loan book of the NBFC sector.

Vehicle loans dominated the retail loan portfolio of NBFC industry, accounting for nearly 40% of the total loan book as of September 2022. This dominance could be attributed to the leadership of NBFC industry in the two-wheeler loan segment – where it has the majority market share.

Source: RBI

• Funding Mobilization Pattern

NBFCs use a mix of deposits and borrowings to mobilize funds, of which borrowings forms the lion's share. Debentures followed by bank borrowings form the bulk of borrowed funds, while deposits include a mix of retail and corporate deposits. Given the stringent RBI norms on accepting deposits, the number of deposits taking NBFCs have dipped drastically, falling from nearly 270 in FY 2012 to 41 in FY 2022. However, this drop has not impacted the deposit volumes, indicating an increasing risk appetite among corporate and retail depositors.

Asset Quality

In 2020-21, NBFCs registered slight improvement in asset quality over 2019-20 due to asset classification standstill in view of the pandemic and with the help of resolution of a few accounts in the infrastructure category during the year. In the first half of 2021-22, asset quality of the sector had slightly deteriorated, the GNPA ratio inched up from 6.0% in March 2021 to 6.2%.

The asset quality of NBFCs saw an improvement by the end of FY21 on account of high provisions and marginal improvement in capital adequacy. However, as per RBI, GNPA of NBFCs, saw an uptick at the end of December 2021 owing to revised income recognition asset classification and provisioning (IRACP) norms. As of March 2022, GNPA and NNPA ratios of NBFCs increased to 6.2% and 3.3% respectively. NBFCs' overall asset quality may be impacted due to their high concentration towards the industrial sector.

Profitability and Capital Adequacy

In case of NBFCs-D, there was a deterioration in Return on Assets (RoA) and Return on Equity (RoE) in 2020-21 on account of the pandemic-induced slowdown. On the other hand, Net Interest Margins (NIM) improved during the same period, reflecting improvement in interest income along with lower expenses. The profitability of NBFCs-ND-SI in terms of RoA marginally increased in 2020-21 due to an improvement in the RoA of IFCs. The overall RoE of NBFCs-ND-SI declined. NIM was lower for all entities, reflecting subdued credit off-take.

- **Contribution to Economic Development**
- **Enhancing the Financial Market:** An NBFC caters to the urban and rural poor companies and plays a complementary role in financial inclusion. These NBFC companies bring much-needed diversity to the market by diversifying the risks, increasing liquidity in the markets thereby bringing efficiency and promoting financial stability of the financial sector. The financial market is dependent on the functions that are taken care of by these NBFC companies.
- **Infrastructure Lending:** NBFCs by lending to infrastructure projects, contribute largely to the growth of a developing country like India. The amount involved in infrastructure project is quite large, the projects being risky, with no surety of returns, and profits occurring after a longer time-frame. These factors deter banks from financing these projects. Since their inception, NBFCs have contributed more to infrastructure lending than banks.
- **Promoting Inclusive Growth:** All the top NBFC in India cater to a wide variety of customers – both in urban and rural areas. They finance projects of small-scale companies, which is important for the growth in rural areas. They also provide small-ticket loans for affordable housing projects. Microfinance provided by them plays an important role to attain stable financial inclusions. All these activities by the institution with an NBFC License help promote inclusive growth in the country.

- **Upliftment in the Employment Sector:** With the growth in operations of the small industries and businesses, the policies of NBFCs are uplifting the job situation. More opportunities for employment are arising with the influence of the NBFCs in the private as well as government sectors. The business activities in the private sector provide more employment opportunities and occupation practices.
- **Mobilization of Assets:** With more public preferring to deposit in NBFCs because of their higher rate of interest, NBFCs allow mobilization of resources; funds, and capitals. Due to their easier norms for investing, these companies create a balance between intra-regional income and asset distribution. Turning the savings into investments, these companies contribute to economic development as compared to traditional bank practices. Proper organization of capital helps in the development of the trade and industry, leading to economic progress.
- **Financing for Long-Term:** NBFC plays a key role in providing firms with funds through equity participation. As against traditional banks, NBFCs supply long-run credit to the trade and commerce industry. They facilitate to fund large infrastructure projects and boost economic development. Long-term finance permits growth with stable and soft interest rates. The economy thrives when businesses of SSIs and MSMEs flourish.
- **Innovative Products:** NBFCs, by being flexible in terms of lending and investment opportunities than banks, are more proactive in innovating financial products. This facilitates their growth in an exceedingly prudent manner. They fine-tune their selling campaigns regarding their target customers. NBFC P2P is a relatively new segment in India that is already creating waves by providing considerably higher margins and facilitating loans at a lower cost.
- **Demand Drivers**

NBFC has aggressively invested in expanding their coverage, modernized their technological infrastructure and introduced innovative products & solutions, all of which has helped the sector grow its credit deployment at a higher rate compared to scheduled commercial banks (SCBs). NBFC's have carved out niche business areas for themselves by understanding customers & building customized products, which the commercial banks fail to offer to its customers.

Key factors fuelling the aggressive growth of NBFCs in India

Strong Understanding of customer needs: NBFCs have developed deep understanding about consumer needs and demands with the help of competent market research teams that periodically take surveys. These surveys prove extremely useful in determining the financial needs of people of different age group, ethnicity, or job type. As a result, most of these NBFCs are also able to provide financial assistance to the segment of the society that finds it difficult to avail financial aid from traditional banks with rigid policies. NBFC's have strongly focused on unorganized & Under-served segments of the economy, which led the companies to create a niche for themselves through frequent interactions with their customer segments.

Leveraging Technology for Improved Efficiency and Enhanced Experience: Recently, several government banks have gone digital in all their transactions. However, NBFCs have been comparatively pro-active in incorporating technology with all their processes way before them. The use of technology has helped NBFCs in customize credit assessment models and optimize business processes, thereby reducing the time to market and helping improve customer experience. NBFCs are investing in data analytics and artificial intelligence to build robust relationships with their target customer segments.

Customized Product Offerings: All the banks provide standard interest rates and charges on their products that are subject to rules and regulations by the RBI. While there are certain RBI guidelines for NBFCs as well, but they are not as stringent as those for traditional banking institutes. This allows several NBFCs to opt for non-standard pricing models for product lines, in-line with the customer profile and inherent risk of lending. The facility to avail tailor-made financial products attracts a lot of people to choose these NBFCs over traditional money-lending institutions.

Co – lending arrangement: To widen the customer base, NBFC are scouting for opportunity to Co-lend and hence NBFCs are collaborating with various alternative lenders with digital platforms and even with commercial banks.

Wider and Effective reach: NBFCs are now reaching out to Tier-2, Tier-3 and Tier-4 markets, distributing loans across several customer touchpoints, building a connected channel experience, that provides an omnichannel seamless experience with 24/7 sales and service, as the consumers of today evolving and accessing digital media like never before, NBFCs have embarked on new and better ways to engage with the customer.

Efficient Risk Management: Since NBFCs also focus on lending to the sub-prime customer segment, and has regulatory disadvantage (SARFEASI, DRT, and capital adequacy requirements) in comparison to commercial bank lenders, NBFCs are ensuring enhanced governance through a proactive, robust, and agile risk management model. Therefore, most NBFCs appoint financial experts at each level of management to ensure the highest standard of security and discretion.

- **Post Pandemic Scenario**

NBFC sector in India has witnessed significant market driven and regulatory events in the last decade. Some of the noteworthy developments include the issuance of new bank licenses for universal banks, introduction of a new category of banks like small finance banks and payments banks; insolvency processes and the resolution of a few large Non-Performing Assets (NPA) situations. Before the beginning of the COVID-19 pandemic, the sector was dealing with the contagion effects associated with the collapse of a few NBFCs and co-operative banks. However, innovation and adoption of technology continued within the sector even during these challenging times.

The pandemic has motivated the industry to reconsider its operation model and client acquisition strategy. Digitization and automation have taken Centre stage. Newer digital lending products introduced by fintech players have been accepted by customers, thereby creating disruption, especially around client acquisition and retail lending products. Introduction of digital lending products largely entails self-service applications supported by back-end processing of applications on risk rating processes.

Additionally, tools that help risk-based pricing and lending decisions are expected to be the next growth enablers for NBFCs. Financial institutions in India have realized the importance of data and are investing in technology infrastructure to leverage both structured and unstructured data and transform them into analytics and subsequently, actionable insights.

Cloud technology and the use of Artificial Intelligence and machine learning tools to perform forward-looking analytics should help in effective client acquisition, better credit decisions, improved efficiency, and optimized costs.

- **Growth Forecast**

NBFCs' Assets Under Management is expected to grow in single digits (between 7-8%) in FY23 on the back of NBFCs continued focus on extending credit facilities to that segment of consumers where the penetration of bank is relatively low, the demand for credit from the retail segment will also continue to flow to NBFCs. Continuous investments in technology infrastructure and ease of access to internet will fuel the growth of NBFC in upcoming years. There would be steady demand from retail segments specially from Housing loans and Vehicle loans segments which will continue growth momentum of NBFC sector.

In the recent past, many NBFCs have improved in terms of liquidity, capital and provisioning which along with improving economic activity would enable NBFCs to comfortably position itself to capitalize the growth opportunities in the years to come, however there will be competition from banks. On Asset Quality front the recent change in NPA recognition norms by RBI to a daily due-date basis instead of the month-end will have implications. However, the increase in GNPA's because of the revised income recognition, asset classification and provisioning norms will be largely an accounting impact because given the improving economy, the credit profiles of borrowers are not expected to deteriorate. Consequently, ultimate credit losses are not expected to change significantly.

Retail loans are expected to see reasonably broad-based growth in the current and next fiscals supported by pick-up in demand and consequently underlying sales. Gold, home and unsecured loans should clock the fastest growth rates. On the other hand, wholesale credit would continue to degrow as platforms such as alternate investment funds gain currency.

Going forward, the funding access which currently is disproportionately biased towards large and parent – backed NBFCs, is expected to normalize as NBFCs are now focusing on diversifying their funding avenues like Co-lending and securitization as well as retail borrowings. Deposit accepting NBFCs are focusing on increasing share of retail deposits in their liability mix.

- **Rural Lending Scenario**

Till the nationalization of banks in late 1960s, credit demand in rural market in India was met by non-institutional actors, of which private moneylender was prominent. Poor infrastructure, and unfavourable business dynamics kept organized credit providers away from rural markets. Apart from these practical challenges, players in non-institutional credit segment were tightly integrated in rural economy which afforded them the capability to meet the random & specific credit requirements that emerged in the rural market.

However, this unorganized segment was not able to meet the burgeoning credit demand in rural market, leading to credit rationing / credit unavailability. This in turn stalled economic growth in rural markets and given the dominance of rural economy in the first couple of decades post-Independence, the overall economic growth in the country remained low.

The average debt per household in rural India is estimated to be INR 60,000. The average debt is highest among self-employed (traders / merchants / shop keepers / non farming), standing at approximately INR 88,000 while it was lowest among casual labourers (employed in non-farming sector).

Average debt level among different classes of household in Rural India	
Type of Household (By Occupation)	Average Debt (In INR)
Self-employed (Non-Farming: traders / merchants / shop keepers etc)	INR 88,500
Agriculture / Farming (Own land)	INR 80,000
Regular Wage / Salaried	INR 77,000
Daily Wage / Casual Labourer (Non-Farming Activity)	INR 30,000
Daily Wage / Casual Labourer (Farming Activity)	INR 28,000
Others	INR 27,000
Average across rural household	INR 60,000

• Key Demand Drivers

Credit demand in rural markets has traditionally been driven by the agriculture sector, which being the dominant economic activity in rural regions. Although informal / non-institutional credit agencies continue to service the credit demand of the agriculture sector, initiatives by the Government have led to a decline in loans from those players. Apart from fiscal support & policies, the application of priority lending norms to agriculture has also helped in the flow of credit to agriculture sector. As a result, agriculture lending came to be synonymous with rural credit and banks became the leading credit supplying agencies.

However, there exists credit needs other than agriculture credit and the current rural lending structure fails to address those needs. Some of these non-agriculture credit demands emerging from both agriculture & non-agriculture households include:

- **Medical Needs:** It is estimated that only 8 – 10% of population in rural Indian has life insurance coverage while less than 20% has any sort of insurance coverage. Such a low insurance penetration means out of pocket expenditure remains the main source of funding for medical needs. The average household income in rural India is estimated to be INR 165,000 – INR 170,000 out of which bulk is spend on daily sustenance leaving little for emergency needs. As per 75th round of NSS survey, average hospitalization expense in rural India is estimated to be nearly INR 17,000. Given non-existent health insurance penetration, the healthcare expense is met mainly through out-of-pocket expenditure and has become a major financing demand in rural markets.
- **Sizable Rural Population:** Despite the pace of urbanization & rural to urban migration that has happened in India for the past two decades, 70% of the total population and approximately 65% of the total households in India is still concentrated in the rural market. This underlines the importance of rural market. The shift in economic profile meant, the share of agriculture to total economic output has gone down. Hence the impact that agriculture has on overall economic growth is lower. However, the sheer size of rural population meant it accounts for a huge pool of consumer base – albeit which is untapped. The existing institutional credit agencies primary meet the agri credit needs of this population, while non agri credit demand is not met. This presents a huge untapped opportunity.
- **Shift in demographic profile:** The demographic profile is in a transition stage with the percentage of youth population on the rise – whose consumption & aspiration pattern is completely different from their earlier generation. Demand for consumer products ranging from FMCG products (personal care), consumables to big ticket items like vehicles has witnessed an increase in rural areas. Although income levels in rural areas have improved, the growth is not enough to keep up with the aspirational changes happening. The gap is especially felt in financing of big-ticket purchases – primarily vehicles. There is a requirement for a growth in credit offering from institutional side to meet these non-agriculture credit needs.

- **Business loans:** Probably one of the biggest usages of credit in rural market is small ticket loans that are used in employment generating activities. The end usage of this credit puts it into the larger category of business loan, but unlike traditional business loans the ticket size is very smaller. Demand for these loans emerge from cottage industries, and micro & small-scale industries in the rural region – for working capital needs / expanding the operation. The lack of credit history and higher risk levels has kept these segments out of the formal credit channels, forcing them to depend on informal credit channels (led by money lenders).

To summarize, institutional credit mechanism to meet the non-agriculture credit demand in rural India is poorly developed. The higher transaction cost, low ticket size, risk profile and lack of collaterals has made this segment unattractive for formal credit agencies. The situation underwent a change with the introduction of microfinance services through SHG-BLG program. Although microfinance has improved the credit flow to rural markets, it is still way below the progress made by banking & NBFC sectors in urban markets. Thus, there exists ample untapped opportunity in rural market for a structured credit product.

- **Current Scenario & Sources of Credit**

Considering the average household debt of INR 60,000, the total outstanding debt among rural households in India is estimated at INR 10 Lakh Crores. Given the dominance of agriculture in rural regions, the dominance of farming household in household debt is expected. However, the higher debt level among households that classified as self employed outside farming sector points to the increase in credit demand from small scale entrepreneurial activities. These include economic activities ranging from animal husbandry, shops & trading to small scale (cottage) industries.

Approximately 66% of outstanding cash debt in rural market is held by institutional agencies that include scheduled commercial banks, NBFC and MFIs. The remaining 34% is held by non-institutional credit agencies comprising private moneylenders and others. The proportion of non-institutional credit is slightly higher among non-cultivator households, compared to farming households.

Cash debt exposure pattern among rural households: Institutional v/s non-institutional credit agencies			
Type of Credit Agency	Cultivator Households	Non-Cultivator Households	All Households
Institutional	67.0%	63.9%	66.1%
Non-institutional	33.0%	36.1%	33.9%
Total	100.0%	100.0%	100.0%

Source: NSSO Survey, All India Debt & Investment Survey 2019

Although institutional credit agencies, led by scheduled commercial banks, has increased their penetration in rural markets, the role played by non-institutional credit agencies has not diminished. Private moneylender who is the dominant segment within the non-institutional credit framework serving rural market continues to be major player – second only to banks in terms of share of total debt outstanding. Private moneylenders together with agriculture specific moneylenders accounted for nearly 23% of total outstanding debt in the rural market. Despite the aggressive growth made by microfinance entities, their share of the total outstanding credit in rural market remains in the range of 6%.

Source: NSSO Survey, All India Debt & Investment Survey 2019

From a pan India level, the share of non-institutional agencies in total outstanding rural debt has fallen below 34%. However, in certain states, this segment continues to be the dominant form of credit source to rural consumers / households. The share of non-institutional credit agencies is highest in Daman & Diu -with 71% of total outstanding debt – while it remains more than 50% in four states and between 40% and 50% in four more states.

- **Strengthening of Institutional Credit Agencies**

Bank nationalization was the first step by the Government to address the credit rationing that was prevalent in the rural markets. This move led to the expansion of branch network of nationalized banks into hinterland, and gradually began to displace non institutional players. Although the business cost incurred by institutional credit agencies (like banks) in extending credit in rural markets was high, they were able to successfully replace private moneylenders as the dominant credit agencies in rural markets.

Apart from bank nationalization, the Government and Reserve Bank of India (RBI) introduced several new players to strengthen institutional credit segment including rural cooperatives, regional rural banks, and finally NABARD (National Bank of Agriculture and Rural Development) in 1982. These measures strengthened the institutional credit supply.

Consequently, the share of non-institutional credit agencies in total credit outstanding in rural markets began to decrease. From a high of nearly 95% in 1950 it came down to the range of 30 – 40% by early 1990s. Since then, it has remained in that range. By 2020, the share of non-institutional sources of credit dropped to an all time low of approximately 34%.

NSSO Report, All India Debt and Investment Survey, Secondary Research

As seen in the above chart, the pace of penetration of institutional sources of credit in rural market plateaued in early 1990s, and since then the rate of growth has been marginal. This is often correlated with the economic liberalization that happened in 1991, and the autonomy that was accorded to nationalized banks to compete in the liberalized economy. As a result, the unbridled expansion into rural markets by nationalized banks came to a stop as focus was increasingly on improving profit margins. Rural markets, with its higher transaction cost, and lower ticket size were dragging down the margins and subsequently received lower priority. This is the primary reasons behind the stagnation of institutional credit sources in the 30 – 40%, for the past couple of decades.

- **Rural Credit Skewed Towards Agriculture Sector**

Focused regulatory approach by the Government of India, and Reserve Bank of India (RBI) succeeded in improving the credit flow in rural market, by facilitating greater involvement of institutional credit agencies. Although several challenges, with respect to higher transaction cost and rigid lending norms, remained institutional agencies managed to increase their market share.

However, the focus was primarily on the agriculture & allied sector- which was the dominant economic activity when the Government intervention measures were introduced. The systems and structures that were put in place, including the formation of agencies like NABARD were all geared to ensure credit to agriculture sector. By 1970 – 1980's a strong institutional credit framework addressing rural credit demand was in place, and this comprised of NABARD, nationalized banks, Regional Rural Banks, and credit cooperatives. Although the pace of growth in credit extended by nationalized banks to rural sector began to slow down post 1991, the presence of alternative agencies meant the flow of credit was not disrupted.

Predictably rural credit became synonymous with agriculture & allied credit. This model worked well during 1950 to late 1980 / early 1990 model when agriculture was the predominant economic activity. The

liberalization policies implemented in early 1990s changed the face of Indian economy with contribution from manufacturing and service segment picking up pace. Agriculture soon slipped below manufacturing and services in terms of economic output. The changes in economic climate as well as strides made in education and infrastructure development in rural markets led to a shift in the profile of working population. Urbanization started rural urban migration, while younger population staying back in rural markets were exploring vocations other than agriculture. As per Census data, the number of farmers (cultivators) has been declining. Between 2001 and 2011, the number of cultivators declined by 9 million.

NSSO Report, Secondary Research

Findings from latest NSSO surveys clearly outlines the trend of declining workforce in agriculture. Although rural urban migration has contributed to this decline, that factor alone is not the trigger for this decline. Emergence of better opportunities in non-agriculture segment too have played a role in this decline. Thus, there exist a large pool of population in rural areas whose livelihood is not directly dependent on agriculture.

Despite this shifting trend in workforce participation in rural markets, the credit flow to rural markets from institutional sources continues to be concentrated in agriculture & allied sectors. Population / household outside of agriculture sector is thus facing credit rationing and is forced to depend on non-institutional credit sources.

- **Vehicle Lending in India**

Vehicle finance is estimated to account for nearly 100% of total commercial vehicle sales and 80% of personal vehicle sales in India. In two-wheeler segment this penetration rate is estimated to be less than 50%. Banks remain a major player in overall vehicle loan market in India, but their share varies with segment. For instance, in two-wheeler loan and commercial vehicle segment NBFC is estimated to have the upper hand, when compared to passenger vehicle segment.

- **Two-Wheeler & Passenger Vehicle Financing**

By November 2022, the outstanding automobile loans (comprise of two-wheeler and passenger vehicle loans) in India was approximately INR 6.4 Lakh Crore. Between March 2017 and March 2022, the outstanding loan portfolio increased by a compounded growth rate of nearly 6.4%. Banks dominate the passenger vehicle loan segment with nearly 73% share while two-wheeler loan segment is dominated by NBFCs with a market share of nearly 64.5%.

• Indian Commercial Vehicle Market

Commercial vehicle sales in India rebounded in FY 2021, after two consecutive years of contraction, to post annual sales volume of nearly 716,000 units. The industry is expected to end FY 2023 with a sales gain of 12 to 15% over previous year, indicating the return to normalcy. However, annual sales are yet to breach the one million mark that was achieved in FY 2019, before economic downturn and pandemic lowered the demand.

The strong demand revival has also benefitted the used commercial vehicle industry, which forms an integral part of Indian commercial vehicle landscape. The trucking industry in India is fragmented and unorganized, with single / multi vehicle owners forming the dominant part. It is estimated that small fleet owners – with not more than 5 to 20 trucks – account for nearly 85% of the Indian trucking market. This segment is constrained by capital, and access to bank services – thereby limiting their ability to procure new trucks. Subsequently this large unorganized segment tends to rely on used trucks to expand / refurbish their fleet – because of lower cost as well as ease of procuring vehicle financing through NBFC channels.

Used Commercial Vehicle Demand: Key Factors

The demand for used vehicles is expected to strengthen on the back of improvement in fleet utilization, higher price of vehicle, as well as higher fuel cost.

- Fleet utilization level in Indian trucking industry, which plunged to record lows during the covid-19 pandemic, is improving. On the back of recovery in core sectors like cement, coal & steel, the fleet utilization level improved to 75% in FY 2021 and further to 88% in FY 2022. It is expected to reach 95% in FY 2023. This increase in fleet utilization level – on the back of resumption in cargo movement – would trigger demand for commercial vehicles. However, given the dynamics of trucking industry in India the

fleet expansion operations would play out differently in organized and unorganized segment. In the organized segment – comprising of large fleet operators – the expansion would be by induction of new vehicles. However, in the unorganized segment – dominated by small fleet owners – the expansion would be a mix of both new and used vehicles, due to the capital constraints.

- The supply chain disruptions that have delayed the shipping of parts have impacted the production of commercial vehicles. This in turn have increased the cost of the commercial vehicle, putting it out of bounds of smaller fleet operators. Subsequently, smaller fleet owners are gravitating more towards used commercial vehicles. Apart from lower upfront cost, the ease of procuring financing from NBFC for used commercial vehicles have also increased its attractiveness.
- The cost of vehicle is also impacted by the shift to BS VI regime. Shifting from BS IV to BS VI pushes the vehicle cost by 10 to 15%. Under this scenario, used BS III / B IV vehicles that are priced lower becomes an attractive option for smaller fleet operators.
- Despite the corrections in international crude oil prices, diesel prices in India have remained high. Since fuel cost accounts for bulk of operating cost borne by a fleet operator, higher diesel cost have pushed up the operating cost. Under such a high working capital scenario, the appetite to invest in newer vehicles is low. Used commercial vehicles with lower cost forms an attractive option.
- **Commercial Vehicle Financing**

Outstanding loan portfolio in India's commercial vehicle segment is estimated to be INR 4.2 Lakh crores, as of March 2022. Two thirds of the outstanding credit is accounted by new vehicles while used CV financing accounts for the rest. Banks and NBFCs (including captive NBFCs) are the major players in Indian commercial vehicle financing segment. Banks accounts for more than 50% of the new commercial vehicle financing segment while NBFCs account for more than 90% of used commercial vehicle financing business in India.

CARE Ratings, Dun & Bradstreet Estimates

With fleet utilization level expected to touch 95% by end of FY 2023, the trucking & logistics industry is expected to witness fleet expansion. However, higher cost of vehicle due to shift from BS IV to BS VI would create capital constraints for smaller fleet owner / operators. With fuel cost reigning high, smaller operators will find it difficult to raise funds for capital expansion. In such a scenario, the unorganized segment would opt for lower priced used vehicles, rather than the costly new BS VI models. Subsequently, the demand for used commercial vehicle financing would go up. In addition, the lower EMI of used commercial vehicles too would be an added advantage for smaller fleet operators. **Two-Wheeler Demand in Rural Market**

Passenger vehicle sales in rural market is dominated by two-wheeler segment while the penetration of cars / passenger four-wheeler segment remains low. Higher ticket size of the later together with low-income level and challenges in accessing vehicle finance (for four wheelers) are the key hurdles that is preventing the sale of passenger four wheelers in rural market.

Total sale of two wheelers in rural India is estimated to be in the range of 6.7 – 7.0 million units in FY 2022, accounting for slightly more than 50% of total two-wheeler sales in India. Bulk of the two wheelers sold in rural

market are models with engine capacity in the range of 75 – 125 cc, which represents the lowest segment in terms of average ticket size.

Approximately 6.7 million two-wheeler loans were disbursed in FY 2022, while the total value of loans disbursed was approximately INR 49,700 Crore. Of the total two-wheeler loans disbursed in FY 2022, nearly 49% were disbursed in rural markets while the total value was nearly INR 23,000 Crore. The share of two-wheeler loans disbursed in rural market has been increasing steady. Between FY 2018 and FY 2022, the share of rural two-wheeler loans increased by nearly 10 percentage point (As per CRIF High Mark).

Used two-wheeler demand in India

The onset of pandemic saw a shift in transportation pattern with commuters switching to private transport options. Given the budget constraints, the pickup in vehicle demand varied from region to region. In urban markets, this development benefited the sale of passenger cars while in rural markets the sale of two wheelers received a momentum.

Used two wheelers were also one of the beneficiaries of this development. Considering the lower purchasing power in rural markets, used two wheelers with a lower price tag emerged as a popular alternative to new vehicles. The pandemic has severely impacted the livelihood and earning potential in rural & semi-urban markets and this in turn has impacted the purchasing decisions – favouring lower priced used vehicle options. In addition, the price hike of newer vehicles have also helped increase the demand for used two wheelers.

- **Two-Wheeler Financing in Rural India**

In FY 2022, the total number of two-wheeler loans disbursed in rural market is estimated to be 3.3 million, while the total number of two-wheelers sold in rural market is in the range of 6.7 to 7 million units. Thus, only half of the total two-wheeler sales in rural market is financed by institutional credit agencies while rest is financed either by own funds or through non-institutional credit agencies. Given the low-income levels in rural market, a large part of the two-wheeler purchases not covered by institutional lending would be financed by non-institutional / informal segment. In FY 2022 this accounted for nearly 3.5 million two wheelers sold in rural market, and this presents the untapped market potential for institutional credit agencies.

Dun & Bradstreet Estimates

- **NBFC Presence in Vehicle Financing**

As on March 2022, the total outstanding vehicle loan portfolio of NBFC segment is estimated to be nearly INR 5.9 Lakh Crore, with nearly 72% of them being commercial vehicle loans. NBFC share in total two-wheeler loan portfolio is estimated to be nearly 65% while its share in passenger vehicle is estimated to be nearly 25%. In CV financing segment, the market share of NBFC is estimated to be nearly 62% (including new and used CV financing).

NBFC Presence in Vehicle Financing		
Vehicle Segment	Gross Loan Portfolio	Market Share
Two-Wheeler	INR 0.50 Lakh Crores	~65%
Four-Wheeler / Passenger Vehicle	INR 1.16 Lakh Crores	~25%
Commercial Vehicles (New & Used)	INR 4.19 Lakh Crore	~62%

- **Market Opportunity in Rural Lending**
- **Unmet Credit Needs in Rural Market: Non-agriculture Population Segment**

Analysing the trend of institutional credit flow to rural markets, and the shift in workforce pattern there exists a sizable volume of labour pool who falls outside the purview of the present model of institutional credit. This segment comprises of non-agricultural daily wage laborers, small traders, small business (cottage industry / MSME) owners, and salaried employees. Because of their employment profiles none of these workforces qualify for the credit products offered by the prevalent institutional credit agencies that are servicing rural markets. The demand from these consumer segments are retail loans which are not actively sold by institutional credit sources in rural markets. Subsequently, these consumer segment has turned towards non institutional credit agencies (like money lenders) for their financial needs.

The total volume of rural labour force is estimated to be nearly 275 million in FY 2022, of which only 43% are engaged in farming. It is the remaining 57% of the workforce whose credit demand is not met properly by the existing institutional credit agencies that forms the potential market.

- **Focus Segments**

Rural lending scenario in India has undergone major transformation in the past couple of decades, culminating in the growth of institutional credit. From nearly 30% in total credit, the share of institutional credit in rural market has increased to nearly 66%. This is a result of focused Government policies, market friendly regulations, and innovations in NBFC segment the share of institutional credit in total outstanding credit in rural India has deepened.

Despite this advance, there remains few pockets where non-institutional credit (led by private moneylenders) continues to have a dominant market share. Andhra Pradesh, Bihar, Manipur, Telangana, and Rajasthan are the states where non-institutional credit plays a dominant role. It is these markets that would present attractive growth opportunity for institutional credit agencies like NBFCs and NBFC-MFIs.

From a consumer segment perspective, opportunity for deepening institutional credit in rural market would be higher among non-agriculture households which includes traders, casual labourers, and regular wage earners in rural market. Additionally, non-farm related credit demand from agri households too presents an opportunity for NBFC and NBFC-MFI segment.

Among all the credit products that has made inroads into rural markets, micro credit disbursed by MFIs and vehicle loans (primarily two-wheeler loans) by NBFCs are the most developed. As on March 2022, the total outstanding credit in microfinance sector was approximately INR 2.48 Lakh crore. Meanwhile nearly INR 23,000 Crore of two-wheeler loans were disbursed in rural markets during the same year.

Microcredit as a business model has been well accepted in rural markets, and it would continue to be a key tool in meeting the small ticket credit requirement in rural markets. On top of the organic growth, the industry would also benefit from the recent regulations that has expanded the potential customer pool as well as outlined steps to improve the transparency in the sector.

In vehicle financing segment, two-wheeler loans would continue to be the leaders – given the increasing demand as well as the well-developed network of vehicle finance players in the rural market. At present nearly 50% of the total two-wheeler sales happens in rural market. By FY 2027, two-wheeler sales in India is estimated to reach nearly 24 million units per annum. Assuming the share of rural market remains unchanged, the total volume of two wheelers sold in rural markets would be nearly 12 million units per annum. These 12 million loans is the potential market opportunity for NBFCs planning to target the two-wheeler loan market in rural India.

Rural Lending Scenario: Emerging Opportunities	
Customer Segment	Credit needs of ~157 million strong rural populations (non-agri labour force) Non-farm related credit demand of nearly 118 million strong agri labour force
Markets with High Growth Potential	States of Andhra Pradesh, Bihar, Telangana and Rajasthan, where the share of non-institutional credit agencies in total outstanding household debt is more than 40%

Credit products	<p>Microcredit: personal loans, small business loans</p> <p>Vehicle loans: Two-wheeler loans (two wheeler sales in rural market is expected to reach 12 million units per annum by FY 2027 and this presents a strong growth opportunity for two wheeler financing companies focusing in rural markets)</p>

Overview

We are a non-banking finance company (“NBFC”) incorporated in the year 1996 registered with the Reserve Bank of India as a Non-systemically important non-deposit taking company with over two decades of lending experience in rural and semi-urban geographies in India. We are primarily engaged in rural and semi-urban centric lending solutions to look after the needs and aspirations of rural and semi-urban populace. Our portfolio includes Vehicle Finance and Business Finance Products to small business owners. We have a long history of serving rural and semi-urban markets with high growth potential and have maintained a track record of financial performance and operational efficiency through consistently high rates of customer acquisition and retention and low cost expansion into underpenetrated areas. Therefore, we strategically focus on clients in the rural and semi-urban sector.

Our digital lending platform www.aasaanloans.com is currently under development and will be rolled out in a phased manner. Initially the vehicle loans would be launched and the Business Finance would be rolled out for making the operational process easier and faster. We have taken a baby step towards the same by launching a website aasaanloans.com. This differentiated approach aids in the identification of businesses with low risk and high promise, thereby providing opportunities for those who previously had no access to long or short-term financing.

We have our footprints in rural and semi-urban geographies in 4 Indian states Rajasthan, Maharashtra, Madhya Pradesh and Gujarat through registered office located at Udaipur, Rajasthan, 7 branches and over 20+ points of presence including digital and physical branches having served over 2,00,000 customers till date.

Our Key Borrowers

1. Individuals
2. Small business owners

As on September 30, 2022, the company reported an AUM of approximately Rs.32398.52 Lakhs and Net Worth at Rs.15145.7 Lakhs respectively. The registered GNPA and NNPA were 4.87 % and 3.84 % and the PAT for the period ended September 30, 2022 is Rs. 614.76 Lakh

Our Products

We operate two principal lines of business, namely,

1. Vehicle financing, comprising of Used Commercial Vehicle, 2 Wheeler Loans, Used 2 Wheeler Loans and
2. Business Finance to small business owners and SME/MSME business owners.

Vehicle Finance

Our Vehicle Finance business primarily involves providing financing for purchases of two-wheelers and three-wheelers passenger vehicles used or new commercial vehicles. Our vehicle finance operations involve a relatively larger sourcing team as compared to our other business lines as it is largely based on our experience of working with customers with limited credit history and our ability to effectively assess risks associated with financing used vehicles. As of September 30, 2022, our Vehicle Finance Credit Exposure amounted to Rs. 6622.85 Lakh

Our customers are predominantly transport operators, small businesses and self-employed and salaried individuals, who generally contribute between 10.0% and 30.0% of the purchase price of the asset financed, with the balance lent by us. We secure our loans through the hypothecation of each asset financed.

Two-wheelers and Three-Wheelers

We finance the purchase of new two-wheelers and Three Wheelers, such as Scooters, motorcycles and auto rickshaws to salaried professionals and self-employed non-professionals. We are headquartered in Udaipur and have our presence in the state of Rajasthan, Madhya Pradesh, Gujarat and Maharashtra. We believe that Vehicle Finance business requires local on the ground presence. We have hired professionals with relevant experience in order to develop our vehicle finance business. We intend to leverage the relationships of our team members to make our footprints PAN India.

Used commercial Vehicles

We finance the purchase of used commercial vehicles, including light commercial vehicles (“LCVs”), which carry goods and passengers, and heavy commercial vehicles (“HCVs”), which carry goods. For LCVs, our customers are typically medium and small fleet operators. For HCVs, our customers are typically transport operators and small businesses.

Business Finance to small business owners including SME and MSME

Our lending business to small business owners including SME and MSME lending business, primarily involves us extending secured loans for business purposes to small and medium size enterprises, including businessmen, traders, manufacturers and self-employed professionals. The property securing these loans are typically completed and largely self-occupied residential and commercial property. We currently provide business loans from our branches located across four states in India, we believe that our in-depth product knowledge, relevant financial services domain knowledge, ability to structure loans to suit our customers’ financial needs and our short turn-around-time for processing loan applications have positioned us as a preferred credit provider and allows us to benefit from the growing SME and MSME segment in India. Our total credit exposure as of September 30, 2022 is Rs. 32398.52 Lakhs out of which 79.56% of total credit exposure is of SME/ business loan which is Rs. 25776.26 Lakhs.

Our Operations

We carry out our operations in the format of “hub & spoke” business model. We conduct our retail operations through our registered office located at Udaipur, Rajasthan having 4 branches in Rajasthan and 3 branches located in the state of Maharashtra, Gujarat and Madhya Pradesh respectively. We also have digital presence at more than 20 locations across India. In small business finance and vehicle finance businesses, our branches digital presence/ act as the primary point of sale and assist with the origination of loans, various collection

processes and enhancing customer service, while our central support office provides support functions, such as loan processing and credit monitoring. We maintain clear segregation between our sourcing and credit approval teams so as to ensure independence and effectively manage operational risks. Our enterprise-wide loan management system integrates all activities and functions within our organization under a single technology and data platform, bringing efficiencies to our back-end processes and enabling us to focus our resources on delivering quality services to our customers.

We maintain long-term relationships with our lenders and as of December 31, 2022, our lenders included, amongst others, 5 public sector banks, 2 private sector banks, and 10 other financial institutions. Our distribution network included personnel in our in-house sales team. We have and expect to continue to benefit from professional expertise of our Promoters.

Our locations

Apart from our Registered Office located at Udaipur, Rajasthan, we have network of 7 branches, spread across 4 states, Rajasthan, Maharashtra, Gujarat and Madhya Pradesh. Apart from our branch network we have our reach to 24 locations digitally. Though we do not have formal offices at these locations but our employees are present at these locations who manage business sourcing, collection and customer relations.

Our competitive strengths:

1. Proven execution capabilities with a strong rural and semi-urban focus

Rural and semi-urban Areas in India are a highly under-served market for formal banking services in terms of access, availability, and suitability of products and services. We have a long history of serving rural and semi-urban markets with high growth potential and have maintained a track record of financial performance and operational efficiency through consistently high rates of customer acquisition and retention and low-cost expansion into underpenetrated areas. Therefore, we strategically focus on clients in the rural and semi-urban sector. Accordingly, 61.19%, 60.70% and 61.19 % respectively in fiscal 2020, 2021, 2022 of our portfolio was in Rural Areas. Dun & Bradstreet Report notes that, despite the pace of urbanization & rural to urban migration that has happened in India for the past two decades, 70% of the total population and approximately 65% of the total households in India is still concentrated in the rural and semi-urban market. This underlines the importance of rural and semi-urban market. The shift in economic profile meant, the share of agriculture to total economic output has gone down. Hence the impact that agriculture has on overall economic growth is lower. However, the sheer size of rural and semi-urban population meant it accounts for a huge pool of consumer base which is untapped. The existing institutional credit agencies primarily meet the agri credit needs of this population, while non agri credit demand is not met. This presents a huge untapped opportunity.

Dun & Bradstreet Report also notes that, rural and semi-urban lending scenario in India has undergone major transformation in the past couple of decades, culminating in the growth of institutional credit. From nearly 30% in total credit, the share of institutional credit in rural market has increased to nearly 66%. This is a result of focused Government policies, market friendly regulations, and innovations in NBFC segment the share of institutional credit in total outstanding credit in rural India has deepened.

2. Well established Vehicle Finance, small businesses lending business

We have established a strong Market of Vehicle Finance Business and business lending which Include Small business, MSME and SME businesses.

We believe that the success and continued growth of business is underpinned by, among others,

- (i) our experience and expertise in identifying and directly sourcing potential borrowers through our knowledge of local markets and customer centric approach
- (ii) our ability to offer customized solutions to address our customers financial requirements, and
- (iii) our ability to structure our loan products to maximize our returns, where initial fee accruals and average life of loans being less than the tenor of the loans have allowed us to enjoy relatively higher internal rates of returns.

We have achieved growth while maintaining core focus on conservative credit assessment and risk management, and ensuring, among other criteria, that we lend to borrowers with proven track record and strong cash flow, we obtain sufficient collateral. We have also built a strong Vehicle Finance Business and small business owners lending business focused on extending secured loans to small and medium size enterprises, including businessmen, traders, manufacturers and self-employed professionals. We believe that the growth of our Vehicle Finance Business and small business is attributable to our reach to rural and semi-urban areas through our network, comprising strong presence in the state of Rajasthan and three branches located in the state of Maharashtra, Gujarat and Madhya Pradesh, and various other locations we are present. which we believe are key markets in India for Vehicle Finance business and small business lending business. In addition, all our loans are secured against collateral, granted at competitive rate of interest, and involve monthly and quarterly loan repayment schedule. We believe that our focus on stringent cash flow-based borrower assessments and having our loans collateralized by completed and largely self-occupied residential and commercial property provides for sustainable and continued growth of our lending business. As of September 30, 2022, we believe that our Vehicle Finance Business and business lending businesses provide us with a strong platform for expanding into various geographies in India and new innovative products.

As at March 31, 2022, we had more than 33,959 loans as of Vehicle Finance and MSMEs outstanding, including small enterprises, and self-employed non-professionals for their stores, retail outlets, handicrafts manufacturers and other businesses. Our loans AUM as on September 30, 2022, March 31, 2022, March 31, 2021, March 31, 2020 were Rs.32398.52, lakhs Rs.35131.79 lakhs, Rs.42100.78 lakhs, Rs.47943.31 lakhs. Out of above data Rajasthan has highest contribution which covers 72.97% as on half yearly 30 September.

3. Stable and experienced management team

We believe that the long-standing industry experience of our Individual Promoter and our management team provides us with an understanding of the needs and behaviour of the clients particularly in rural and semi-urban Areas, the nuances of lending to these clients and issues specific to the NBFC industry in India. We believe that this expertise gives us a competitive advantage in this industry and has helped us in maintaining our resilience through industry cycles including covid period.

We have a strong, experienced and dedicated management team, including KMPs with significant industry experience and who have demonstrated their ability to deliver growth and profitability, across business cycles. Our Key Managerial Personnel includes a combination of management executives and independent members who bring in significant business experience, which positions us well to capitalize on future growth opportunities. Each of them have extensive experience in the banking or related industry such as finance, commercial operations, strategy, audit, business development, human resources, compliance and public relations.

Founder Director of the Akme Group Mr. Nirmal Kumar Jain is a first-generation entrepreneur. A Professional Chartered Accountant (CA) and Cost Accountant (ICWA) having more than two-decades business experience in the field of finance. He is the chief architect of AKME Group and Chairman and Managing Director of our Company. Under his leadership, the Company believes that it has shown growth across industry cycle.

4. Customer centric approach and deep understanding of target customers

We have gained a deep understanding of our market and customer base over the years that enables us to meet the financial requirements of our existing and potential customers. We believe customers prefer a single source for multiple financial services, and accordingly offer a range of credit products and services to address a variety of financing requirements of the customer through our network. These practices helped us to achieve our endeavour of having primary lending relationship.

Our main focus is on providing our products and services to lower and middle income group segment customers in our areas of operations. We are a one-stop financial hub for our customers for its financial needs where we operate. As of 31 March, 2022 and 31 March, 2021 we had 33959 and 45315 customers respectively. Further, as of September 30, 2022, Apart from our Registered Office located in Udaipur, Rajasthan, we have 7 branches located in rural and semi-urban areas and digitally present in more than 20 locations. As the majority of our customers are individuals from lower and middle income group segments, we have designed our products in a manner such that they are simple to understand, which we believe contributes to their popularity amongst customers. We believe in deep customer engagement at every stage through our relationship managers, deployed at our branches. We strategically follow hub and spoke business acquisition strategy which helps us to identify the customer needs effectively and respond with solutions.

We target customers across the sectors with special attention to rural and semi-urban centres because we believe that we not only run a socially responsible and sustainable business, but also that borrowers in these regions tend to have lower credit penetration. Further, in these markets, there is less competition, lower risk of customer migration (leading to longer, more loyal customer relationships), better credit behaviours and, in turn, lower delinquency rates. We also encourage local hiring to stay connected to our customers through personal and digital means and provide them seamless services. We believe that our track record of originating and servicing these loans, together with our extensive network, positions us favourably to compete in these segments and continue to grow our business.

5. Access to Diversified Sources of Capital and Effective Asset Liability Management

Over the years, we have adopted a calibrated approach towards diversifying our fund raising sources and minimizing our costs of borrowings with prudent asset liability management and effective liquidity management.

(Rs.In Lakhs)				
Particulars	As at September 30, 2022	As at March 31, 2022	As at March 31, 2021	As at March 31, 2020
Total Borrowings	19536.00	23006.03	31782.23	39912.84

We believe that our focus on building a healthy balance sheet with a balanced mix of assets, liability and equity and a positive net asset position has enabled us to overcome various negative market conditions in the past.

We believe that over the years, we have developed a diversified funding base, and have established strong relationships with our lenders. Our funding requirement is met through short and medium-term funding sources such as loans from banks and financial institutions, NCDs, and ECBs. As at September 30, 2022, our borrowings (other than debt securities and sub debts) were ₹16536 Lakhs, debt securities were ₹1000 Lakhs, subordinated liabilities were ₹2000.39 lakhs. Our cost of borrowings as of September 30, 2022, March 31, 2022, 2021 and 2020 were 12.66%, 12.78%, 13.40%, 13.59% respectively, of our total borrowings.

We benefit from a large and diversified mix of lenders which has increased over the years and included lenders, comprising a range of public banks, private banks, foreign funding and financial institutions to meet our capital requirements. We have been continuously widening our lender pool with the aim of adding different types of lender every year. We have entered into Co-lending agreements with other enabling us wider access to the credit market in priority sector.

6. Robust underwriting process and risk management policies

Currently our risk management division is divided into separate teams that are respectively dedicated to managing and mitigating credit risk, market risk and operational risk, and which are subject to oversight by our Risk Management Committee and our Board of Directors. Our customer due diligence procedures encompass multiple levels of checks and controls designed to assess the quality of customers and to confirm that they meet our stringent selection criteria and include comprehensive evaluation of repayment capacity and detailed cash flows analysis of the customer as well as thorough group training sessions and knowledge testing. We utilize credit bureau data to verify customer details and obtain information on past credit behaviour. Further, we employ proactive practices that involve frequent evaluations of portfolio risk levels on a periodic basis and rigorous monitoring and analysis of cash disbursements and collection, roll rates and customer retention at both branch and head office levels, which minimize the incidence of bad debts. We are further supported by our robust internal controls and processes as well as advanced technology solutions, which we believe ensure proper loan appraisals and sound portfolio management. Our internal audit team is supervised by our Audit Committee, which is responsible for monitoring and evaluating internal controls and ensuring statutory and regulatory compliance, and our Board of Directors. The technology solutions we employ include real-time integration with credit bureaus and instant credit checks, loan monitoring systems and geotagging functions. We also periodically review our standards of procedures and continuously strengthen our audit coverage to ensure that all material transactions and business initiatives are thoroughly reviewed, with the goal of ensuring that asset quality is not compromised because of growth.

7. Hub and Spoke business model that improves efficiencies and decreases costs

We carry out our operations in the format of “hub & spoke” business model. This model improves efficiencies and decreases costs. Our branches are the “hubs” and our digital locations are “spoke”. Our registered office and branches perform functions in respect of sales and credit, operations, risk containment unit, legal and technical checks and collections. Our spokes are our smaller locations having digital presence, which are in Tier 3 and Tier 4 cities. The primary focus of our smaller locations is to source new loans and provide doorstep services to our customers. Each “hub” typically supports spokes. We believe this model allows us to penetrate into underserved markets with relatively low costs and helps to optimize customer reach and turnaround times.

Our Strategies:

1. Increase focus on Digitisation and expanding product portfolio

Our digital lending platform www.aasaanloans.com is currently under development and will be rolled out in a phased manner. Initially the vehicle loans would be launched and the Business Finance would be rolled out for making the operational process easier and faster. We have taken a baby step towards the same by launching a website aasaanloans.com. This differentiated approach aids in the identification of businesses with low risk and high promise, thereby providing opportunities for those who previously had no access to long or short-term financing.

With the new and upcoming digital platform “Aasaan Loans” we believe in assisting small businesses in growing by providing loans to those with potential and intent. Many such businesses have little or no access to capital from traditional banks and other financial institutions, or they lack either collateral or a financial data trail to obtain loans.

Following are the loan products that we are intending to offer through digital lending platform:

- a. Aasaan Mahila Udyog loan
- b. Aasaan Saral Udyog loan
- c. Aasaan Vehicle Loan
- d. Aasaan Farm equipment loan
- e. Aasaan Loan Against Property

Our business focus is to reach across to the large untapped potential of Unserved and Under-served Segments where the shortage of finance exists in the business, unbanked area and service sector besides MSME for the tenure that ranges up to 10 years.

We believe the successful implementation of our business and growth strategies depends on our continuous efforts to keeping abreast with latest technology in the industry. We intend to enter in the areas of latest upcoming new age technology. This will enable us to further strengthen our relationships with our

clients requiring setting up of new infrastructure or up gradation of the existing one. This provides us an ideal opportunity to capitalize on our existing relationship with our clients and use our expertise to strengthen and quicken the process of loans.

We aim at unwavering commitment towards providing financial accessibility for above named important contributors of growth to the economy in the category of the Semi Urban and Rural Areas of India. For the ease and faster way to deliver financial services to the ultimate potential consumers the digital lending platform is formulated for determining the consumer's creditworthiness and loan amount. Going forward, we intend to digitally accept the required application and documents from the potential customers through our website aasaanloans.com. The uploaded documents will be e-verified for faster and easier approval and funding digitally.

This approach quickens the loan process by lowering risk, reducing documentation and costs associated, and offering a simple and hassle-free experience that puts businesses on the growth path.

2. Deepen, strengthen, and expand geographical Presence

We strive to be a low-cost, lean, and efficient digital lending Company having presence in four states that leverages technology and our existing distribution network to channel our products and services. Currently we operate through our registered office located at Udaipur, Rajasthan, 7 branches located in state of Rajasthan, Madhya Pradesh, Gujarat and Maharashtra and our digital presence at more than 20 locations, we plan to further grow our business operations by mining deeper and attracting new customers in our existing markets that remain relatively untapped as well as by entering new regions PAN India where borrowers are underserved and there is lower penetration by finance companies. We believe that our diversified presence and branch network with a largely rural and semi-urban focused comprehensive end-to-end customer life cycle management framework through technology, proven risk management policies, governance, and robust operating platform provide us with significant competitive advantages in carrying out our expansion plans. We believe that our existing customers serve as a foundation of our future growth and seek to prioritize their requirements and customize our offerings to provide them with optimal solutions at their doorstep.

In addition, we generally seek to establish new branches in areas that are adjacent states to our existing markets, or which may have similar customer demographics and financing needs. In selecting a new business location, we utilize our well-tested area selection analysis which involves a systematic methodology that considers various key parameters such as Demand for credit in the area, income levels and literacy rate of the local population, competition and market potential, economic status of the region including accessibility of internet and mobile connectivity and post offices, road access, and connectivity to important locations such as banks, schools and hospitals, as well as political, socio-economic, regulatory and other risks. We believe this allows us to identify markets where we can most easily replicate our business models.

3. Continue to focus on small business owners and self-employed individuals

We plan to continue to focus on small business owners and self-employed individuals and increase our market share. For instance, in terms of credit availability generally, the Dun & Bradstreet Report notes that the Markets with High Growth Potential states are Andhra Pradesh, Bihar, Telangana and Rajasthan, where the share of non-institutional credit agencies in total outstanding household debt is more than 40% the Dun & Bradstreet Report also notes that there are emerging opportunities for the credit Products such as personal loans, small business loans in micro credit segment and Two-wheeler loans (two wheeler sales in rural and semi-urban market is expected to reach 12 million units per annum by FY 2027 and this presents a strong growth opportunity for two wheeler financing companies focusing in rural and semi-urban markets) In many locations, we have customers who are first time borrowers from the formal secured lending ecosystem. We believe our underwriting model, which is based on our understanding of income assessment and collateral assessment for this customer segment, with limited reliance on documented income, is a key strength which would make customers prefer us over our competitors and which we intend to reinforce to achieve Gross Term Loans growth.

4. Enhance our Brand Recall to Attract New Customers

We believe that having a strong recognizable brand is a key attribute in our business, which will help us attract and retain customers, increases customer confidence and influences purchase decisions. Having a strong and recognizable brand will also assist us in recruiting and retaining employees. We intend to continue to undertake initiatives to increase the strength and recall of our 'Aasaan loans' brand to attract new customers. We seek to build our brand by engaging with existing and potential customers' through

customer literacy programs, sponsor popular events in the regions we operate and advertise in newspapers, hoardings and in other advertising media. We have recently introduced our brand “Aasaan Loans” launched digital platform for operations and will continue to invest in various brand enhancement initiatives.

5. Leverage our Network, Domain Expertise and Data to Enhance Product Offering.

While we intend to continue to focus on our core business of providing financing service, we believe additional products and cross-selling opportunities also help strengthen our relationship with our customers and enable higher customer retention. We plan to leverage our large branch network and deep understanding of rural and semi-urban customers, as well as harness the scale and loyalty of our customer base that we have built throughout rural and semi-urban India, to offer additional financing products to existing customers who have a positive track record of loan repayment. We expect to derive benefits from economies of scale as there is limited incremental sourcing cost for existing customers, and they are eligible to borrow higher loan amounts from us since they have progressed to higher loan cycles. We believe this strategy serves as an effective mitigation mechanism from potential interest rate volatility and would contribute to our profitability.

We seek to develop new product adjacencies based on the needs of our customers and that complement our existing loan categories. We believe that our large customer base provides significant opportunities from increased cross-selling and up-selling of products and services. We plan to continue utilizing our distribution channel to provide other financial products and services under the finance umbrella to our customers with good credit histories such as for the purchase of livelihood and productivity enhancing products including mobile handsets, bicycles and kitchen appliances.

6. Leverage Technology to Grow Our Business

We intend to continue to upgrade our existing technology systems with automated, digitized and other technology enabled platforms and tools, to strengthen our financing initiatives and derive greater operational, cost and management efficiencies. We intend to enter into agreements with IT companies to assist us in setting up our IT infrastructure for our operations.

We seek to provide a differentiated technology framework, enhancing convenience for our customers and reducing operational expenditure at our branches. We intend to explore delivering services, KYC verification and online loan processing and credit approvals through our digital platform aasaanloans.com. We believe greater adoption of our digital service delivery mechanisms will enable us to be more efficient, customer friendly and over time perform more reliable data analytics, resulting in target customer profiling, customized and tailor-made products to suit the diverse requirements of our customers and improved customer satisfaction.

Lending operations

Our lending operations span across four stages, namely the (i) screening stage, (ii) evaluation stage, (iii) approval stage, and (iv) sanction and monitoring stage. The following diagram sets forth further details relating to our corporate lending operations.

Screening stage. Our screening stage commences once a customer has been identified, and our business team conducts an initial screening of the customer's creditworthiness. Such screening typically involves a personal discussion with the customer, credit history checks, reference checks, an analysis of the customer's financial statements, know-your-customer verification and credit bureau checks for the borrowing entity and its directors. For loans, a credit assessment officer of our business team will conduct a visit of relevant sites and submit a report on his findings. We maintain an approved list of technical and legal experts that assist our credit assessment teams with the due diligence process when required.

Evaluation stage. Upon the completion of this screening, the loan application process proceeds to the evaluation stage, where our business evaluates the prospective customer's business and financing needs and investigates the prospective customer's track record, market reputation and ability to repay any loans extended to it. After the assessment is completed and the exposure to the prospective customer is determined to be acceptable, our business team would then formulate a debt financing structure that protects us from any identified weaknesses of the borrower and prepare a credit memorandum, setting out the details of the proposed transaction. The credit memorandum will contain an analysis of the proposed facility and its impact on our overall portfolio, as well as explicitly address areas of concern detailed in our risk framework and policy. Such credit memorandum is then presented to our corporate lending committee for approval.

Approval stage. After a proposed transaction is approved by our corporate lending committee, a final credit memorandum, taking into account the feedback received from the prior rounds of review, is prepared for presentation to and review by our credit committee for final approval.

Sanction and monitoring stage. Once approval from our credit committee is obtained, our legal team would prepare relevant loan documentation, including a loan agreement. Our business team will work with the customer to complete pre-disbursement documentation and to fulfil the covenants of the relevant loan agreement and other documentation. Once the pre-disbursement covenants and conditions are performed, and our credit lending committee approves the transaction closing memorandum, the relevant funds would be disbursed to the borrower.

After the disbursement of the funds, our business team is responsible for ensuring the fulfilment of the conditions subsequent set out in the loan documentation, including the loan agreement. Our operations team updates the fulfilment of conditions subsequent and covenants of the relevant loan agreements and documentation on our enterprise-wide loan management system, and our system automatically sends out reminders to the relevant customer relations managers of our business team on a periodic basis.

Asset Quality

We maintain our asset quality by adhering to credit evaluation standards, limiting customer and asset exposure, closely monitoring our assets, and interacting with customers directly and regularly. We ensure that prudent LTV ratios are adhered to while lending. We ensure prompt collection and proper storage of post-disbursement documents. We periodically inspect, either by ourselves or by internal auditors, our customers and the assets financed on a random basis. Our staff conduct tele-verification of the customers' key details and close follow-up is undertaken to ensure timely collection and control overdues.

Our asset quality is reflected by our Company's low rates of Gross NPAs and Net NPAs. As of September 30, 2022, our Company's Gross NPAs accounted for 4.87% of our Company's Gross Advances, while our Company's Net NPAs accounted for 3.96% of our Company's Net Advances, respectively. For details, see "Selected Statistical Information".

Asset Classification

We as a non-deposit taking NBFCs, are required to, after taking into account the degree of well defined credit weakness and extent of dependence on collateral security for realization, to classify lease and hire purchase assets, loans, advances and other forms of credit into various classes. The Master Directions for asset classification are set forth below:

- i. a "standard asset" means the asset in respect of which no default in repayment of principal or payment of interest is perceived and which does not disclose any problem nor carry more than normal risk attached to the business; and
- ii. a "sub-standard asset" means (a) an asset which has been classified as non-performing asset for a period not exceeding 18 months; (b) an asset where the terms of the agreement regarding interest and/or

principal have been renegotiated or rescheduled or restructured after commencement of operations, until the expiry of one year of satisfactory performance under the renegotiated or rescheduled or restructured terms. However, the classification of infrastructure loans as sub-standard assets is subject to the conditions stipulated in the Master Direction.

- iii. a “doubtful asset” means (a) a term loan, or (b) a lease asset, or (c) a hire purchase asset, or (d) any other asset, which remains a sub-standard asset for a period exceeding 18 months.
- iv. a “loss asset” means (a) an asset which has been identified as loss asset by an Applicable NBFC or its internal or external auditor or by the RBI during the inspection of the Applicable NBFC, to the extent it is not written off by the Applicable NBFC; and (b) an asset which is adversely affected by a potential threat of non-recoverability due to either erosion in the value of security or non-availability of security or due to any fraudulent act or omission on the part of the borrower.
- v. a “non-performing asset” means: (a) an asset for which interest or principal payment has remained overdue for a period of six months or more; (b) a term loan inclusive of unpaid interest, when the instalment is overdue for a period of six months or more or on which interest amount remained overdue for a period of six months or more; (c) a demand or call loan, which remained overdue for a period of six months or more from the date of demand or call or on which interest amount remained overdue for a period of six months or more; (d) a bill which remains overdue for a period of six months or more; (e) the interest in respect of a debt or the income on receivables under the head ‘other current assets’ in the nature of short term loans/advances, which facility remained overdue for a period of six months or more; (f) any dues on account of sale of assets or services rendered or reimbursement of expenses incurred, which remained overdue for a period of six months or more; (g) the lease rental and hire purchase instalment, which has become overdue for a period of twelve months or more; (h) in respect of loans, advances and other credit facilities (including bills purchased and discounted), the balance outstanding under the credit facilities (including accrued interest) made available to the same borrower/beneficiary when any of the above credit facilities becomes nonperforming asset. Provided that in the case of lease and hire purchase transactions, an Applicable NBFC is required to classify each such account on the basis of its record of recovery.

Risk Management Framework

Risk management is integral to our business and as a lending institution, we face financial and non-financial risks. We have established a risk management and audit framework to identify, assess, monitor and manage various types of internal and external risks. We conduct regular training of our staff members with respect to

risk related matters, as part of our risk management process. Our sales, credit, collections and operations have been segregated at all levels, to ensure that there is no co-mingling of risks. We ensure monitoring of these key risks on a continuous basis. Our risk management framework is primarily driven by our Board and its subcommittees, the Audit Committee, the Asset Liability Management Committee and the Risk Management Committee and is overseen by our full-time Chief Risk Officer, who is responsible for establishing standards for risk assessment and testing, monitoring and performing testing of the risk controls, consolidating overall risk testing results and escalating any issues to senior management and / or the Risk Management Committee. The major types of risk we face in our businesses are market risk, interest rate risk, credit risk, liquidity risk, operational risk, IT risk, reputation risk, cash management risk, collateral risk and legal risk. We have policies in place to address these risks, which are reviewed annually by senior management and approved by the Board of Directors.

We have policies in place to address these risks, which are reviewed annually by senior management and approved by the Board of Directors.

Treasury Operations

Our treasury operations help us meet our funding requirements and manage short-term surpluses. We have multiple sources of funds in order to reduce our funding costs, protect interest margins and maintain a diverse funding portfolio. This enables us to achieve funding stability and liquidity. Our sources of funding include term loans from banks and financial institutions, cash credit from banks, redeemable non-convertible debentures on a private placement basis, subordinated debts and inter-corporate borrowings.

We believe that we have developed long-term relationships with our lenders and established a track record of timely servicing of our debts. We believe that our established track record of timely debt repayment, strong brand equity, credit ratings and risk management have allowed us to secure attractive interest rates on our funding sources. Historically, we have been able to secure fixed rate long term loans of three to five years tenure to stabilize our cost of borrowings.

The following table sets forth the principal components of our secured loans as of the dates indicated:

(Rs. in lakhs)				
Particulars	As at September 30, 2022	As at March 31, 2022	As at March 31, 2021	As at March 31, 2020

Average Cost of Borrowing	12.66%	12.78%	13.40%	13.59%

We generate profit from the difference between the interest rates on our interest-earning assets, which are the loans we extend, and interest-bearing liabilities, which are our borrowings.

Our Company's treasury department also undertakes liquidity management by seeking to maintain an optimum level of liquidity and complying with the RBI's requirements for asset and liability management. We aim to maintain a balance between interest earning liquid assets and available cash, while ensuring a smooth functioning of our business operations. We actively manage our cash and funds flow using various cash management services provided by banks. We also invest our surplus funds in fixed deposits with banks, mutual funds and government securities. All of our investments are made in accordance with the investment policy approved by our Board, which also prescribes limits on industry-wise exposure and amount on investment in any particular mutual fund scheme.

Marketing

Given the demographics and spread of our target audience, we look to connect with prospective customers largely through our local outreach activities undertaken to create visibility in our target markets. We undertake local marketing activities, local branding, and advertising through distribution of leaflets and posters and also shop to shop marketing by our branch employees in the target market. In addition, we also provide rewards to our sales force to create a stronger recall with the target audience.

We intend to continue to undertake initiatives to increase the strength and recall of our 'Aasaan loans' brand to attract new customers. We seek to build our brand by engaging with existing and potential customers' through customer literacy programs, sponsor popular events in the regions we operate and advertise in newspapers, hoardings and in other advertising media.

Information Technology

We are committed to providing quality services to our customers by leveraging information technology. We have implemented a loan management system, which has both loan management and accounting capabilities, allowing us to effectively manage our loan portfolio and providing us decision-making and operational support. This system covers the asset management of our business in addition to account management, core financial accounting, risk management, document management and customer service through the full life cycle of loans.

We are also in discussions with a number of reputable software providers with respect to purchasing and installing additional software to enhance our loan sanction process, disaster recovery capabilities.

Insurance

We maintain insurance policies that we believe are required for our Company.

Customers

Our customers for our vehicle finance businesses are mainly individuals whom we acquired through channels such as our sales team, other third-party intermediaries, referrals by existing customers, employee referrals and through advertisements. Our customers for our small business lending business are small and medium sized enterprises, including traders, wholesalers, distributors, retailers, self-employed professionals and small manufacturing companies.

Cash Management Risk

Our offices collect and deposit a large amount of cash through a high volume of small transactions taking place in our network. To address cash management risks, we have developed advanced cash management checks that we employ at every level to track and tally accounts. Moreover, we conduct regular audits to ensure high levels of compliance with our cash management systems.

Employees

As of December 31, 2022, other than director we are having 119 employees. As part of our customer-centric approach, we recruit employees locally, which assists us in gaining a better understanding of customers in that region and their requirements. We train our employees on a regular basis, and focus primarily on three areas through our training programs: leadership development, behavioural development and functional development. We have also implemented ESOP Schemes for our employees, along with a range of incentives and employee engagement programs.

Competition

The NBFC industries in India are characterized by high levels of competition. The main competitive factors are product range, ability to customize products, speed of loan approvals, price, reputation and customer relationships. We face our most significant organized competition from banks and other NBFCs in India.

Corporate Social Responsibility

We have undertaken CSR initiatives in several areas including supporting sanitation, empowering women through skills development and providing education to students from economically disadvantaged backgrounds. For details of our CSR activities please see chapter Restated Financial Information beginning on page 256.

KEY REGULATIONS AND POLICIES IN INDIA

In carrying on our business as described in the section titled “Our Business” beginning on page 190 of this Draft Red Herring Prospectus, our Company is regulated by the following legislations in India. The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from the various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the respective local authorities that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. For details of Government Approvals obtained by the Company in compliance with these regulations, kindly refer to the chapter titled “Government and Other Statutory Approvals” beginning on page 302 of this Draft Red Herring Prospectus.

Given below is a brief description of the certain relevant legislations that are currently applicable to the business carried on by us:

1. Key Regulations Applicable to Our Company

The Reserve Bank of India Act, as amended (the “RBI Act”)

The RBI Act defines an NBFC as: (a) a financial institution which is a company; (b) a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or (c) such other non-banking institution or class of such institutions, as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

A company categorized as an NBFC is required to have a net owned fund of ₹ 200 lakhs or such other amount, not exceeding ₹ 100 Crores, as the RBI may, by notification in the official gazette specify from time to time. Further, NBFCs are required to obtain a certificate of registration from the RBI prior to commencement of the business as an NBFC

Every NBFC is required to create a reserve fund and transfer thereto a sum not less than 20% of its net profit every year, as disclosed in the profit and loss account and before any dividend is declared. No appropriation can be made from such fund by the NBFC except for the purposes specified by the RBI from time to time and every such appropriation shall be reported to the RBI within 21 days from the date of such withdrawal.

Master Direction – Non-Banking Financial Company – Non-Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 dated September 1, 2016, as amended (the “Master Directions”)

Applicability

The Master Directions are applicable to the following categories of NBFCs (“**Applicable NBFCs**”):

- i. Non-systemically Important Non-Deposit taking Non-Banking Financial Company (“**NBFC-ND-NSIs**”) registered with the RBI under the provisions of the RBI Act;
- ii. Non-Banking Finance Company – Micro Finance Institutions (“**NBFC-MFI**”) registered with the RBI under the provisions of the RBI Act and having an asset size of below ₹ 50,000 lakhs;
- iii. NBFC-Factors (as defined in the Master Directions) and registered under Section 3 of the Factoring Regulation Act, 2011, as amended, having an asset size of below ₹ 50,000 lakhs;
- iv. NBFC – Infrastructure Finance Company (“**NBFC-IFC**”) (as defined in the Master Directions) registered with the RBI under the provisions of the RBI Act, having an asset size of below ₹ 50,000 lakhs.

Acquisition or Transfer of Control

Applicable NBFCs are required to obtain prior written permission of RBI for (a) any takeover or acquisition of control, which may or may not result in change in management, (b) any change in the shareholding, including progressive increases over time, which would result in acquisition or transfer of shareholding of 26% or more of the paid-up equity capital (no prior approval is required if the

shareholding going beyond 26% is due to buy-back of shares or reduction in capital where it has approval of a competent court but must be reported to the RBI within one month of the occurrence), and (c) any change in the management of the Applicable NBFCs, which results in change in more than 30% of the directors, excluding independent directors, provided that no prior approval shall be required in case of directors who get re-elected on retirement by rotation.

Prudential Norms

The leverage ratio of an applicable NBFC (except NBFC-MFIs and NBFC-IFCs) shall not be more than 7, at any point of time.

In respect of NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50% of more of their financial assets) they shall maintain a Tier I capital of 12%.

Liquidity Risk Management Framework and Liquidity Coverage Ratio Liquidity Risk Management Framework

Applicable non-deposit taking NBFCs are required to adhere to the liquidity risk management guidelines prescribed under the Master Directions. The guidelines, *inter alia*, require the board of directors of the Applicable NBFC to formulate a liquidity risk management framework detailing entity-level liquidity risk tolerance, funding strategies, prudential limits, framework for stress testing, liquidity planning under alternative scenarios, nature and frequency of management reporting, and periodical review of assumptions used in liquidity projections.

Asset Classification and Provisioning Norms

All applicable NBFCs (except NBFC-MFIs) are required to adopt the asset classification and provisioning norms as set forth below:

Asset Classification

- i. a “standard asset” means the asset in respect of which no default in repayment of principal or payment of interest is perceived and which does not disclose any problem nor carry more than normal risk attached to the business; and
- ii. a “sub-standard asset” means (a) an asset which has been classified as non-performing asset for a period not exceeding 18 months; (b) an asset where the terms of the agreement regarding interest and/or principal have been renegotiated or rescheduled or restructured after commencement of operations, until the expiry of one year of satisfactory performance under the renegotiated or rescheduled or restructured terms. However, the classification of infrastructure loans as sub-standard assets is subject to the conditions stipulated in the Master Direction.
- iii. a “doubtful asset” means (a) a term loan, or (b) a lease asset, or (c) a hire purchase asset, or (d) any other asset, which remains a sub-standard asset for a period exceeding 18 months.
- iv. a “loss asset” means (a) an asset which has been identified as loss asset by an Applicable NBFC or its internal or external auditor or by the RBI during the inspection of the Applicable NBFC, to the extent it is not written off by the Applicable NBFC; and (b) an asset which is adversely affected by a potential threat of non-recoverability due to either erosion in the value of security or non-availability of security or due to any fraudulent act or omission on the part of the borrower.
- v. a “non-performing asset” means: (a) an asset for which interest or principal payment has remained overdue for a period of six months or more; (b) a term loan inclusive of unpaid interest, when the instalment is overdue for a period of six months or more or on which interest amount remained overdue for a period of six months or more; (c) a demand or call loan, which remained overdue for a period of six months or more from the date of demand or call or on which interest amount remained overdue for a period of six months or more; (d) a bill which remains overdue for a period of six months or more; (e) the interest in respect of a debt or the income on receivables under the head ‘other current assets’ in the nature of short term loans/advances, which facility remained overdue for a period of six months or more; (f) any dues on account of sale of assets or services rendered or reimbursement of expenses incurred, which remained overdue for a period of six months or more; (g) the lease rental and hire purchase instalment, which has become overdue for a period of twelve months or more; (h) in respect of loans, advances and other credit facilities (including bills purchased and discounted), the balance outstanding under the credit facilities (including accrued interest) made available to the same borrower/beneficiary when any of the above credit facilities becomes nonperforming asset. Provided that in the case of lease and hire

purchase transactions, an Applicable NBFC is required to classify each such account on the basis of its record of recovery.

Provisioning Norms

In addition to provisioning norms under applicable accounting standards, and under the Master Directions, all Applicable NBFCs (except NBFC-MFIs) are required to, after taking into account the time lag between an account becoming nonperforming, its recognition as such, the realisation of the security and the erosion over time in the value of security charged, make provision against sub-standard assets, doubtful assets and loss assets as provided hereunder:

S. No.	Provisioning Requirement									
1.	Loans, advances and other credit facilities including bills purchased and discounted									
	(i) Loss Assets	The entire asset is to be written off. If the assets are permitted to remain in the books for any reason, 100% of the outstanding is to be provided for.								
	(ii) Doubtful Assets	<div><div>(a) 100% provision to the extent to which the advance is not covered by the realizable value of the security to which the Applicable NBFC has a valid recourse is to be made. The realizable value is to be estimated on a realistic basis.</div><div>(b) In addition to (a) above, depending upon the period for which the asset has remained doubtful, provision to the extent of 20% to 50% of the secured portion (i.e., estimated realizable value of the outstanding) is to be made on the following basis –<table><tr><th>Period for which the asset has been considered as doubtful</th><th>Per cent of provision</th></tr><tr><td>Up to one year</td><td>20%</td></tr><tr><td>One to three years</td><td>30%</td></tr><tr><td>More than three years</td><td>50%</td></tr></table></div></div>	Period for which the asset has been considered as doubtful	Per cent of provision	Up to one year	20%	One to three years	30%	More than three years	50%
Period for which the asset has been considered as doubtful	Per cent of provision									
Up to one year	20%									
One to three years	30%									
More than three years	50%									
	(iii) Sub-standard Assets	A general provision of 10% of total outstanding is to be made.								

Standard Asset Provisioning

All Applicable NBFCs are required to make provisions for standard assets at 0.25% of the outstanding, which shall not be reckoned for arriving at the net NPAs. The provision towards standard assets shall not be netted from gross (i) Applicable NBFCs are required to separately disclose in their balance sheets the provisions made, as advances but are required to be shown separately as ‘Contingent Provisions against Standard Assets’ in the balance sheet of the Applicable NBFCs.

Balance Sheet Disclosures prescribed under the Master Directions, without netting them from income or against the value of assets.

- (ii) The provisions are to be distinctly indicated under separate heads of account as:
 - (a) Provisions for bad and doubtful debts; and
 - (b) Provisions for depreciation in investments.
- (iii) Such provisions shall not be appropriated from the general provisions and loss reserves held, if any, by the Applicable NBFC.
- (iv) Such provisions for each year are required to be debited to the profit and loss account. The excess of provisions, if any, held under the heads general provisions and loss reserves are required to be written back without making adjustment against them.

Regulation of Excessive Interest Charged by NBFCs

- (i) The board of directors of each Applicable NBFC is required to adopt an interest rate model taking into account relevant factors such as cost of funds, margin and risk premium and determine the rate of interest to be charged for loans and advances. The rate of interest, the approach for gradations of risk and rationale for charging different rate of interest to different categories of borrowers are required to be disclosed to the borrower or customer in the application form and communicated explicitly in the sanction letter.

- (ii) The rates of interest and the approach for gradation of risks are also required to be made available on the website of the Applicable NBFCs or published in the relevant newspapers. The information published in the website or otherwise published is required to be updated whenever there is a change in the rates of interest.
- (iii) The rate of interest must be annualized rate so that the borrower is aware of the exact rates that would be charged to the account.

Although rates of interest charged by NBFCs are not regulated by the RBI, rates of interest beyond a certain level may be seen to be excessive. The board of directors of Applicable NBFCs are required to layout appropriate internal principles and procedures in determining interest rates and processing and other charges.

Accounting Standards

Accounting Standards and guidance notes issued by the Institute of Chartered Accountants of India are required to be followed by NBFCs insofar as they are not inconsistent with any of the provisions of the Master Directions.

Fair Practices Code

All Applicable NBFCs having customer interface are required to adopt a fair practices code in line with the guidelines prescribed under the Master Directions. The Master Directions stipulate that such fair practices code should cover, inter alia, the form and manner of processing of loan applications; loan appraisal and terms and conditions thereof; and disbursement of loans and changes in terms and conditions of loans. The Master Directions also prescribe general conditions to be observed by Applicable NBFCs in respect of loans, and requires the board of directors of Applicable NBFCs to lay down a grievance redressal mechanism. Such fair practices code should preferably be in vernacular language or language understood by borrowers of the Applicable NBFCs.

Further, all Applicable NBFCs are to frame internal guidelines on corporate governance, enhancing the scope of the guidelines without sacrificing the underlying spirit of the guidelines stipulated in the Master Directions. The guidelines framed are required to be published on the NBFC's website for the information of various stakeholders.

Prevention of Money Laundering Act, 2002 ("PMLA")

The PMLA was enacted to prevent money laundering and to provide for confiscation of property derived from, or involved, in money laundering, and for incidental matters connected therewith. Section 12 of the PMLA inter alia casts certain obligations on reporting entities (as defined under the PMLA) in relation to preservation of records and reporting of transactions.

Master Direction (Know Your Customer) Directions, 2016 dated February 25, 2016, as amended (the "KYC Directions")

The KYC Directions require regulated entities (as defined in such directions) to follow certain customer identification procedures while undertaking a transaction. These directions are applicable to every entity regulated by RBI, including scheduled commercial banks, regional rural banks, local area banks, primary (urban) co-operative banks, state and central co-operative banks, all India financial institutions, NBFCs, miscellaneous non-banking companies and residuary non-banking companies, amongst others. Every entity regulated thereunder is required to adopt a 'know your customer' ("KYC") policy, duly approved by its board of directors, which shall include four key elements, namely, customer acceptance policy; risk management policy; customer identification procedures; and monitoring of transactions. Regulated entities are required to ensure compliance with the KYC policy through specifying 'senior management' for the purposes of KYC compliance; allocation of responsibility for effective implementation of policies and procedures; independent evaluation of compliance with KYC and anti-money laundering policies and procedures, including legal and regulatory requirements; concurrent/internal audit system for compliance to verify compliance with KYC and anti-money laundering; and submission of quarterly audit notes and compliance to the audit committee of the board of directors of the regulated entity.

Master Direction - Non-Banking Financial Company Returns (Reserve Bank) Directions, 2016, dated September 29, 2016 ("Returns Master Direction")

The Returns Master Direction lists detailed instructions in relation to submission of returns prescribed by the RBI for various categories of NBFCs, including their periodicity, reporting time, due date, and the purpose of filing such returns.

Master Direction - Information Technology Framework for the NBFC Sector Directions, dated June 8, 2017 ("IT Framework Directions")

The IT Framework Directions have been notified with the view of benchmarking the information technology/information security framework, business continuity planning, disaster recovery management, information technology (“IT”) audit and other processes to best practices for the NBFC sector. Non-systemically important NBFCs (i.e., NBFCs with an asset size of below ₹ 50,000 lakhs) are required to comply with the IT Framework Directions by September 30, 2018. The IT Framework Directions recommends that smaller NBFCs may start with developing basic IT systems mainly for maintaining the database and formulation of a board approved IT policy.

In addition to the above IT Framework Directions, we are also required to comply with the Information Technology Act, 2000, as amended, and the rules framed thereunder.

Master Direction - Non- Banking Financial Companies Auditor’s Report (Reserve Bank) Directions, 2016 dated September 29, 2016 (“Auditor’s Report Directions”)

The Auditor’s Report Directions set out disclosures that are to be included in every auditor’s report on the accounts of an NBFC such as: (i) the validity of such NBFC’s certificate of registration and whether the NBFC is entitled to

continue to hold such certificate of registration in terms of its principal business criteria as of March 31 of the applicable year; and (ii) compliance with net owned fund requirements as laid down in the Master Directions.

Directions on Managing Risks and Code of Conduct in Outsourcing of Financial Services by NBFCs, 2017 dated November 9, 2017 (“Outsourcing Directions”)

The Outsourcing Directions specify the activities that cannot be outsourced and provide the basis for deciding materiality of outsourcing. It mandates the regulatory and supervisory requirements and risk management practices to be complied with by every NBFC before outsourcing its activities. Further, an NBFC intending to outsource any of the permitted activities under the Outsourcing Directions is required to formulate an outsourcing policy which is to be approved by its board of directors.

Circular dated June 24, 2021 on Declaration of Dividends by NBFCs (“Dividend Circular”)

The Dividend Circular specifies, inter alia, certain minimum prudential requirements (relating to its capital adequacy, net NPA and other criteria) for an NBFC to be eligible to declare dividend, the maximum permissible dividend payout ratio, the considerations to be taken into account by the board of directors of an NBFC while considering the proposal to declare dividend (such as supervisory findings of the RBI on divergence in classification and provisioning of NPAs, qualifications in the auditors’ report to the financial statements, and long term growth plans) and the manner of reporting details of dividends declared. The Dividend Circular will be applicable to NBFCs for the declaration of dividends from the profits of the financial year ending March 31, 2022 and onwards.

Master Circular dated January 5, 2022 on Bank Finance to Non- Banking Financial Companies

The circular lays down RBI’s regulatory policy regarding financing of NBFCs by banks. The circular specifies, inter alia, certain guidelines for bank finance to NBFCs registered with RBI and bank finance to NBFCs not requiring registration. The circular further specifies activities which are not eligible for bank credits (such as certain bills discounted/rediscouted by NBFCs, investments of NBFCs both of current and long-term nature) and other prohibitions on bank finance to NBFCs. The aforesaid circular also prescribes the prudential ceilings for exposure of banks to NBFCs.

The clarifications were made applicable immediately from the date of circular except for the instructions related to specification of due date / repayment date which were made applicable from December 31, 2021 and instructions related to non-performing assets classification in case of interest payments and customer education which will be applicable from March 31, 2022 onwards.

The Ombudsman Scheme for Non-Banking Financial Companies, 2018 (the “Ombudsman Scheme”)

The Ombudsman Scheme was introduced by the RBI with the object of enabling resolution of complaints in respect of certain services rendered by particular categories of NBFCs, to facilitate the satisfaction or settlement of such complaints, and matters connected therewith.

The Ombudsman Scheme, inter alia, establishes the office of the ombudsman, specifies the procedure for the redressal of grievances and the mechanism for appeals against the awards passed by the ombudsman.

Further, the RBI through its ‘Statement on Developmental and Regulatory Policies’ dated February 5, 2021, proposed the integration of the Ombudsman Scheme with the Banking Ombudsman Scheme, 2006 and the Ombudsman Scheme for Digital Transactions, 2019 under the ‘One Nation One Ombudsman’ approach for

grievance redressal. This is intended to make the process of redress of grievances easier by enabling the customers of the banks, NBFCs and non-bank issuers of prepaid payment instruments to register their complaints under the integrated scheme, with one centralized reference point. The scheme was rolled out in June, 2021.

2. Other Regulations

In addition to the above, our Company is required to comply with the provisions of the Companies Act, intellectual property laws, labour laws, shops and establishment legislations in various states, various tax related legislations and other applicable statutes for its day-to-day operations.

A. EMPLOYEE AND LABOUR RELATED LEGISLATIONS:

These regulations regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, and safety measures, and wages for overtime work. These establishments of the company will be governed by the acts, rules, and regulations of the respective states.

C. TAX RELATED LAWS:

1. Income-tax Act, 1961

Income-tax Act, 1961 (“**Income-tax Act**”) is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its ‘Residential Status’ and ‘Type of Income’ involved. Every assessee, under the Income-tax Act, which includes a company, is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax and like.

2. Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017 (“**CGST Act**”) regulates the levy and collection of tax on the intra- State supply of goods and services by the Central Government or State Governments. The CGST Act amalgamates a large number of Central and State taxes into a single tax. The CGST Act mandates every supplier providing the goods or services to be registered within the State or Union Territory it falls under, within 30 days from the day on which he becomes liable for such registration. Such registrations can be amended, as well as cancelled by the proper office on receipt of application by the registered person or his legal heirs. There would be four tax rates namely 5%, 12%, 18% and 28%. The rates of GST applied are subject to variations based on the goods or services.

3. Integrated Goods and Services Tax Act, 2017

Integrated Goods and Services Tax Act, 2017 (“**IGST Act**”) is a Central Act enacted to levy tax on the supply of any goods and/ or services in the course of inter-State trade or commerce. IGST is levied and collected by Centre on interstate supplies. The IGST Act sets out the rules for determination of the place of supply of goods. Where the supply involves movement of goods, the place of supply shall be the location of goods at the time at which the movement of goods terminates for delivery to the recipient. The IGST Act also provides for determination of place of supply of service where both supplier and recipient are located in India or where supplier or recipient is located outside India. The provisions relating to assessment, audit, valuation, time of supply, invoice, accounts, records, adjudication, appeal etc. given under the CGST Act are applicable to IGST Act.

4. The Customs Act, 1962 and the Customs Tariff Act, 1975

The provisions of the Customs Act, 1962 and Rules made there under are applicable at the time of import of goods into India from a place outside India or at the time of export of goods out of India to a place outside India. Any company requiring to import or export any goods is required to get itself registered under this Act and obtain an Importer Exporter Code number. The Customs Tariff Act, 1975 provides the rates at which duties of customs will be levied under the Customs Act, 1962.

5. Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

D. INTELLECTUAL PROPERTY LAWS

1. The Trademarks Act, 1999

Under the Trademarks Act, 1999 ("**Trademarks Act**"), a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A 'mark' may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colors or any combination thereof. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The trademark, once applied for and which is accepted by the Registrar of Trademarks ("**the Registrar**"), is to be advertised in the trademarks journal by the Registrar. Oppositions, if any, are invited and, after satisfactory adjudications of the same, a certificate of registration is issued by the Registrar. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

2. The Copyright Act, 1957

The Copyright Act, 1957 ("Copyright Act") grants protection to the authors of literary, artistic, dramatic, musical, photographic, cinematographic or sound recording works from unauthorized uses. Various rights including ownership and economic rights are conferred on the author. These include the right to reproduce the work in any form, issue copies to the public, perform it, and offer for sale and hire. The penalty for general infringement of copyright is imprisonment of maximum 3 (three) years and a fine of up to ₹ 2 lakhs.

E. OTHER APPLICABLE LAWS:

1. The Companies Act, 2013

The Companies Act, 2013 ("**Companies Act**") deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning, and winding up of companies. The Companies Act prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial, and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of

disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors.

2. **The Consumer Protection Act, 1986**

The Consumer Protection Act, 1986 (“**Consumer Protection Act**”) was enacted to provide speedy and simple redressal to consumer disputes through quasi-judicial machinery set up at district, state and national level. The provisions of the Consumer Protection Act cover products as well as services.

3. **The Transfer of Property Act, 1882**

The Transfer of Property, 1882 (“**T.P. Act**”) including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the T.P. Act. The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: The transfer of ownership in property for a price, paid or promised to be paid.
- Mortgage: The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- Charges: Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e. g. decree of the court attaching to specified immovable property, or by an act of the parties.
- Leases: The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
- Leave and License: The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

4. **The Sale of Goods Act, 1930**

The Indian Sale of Goods Act, 1930 provides for the setting up of contracts where the seller transfers or agrees to transfer the title (ownership) in the goods to the buyer for consideration. It is applicable all over India. Under the act, goods sold from owner to buyer must be sold for a certain price and at a given period of time.

5. **The Registration Act, 1908**

The Registration Act, 1908 (“**Registration Act**”) was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

6. **The Indian Contract Act, 1872**

The Indian Contract Act, 1872 (“**Contract Act**”) lays down the essentials of a valid contract, it provides a framework of rules and regulations that govern the validity, execution and performance of a contract and codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. The Contract Act consists of limiting factors subject to which

contract may be entered into, executed and the breach enforced. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

7. **The Specific Relief Act, 1963**

The Specific Relief Act, 1963 ("**Specific Relief Act**") is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Specific Relief Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance' means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

8. **Competition Act, 2002**

The Competition Act, 2002 ("**Competition Act**") aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India ("**Competition Commission**") which became operational from May 20, 2009, has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising, or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

9. **Legislations pertaining to Stamp Duty**

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 ("**Stamp Act**") which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments in the respective schedules of the respective legislations pertaining to stamp duty as applicable in the State. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

F. **REGULATIONS REGARDING FOREIGN INVESTMENT**

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999 ("**FEMA**"), as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, The Department for Promotion of Industry and Internal Trade ("**DPIT**"), Ministry of Commerce and Industry has issued the Consolidated FDI Policy which consolidates the policy framework on Foreign Direct Investment ("**FDI Policy**"), with effect from October 15, 2020. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till October 15, 2020.

In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where Government approval is obtained, no approval of the RBI is required except with respect to fixing the

issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company.

As per the sector specific guidelines of the Government of India, foreign direct investment in NBFCs, carrying on activities approved for FDI, is subject to the conditions specified in Paragraph 3.8.3.1 of the FDI Policy. Pursuant to the FDI Policy and FDI of up to 100% of the paid-up equity share capital of our Company is permitted under the automatic route in our Company.

2.2 Presentation of Restated Financial Statements

The historical audited financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) read with the

Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Act along with other relevant provisions of the Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020 and RBI/2020-21/15 DOR (NBFC).CC.PD.No.116/22.10.106/2020-21 dated 24 July 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI.

The financial statements are presented in Indian Rupee (INR) which is also the functional currency of the Company. The financial statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value. The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

The Balance Sheet, the Statement of Profit and Loss and Statement of Changes in Equity are presented in the format prescribed under Division III of Schedule III to the Companies Act, 2013 as amended from time to time, for Non-Banking Financial Companies ('NBFC') that are required to comply with Ind AS. The statement of cash flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

The Company presents its Balance Sheet in order of liquidity.

The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

2.3 Functional and presentation currency

These Restated Financial Statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amount have been rounded off to the nearest lakhs (two decimals), unless otherwise indicated.

2.4 Basis of Measurement

The Restated Financial Statements has been prepared on Historical cost basis except for the following items:

Items	Measurement basis
Financial Assets and Liabilities	Fair Value/Amortized Cost, as applicable
Net defined benefit (Asset)/Liability	Fair value of plan assets less present value of defined benefit obligations

2.5 Critical accounting estimates and judgements

The preparation of the Company's Restated Financial Statements in conformity with Ind AS requires Management to make use of estimates, judgments and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of Restated Financial Statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Restated Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Restated Financial Statements. Accounting estimates and judgments are used in various line items in the financial statements for e.g.:

- Business model assessment (Refer note no. 3.4(i))
- Fair value of financial instruments (Refer note no. 3.14 and 42)
- Effective Interest Rate (EIR) (Refer note no. 3.1(i))
- Impairment on financial assets (Refer note no. 3.4(i), 6 and 45(ii))
- Provisions and other contingent liabilities (Refer note no. 3.10 and 33)
- Provision for tax expenses (Refer note no. 3.6)
- Residual value and useful life of property, plant and equipment (Refer note no. 3.7(g))

3. Summary of Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Revenue Recognition

The Company earns revenue primarily from giving loans. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

- Interest Income

The Company recognizes interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortized

cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortized cost of a financial liability.

The Company recognizes interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets (as set out in note no. 3.4(i)) regarded as 'stage 3', the Company stops recognizing interest income on these accounts till the account is credit impaired. If the financial asset is no longer credit-impaired (as outlined in note no. 3.4(i)), the Company reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non-payment of contractual cash flows is recognized on realization.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognized at the contractual rate of interest.

(ii) Dividend Income

Dividend income on equity shares is recognized when the Company's right to receive the payment is established and it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of dividend can be measured reliably, which is generally when shareholders approve the dividend.

(iii) Other Revenue from Operations

The Company recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(a) Fees and Commission

The Company recognizes service and administration charges towards rendering of additional services to its loan customers on satisfactory completion of service delivery.

Fees on value added services and products are recognized on rendering of services and products to the customer.

Distribution income is earned by selling of services and products of other entities under distribution arrangements. The income so earned is recognized on successful sales on behalf of other entities subject to there being no significant uncertainty of its recovery.

Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognized on realization.

(b) Net Gain on Fair Value Changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Company recognizes gains/losses on fair value change of financial assets measured as FVTPL and realized gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(c) Sale of Services

The Company, on de-recognition of financial assets where a right to service the derecognized financial assets for a fee is retained, recognizes the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit or loss and, correspondingly creates a service asset in Balance Sheet. Any subsequent increase in the fair value of service assets is recognized as service income and any decrease is recognized as an expense in the period in which it occurs. The embedded interest component in the service asset is recognized as interest income in line with Ind AS 109 'Financial instruments'.

Other revenues on sale of services are recognized as per Ind AS 115 'Revenue from Contracts with Customers' as articulated above in 'other revenue from operations'.

(d) Recoveries of financial assets written off

The Company recognizes income on recoveries of financial assets written off on realization or when the right to receive the same without any uncertainties of recovery is established.

(iv) Taxes

Incomes are recognized net of the Goods and Services Tax, wherever applicable.

3.2 Expenditures

(i) Borrowing Costs

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method. (Refer note no. 3.1(i)).

(ii) Fees and Commission Expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognized in the Statement of Profit and Loss on an accrual basis.

(iii) Taxes

Expenses are recognized net of the Goods and Services Tax/Service Tax, except where credit for the input tax is not statutorily permitted.

3.3 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.4 Financial Instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

Loans are recognized when funds are transferred to the customer account. Debt securities issued are initially recognized when they are originated. All the other financial instruments are recognized on the date when the Company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Company recognizes the financial instruments on settlement date.

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at fair value through profit and loss (FVTPL), transaction costs are added to, or subtracted from this amount.

(i) Financial Assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which

the interest rate is set.

In contrast, contractual terms that introduce a more than the minimum exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows based on the existing business model:

(a) Financial Assets carried at amortized cost

The Company measures its financial assets at amortized cost if both the following conditions are met:

- The asset is held within a business model of collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Bank balances, Loans, Trade receivables and other financial investments that meet the above conditions are measured at amortised cost.

The business model of the Company for assets subsequently measured at amortized cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies.

After initial measurement, such financial assets are subsequently measured at amortized cost on effective interest rate (EIR). For further details, refer note no. 3.1(i). The expected credit loss (ECL) calculation for financial assets at amortized cost is explained in subsequent notes in this section.

(b) Financial Assets at FVOCI

The Company subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Financial Assets included within the FVOCI category are measured at each reporting date at fair value with such changes being recognized in other comprehensive income (OCI). The interest income on these assets is recognized in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Debt instruments such as long-term investments in Government securities to meet regulatory liquid asset requirement of the Company's deposit program and mortgage loans portfolio where the Company periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified to profit or loss.

(c) Financial Assets at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gains and losses on changes in fair value of debt instruments are recognized on net basis through profit or loss.

The Company's investments into mutual funds, Government securities (trading portfolio) and certificate of deposits for trading and short term cash flow management have been classified under this category.

(d) Equity investment designated under FVOCI

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value. The Company has strategic investments in equity for which it has elected to present subsequent changes in the fair value in other comprehensive income. The classification is made on initial recognition and is irrevocable.

All fair value changes of the equity instruments, excluding dividends, are recognized in OCI and are available for reclassification to profit or loss on derecognition of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

Derecognition of Financial Assets

The Company derecognizes a financial asset (or, where applicable, a part of a financial asset) when:

- The right to receive cash flows from the asset have expired; or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognized, the Company does not have any continuing involvement in the same.

The Company transfers its financial assets through the partial assignment route and accordingly derecognizes the transferred portion as it neither has any continuing involvement in the same nor does it retain any control. If the Company retains the right to service the financial asset for a fee, it recognizes either a servicing asset or a servicing liability for that servicing contract. A service liability in respect of a service is recognized at fair value if the fee to be received is not expected to compensate the Company adequately for performing the service. If the fees to be received is expected to be more than adequate compensation for the servicing, a service asset is recognized for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between:

- the carrying amount (measured at the date of derecognition) and
- the consideration received (including any new asset obtained less any new liability assumed) is recognized in profit or loss.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). ECL are recognized for financial assets held under amortized cost, debt instruments measured at FVOCI, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1' and for which a 12 month ECL is recognized. Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for which there is an objective evidence of impairment are considered to be in 'stage 3'. Lifetime ECL is recognized for stage 2 and stage 3 financial assets.

At initial recognition, allowance (or provision in the case of loan commitments) is required for ECL towards default events that are possible in the next 12 months, or less, where the remaining life is less than 12 months.

In the event of a significant increase in credit risk, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets (and the related impairment loss allowances) are written off in full, when there is no realistic prospect of recovery.

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Credit Impaired (Stage 3)

The Company recognizes a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans (Except loan restructured under the RBI Covid 2.0 framework), where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower, are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months– post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default be done for such loans.

(b) Significant Increase in Credit Risk (Stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. Considering the market in which company is primarily operating and the class of customers which primarily comes from rural background where financial literacy is very poor and banking and collection facilities are not present at all places, management considers that unless identified at an earlier stage, 60 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 60 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioral trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioral trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

(c) Without Significant Increase in Credit Risk since Initial Recognition (Stage 1)

ECL resulting from default events that are possible in the next 12 months are recognized for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioral trends witnessed for each homogenous portfolio using application/behavioral score cards and other performance indicators, determined statistically.

(d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro-economic factors.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

- Determination of PD is covered above for each stage of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realized and the time value of money.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or management overlays are occasionally made as temporary adjustments when such differences are significantly material

A more detailed description of the methodology used for ECL is covered in the 'credit risk' section of note no. 35.

(e) Write-offs

Financial assets are written off when there is a significant doubt on recoverability in the medium term. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to the statement of profit and loss.

(ii) Financial Liabilities

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial asset to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortized cost using the EIR (Refer note no. 3.1(i)). Any gains or losses arising on derecognition of liabilities are recognized in the Statement of Profit and Loss.

Embedded derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index or prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument.

Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Derecognition measurement

The Company derecognizes a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its significant financial assets or liabilities in the six month ended September 30, 2022 and year ended March 31, 2022, March 31, 2021 and March 31, 2020.

(iv) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognized amounts with an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

3.5 Investment in Subsidiaries

The Company does not have any Subsidiary.

3.6 Taxes

(i) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets, if any, are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized either in OCI or in other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.7 Property, Plant and Equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'.

Depreciation on property, plant and equipment

- (a) Depreciation is provided on a pro-rata basis for all tangible assets on straight line method over the useful life of assets.
- (b) Useful lives of assets are determined by the Management by an internal technical assessment except where such assessment suggests a life significantly different from those prescribed by Schedule II – Part C of the Companies Act, 2013 where the useful life is as assessed and certified by a technical expert.
- (c) Depreciation on leasehold improvements is provided on straight line method over the primary period of lease of premises or 5 years whichever is less.
- (d) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.
- (e) Assets having unit value up to Rs. 5,000 is depreciated fully in the financial year of purchase of asset.
- (f) An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognized.

- (g) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.8 Intangible assets and amortization thereof

Intangible assets, representing software's are initially recognized at cost and subsequently carried at cost less accumulated amortization and accumulated impairment. The intangible assets are amortized using the straight-line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.9 Impairment of non-financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

3.10 Provisions and Contingent Liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

3.11 Foreign Currency Translation

The Company's financial statements are presented in Indian Rupee, which is also the Company's functional currency.

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are re-translated using the exchange rate prevailing at the reporting date. Non- monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

Exchange differences

All exchange differences are accounted in the Statement of Profit and Loss.

3.12 Employee benefits

i. Post-employment benefits

Defined Contribution plan

The Company's contribution to provident fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'), if any. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

3.13 Lease

Company has applied Ind AS 116 "Leases" for all lease contracts covered by the Ind AS. Under Ind AS 116 a contract is, or contains a lease, if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company undertook an assessment of all applicable contracts to determine if a lease exists as defined in Ind AS 116. This assessment will also be completed for each new contract or change.

Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payment discounted using the Company's incremental cost of borrowing rate. Subsequently, the lease liability is

- i) Increase by interest on lease liability
- ii) Reduce by lease payments made

Measurement of Right-of-Use asset

At the time of initial recognition, the Group measures 'Right-of-Use assets' as present value of all lease payment discounted using the Group's incremental cost of borrowing rate w.r.t said lease contract. Subsequently, 'Right-of-Use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re-measurement of the lease liability specified in Ind AS 116 'Leases'. Depreciation on 'Right-of-Use assets' is provided on straight line basis over the lease period.

In contract going forward. The Company has further elected not to recognize ROU assets and lease liabilities for leases of low value assets and for short-term leases (less than 12 months).

3.14 Fair Value Measurement

The Company measures its qualifying financial instruments at fair value on each Balance Sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole. For a detailed information on the fair value hierarchy, refer note no. 34.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

3.15 Segment reporting- Identification of segments:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108 Operating Segments, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3.16 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

3.17 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions

3.18 Standards issued but not yet effective

Ministry of Corporate Affairs has issued Companies (Indian Accounting Standards) Amendment Rules, 2022 on March 23, 2022, which contains various amendments to Ind AS. Management has evaluated these and have concluded that there is no material impact on the Company's financial statements.

Terms/rights attached to Equity Shares:								
The Company has a single class of equity shares. Accordingly all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend to the extent the shares are paid up, as declared from time to time. Dividends are paid in Indian Rupees. Dividend proposed by the board of directors, if any, is subject to the approval of the shareholders at the General Meeting, except in the case of interim dividend.								
In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders, to the extent the shares are paid up.

39. Segment Information

An operating segment is a component of the Company that emerges in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's management to make decisions about resources to be allocated to the segments and assess their performance. The MD is considered to be the chief operating decision maker ('CODM') within the purview of Ind AS 108 operating segments.

The CODM considers the entire business of the Company on a holistic basis for making operating decisions and thus there are no segregated operating segments. The Company is engaged into the business of providing Mortgage loans and Vehicle loans. The CODM of the Company reviews the operating results of the Company as a whole and therefore not more than one reportable segment is required to be disclosed by the Company as envisaged by Ind AS 108 operating segments. Accordingly, amounts appearing in these financial statements relate to the business of providing Mortgage loans and Vehicle loans.

The Company does not have any separate geographic segment other than India. As such there are no separate reportable segments as per IND AS 108 operating segments.

41. Capital

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the regulator, Reserve Bank of India (RBI). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

The Company has complied in full with all its externally imposed capital requirements over the reporting period.

Capital management

The primary capital management objective is to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders, or issue capital securities. No changes have been made to the objectives, policies, and processes from the previous years with regard to capital management. However, they are under constant review by the Board.

i Net Debt to Equity Ratio

Consistent with the others in industry, the Company monitors the capital on the basis of gearing ratio (Net Debt divided by Equity). Under the terms of the major borrowing facilities, the Company is required to maintain the gearing ratio in line with the RBI guidelines or in a slightly more conservative manner. The actual gearing stipulated differs between the various lending agreements. The Company has complied with this covenant throughout the period.

ii Regulatory capital

The Company has to mandatorily comply with the capital adequacy requirements stipulated by Reserve Bank of India from time to time. Capital adequacy ratio or capital-to-risk weighted assets ratio (CRAR) is computed by dividing company's Tier I and Tier II capital by risk weighted assets.

Tier I capital comprised of share capital, share premium, retained earnings including current year profit and Tier II capital comprises of provision on standard assets. Risk weighted assets represents the weighted sum of company's credit exposures based on their risk.

Tier I capital consists of shareholders' equity and retained earnings. Tier II Capital consists of sub-debts, general provision and loss reserve against stage 1 assets. Credit enhancement relating to securitisation has been adjusted against Tier I and Tier II capital in accordance with RBI circular DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020. Tier I and Tier II capital has been reported on the basis of Ind AS financial information. Risk weighted assets represents the weighted sum of company's credit exposures based on their risk as prescribed by RBI guidelines.

42 Fair Value Measurement

Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are

- (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair value disclosures are provided in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standards.

The following methodologies and assumptions were used to estimate the fair values of the financial assets or liabilities

- The fair value of loans have estimated by discounting expected future cash flows using discount rate equal to the rate near to the reporting date of the comparable product
- The fair value of debt securities, borrowings other than debt securities and subordinated liabilities have estimated by discounting expected future cash flows discounting rates.
- The fair values of Debt Securities and Borrowings other than Debt securities are estimated by discounted cash flow models that incorporate interest cost estimates considering all significant characteristics of the borrowing. They are classified as Level 3 fair values in the fair value hierarchy due to the use of unobservable inputs
- The fair value of investment in Government securities are derived from rate equal to the rate near to the reporting date of the comparable product.
- The fair value of Derivatives are determined using inputs that are directly or indirectly observable in market place.

*The Company has not disclosed the fair values for financial instruments which are short term in nature because their carrying amounts are a reasonable approximation of fair value.

b. Measurement of Fair Value

Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the financial statements. These fair values were calculated for disclosure purpose only.

Short Term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and cash equivalent, other financial assets (excluding security deposit), trade payables and other financial liability.

Loans and advances to customers

In case of retail loans and term loans with floating rates, the interest rate represents the market rate. Consequently, the carrying amount represents the fair value.

Term Loan with fixed rate

The fair values estimated by discounted cash flow model that incorporates assumptions for credit risk, probability of default and loss given default estimates. As per management assumptions, the fair value of the loans & advances has been at par with the carrying value of the portfolio considering the fact that the competitive interest rates in the operational area of the Company and the portfolio in which the Company has exposure are more or less as per prevailing market rates.

Investments

The fair values estimated by discounted cash flow model that incorporates assumptions for credit risk, probability of default and loss given default estimates.

Borrowings

In case of borrowings with floating rates, the interest rate represents the market rate. Consequently, the carrying amount represents the fair value.

Transfer between Levels I and II

There has been no transfer in between level I and level II.

43. Employee benefits - post employment benefit plans

A Defined contribution plans

The Company makes provident fund and employee state insurance scheme contributions which are defined contribution plans, for qualifying employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised Rs. 15.02 Lakhs (March 31, 2022 – Rs. 27.37 Lakhs, March 31, 2021 – Rs. 27.69 Lakhs, March 31, 2020 - Rs. 30.39 Lakhs) for provident fund contributions and Rs. 2.09 Lakhs (March 31, 2022 – Rs. 4.43 Lakhs, March 31, 2021 – Rs. 5.22 Lakhs, March 31, 2020 – Rs. 7.01 Lakhs) for employee state insurance scheme contributions in the statement of profit and loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

B Defined benefit plans

Gratuity

The Company operates a defined benefit plan (the Gratuity plan) covering eligible employees. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age/ resignation date.

The defined benefit plans expose the Company to risks such as Actuarial risk, Investment risk, Liquidity risk, Market risk, Legislative risk.

These are discussed as follows:

Actuarial risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse salary growth experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption then the gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and **Variability in withdrawal rates:** If actual withdrawal rates are higher than assumed withdrawal rate assumption then the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Investment risk: For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

Liquidity risk: Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the Company there can be strain on the cash flows.

Market risk: Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in defined benefit obligation of the plan benefits and vice versa. This assumption depends on the yields on the government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Legislative risk: Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the labour laws, thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the defined benefit obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Funding

The Company has not funded their gratuity liability. Gratuity provision has been made based on the actuarial valuation.

45. Financial risk management objectives and policies

The Company's principal financial liabilities majorly comprise of borrowings from banks, debentures and other liabilities. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loan and advances, investments, inter-corporate deposits, cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to a variety of financial risks, as listed below apart from various operating and business risks.

Market risk;

Credit risk;

Liquidity risk; and

Foreign Currency Risk

This note explains the sources of risks arising from financial instruments which the entity is exposed to and how the Company manages the risk.

Risk management framework

The Company's board of directors and risk management committee has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors and risk management committee along with the top management are responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's risk management committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

(i) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes interest rate risk and foreign currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Interest rate risk

Interest rate risk primarily arises from borrowings with variable rates. The Company's borrowings are carried at amortised cost. The borrowings with fixed rates are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The interest rate profile of the Company's interest bearing financial instruments is as follows:

The sensitivity analysis above has been determined for borrowings where interest rates are variable. A 100 basis points increase or decrease in interest rates is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Credit risk

Credit Risk is the risk of financial loss to the Company if a customer or counter party to financial instruments fails to meet its contractual obligations and arises primarily from the Company's loan and investments.

The carrying amounts of financial assets represent the maximum credit risk exposure.

A. Loans and Advances

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry.

The risk management committee has established a credit policy under which every new customer is analysed individually for credit worthy before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information etc.

The Company's gross exposure to credit risk for loans and investments by type of counterpart is as follows:

Carrying Amounts

Particulars	(Amount Rs. in Lakhs)			
	As at 30 September 2022	As at 31 March 2022	As at 31 March 2021	As at 31 March 2020
Vehicle Loans	6622.85	7,620.69	9574.29	12020.83
Business/LAP Loans	25776.67	27,511.1	32526.49	35922.48
Total (A)	32398.52	35131.79	42100.78	47943.31
Investments (B)	20.39	20.34	20.34	239.87
Total (A +B)	32418.91	35152.13	42121.12	48183.19

The above exposures are entirely concentrated in India. There is no overseas exposure.

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purpose of this analysis, the loan receivables are categorized into groups based on days past due. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109- Financial instruments.

Staging

As per the provisions of Ind AS 109 general approach all financial instruments are allocated to stage 1 on initial recognition. However, if a significant increase to credit risk is identified at the reporting date as compared with the initial recognition, then an instrument is transferred to stage 2. If there is objective evidence of impairment, then the asset is credit impaired and transferred to stage 3.

The Company considers a financial instrument defaulted and therefore stage 3 (credit- impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

For Financial assets in stage 1, the impairment calculated based on defaults that are possible in next twelve months, whereas for financial instruments in stage 2 and 3 the ECL calculation considers default event for the lifespan of the instrument.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the day past dues criteria and other market factors which significantly impacts the portfolio.

DAYS PAST DUE STATUS	STAGE	PROVISIONS
----------------------	-------	------------

Current	Stage 1	12 Months Provision
1-60 days	Stage 1	12 Months Provision
61-90 days	Stage 2	Lifetime Provision
90+ days	Stage 3	Lifetime Provision

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. Considering the market in which company is primarily operating and the class of customers which primarily comes from rural background where financial literacy is very poor and banking and collection facilities are not present at all places, management considers that unless identified at an earlier stage, 60 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 60 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioral trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioral trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

Grouping

As per Ind AS 109, Company is required to group the portfolio based on the shared risk characteristics. Company has assessed the risk and its impact on the various portfolios and has divided the portfolio into following groups:

- Vehicle Loans
- Business/SME/LAP

Impairment-Expected Credit Loss ("ECL"):

The accounting standard, Ind AS 109 does not specifically prescribe any methodology for computing ECL. However, entities are required to adopt sound and market acceptable methodologies which are in line with the size, complexity and risk profile of the financial entity for computing the ECL. The Company uses following three main components to measure ECL:

- (a) Probability of default. (PD)
- (b) Loss given default (LGD).
- (c) Exposure at default (EAD).

Probability of default (PD):

PD is defined as the probability of whether borrowers will default their obligations in an ensuring period of 12 months. Historical PD is derived from the Company's internal data calibrated with forward looking macro-economic factors like current Pandemic scenarios etc.

For computation of probability of default company has considered four years' Historical data and the current Macroeconomic conditions along with probable Impacts of COVID-19. Based on these factors PD has been worked out.

Loss given default (LGD):

LGD is an estimate of the loss from a transaction given that a default occurs. Under Ind AS 109, Lifetime LGD's are defined as collection of LGD's estimates applicable to different future periods.

Various approaches are available to compute the LGD. Company has considered workout LGD approach.

The following steps are performed to calculate the LGD.

- (1) Haircut was applied on the value of the collateral (asset cost) as of reporting date.
- (2) The outstanding amount was adjusted with the haircut adjusted collateral value.
- (3) LGD has been computed using the outstanding amount in step 2.
- (4) Over and above the LGD has been floored using regulatory guidelines.

Exposure at default ("EAD")

As per Ind AS 109, EAD is estimation of the extent to which the financial entity may be exposed to counterparty in the event of default and at the time of counterparty's default. Company has modeled EAD based on the contractual and behavioral cash flows till the lifetime of the loan and considering the expected prepayments.

Company has considered expected cash flows for all loans at DPD bucket level for each of the segments which were used for computation for ECL. Moreover, the EAD comprised of principal component, accrued interest on the outstanding exposure for the ensuring 12 months. So, discounting was done for computation of expected credit loss.

Discounting:

As per Ind AS 109, ECL is computed by estimating the timing of the expected credit shortfalls associated with the defaults and discounting them using effective interest rate.

Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL or Life-time ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers the credit risk to be directly proportional to the delinquency status i.e. days past due of the loan under consideration. No further adjustments are made in the PD.

When estimating ECLs on a collective basis for a group of similar assets the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition. (Refer Note-6.1 for analysis of changes in the gross carrying amount and the corresponding ECL allowances)

Grouping financial assets measured on a collective basis

The Company calculates ECL on a collective basis for all asset classes.

The Company combines these exposure into smaller homogeneous portfolios, based on the characteristics of the loans, as described below:

Geographic location

Loan Type

ECL computation:

Conditional ECL at DPD pool level was computed with the following method:

Conditional ECL for year (yt) = EAD (yt) * conditional PD (yt) * LGD (yt)

The Company measures ECL as the product of PD, LGD and EAD estimates for its Ind AS 109 specified financial assets.

The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarised below:

Provisions		As September 30, 2022	at March 31, 2022	As March 31, 2021	at March 31, 2020
Stage 1	12 month provision	1.50%	1.24%	0.97%	0.68%
Stage 2	Life time provision	4.09%	2.98%	2.09%	1.34%
Stage 3	Life time provision	21.14%	17.20%	16.94%	16.61%

The loss rates are based on actual credit loss experience over past years. These loss rates are then adjusted appropriately to reflect differences between current and historical economic conditions and the Company's view of economic conditions over the expected lives of the loan receivables.

The following table shows the risk concentration of loan portfolio by geography.

Geography	(Amount in Rs. Lakhs)			
	As September 30, 2022	at March 31, 2022	As March 31, 2021	at March 31, 2020

Cash and bank balances

The Company held cash and cash equivalents with credit worthy banks and financial institutions as at the reporting dates which has been measured on the 12-month expected loss basis. The credit worthiness of such banks and financial institutions are evaluated by the management on an ongoing basis and is considered to be good with low credit risk.

Investments

Investments comprises of mutual funds and government securities in accordance with the investment policy. Government securities have sovereign rating and mutual fund investments are made with counterparties with low credit risk. The credit worthiness of these counterparties are evaluated on an ongoing basis.

Other financial assets

Other financial assets are primarily constituted by security deposits and other receivables. The Company does not expect any losses from non-performance by these counter-parties.

(iii) **Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due.

The Company is monitoring its liquidity risk by estimating the future inflows and outflows during the start of the year and planned accordingly the funding requirement. The Company manages the liquidity by unutilized cash credit facility, term loan and the direct assignment. The composition of the Company's liability mix ensures healthy asset liability maturity pattern and well diverse resource mix. The total cash credit and working capital limit available to the Company is Rs. 6000.00 Lakh spread across 3 banks. The utilization level is maintained in such a way that ensures sufficient liquidity on hand.

The table below summarizes the maturity profile of the Company's non-derivative financial liabilities based on contractual discounted payments along with its carrying value as at the balance sheet date.

49 Impact of Covid-19 on the Company

As at and for the three month period ended September 30, 2022:

The COVID-19 pandemic resulted in significant volatility in financial markets and a decrease in global and India's economic activities in FY 2021 and early FY 2022. Consequent lockdowns and varying restrictions imposed by the central and various state governments had led to disruptions and dislocations of individuals and businesses. However, with the gradual lifting of the lockdown restrictions during the year, the operations of the Company have returned to normal levels of activity. The Company has been lending actively to its customers and has also implemented its restructuring package based on the Reserve Bank of India's restructuring package announced in this regard. The overall financial matrices of the Company have improved from the prior year and the Company has made adequate expected credit loss provisions on its loan in accordance with accounting principles in India and accordingly in the opinion of the Company the impact of COVID 19 on its financial matrices are no longer significantly uncertain. The Company has evaluated the impact of COVID- 19 on the business and operations of the Company as at September 30, 2022 and is of the view that it does not have any material impact on the Interim financial statements of the Company on the basis of the facts and events up to the date of approval of these Interim financial statements.

However, in view of the dynamic nature of the pandemic, the Company will continue to monitor future events / developments that may result in an adverse effect on the business and operations of the Company.

The overall financial matrices of the Company have improved from the prior year and the Company has made adequate expected credit loss provisions on its loan in accordance with accounting principles in India and accordingly in the opinion of the Company the impact of COVID 19 on its financial matrices are no longer significantly uncertain. The Company has evaluated the impact of COVID- 19 on the business and operations of the Company as at March 31, 2022 and is of the view that it does not have any material impact on the financial statements of the Company on the basis of the facts and events up to the date of approval of these financial statements.

However, in view of the dynamic nature of the pandemic, the Company will continue to monitor future events / developments that may result in an adverse effect on the business and operations of the Company.

As at and for the year ended March 31, 2021:

The outbreak of COVID-19 pandemic and consequent regional lockdowns has severely impacted various activities across the country. The extent of impact of second wave of COVID-19 on the economy would also be dependent upon on future developments including measures taken by the Government, Regulator, responses of businesses and consumers to the pandemic. Therefore, the impact on the Company's business, cash flows and financial statements, is dependent on such future developments, which are highly uncertain.

In accordance with the Reserve bank of India (RBI) guidelines related to "Covid-19 regulatory package" dated March 27, 2020 and subsequent guidelines on EMI moratorium dated April 17, 2020 and May 23, 2020 the Company has offered moratorium to its customers based the eligibility for EMIs falling due between March 1, 2020 to August 31, 2020. Further, the Company offered resolution plans to its customers pursuant to RBI's guideline 'Resolution framework for Covid-19 related stress' dated August 6, 2020.

In accordance with the Board approved moratorium policy read with the Reserve Bank of India (RBI) guidelines dated March 27, 2020, April 17, 2020, May 23, 2020 and August 6, 2020 relating to 'COVID-19 – Regulatory Package' and guidelines issued thereto, the Company has granted moratorium up-to five months on the payment of instalments falling due between April 1, 2020 and August 31, 2020 to all eligible borrowers on a suo-moto basis based on the Company's policy approved by its Board. Based on an assessment by the Company, this relaxation has not been deemed to be automatically triggering significant increase in credit risk and in the absence of other credit risk indicators, the granting of a moratorium period does not result in accounts becoming past due and automatically triggering Stage 2 or Stage 3 classification criteria. Accordingly, in respect of accounts where moratorium benefit have been granted, the staging of those accounts as at March 31, 2021 is based on the days past due status considering the benefit of moratorium period in accordance with the Reserve Bank of India Covid-19 Regulatory Package.

Estimates and associated judgments / assumptions applied in preparation of these financial statements including determining the impairment loss allowance and expected future cash inflows / outflows are based on a combination of historical experience and emerging / forward looking indicators resulting from the pandemic. In addition to these early indicators, the Company has separately incorporated estimates, assumptions and judgements specific to the impact of the COVID-19 pandemic in the measurement of impairment loss allowance for the year

ended March 31, 2021. In addition to the indicators available, the Company has also used potential stress on probability of default and exposure at default on the expected credit losses on loans and accordingly recognized an expected credit loss on loans of Rs. 816.91 Lakhs as at March 31, 2021 (As at March 31, 2020 – Rs. 657.47 lakhs) including an additional impairment provision amounting to Rs. 215.79 Lakhs during the current year (Year ended March 31, 2020 - Rs. 135.88 Lakhs (including write offs of Rs. 206.11 Lakhs). The Company believes that it has considered all the possible impact of the currently known events arising out of COVID-19 pandemic in the preparation of financial statements. However, the impact assessment of COVID-19 is a continuing process given its uncertainty in nature and duration, this may have corresponding impact in the financial position. The Company will continue to monitor any material changes to the future economic conditions.

As at and for the year ended March 31, 2020:

The outbreak of COVID-19 pandemic and consequent lockdown has severely impacted various activities across the country. The impact of COVID-19 on the economy is uncertain and would also be dependent upon future developments including various measures taken by the Government, Regulator, responses of businesses, consumers etc. Hence, the extent to which COVID-19 pandemic will impact the Company's business, cash flows and financial statements, is dependent on such future developments, which are highly uncertain.

In accordance with the Board approved moratorium policy read with the Reserve Bank of India (RBI) guidelines dated March 27, 2020 and April 17, 2020 relating to 'COVID-19 - Regulatory Package', the Company has granted moratorium up-to six months on the payment of instalments falling due between April 1, 2020 and May 31, 2020 to all eligible borrowers on a suo-moto basis. Having regard to the guidance provided by the RBI and the Institute of Chartered Accountants of India, in the assessment of the Company, extension of such moratorium benefit to borrowers as per the COVID-19 Regulatory Package of the RBI by itself is not considered to result in significant increase in credit risk as per Ind AS 109. The Company continues to recognise interest income during the moratorium period and in the absence of other credit risk indicators, the granting of a moratorium period does not result in accounts becoming past due and automatically triggering Stage 2 or Stage 3 classification criteria.

Estimates and associated judgments / assumptions applied in preparation of these financial statements including determining the impairment loss allowance are based on a combination of historical experience and emerging / forward looking indicators resulting from the pandemic. In addition to the early indicators available during the moratorium period, the Company has also used potential stress on probability of default and exposure at default on the expected credit losses on loans and accordingly recognized an expected credit loss on loans of Rs. 657.47 Lakhs including an additional impairment provision amounting to Rs. 135.88 Lakhs during the year. Further, the disclosure in these financial statements are made after considering the moratorium benefits and estimated cash inflows and outflows which are based on the current understanding / arrangement with its customers / lenders. The Company believes that it has considered all the possible impact of the currently known events arising out of COVID-19 pandemic in the preparation of financial statements including financial resources, profitability, liquidity position and internal financial controls. However, since the impact assessment of COVID-19 is a continuing process given its uncertainty in nature and duration, this may have corresponding impact in the financial position in future. The Company will continue to monitor any material changes to the future economic conditions.

Overview

We are a non-banking finance company ("NBFC") incorporated in the year 1996 registered with the Reserve Bank of India as a Non-systemically important non-deposit taking company with over two decades of lending experience in rural and semi-urban geographies in India. We are primarily engaged in rural and semi-urban centric lending solutions to look after the needs and aspirations of rural and semi-urban populace. Our portfolio includes Vehicle Finance and Business Finance Products to small business owners. We have a long history of serving rural and semi-urban markets with high growth potential and have maintained a track record of financial performance and operational efficiency through consistently high rates of customer acquisition and retention and low cost expansion into underpenetrated areas. Therefore, we strategically focus on clients in the rural and semi-urban sector.

Our digital lending platform www.aasaanloans.com is currently under development and will be rolled out in a phased manner. Initially the vehicle loans would be launched and the Business Finance would be rolled out for making the operational process easier and faster. We have taken a baby step towards the same by launching a website www.aasaanloans.com. This differentiated approach aids in the identification of businesses with low risk and high promise, thereby providing opportunities for those who previously had no access to long or short-term financing.

We have our footprints in rural and semi-urban geographies in 4 Indian states Rajasthan, Maharashtra, Madhya Pradesh and Gujarat through registered office located at Udaipur, Rajasthan, 7 branches and over 20+ points of presence including digital and physical branches having served over 2,00,000 customers till date.

Our Key Borrowers

1. Individuals
2. Small business owners

As on September 30, 2022, the company reported an AUM of approximately Rs. 32,398.52 Lakhs and Net Worth at Rs. 15,145.70 Lakhs respectively. The registered GNPA and NNPA were 4.87 % and 3.84 % and the PAT for the period ended September 30, 2022 is Rs. 614.76 Lakh.

Significant Factors Affecting Our Results of Operations

Our results of operations have been, and will be, affected by many factors, some of which are beyond our control. The following is a discussion of certain factors that have had, and will continue to have, a significant effect on our financial condition and results of operations:

Interest rate volatility

Our results of operations depend substantially on our Net Interest Income and our ability to maintain and improve our Net Interest Margin. Any adverse change to Net Interest Margins, yield or cost of borrowing will have a significant impact on our results of operations. Interest earned is the largest component of our total income, of our total income in Fiscal 2020, 2021, 2022 and in the six months ended September 30, 2022. Changes in RBI repo rates could affect the interest charged on interest-earning assets and the interest rates paid on interest-bearing liabilities. Adverse conditions in the global and Indian economy resulting from economic dislocations or liquidity disruptions may adversely affect availability of credit, and decreased liquidity may lead to an increase in interest rates. Interest rates have a substantial effect on our cost of funding, our business volumes and our profit margins. Declining interest rates may lead to increased prepayments and repricing of our loans as borrowers seek to take advantage of the more attractive interest rate environment to reduce their borrowing costs. Declining interest rates may also lead to a greater demand for additional borrowings as business owners seek to take advantage of lower interest rates, resulting in an increase in volume of financing business. Conversely, when interest rates rise, there are typically less prepayments and less pressure to reprice loans; there is also less demand for new funds, resulting in a decrease in volume of our financing activities. In a rising interest rate scenario, our profit margins are therefore primarily dependent on our ability to attract new business, either through existing customers or new customers, than it is in a declining interest rate scenario. In addition, changes in interest rates also affect the interest rates we pay on our interest-bearing liabilities. Varying maturity periods applicable to our interest bearing assets and interest-bearing liabilities and a consequent change in interest rates may result in an increase in interest expense relative to interest income leading to a reduction in our interest income from financing activities.

See “Risk Factors - We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to vary and consequently affect our profitability” on page 26.

Availability of cost effective funding sources

The availability of cost-effective funding sources significantly affects our results of operations. Our funding requirements are predominantly sourced through term loans (short term and long term) from banks and other financial institutions. We have established long term relationships with various banks and financial institutions which provide ease of access to funding from such institutions. Our loan portfolio, credit appraisal and risk management processes and stable credit history have resulted in improved credit status with our lenders over the years, thereby enabling us to reduce our cost of borrowings from banks and other financial institutions. Our credit status with our lenders is determined primarily by our NPAs. For further information, see “Our Business” on page 190. In addition to debt funding, we also support our funding requirements from internal accruals.

Our finance costs are dependent on various external factors, including Indian and global credit markets and, in particular, interest rate movements and adequate liquidity in the debt markets. Our ability to continue to meet customer demand for new loans will depend primarily on our ability to borrow from various external sources on suitable terms and in a timely manner. Our funding sources are varied, as we believe that a diversified debt profile ensures that we are not overly dependent on any one type or source for funding. For further information in relation to our borrowings, see “Financial Indebtedness” on page 263.

We believe that we have been able to maintain relatively stable finance costs as a result of our effective fund raising. Our ability to maintain our finance costs at optimum levels will continue to have a direct impact on our profitability, results of operations and financial condition.

Geographic reach and distribution network

Due to us charging interest rates on per loan basis, the volume of loans that we approve and disburse is a primary driver of our revenue. The volume of loans we approve and disburse depend upon a number of factors that are, in part, within our control, which can include the number of and availability of branches and field officers. Our growth has historically been driven by a combination of expansion of our operational network as well as an increase in loans extended. We have our footprints in rural and semi-urban geographies in 4 states including Rajasthan, Maharashtra, Madhya Pradesh and Gujarat including 7 branches and over 20+ points of presence including digital and physical branches. Our ability to maintain and expand our operational network in a cost effective and efficient manner and serve as a preferred finance provider to small business owners and self-employed individuals will have a direct impact on our results of operations and financial condition.

Our branches are staffed with persons who are familiar with the local area, with each branch servicing an area with a limited radius, resulting in branch staff being able to quickly attend a customer's location as issues arise.

We strategically focus on accessing underbanked customers. Our ability to maintain an extensive geographic reach and distribution network will continue to have an impact on our financial condition and results of operations.

Asset quality, NPAs and provisioning requirements

Our ability to manage the credit quality of our loans, which we measure in part through NPAs, is a key driver of our results of operations. Credit quality is the outcome of the credit appraisal mechanism and recovery system followed by us. We classify NPAs in accordance with regulatory guidelines. As the number of our loans that become NPAs increase, the quality of our loan portfolio decreases. In accordance with RBI norms and our policy on NPA classification, we are required to classify loans that are over 90 days past due as an NPA. The following table illustrates our asset quality ratios as of the dates indicated:

Particulars	March 31, 2020	March 31, 2021	March 31, 2022	September 30, 2022
Gross NPA ratio (%)	2.69%	3.57%	4.90%	4.87%
Net NPA ratio (%)	2.24%	2.97%	4.06%	3.84%

(1) Gross NPA ratio (%) represents the Gross NPA to the Gross Loan Book as of the last day of the relevant period.

(2) Net NPA ratio (%) represents the Net NPA to the Gross Loan Book as of the last day of the relevant period.

Our asset quality is dependent upon our credit appraisal processes and recovery mechanisms. With the growth of our business, our ability to manage the quality of our loans will be a key driver to our results of operations, as quality loans help reduce the risk of losses from loan impairment and write-offs.

In our experience, direct sourcing allows for complete control over the quality of customers and processes involved for disbursement, which leads to better asset quality, compared to other methods of customer acquisition.

We believe that the quality of our credit function, resulting in effective credit evaluation measures, as well as our systematic processes such as verification of borrower risk profile, source of repayment, underlying collateral and disbursement and collection processes, effective portfolio monitoring and timely corrective interventions have enabled us to maintain relatively low levels of NPAs. Our ability to reduce or contain the level of our NPAs is also dependent on a number of factors beyond our control, such as increased competition, adverse effect on the business and results of operations of our borrowers, a rise in unemployment, a sharp and sustained rise in interest rate, slow industrial and business growth, changes in customer behavior and demographic patterns, central and state government decisions and changes in regulations. Additionally, certain provisioning norms are applicable to NBFCs, under applicable accounting standards and directions issued by the RBI. NBFCs are required to, after taking into account the time lag between an account becoming non performing, its recognition as such, the realisation of the security and the erosion over time in the value of security charged, make provision against substandard assets, doubtful assets and loss assets, as stipulate.

General economic conditions in India and competition

As an NBFC operating in India, our financial performance is dependent on the overall economic condition in India, including the GDP growth rate, the economic cycle and the condition of the securities markets, and perception of these conditions and future economic prospects. Our financial results are influenced by macroeconomic factors relating to growth of the Indian economy in general, which may lead to an increase in demand for retail loans. Conversely, a slowdown in the Indian economy could adversely affect our business and our borrowers, especially if such a slowdown were to be continued and prolonged. Several factors beyond our control, such as developments in the Indian economy including the regulatory landscape and domestic employment levels, conditions in the world economy, pandemics such as COVID-19, fluctuations in interest rates, movements in global commodity markets and exchange rates could have either a positive or an adverse impact on the quality of our loan portfolio.

The competitive pressures and economic environment of India will play a role in determining whether we are able to successfully execute our growth strategy and offer products and services at reasonable returns.

Regulatory developments

We operate in a highly regulated industry and we have to adhere to various laws, rules and regulations. Our financial condition, results of operations and continued growth also depend on stable government policies and regulations. We are required to comply with, among others, limits on borrowings, investments and interest rates, prudential norms for income recognition, asset classification, and norms for creation of special reserves as well as minimum capital adequacy requirements. As an NBFC, we have to mandatorily obtain a certificate of registration issued by the RBI. We are also required to have minimum net owned funds of ₹ 1000.00 lakhs.

The regulations applicable to us also address issues such as our conduct with customers and recovery practices, market conduct and foreign investment. Any change in the regulatory framework affecting NBFCs, and in particular those requiring us to maintain certain financial ratios, placement restrictions on accessing funds, among others, would affect our results of operations and growth. For further information, see “Key Regulations and Policies in India” on page 209.

We have issued our report on Special Purpose Audited Ind AS Financial Statements 2020 dated February 7, 2023 to the Board of Directors who have approved the same in their meeting held on February 7, 2023.

Significant Accounting Policies

Significant accounting policies adopted in the preparation of these financial statements are provided below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 Revenue Recognition

The Company earns revenue primarily from giving loans. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(i) **Interest Income**

The Company recognizes interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortized cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortized cost of a financial liability.

The Company recognizes interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets (as set out in note no. 3.4(i)) regarded as ‘stage 3’, the Company stops recognizing interest income on these accounts till the account is credit impaired. If the financial asset is no longer credit-impaired (as outlined in note no. 3.4(i)), the Company reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non-payment of contractual cash flows is recognized on realization.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognized at the contractual rate of interest.

(ii) **Dividend Income**

Dividend income on equity shares is recognized when the Company’s right to receive the payment is established and it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of dividend can be measured reliably, which is generally when shareholders approve the dividend.

(iii) **Other Revenue from Operations**

The Company recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 ‘Financial Instruments’ is applicable) based on a comprehensive assessment model as set out in Ind AS 115 ‘Revenue from contracts with customers’. The Company identifies contract(s) with a

customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(a) Fees and Commission

The Company recognizes service and administration charges towards rendering of additional services to its loan customers on satisfactory completion of service delivery.

Fees on value added services and products are recognized on rendering of services and products to the customer.

Distribution income is earned by selling of services and products of other entities under distribution arrangements. The income so earned is recognized on successful sales on behalf of other entities subject to there being no significant uncertainty of its recovery.

Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognized on realization.

(b) Net Gain on Fair Value Changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Company recognizes gains/losses on fair value change of financial assets measured as FVTPL and realized gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(c) Sale of Services

The Company, on de-recognition of financial assets where a right to service the derecognized financial assets for a fee is retained, recognizes the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit or loss and, correspondingly creates a service asset in Balance Sheet. Any subsequent increase in the fair value of service assets is recognized as service income and any decrease is recognized as an expense in the period in which it occurs. The embedded interest component in the service asset is recognized as interest income in line with Ind AS 109 'Financial instruments'.

Other revenues on sale of services are recognized as per Ind AS 115 'Revenue from Contracts with Customers' as articulated above in 'other revenue from operations'.

(d) Recoveries of financial assets written off

The Company recognizes income on recoveries of financial assets written off on realization or when the right to receive the same without any uncertainties of recovery is established.

(iv) Taxes

Incomes are recognized net of the Goods and Services Tax, wherever applicable.

1.2 Expenditures

(i) Borrowing Costs

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method. (Refer note no. 3.1(i)).

(ii) Fees and Commission Expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognized in the Statement of Profit and Loss on an accrual basis.

(iii) Taxes

Expenses are recognized net of the Goods and Services Tax/Service Tax, except where credit for the input tax is not statutorily permitted.

1.3 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.4 Financial Instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

Loans are recognized when funds are transferred to the customer account. Debt securities issued are initially recognized when they are originated. All the other financial instruments are recognized on the date when the Company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Company recognizes the financial instruments on settlement date.

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at fair value through profit and loss (FVTPL), transaction costs are added to, or subtracted from this amount.

(i) Financial Assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than the minimum exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows based on the existing business model:

(a) Financial Assets carried at amortized cost

The Company measures its financial assets at amortized cost if both the following conditions are met:

- The asset is held within a business model of collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Bank balances, Loans, Trade receivables and other financial investments that meet the above conditions are measured at amortised cost.

The business model of the Company for assets subsequently measured at amortized cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies.

After initial measurement, such financial assets are subsequently measured at amortized cost on effective interest rate (EIR). For further details, refer note no. 3.1(i). The expected credit loss (ECL) calculation for financial assets at amortized cost is explained in subsequent notes in this section.

(b) Financial Assets at FVOCI

The Company subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Financial Assets included within the FVOCI category are measured at each reporting date at fair value with such changes being recognized in other comprehensive income (OCI). The interest income on these assets is recognized in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Debt instruments such as long-term investments in Government securities to meet regulatory liquid asset requirement of the Company's deposit program and mortgage loans portfolio where the Company periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified to profit or loss.

(c) Financial Assets at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gains and losses on changes in fair value of debt instruments are recognized on net basis through profit or loss.

The Company's investments into mutual funds, Government securities (trading portfolio) and certificate of deposits for trading and short term cash flow management have been classified under this category.

(d) Equity investment designated under FVOCI

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value. The Company has strategic investments in equity for which it has elected to present subsequent changes in the fair value in other comprehensive income. The classification is made on initial recognition and is irrevocable.

All fair value changes of the equity instruments, excluding dividends, are recognized in OCI and are available for reclassification to profit or loss on derecognition of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

Derecognition of Financial Assets

The Company derecognizes a financial asset (or, where applicable, a part of a financial asset) when:

- The right to receive cash flows from the asset have expired; or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognized, the Company does not have any continuing involvement in the same.

The Company transfers its financial assets through the partial assignment route and accordingly derecognizes the transferred portion as it neither has any continuing involvement in the same nor does it retain any control. If the Company retains the right to service the financial asset for a fee, it recognizes either a servicing asset or a servicing liability for that servicing contract. A service liability in respect of a service is recognized at fair value if the fee to be received is not expected to compensate the Company adequately for performing the service. If the fees to be received is expected to be more than adequate compensation for the servicing, a service asset is recognized for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between:

- the carrying amount (measured at the date of derecognition) and
- the consideration received (including any new asset obtained less any new liability assumed) is recognized in profit or loss.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). ECL are recognized for financial assets held under amortized cost, debt instruments measured at FVOCI, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1' and for which a 12 month ECL is recognized. Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for

which there is an objective evidence of impairment are considered to be in 'stage 3'. Lifetime ECL is recognized for stage 2 and stage 3 financial assets.

At initial recognition, allowance (or provision in the case of loan commitments) is required for ECL towards default events that are possible in the next 12 months, or less, where the remaining life is less than 12 months.

In the event of a significant increase in credit risk, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets (and the related impairment loss allowances) are written off in full, when there is no realistic prospect of recovery.

Treatment of the different stages of financial assets and the methodology of determination of ECL

(a) Credit Impaired (Stage 3)

The Company recognizes a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans (Except loan restructured under the RBI Covid 2.0 framework), where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower, are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months— post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default be done for such loans.

(b) Significant Increase in Credit Risk (Stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. Considering the market in which company is primarily operating and the class of customers which primarily comes from rural background where financial literacy is very poor and banking and collection facilities are not present at all places, management considers that unless identified at an earlier stage, 60 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 60 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioral trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioral trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

(c) Without Significant Increase in Credit Risk since Initial Recognition (Stage 1)

ECL resulting from default events that are possible in the next 12 months are recognized for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioral trends witnessed for each homogenous portfolio using application/behavioral score cards and other performance indicators, determined statistically.

(d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have

demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro-economic factors.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

- Determination of PD is covered above for each stage of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the Balance Sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realized and the time value of money.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or management overlays are occasionally made as temporary adjustments when such differences are significantly material

A more detailed description of the methodology used for ECL is covered in the 'credit risk' section of note no. 35.

(e) Write-offs

Financial assets are written off when there is a significant doubt on recoverability in the medium term. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to the statement of profit and loss.

(ii) Financial Liabilities

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial asset to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortized cost using the EIR (Refer note no. 3.1(i)). Any gains or losses arising on derecognition of liabilities are recognized in the Statement of Profit and Loss.

Embedded derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index or prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument.

Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These

embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Derecognition measurement

The Company derecognizes a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its significant financial assets or liabilities in the six month ended September 30, 2022 and year ended March 31, 2022, March 31, 2021 and March 31, 2020.

(iv) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognized amounts with an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

1.5 Investment in Subsidiaries

The Company does not have any Subsidiary.

1.6 Taxes

(i) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets, if any, are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized either in OCI or in other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

1.7 Property, Plant and Equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'.

Depreciation on property, plant and equipment

- (a) Depreciation is provided on a pro-rata basis for all tangible assets on straight line method over the useful life of assets.
- (b) Useful lives of assets are determined by the Management by an internal technical assessment except where such assessment suggests a life significantly different from those prescribed by Schedule II – Part C of the Companies Act, 2013 where the useful life is as assessed and certified by a technical expert.
- (c) Depreciation on leasehold improvements is provided on straight line method over the primary period of lease of premises or 5 years whichever is less.
- (d) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.
- (e) Assets having unit value up to Rs. 5,000 is depreciated fully in the financial year of purchase of asset.
- (f) An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognized.
- (g) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.8 Intangible assets and amortization thereof

Intangible assets, representing software's are initially recognized at cost and subsequently carried at cost less accumulated amortization and accumulated impairment. The intangible assets are amortized using the straight-line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.9 Impairment of non-financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

1.10 Provisions and Contingent Liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.11 Foreign Currency Translation

The Company's financial statements are presented in Indian Rupee, which is also the Company's functional currency.

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are re-translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

Exchange differences

All exchange differences are accounted in the Statement of Profit and Loss.

1.12 Employee benefits

i. Post-employment benefits

Defined Contribution plan

The Company's contribution to provident fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'), if any. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

1.13 Lease

Company has applied Ind AS 116 “Leases” for all lease contracts covered by the Ind AS. Under Ind AS 116 a contract is, or contains a lease, if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company undertook an assessment of all applicable contracts to determine if a lease exists as defined in Ind AS 116. This assessment will also be completed for each new contract or change.

Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payment discounted using the Company’s incremental cost of borrowing rate. Subsequently, the lease liability is

- i) Increase by interest on lease liability
- ii) Reduce by lease payments made

Measurement of Right-of-Use asset

At the time of initial recognition, the Group measures ‘Right-of-Use assets’ as present value of all lease payment discounted using the Group’s incremental cost of borrowing rate w.r.t said lease contract. Subsequently, ‘Right-of-Use assets’ is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re-measurement of the lease liability specified in Ind AS 116 ‘Leases’. Depreciation on ‘Right-of-Use assets’ is provided on straight line basis over the lease period.

In contract going forward. The Company has further elected not to recognize ROU assets and lease liabilities for leases of low value assets and for short-term leases (less than 12 months).

1.14 Fair Value Measurement

The Company measures its qualifying financial instruments at fair value on each Balance Sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole. For a detailed information on the fair value hierarchy, refer note no. 34.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

1.15 Segment reporting- Identification of segments:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108 Operating Segments, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

1.16 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

1.17 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions

1.18 Standards issued but not yet effective

Ministry of Corporate Affairs has issued Companies (Indian Accounting Standards) Amendment Rules, 2022 on March 23, 2022, which contains various amendments to Ind AS. Management has evaluated these and have concluded that there is no material impact on the Company's financial statements.

Fiscal 2022 compared to Fiscal 2021

Total income

Our total income decreased by 23.62% from ₹ 8,837.78 lakhs in Fiscal 2021 to ₹ 6,750.21 lakhs in Fiscal 2022. This decrease was primarily due to decrease in revenue from operations.

Revenue from operations

Our revenue from operations decreased by 22.59% from ₹ 8,417.65 lakhs in Fiscal 2021 to ₹ 6,516.04 lakhs in Fiscal 2022, primarily due to a decrease in interest income from ₹ 8,416.86 lakhs in Fiscal 2021 to ₹ 6,486.94 lakhs in Fiscal 2022. This was primarily attributable to decrease in AUM which decreased by 16.55% from ₹ 42,100.78 Lakhs as of March 31, 2021 to ₹ 35,131.79 Lakhs of March 31, 2022 and the “second wave” of the COVID-19 pandemic and associated lockdowns imposed to various extents in India which adversely affected our disbursements during that period;

Other income

Our other income decreased by 44.26% from ₹ 420.13 lakhs in Fiscal 2021 to ₹ 234.18 lakhs in Fiscal 2022, primarily due to a decrease in foreign exchange gain from ₹ 158.40 lakhs in Fiscal 2021 to Nil in Fiscal 2022.

Expenses

Total expenses decreased by 13.38% from ₹ 6,916.99 lakhs in Fiscal 2021 to ₹ 5,991.30 lakhs in Fiscal 2022.

Finance costs

Our finance costs decreased by 27.15% from ₹ 4,804.47 lakhs in Fiscal 2021 to ₹ 3,500.04 lakhs in Fiscal 2022, primarily due to a decrease in interest on term loans from ₹ 4,081.88 lakhs in Fiscal 2021 to ₹ 2,693.62 lakhs in Fiscal 2022.

Impairment on financial instruments

The impairment on financial instruments increased by 37.76% from ₹ 771.47 lakhs in Fiscal 2021 to ₹ 1,062.80 lakhs in Fiscal 2022. This was primarily due to an increase in our loans written off (net of recovery) from ₹ 612.03 lakhs in Fiscal 2021 to ₹ 974.63 lakhs in Fiscal 2022, owing to the impact of COVID- 19.

Employee benefits expense

Our employee benefits expense decreased by 13.09% from ₹ 840.43 lakhs in Fiscal 2021 to ₹ 730.40 lakhs in Fiscal 2022.

Depreciation and amortization expense

Our depreciation and amortization expense increased by 6.45% from ₹ 65.27 lakhs in Fiscal 2021 to ₹ 69.48 lakhs in Fiscal 2022, primarily due to increase in the depreciation on property, plant and equipment. The increase was primarily attributable to the increase in various other assets acquired.

Other expenses

Our other expenses increased by 44.38% from ₹ 435.35 lakhs in Fiscal 2021 to ₹ 628.58 lakhs in Fiscal 2022, primarily due to an increase in foreign exchange loss from Nil in Fiscal 2021 to ₹ 200.37 lakhs in Fiscal 2022,.

Profit before Tax

For the reasons discussed above, profit before tax was ₹ 758.91 lakhs in Fiscal 2022 compared to profit before tax of ₹ 1,920.79 lakhs in Fiscal 2021.

Tax expenses

Our tax expenses increased by 19.48% from ₹ 290.30 lakhs in Fiscal 2021 to ₹ 346.84 lakhs in Fiscal 2022. Current tax expense decreased from ₹ 434.09 lakhs in Fiscal 2021 to ₹ 252.59 lakhs in Fiscal 2022, primarily due to a corresponding decrease in profit before tax. Our deferred tax credit decreased from ₹ 143.79 lakhs in Fiscal 2021 to ₹ -94.25 lakhs in Fiscal 2022.

Profit after tax

Our profit after tax decreased by 74.73% from ₹ 1,630.49 lakhs in Fiscal 2021 to ₹ 412.07 lakhs in Fiscal 2022.

Fiscal 2021 compared to Fiscal 2020

Total income

Our total income decreased by 12.28% from ₹ 10,075.03 lakhs in Fiscal 2020 to ₹ 8,837.78 lakhs in Fiscal 2021. This decrease was primarily due to a decrease in revenue from operations.

Revenue from operations

Our revenue from operations decreased by 14.66% from ₹ 9,863.63 lakhs in Fiscal 2020 to ₹ 8,417.65 lakhs in Fiscal 2021, primarily due to a decrease in interest income from ₹ 9,845.13 lakhs in Fiscal 2020 to ₹ 8,416.86 lakhs in Fiscal 2021. This was primarily attributable to decrease in our AUM for Fiscal 2021 to Rs. 42,100.78 Lakhs from Rs. 47,943.31 Lakhs in Fiscal 2020 resulting in a de-growth of 12.19%. The de-growth in AUM was primarily due to the COVID-19 pandemic and subsequent lockdown enforced in the country by government authorities, which significantly impacted our disbursements and AUM.

Other income

Our other income increased by 98.75% from ₹ 211.39 lakhs in Fiscal 2020 to ₹ 420.13 lakhs in Fiscal 2021, primarily due to foreign exchange gain of ₹ 158.40 lakhs in Fiscal 2021 compared to no foreign exchange gain in Fiscal 2020.

Expenses

Total expenses decreased by 6.94% from ₹ 7,432.87 lakhs in Fiscal 2020 to ₹ 6,916.99 lakhs in Fiscal 2021.

Finance costs

Our finance costs decreased by 13.61% from ₹ 5,561.69 lakhs in Fiscal 2020 to ₹ 4,804.47 lakhs in Fiscal 2021, primarily due to a decrease in interest on term loans from ₹ 4,911.63 lakhs in Fiscal 2020 to ₹ 4,081.88 lakhs in Fiscal 2021. This was a result of decrease in total borrowings of the Company by 20.37% i.e. from Rs. 39,912.84 Lakhs in Fiscal 2020 to Rs. 31,782.23 Lakhs

Impairment on financial instruments

The impairment on financial instruments increased by 122.39% from ₹ 346.90 lakhs in Fiscal 2020 to ₹ 771.47 lakhs in Fiscal 2021. This was primarily due to an increase in our loans written off (net of recovery) from ₹ 206.11 lakhs in Fiscal 2020 to ₹ 604.53 lakhs in Fiscal 2021, owing to the impact of COVID- 19.

Employee benefits expense

Our employee benefits expense decreased by 13.98% from ₹ 977.01 lakhs in Fiscal 2020 to ₹ 840.43 lakhs in Fiscal 2021, primarily due to reduced employee benefit expenses owing to the impact of lockdowns and unpaid leaves availed by the employees.

Depreciation and amortization expense

Our depreciation and amortization expense decreased by 13.98% from ₹ 75.88 lakhs in Fiscal 2020 to ₹ 65.27 lakhs in Fiscal 2021, primarily due to decrease in written down value of the Property, plant and Equipment.

Other expenses

Our other expenses decreased by 7.65% from ₹ 471.39 lakhs in Fiscal 2020 to ₹ 435.35 lakhs in Fiscal 2021, primarily due to a decrease in commission expenses from ₹ 67.54 lakhs in Fiscal 2020 to ₹ 21.20 lakhs in Fiscal 2021 and overall decrease in operations of the Company.

Profit before Tax

For the reasons discussed above, profit before tax was ₹ 1,920.79 lakhs in Fiscal 2021 compared to profit before tax of ₹ 2,642.16 lakhs in Fiscal 2020 i.e. a decrease of 27.30%.

Tax expenses

Our tax expenses decreased by 63.51% from ₹ 795.64 lakhs in Fiscal 2020 to ₹ 290.30 lakhs in Fiscal 2021. Current tax expense decreased from ₹ 808.96 lakhs in Fiscal 2020 to ₹ 434.09 lakhs in Fiscal 2021, primarily due to a corresponding decrease in profit before tax. Our deferred tax credit increased from ₹ 13.33 lakhs in Fiscal 2020 to ₹ 143.79 lakhs in Fiscal 2021.

Profit after tax

Our profit after tax decreased by 11.70% from ₹ 1,846.52 lakhs in Fiscal 2020 to ₹ 1,630.49 lakhs in Fiscal 2021.

As of March 31, 2022, our total equity was ₹ 13,684.44 lakhs, representing 36.59% of our total assets. As of March 31, 2021, our total equity was ₹ 13,026.36 lakhs, representing 28.60% of our total assets. As of March 31, 2020, our total equity was ₹ 11,005.37 lakhs, representing 21.35% of our total assets. The increase in our total equity from March 31, 2020 to September 30, 2022 was primarily due to a combination of equity infusion, increase in statutory reserves and securities premium and an increase in our retained earnings.

Liquidity and Capital Resources

We have historically secured financing from diversified sources, including term loans and debt securities. As of March 31, 2020, March 31, 2021, March 31, 2022 and September 30, 2022, our total borrowings were ₹ 39,912.84 lakhs, ₹ 31,782.23 lakhs, ₹ 23,006.03 lakhs and ₹ 19,536.00 lakhs, respectively.

We actively manage our liquidity and capital position by raising funds periodically. We regularly monitor our capital levels to ensure that we are able to satisfy the requirements for loan disbursements and maturity of our liabilities. All our loan agreements contain a number of covenants including financial covenants. For further information, see “*Financial Indebtedness*” and “*Risk Factors – Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations and financial condition*” on pages 263 and 29, respectively.

Quantitative and Qualitative Disclosure about Market Risk

Our Company’s risk is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. Our Company is exposed to credit risk, liquidity risk and interest rate risk.

Credit Risk

Credit risk is the risk that our Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. Our Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties. For instance, our Company has guidelines in place covering the acceptability and valuation of each type of collateral. We also adhere to RBI guidelines in respect of maintenance of adequate LTV ratios.

Liquidity Risk

Liquidity risk is defined as the risk that our Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that our Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to our Company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis.

Liquidity risk is managed in accordance with our Asset Liability Management Policy. This policy is framed as per the current regulatory guidelines and is approved by the Board of Directors. The Asset Liability Management Policy is reviewed periodically to incorporate changes as required by regulatory stipulation or to realign the policy with changes in the economic landscape. The Asset Liability Committee of our Company formulates and reviews strategies and provides guidance for management of liquidity risk within the framework laid out in the Asset Liability Management Policy.

Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The core business of our Company is providing 1. Vehicle financing, comprising of Used Commercial Vehicle, 2 Wheeler Loans, Used 2 Wheeler Loans and Business Finance. Our

Company borrows through various financial instruments to finance its core lending activity. These activities expose our Company to interest rate risk. Interest rate risk is measured through earnings at risk from an earnings perspective and through duration of equity from an economic value perspective. The interest rate risk is monitored on a quarterly basis.

Application for Settlement of Dispute No. 32 of 2022 filed by Mr. Jai Vasudev against the Company before the Hon'ble court of Permanent Lok Adalat, Udaipur (Raj.)

Mr. Jai Vasudev (“**Applicant**”) filed an Application for settlement of dispute against the Company (“**Respondent 1**”), under Section 8 of the Arbitration and Conciliation Act, 1996. The Applicant had taken a loan of Rs.75,00,000/- from the Company on June 01, 2018. The Applicant alleged that while he had availed the loan, the rate of interest was 13% per annum and repayment of which was in the form of 108 monthly instalments of Rs.1,18,152/- each, an amount of Rs. 1,20,000/- was debited on July 04, 2018 as an instalment by the Company. On receiving the loan statement from the Company on January 03, 2022, the Applicant realised that the loan was availed at 20% rate of interest and the instalments were divided for

132 months. The Applicant alleged that the Company had fraudulently changed the terms on the blank forms and did not provide the loan agreements to the Applicant. The Applicant further alleged that the Company debited Rs. 7,00,000/- from his account without his knowledge. Aggrieved by the same, the Applicant has filed the above application for settlement of dispute under which he has claimed the following reliefs: (i) the Applicant has prayed for the rate of interest to be revised to 13% at the tenure of 108 months; (ii) a new statement to be issued post removing the penal interest with the revised outstanding amount; and (iii) any other relief with due cost. The Company filed its reply date inter-alia stating that as per the terms of the loan agreement, the dispute was to be referred to arbitral tribunal, which the Applicant failed to do and the Company sought for dismissal of the above application for settlement of dispute. The matter is currently pending.

Securitization Application No. 90/2022 of 2022 filed by Mrs. Mamta Rawal against the Company before the Debt Recovery Tribunal, Jaipur (“Tribunal”)

Mrs. Mamta Rawal (“Applicant”), engaged in construction business, availed two loan facilities amounting to Rs. 40,00,000/- and Rs. 10,00,000/- in March and April 2019, respectively, from our Company (“Respondent”). A property owned by Mr. Ketan Rawal was mortgaged by the Applicant for the two loans obtained by the Applicant as well as for the two loans obtained by Mr. Ketan Rawal. The Applicant claimed that she was regular in payment of loans but the benefit of moratorium was not given to her by the Respondent for payment of monthly instalments and subsequently, in March 2020 both her loan accounts were declared as Non-Performing Assets NPAs by them and pursuant to the same demand notices dated December 30, 2022 were issued by Respondent stating a total due of Rs. 61,84,952/- from the Applicant. The Applicant further stated that she continued to make payments to the Respondent which were adjusted by the Respondent, however, the Respondent still issued a symbolic possession notice on June 14, 2021 stating a total outstanding debt amount of Rs. 71,11,652/- was due charging high interest and other illegal charges and informing the Applicant that order to take actual possession was also obtained from District Magistrate. Further, the Applicant stated that a second possession notice was also issued on February 4, 2021 stating amount due as Rs. 54,50,771/- and that this notice was not affixed or published in newspaper as per law. The Applicant stated that the proceedings under SARFAESI Act initiated by Respondent were non-maintainable as the Applicant is not covered under the ambit of ‘secured creditor’ and cannot resort to such recovery, the loans account were wrongly classified as NPAs and possession notice was issued after payment of Rs 41,18,690/- by the Applicant and still an excessive amount of Rs. 54,50,771/- was being demanded and thus, the demand notices and possession notices issued by the Respondent should be quashed and it should be restrained from proceeding against the Applicant. The Respondent vide its Reply stated that the Applicant had delayed payments from the second instalment and it had sent notice to the Applicant under Section 13(2) of SARFAESI Act to discharge the outstanding debt and the possession notice was not published by the Respondent as the husband of the Applicant and guarantor, made a certain deposit, issued post-dated cheques and assured to close the account if the notice was not published. The Respondent stated that it could initiate proceedings under SARFAESI Act and the loan account was declared as NPA due to defaults made by the Applicant evident from account statements and as per RBI norms and further moratorium was not applicable on her loan accounts as it had been declared NPA even before moratorium guidelines were issued and interest was charged, on account of delayed payments by the Applicant. The Respondent submitted that the abovementioned Application should be dismissed by the Tribunal with exemplary costs. The matter is currently pending.

Securitization Application No. 89/2022 of 2022 filed by Mr. Ketan Rawal against the Company before the Debt Recovery Tribunal, Jaipur (“Tribunal”)

Mr. Ketan Rawal (“Applicant”), engaged in construction business, availed two loan facilities amounting Rs. 40,00,000/- and Rs. 10,00,000/- in March and April 2019, respectively, from our Company (“Respondent”). A property owned by the Applicant was mortgaged by him for the two loans obtained as well as for the two loans obtained by Mrs. Mamta Rawal. The Applicant claimed that he was regular in payment of loans but the benefit of moratorium was not given to him by the Respondent for payment of monthly instalments and subsequently, in March 2020 both his loan accounts were declared as Non-Performing Assets NPAs by them and pursuant to the same demand notices dated December 30, 2022 were issued by Respondent stating a total due of Rs. 61,60,583/- from the Applicant. The Applicant further stated that he continued to make payments to the Respondent which were adjusted by the Respondent, however, the Respondent still issued a symbolic possession notice on June 14, 2021 stating a total outstanding debt amount of Rs. 57,91,332/- was due charging high interest and other illegal charges and informing the Applicant that order to take actual possession was also obtained from District Magistrate. Further, the Applicant stated that a second possession notice was also issued on February 4, 2021 stating amount due as Rs. 52,79,444/- and that this notice was not affixed or published in newspaper as per law.

The Applicant stated that the proceedings under SARFAESI Act initiated by Respondent were non-maintainable as the Applicant is not covered under the ambit of 'secured creditor' and cannot resort to such recovery, the loans account were wrongly classified as NPAs and possession notice was issued after payment of Rs 36,21,248/- by the Applicant and still an excessive amount of Rs. 52,79,444/- was being demanded and thus, the demand notices and possession notices issued by the Respondent should be quashed and it should be restrained from proceeding against the Applicant. The Respondent vide its Reply stated that the Applicant had delayed payments from the second instalment and it had sent notice to the Applicant under Section 13(2) of SARFAESI Act to discharge the outstanding debt and the possession notice was not published by the Respondent as the Applicant and guarantor, made a certain deposit, issued post-dated cheques and assured to close the account if the notice was not published. The Respondent stated that it could initiate proceedings under SARFAESI Act and the loan account was declared as NPA due to defaults made by the Applicant evident from account statements and as per RBI norms and further moratorium was not applicable on her loan accounts as it had been declared NPA even before moratorium guidelines were issued and interest was charged, on account of delayed payments by the Applicant. The Respondent submitted that the abovementioned application should be dismissed by the Tribunal with exemplary costs. The matter is currently pending.

Securitisation Application Against Demand Notice Under Section 13 (2) filed by Mr. Amrit Lal Kothari and Anr. against the Company

Mr. Amrit Lal Kothari ("Applicant 1") and Smt. Sunita Kothari ("Applicant 2") filed an Application against demand notice issued by the Company ("Respondent") under section 13(2) SARFAESI Act'. The Applicant had secured a loan of Rs. 70,00,000/- with agreed rate of Interest of 18.50 percent per annum from the Respondent for which Applicants deposited the title deeds of the property, Two Residential converted land of khasra No. 936, situated at Kishore Nagar (Subhash Nagar) Kankroll Distt. Rajsamand, admeasuring 1539 sq.ft. and 1503 sq. ft. ("Property"), valued at more than Rs.2,50,00,000/- (Rupees Two Crores and Fifty Lakhs only). The Applicant alleged that he made regular payments but the Respondent in contravention of the RBI Guidelines classified the accounts of Applicants as NPAs and proceeded to issue the three different demand notices under Section 13 (2) of the SARFAESI Act dated January 25, 2019, November 25, 2020 and December 05, 2020 against the Applicants for the sum of Rs. 1,27,39,556/- Rs. 1,48,47,563/- and Rs. 1,57,43,853/-, respectively, and charged huge amounts of penal interest at higher rates than agreed along with other illegal charges and costs and issued possession notices for the said Property and further obtained an order from the District Magistrate under Section 14 of the SARFAESI Act without notifying the Applicants of the same.. The Applicants claimed that they have made a payment of more than 42,00,000/- towards the loan account, however despite the same, the Respondent issued the demand notices against the Applicant. Aggrieved by the same, the Applicant pursuant to the above Application has sought that the demand notices and possession notices issued by the Respondent be quashed and the order passed by the Learned District Magistrate be set aside and the penal interest, and other illegal charges imposed by the Respondent be removed and that the Respondent provides the loan documents and sanction letter along with the entire statement of account of the Applicant as well as chart of interest and/or penal interest and other charges imposed. The Applicant further prayed that the Respondent should be directed to delete all the debit entries from the statement of account regarding illegal action initiated under the SARFAESI Act and it may be held that the Applicant is not liable for such expenses and the said expenses by the Hon'ble Tribunal. The matter is still pending.

Securitization Application No. 483/2022 of 2022 filed by Mr. Digvijay Singh Jhala against the Company before the Debt Recovery Tribunal, Jaipur ("Tribunal")

Mr. Digvijay Singh Jhala ("Applicant") filed an Application against demand notice issued by the Company ("Respondent") under Section 17(1) of SARFAESI Act'. The Applicant prayed for interim relief and submitted that the Applicant is willing to deposit entire outstanding amount with the Company. Subsequently the Presiding Officer of the Tribunal passed an order to check bonafides of the Applicant and the Applicant was directed to deposit an amount of Rs.4,00,000/- with the Company. Further the Company was called upon to show cause as to why the relief should not be granted by the Tribunal and was called to appear before the Tribunal.

This Issue is being made in India to persons resident in India (including Indian nationals resident in India who are competent to contract under the Indian Contract Act, 1872, Hindu Undivided Families (“HUFs”), companies, other corporate bodies and societies registered under the applicable laws in India and authorised to invest in equity shares, corporate bodies, scientific institutions, societies, trusts and FPIs who are individuals, corporate bodies and family offices which are categorised as category II FPIs and registered with SEBI companies or trusts registered under the Societies Registration Act, 1860, as amended from time to time, or any other applicable trust laws, and who are authorised under their respective constitutions to hold and invest in equity shares, and non-residents including Eligible NRIs. This Draft Red Herring Prospectus does not, however, constitute an offer to sell or an invitation to subscribe to Equity Shares offered hereby, in any jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession this Draft Red Herring Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Any dispute arising out of this Issue will be subject to the jurisdiction of appropriate court(s) in Rajasthan, India only.

No action has been, or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Draft Red Herring Prospectus has been filed with SEBI for its observations. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and this Draft Red Herring Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of this Draft Red Herring Prospectus, nor any offer or sale hereunder, shall, under any circumstances, create any implication that there has been no change in our affairs from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Eligibility and Transfer Restrictions

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Equity Shares have not been and will not be registered under the U.S. Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not

subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and applicable laws of the jurisdictions where such offers and sales occur.

Each purchaser of the Equity Shares in the Issue in India shall be deemed to:

- represent and warrant to our Company, the BRLM and the Syndicate Members that it was outside the United States (as defined in Regulation S) at the time the offer of the Equity Shares was made to it and it was outside the United States (as defined in Regulation S) when its buy order for the Equity Shares was originated.
- represent and warrant to our Company, the BRLM and the Syndicate Members that it did not purchase the Equity Shares as result of any “directed selling efforts” (as defined in Regulation S).
- represent and warrant to our Company, the BRLM and the Syndicate Members that it bought the Equity Shares for investment purposes and not with a view to the distribution thereof. If in the future it decides to resell or otherwise transfer any of the Equity Shares, it agrees that it will not offer, sell or otherwise transfer the Equity Shares except in a transaction complying with Rule 903 or Rule 904 of Regulation S or pursuant to any other available exemption from registration under the U.S. Securities Act.
- represent and warrant to our Company, the BRLM and the Syndicate Members that if it acquired any of the Equity Shares as fiduciary or agent for one or more investor accounts, it has sole investment discretion with respect to each such account and that it has full power to make the foregoing representations, warranties, acknowledgements and agreements on behalf of each such account.
- represent and warrant to our Company, the BRLM and the Syndicate Members that if it acquired any of the Equity Shares for one or more managed accounts, that it was authorized in writing by each such managed account to subscribe to the Equity Shares for each managed account and to make (and it hereby makes) the representations, warranties, acknowledgements and agreements herein for and on behalf of each such account, reading the reference to “it” to include such accounts.
- agree to indemnify and hold the Company, the BRLM and the Syndicate Members harmless from any and all costs, claims, liabilities and expenses (including legal fees and expenses) arising out of or in connection with any breach of these representations, warranties or agreements. It agrees that the indemnity set forth in this paragraph shall survive the resale of the Equity Shares.
- acknowledge that our Company, the BRLM, the Syndicate Members and others will rely upon the truth and accuracy of the foregoing representations, warranties, acknowledgements and agreements.

Bidders are advised to ensure that any Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law.

Further, each Bidder where required must agree in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act.

Nomination facility to investors

In accordance with Section 72 of the Companies Act read with Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is

a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 as mentioned above, shall, upon the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividend, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment will be made only in dematerialised form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder will prevail. If Bidders wish to change their nomination, they are requested to inform their respective Depository Participant.

***In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) for cancelled/ withdrawn/ deleted ASBA Forms, the Bidder shall be compensated by the SCSB responsible for causing such delay in unblocking at a uniform rate of ₹100 per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated by the SCSB responsible for causing such delay in unblocking at a uniform rate ₹100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated by the SCSB responsible for causing such delay in unblocking at a uniform rate of ₹100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/partially allotted Bids, exceeding four Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding four Working Days from the Bid/ Issue Closing Date by the SCSB responsible for causing such delay in unblocking. The BRLM shall be liable for compensating the Bidder at a uniform rate of ₹100 per day or 15% per annum of the Bid Amount, whichever is higher from the date of receipt of the investor grievance until the date on which the blocked amounts are unblocked. The Bidder shall be compensated in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable

The above timetable is indicative and does not constitute any obligation on our Company or the BRLM.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within six Working Days of the Bid / Issue Closing Date or such period as may be prescribed, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company and, in consultation with the BRLM, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within six Working Days from the Bid/Issue Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

SEBI is in the process of streamlining and reducing the post Issue timeline. Any circulars or notifications from SEBI after the date of the Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the issue procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids:

Bid/ Issue Period (except the Bid/ Issue Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”))
Bid/ Issue Closing Date	
Submission and Revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

On the Bid/ Issue Closing Date, the Bids shall be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs or Eligible Employees under the Employee Reservation Portion.

On Bid/Issue Closing Date, extension of time will be granted by the Stock Exchanges only for uploading Bids received by Retail Individual Bidders, after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchanges.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of the time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 1.00 p.m. (IST) on the Bid/Issue Closing Date. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation under this Issue Bids will only be accepted on Working Days.

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. Neither our Company nor any member of the Syndicate is liable for any failure in: (i) uploading or downloading the Bids due to faults in any software / hardware system or otherwise, and (ii) the blocking of the Bid Amount in the ASBA Account of Bidders on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/Issue Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly, provided that, the Cap Price of the Price Band shall be at least 105% of the Floor Price. In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision in the Price Band, the Bid/Issue Period shall be extended for at least 3 (three) additional Working Days after such revision of the Price Band, subject to the total Bid/Issue Period not exceeding 10 (ten) Working Days. Further, in cases of *force majeure*, banking strike or similar circumstances, our Company and in consultation with the BRLM, for reasons to be recorded in writing, may extend the Bid / Issue Period for a minimum of 3 (three) Working Days, subject to the Bid / Issue Period not exceeding 10 (ten) Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a press release and also by indicating the change on the websites of the BRLM and at the terminals of the members of the Syndicate and by intimation to the Designated Intermediaries and Sponsor Bank as applicable. In case of revision of the Price Band, the Bid lot shall remain the same.

In case of discrepancy in the data entered in the electronic book *vis-à-vis* the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

Minimum Subscription

In the event our Company does not receive (i) a minimum subscription of 90% of the Issue, and (ii) a subscription in the Issue equivalent to at least 25% post-Issue paid up Equity Share capital of our Company, as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within 60 days from the date of Bid/Issue Closing Date, or if the subscription level falls below the thresholds mentioned above after the Bid/Issue Closing Date, on account of withdrawal of applications or after technical rejections, or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares being issued under the Draft Red Herring Prospectus, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond 4 (four) days, our Company to the extent applicable, shall pay interest at the rate of 15% per annum including the SEBI circular bearing no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021.

Further, the Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted shall not be less than 1,000 in compliance with Regulation 49(1) of the SEBI ICDR Regulations failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders, and subscription money will be refunded, as applicable. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, the Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for disposal of odd lots

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

Restriction on transfer and transmission of shares

Except for the lock-in of the pre-Issue Equity Share Capital of our Company and minimum Promoters' Contribution, as detailed in "*Capital Structure*" beginning on page 64 and except as otherwise provided in our Articles of Association, there are no restrictions on transfers and transmission of Equity Shares or on their consolidation or splitting. See, "*Main Provisions of the Articles of Association*" beginning on page 348.

Option to receive Equity Shares in Dematerialized Form

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges.

Withdrawal of the Issue

Our Company, in consultation with the BRLM, reserve the right not to proceed with the entire or portion of the Issue for any reason at any time after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers, in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such further time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. Further, the Stock Exchanges shall be informed promptly in this regard by our Company, and the BRLM, through the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank (in case of RIBs using the UPI mechanism), as applicable, to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. In the event of withdrawal of the Issue and subsequently, plans of a fresh Issue by our Company, a fresh draft red herring prospectus will be submitted again to SEBI and the Stock Exchanges.

Notwithstanding the foregoing, this Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within six Working Days of Bid/Issue Closing Date or such other period as may be prescribed, and the final RoC approval of the Prospectus after it is filed with the RoC.

New Financial Instruments

Our Company is not issuing any new financial instruments through this Issue.

- (1) Our Company has not made any allocation to QIBs (including anchor investors) in the QIB category.
- (2) Subject to valid Bids being received at or above the Issue Price. The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 45 of the SEBI ICDR Regulations. The Issue is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not less than 50% of the Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders of which one-third of the Non-Institutional Portion shall be reserved for applicants with an application size of more than ₹ 2,00,000 and up to ₹10,00,000 and two-thirds of the Non-Institutional Portion shall be reserved for applicants with an application size of more than ₹ 10,00,000 and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to applicants in the other sub-category of Non-Institutional Portion in accordance with SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Further, not less than 50% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. In the event of under-subscription in the Issue, the Allotment for the valid Bids will be made, in the first instance, towards subscription for 90% of the Issue. For further details, please see “Terms of the Issue” on page 321.
- (3) In the event that a Bid is submitted in joint names, the relevant Bidders should ensure that the depository account is also held in the same joint names and the names are in the same sequence in which they appear in the Bid cum Application Form. The Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder would be required in the Bid cum Application Form and such First Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.
- (4) UPI Bidders are advised to confirm the availability of the UPI Mechanism with their respective brokers, prior to submission of Bids.

Bids by FPIs with certain structures as described under “Issue Procedure” beginning on page 331 and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire Equity Shares under the Issue.

In case of any revision in the Price Band, the Bid/ Issue Period shall be extended for at least 3 (three) additional Working Days after such revision of the Price Band, subject to the total Bid/ Issue Period not exceeding 10 (ten) Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if

applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a press release and also by indicating the change on the websites of the BRLM and at the terminals of the members of the Syndicate.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

ISSUE PROCEDURE

*All Bidders should read the General Information Document, for Investing in Publics Issue prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the “**General Information Document**”) which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLM. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue.*

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Issue; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Issue; (vi) price discovery and allocation; (vii) general instructions (limited to instructions for completing the Bid cum Application Form); (viii) designated date; (ix) disposal of applications and electronic registration of bids; (x) submission of Bid cum Application Form; (xi) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xii) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

*SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.*

*With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the Covid-19, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, has decided to continue with the UPI Phase II till further notice. The final reduced timeline of T+3 days will be made effective using the UPI Mechanism for applications by RIBs (“**UPI Phase III**”), as may be prescribed by SEBI. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended by circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 has introduced certain additional measures for streamlining the process of initial public issue and redressing investor grievances. This circular shall come into force for initial public issue opening on or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus.*

The BRLM shall be the nodal entity for any issues arising out of public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI Circular No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and BRLM shall continue to coordinate with intermediaries involved in the said process. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹5,00,000 shall use the UPI Mechanism.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/Issue Closing Date, the Bidder shall be

compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Our Company and the members of the Syndicate do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and the Prospectus.

Further, our Company and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Issue.

Book Building Procedure

The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations, through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Net Issue shall be available for allocation to Non-Institutional Bidders in accordance with the SEBI ICDR Regulations, out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹2,00,000 and up to ₹10,00,000; and (b) two-third of such portion shall be reserved for applicants with application size of more than ₹10,00,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders; and not more than 50% of the Net Issue shall be available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, subject to applicable laws.

The Issue includes a reservation of up to 5,50,000 Equity Shares, aggregating up to ₹[●] lakhs, for subscription by Eligible Employees. The Employee Reservation Portion shall not exceed 5% of our post-Issue paid-up Equity Share capital, subject to valid Bids being received at or above the Issue Price, net of Employee Discount, if any.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for UPI Bidders using the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Issue, subject to applicable law.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of *inter alia*, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated

Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days. Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Issue. Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid/Issue Opening Date. If the Issue is made under UPI Phase III of the UPI Circular, the same will be advertised in [●] editions of [●], an English national daily newspaper, [●] editions of [●], a Hindi national daily newspaper and [●] editions of [●], (Hindi being the regional language of Rajasthan where our Registered Office is located), each with wide circulation and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites.

All SCSBs offering the facility of making applications in public offers shall also provide the facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

Non-Institutional Bidders Bidding with an application size of up to ₹ 5,00,000 in the Non-Institutional Portion may also Bid using the UPI Mechanism, where made available.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLM.

Bid cum Application Form

Copies of the ASBA Forms and the abridged prospectus will be available with the Designated Intermediaries at relevant Bidding Centres and at our Registered. An electronic copy of ASBA Forms will also be available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid/Issue Opening Date.

All Bidders shall mandatorily participate in the Issue only through the ASBA process. RIBs can additionally Bid through the UPI Mechanism. ASBA Bidders must provide either (i) the bank account details and authorisation to block funds in the ASBA Form, or (ii) the UPI ID (in case of UPI Bidders using the UPI Mechanism), as applicable, in the relevant space provided in the ASBA Form. The ASBA Forms that do not contain such details will be rejected. Applications made by the RIBs using third party bank account or using third party linked bank account UPI ID are liable for rejection.

RIBs using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with CBDT notification dated Feb 13, 2020 and press release dated June 25, 2021.

ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the relevant Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. UPI Bidders using the UPI Mechanism, may submit their ASBA Forms with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs. RIBs authorising an SCSB to block the Bid Amount in the ASBA Account may submit their ASBA Forms with the SCSBs. ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSB or by Sponsor Bank under the UPI Mechanism, as applicable at the time of submitting the Bid. ASBA Bidders must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable at the time of submitting the Bid. In order to ensure timely information to Bidders, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked/ unblocked.

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/Issue Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

* Excluding electronic Bid cum Application Forms

Notes:

1. Electronic Bid cum Application forms and the abridged prospectus will also be available for download on the respective websites of the Stock Exchanges (www.nseindia.com and www.bseindia.com).

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds. For ASBA Forms (other than UPI Bidders using UPI Mechanism where made available) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

The Sponsor Bank shall initiate request for blocking of funds through NPCI to RIBs, who shall accept the UPI Mandate Request for blocking of funds on their respective Mobile Applications associated with UPI ID linked bank account. For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 12:00 pm on the first Working Day after the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The

NPCI shall share the audit trail of all disputed transactions / investor complaints to the Sponsor Bank and the issuer bank. The Sponsor Bank and the Bankers to the Issue shall provide the audit trail to the BRLM for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Banks on a continuous basis.

Electronic registration of Bids

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Issue.
- b) On the Bid/ Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.

Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given time till 1:00 pm on the next Working Day following the Bid/ Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

Participation by associates and affiliates of the BRLM and the Syndicate Members, Promoter, Promoter Group and persons related to Promoter / Promoter Group

The BRLM and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLM and the Syndicate Members may bid for Equity Shares in the Issue, in the Non-Institutional Portion as may be applicable to such Bidders, and such Bid subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLM and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

The Promoters and the members of the Promoter Group will not participate in the Issue.

Bids by Eligible NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Issue. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their respective SCSB or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non- Resident External (“NRE”) accounts (including UPI ID, if activated), or Foreign Currency Non-Resident (“FCNR”) Accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorize their respective SCSB to block their Non-Resident Ordinary (“NRO”) accounts or confirm or accept the UPI Mandate Request (in case of UPI Bidders using the UPI Mechanism) for the full Bid Amount, at the time of the submission of the Bid cum Application Form. NRIs applying in the Issue through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents

([●] colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents ([●] colour).

For further, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 346.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the *karta*. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the *karta*”. Bids/Applications by HUFs may be considered at par with Bids/Applications from individuals.

Bids by FPIs

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI or an investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control) shall be below 10% of our post-issue Equity Share capital on a fully diluted basis. In case, the total holding of an FPI, or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents ([●] colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, is permitted to issue, subscribe to or otherwise deal in offshore derivative instruments directly or indirectly, if it complies with the following conditions: (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with the ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (i) to (iv)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids:

- FPIs which utilise the multi investment manager structure;
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary

derivative investments;

- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager;
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs with the operational guidelines for FPIs and designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids shall be rejected

For details of investment by FPIs in the Issue, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 346. Participation of FPIs shall be subject to the FEMA Non-debt Instruments Rules.

The FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for non-residents.

There is no reservation for Eligible NRI Bidders and FPIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

All non-resident investors should note that dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

Bids by SCSBs

SCSBs participating in the Issue are required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

Bids under Power of Attorney

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered

societies, eligible FPIs, , in each case, subject to applicable law and in accordance with their respective constitutional documents a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws as applicable must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company in consultation with the BRLM, in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company and the, in consultation with the BRLM, may deem fit, without assigning any reasons thereof.

The above information is given for the benefit of the Bidders. Our Company and the members of Syndicate are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation or as specified in the Red Herring Prospectus and Prospectus.

In accordance with existing regulations issued by the RBI, OCBs cannot participate in the Issue.

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLM are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Draft Red Herring Prospectus or this Draft Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

General Instructions

Please note that Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. RIBs can revise their Bid(s) during the Bid/ Issue Period and withdraw or lower the size of their Bid(s) until Bid/ Issue Closing Date.

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals. All Bidders should submit their Bids through the ASBA process only;
2. Ensure that you have Bid within the Price Band;
3. Ensure that you have mentioned the correct ASBA Account number (for all Bidders other than Retail Individual Investors Bidding using the UPI Mechanism) in the Bid cum Application Form and such ASBA account belongs to you and no one else. UPI Bidders using the UPI Mechanism must mention their correct UPI ID and shall use only their own bank account which is linked to such UPI ID;

4. UPI Bidders using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
5. UPI Bidders Bidding using the UPI Mechanism shall make Bids only through the SCSBs, Mobile Applications and UPI handles whose name appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected;
6. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
7. Ensure that the details about the PAN, DP ID and Client ID are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in the dematerialised form only
8. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the relevant Bidding Centre (except in case of electronic Bids) within the prescribed time. Retail Individual Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate Members, sub-Syndicate Members, Registered Brokers, RTAs or CDPs and should ensure that the ASBA Form contains the stamp of such Designated Intermediary;
9. All Bidders should submit their Bids through the ASBA process only;
10. In case of joint Bids, ensure that first Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the first Bidder is included in the Bid cum Application Form;
11. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. Ensure that the signature of the First Bidder is included in the Bid cum Application Forms. PAN of the First Bidder is required to be specified in case of joint Bids;
12. Bidders should ensure that they receive the Acknowledgment slip or the acknowledgement number duly signed and stamped by a Designated Intermediary, as applicable, for submission of the Bid cum Application Form;
13. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;
14. Ensure that you submit the revised Bids to the same Designated Intermediary, through whom the original Bid was placed and obtain a revised acknowledgment;
15. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of the SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) submitted by investors who are exempt from the requirement of obtaining/specifying their PAN for transacting in the securities market, and (iii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
16. Ensure that the Demographic Details are updated, true and correct in all respects;
17. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;
18. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;

19. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust, etc., relevant documents, including a copy of the power of attorney, are submitted;
20. Ensure that Bids submitted by any person resident outside India should be in compliance with applicable foreign and Indian laws;
21. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
22. Note that in case the DP ID, UPI ID (where applicable), Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, UPI ID (where applicable), Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
23. However, Bids received from FPIs bearing the same PAN shall not be treated as multiple Bids in the event such FPIs utilise the MIM Structure and such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs
24. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 12:00 p.m. of the Working Day immediately after the Bid/Issue Closing Date;
25. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, were required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids are liable to be rejected;
26. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI (at www.sebi.gov.in) or such other websites as updated from time to time);
27. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”) makes policy announcements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEMA. The DPIIT also issues the Consolidated Foreign Direct Investment Policy (“FDI Policy”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DPIIT with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DPIIT till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

The FDI Policy issued by the DPIIT permits foreign investment upto 100% of paid-up equity share capital of non-banking financial companies under the automatic route subject to compliance of certain conditions mentioned in the FDI Policy. The Company will be required to make certain filings with the RBI after the completion of the Issue.

In accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

Further, the existing individual and aggregate investment limits for an FPI in our Company are not exceeding 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (“Rules”) and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Issue, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders. With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100% provided that the Company complies with conditions provided under the FDI Policy. As per the Rules, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has passed no such Board Resolution and hence, has not revised its sectoral caps. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company. The aggregate limit

of 10% in case of NRIs and OCIs together may be raised to 24 % if a special resolution to that effect is passed by the shareholders of the Company. Vide special resolutions dated December 7, 2022 passed by the shareholders of the Company, the aforementioned aggregate limits of 24% in case of FPIs was increased up to the sectoral cap/statutory ceiling, as applicable and 10% in case of NRIs and OCIs together was raised to 24 %.

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of RBI, subject to fulfillment of certain conditions as specified by DPIIT / RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the Bids are not in violation of laws or regulations applicable to them.

Neither the receipt by the Company of a portion of any money which shall from time to time be due from any member of the Company in respect of his shares, either by

way of principal or interest, nor any indulgence granted by the Company. In respect of the payment of any such money, shall preclude, the Company from thereafter proceeding to enforce a forfeiture of such shares as herein provided. Such forfeiture shall include all dividends declared or interest paid or any other moneys payable in respect of the forfeited shares or debentures and not actually paid before the forfeiture.

Article 52

Entry of Forfeiture in Register of Member/Debenture holders

When any shares / debentures shall have been so forfeited, notice of the forfeiture shall be given to the member or debenture holder in whose name it stood immediately prior to the forfeiture and any entry of the forfeiture with the date thereof, shall forthwith be made in the Register of members of debenture holders but no forfeiture shall be invalidated by any omission or neglect or any failure to give such notice or make such entry as aforesaid.

Article 56

Effect of Forfeiture

The forfeiture of a share or a debenture shall involve extinction at the time of forfeiture, of all interest in and all claims and demands against the Company, in respect of the share or debenture and all other rights incidental to the share or debenture, except only such of these rights as by these Articles are expressly saved.

Article 61

Surrender of Shares or Debenture

The Directors may, subject to the provisions of the Act, accept a surrender of any share or debenture from or by any member or debenture holder desirous of surrendering them on such terms as they think fit.

Article 66

Transfer of Share

- (a) An application of registration of the transfer of shares may be made either by the transferor or the transferee provided that where such application is made by the transferor, no registration shall in the case of partly paid shares be effected unless the Company gives notice of the application to the transferee and subject to the provisions of Clause (a) of this Article, the Company shall unless object is made by the transferee, within two weeks from the date of receipt of the notice, enter in the Register of members the name of the transferee in the same manner and subject to the same conditions as if the application for registration was made by the transferee.
- (b) For the purpose of clause (a) above notice to the transferee shall be deemed to have been duly given if sent by prepaid registered post to the transferee at the address given in the instrument of transfer and shall be deemed to have been duly delivered at the time at which it would have been delivered to him in the ordinary course of post.
- (c) It shall not be lawful for the Company to register a transfer of any shares unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupation, if any, of the transferee has been delivered to the Company along with the Certificate relating to the shares and if no such Certificate is in existence, along with the letter of allotment of shares. The Directors may also call for such other evidence as may reasonably be required to show the right of the transferor to make the transfer, provided that where it is proved to the satisfaction of the Directors of the Company that an instrument of transfer signed by the transferor and the transferee has been lost, the Company may, if the Directors think fit, on an application in writing made by the transferee and bearing the stamp required by an instrument of transfer register the transfer on such terms as to indemnity as the Directors may think fit.
- (d) Nothing in clause (c) above shall prejudice any power of the Company to register as shareholder any person to whom the right to any share has been transmitted by operation of law.
- (e) Nothing in this Article shall prejudice any power of the Company to refuse to register the transfer of

any share.

Article 73

Registration of Persons Entitled to Share Otherwise than by Transfer

- (a) Subject to the provisions of Article 79 any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy or insolvency of any member or by any lawful means other than by a transfer in accordance with these present, may with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that the sustains the character in respect of which he proposes to act under this Article or of such titles as the Directors shall think sufficient, either be registered himself as a member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as a member in respect of such shares. Provided nevertheless that if such person shall elect to have his nominee registered he shall testify his election by executing in favor of his nominee on instrument of transfer in accordance with the provisions herein contained and until he does so, he shall not be free from any liability in respect of such shares.
- (b) A transfer of the share or other interest in the Company of a deceased member thereof made by his legal representative shall although the legal representative is not himself a member, be as valid as if he had been a member at the time of the execution of the instrument of transfer.

GENERAL MEETINGS

Article 92

Annual General Meeting
