RISKS IN RELATION TO THE FIRST ISSUE

This being the first public issue of our Company, there has been no formal market for the Equity Shares. The face value of the Equity Shares is ₹ 10/- each and the Issue Price is 10.2 times of the face value of the Equity Shares. The Issue Price (determined and justified by our Company in consultation with the Lead Manager as stated in "Basis for Issue Price" on page 83 of this Draft Prospectus) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue, including the risks involved. The Equity Shares in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Prospectus. Specific attention of the investors is invited to "Risk Factors" on page 23 of this Draft Prospectus.

ISSUER'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Prospectus contains all information with regard to our Company and the Issue, which is material in the context of the Issue, that the information contained in this Draft Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Draft Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

LISTING

The Equity Shares Issued through the Draft Prospectus are proposed to be listed on SME Platform of BSE ("BSE SME"). Our Company has received "In-Principle" approval from the BSE for using its name in the offer document for the listing of the Equity Shares, pursuant to letter dated [●]. For the purpose of the Issue, the Designated Stock Exchange shall be BSE.

INDUSTRY AND MARKET DATA

Unless stated otherwise, the industry and market data and forecasts used throughout this Draft Prospectus has been obtained from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

All statements contained in this Draft Prospectus that are not statements of historical fact constitute forward-looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Prospectus regarding matters that are not historical facts. Investors can generally identify forward-looking statements by the use of terminology such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “may”, “will”, “will continue”, “will pursue”, “contemplate”, “future”, “goal”, “propose”, “will likely result”, “will seek to” or other words or phrases of similar import. All forward looking statements (whether made by us or any third party) are predictions and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Further the actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industries in India in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and overseas which have an impact on our business activities or investments, the monetary and fiscal policies of India and other jurisdictions in which we operate, inflation, deflation, unanticipated volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and/or acts of violence. Other important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Our ability to successfully implement our growth strategy and expansion plans;
- Our ability to meet our further capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain personnel;
- Conflict of Interest with affiliated companies, the promoter group and other related parties;
- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in government policies and regulatory actions that apply to or affect our business;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The occurrence of natural disasters or calamities;
- Our inability to maintain or enhance our brand recognition;
- Inability to adequately protect our trademarks;
- Changes in consumer demand;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors; and
- Failure to successfully upgrade our products and service portfolio, from time to time.

For further discussions of factors that could cause our actual results to differ, please refer the section titled “*Risk Factors*” and chapter titled “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page 23, 106 and 153 of this Draft Prospectus, respectively.

By their nature, certain market risk disclosures are only estimating and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

Forward-looking statements reflect the current views as of the date of this Draft Prospectus and are not a guarantee of future performance.

Neither our Company, our directors, our Promoters, the Lead Manager nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect

the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company will ensure that investors in India are informed of material developments from the date of this Draft Prospectus until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II – SUMMARY OF OFFER DOCUMENT

SUMMARY OF OUR BUSINESS

Our Company is engaged in the business of assembling, buying, selling, distributing, importing, exporting or otherwise dealing in products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We also deal in installation, maintaining, servicing or otherwise handling of equipment and services that control and manage all products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices.

For more details, please refer chapter titled “*Our Business*” beginning on page 106 of this Draft Prospectus.

SUMMARY OF OUR INDUSTRY

Industrial valves are electromechanical devices used to regulate the flow and pressure of liquids, gases, vapors, powders, and slurries in piping systems. These valves consist of bodies, trims, discs, seats, stem packings, end connections, seal rings, bonnet bodies, union bolts, yokes and yoke nuts, and drivers and controls. They help stop the flow through the pipe when necessary, prevent backflow to the discharge side, and protect equipment from overpressure hazards. There are various types of industrial valves on the market today based on size, design, function, and operation. These valves are widely used in the refineries, chemical, pharmaceutical, water and wastewater treatment, food and beverage (F&B), energy, oil, and gas sectors. For more details, please refer chapter titled “*Industry Overview*” beginning on page 92 of this Draft Prospectus.

OUR PROMOTERS

Our company has not applied or received any exemption from complying with any provisions of securities laws by SEBI.

SECTION III – RISK FACTORS

An investment in Equity Shares involves a high degree of financial risk. Investors should carefully consider all information in this Draft Prospectus, including the risks described below, before making an investment in our Equity Shares. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could suffer, the price of the Equity Shares could decline, and you may lose all or part of your investment. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. Investors should consult their tax, financial and legal advisors about particular consequences to them of an investment in the Issue. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, such financial impact cannot be disclosed in such risk factors. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment.

This Draft Prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus. See chapter titled “Forward Looking Statements” beginning on page 15 of this Draft Prospectus.

To obtain a better understanding of our business, you should read this chapter in conjunction with other chapters of this Draft Prospectus, including the chapters titled “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Industry Overview” and “Restated Financial Statements” on page 106, 153, 92 and 152 respectively of this Draft Prospectus, together with all other Restated Financial Statements contained in this Draft Prospectus. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus.

Unless otherwise stated, the financial data in this chapter is derived from our Restated Standalone Financial Statements for the financial years ended March 31, 2023, 2022 and 2021 as included in “Restated Financial Statements” beginning on page 152 of this Draft Prospectus.

MATERIALITY

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some events may have material impact quantitatively;
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material individually but may be found material collectively.
- Some events may not be material at present but may be having material impact in future.

BUSINESS RELATED RISKS

- 1. There are outstanding legal proceedings involving our Company, Promoters and Directors. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.***

We are involved in certain legal proceedings which are pending at different levels of adjudication before various courts, tribunals, enquiry officers, and appellate authorities. We cannot provide assurance that these legal proceedings will be decided in our favour. Any adverse decisions in any of the proceedings may have a significant adverse effect on our business, results of operations, cash flows and financial condition.

A summary of the pending civil and other proceedings involving our Company, Promoters and Directors are provided below:

*Payments for some cases have been made by our Company, however, the same is not updated on the Income Tax's website.

For further details of litigation proceedings, please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page 172 of this Draft prospectus.

2. ***We do not have long-term agreements with suppliers for our products and an increase in the cost of, or a shortfall in the availability or quality of such products could have an adverse effect on our business, financial condition and results of operations.***

Our business is significantly affected by the availability, cost and quality of the products. We are dependent on external suppliers for supply of our products. The prices and supply of these and other products and components depend on factors beyond our control, including general economic conditions, competition, production levels, transportation costs and duties. If, for any reason, our suppliers of products and components should curtail or discontinue their delivery of such products to us in the quantities we need or at prices that are competitive or expected by us, our ability to meet the requirements of our customers could be impaired and our earnings and business could suffer. Further, we may not be able to pass on any increase in the cost of our products to our customers, which may adversely affect our results of operations. Additionally, we do not have control over the quality of products and components they supply, which may adversely affect the quality and workmanship of our products. If we are unable to source our products in a timely manner, our production processes and results of operations may be adversely impacted. There can be no assurance that we would be able to source required quantities or qualities of products in a cost effective manner in future periods. In addition, we usually do not enter into long-term supply contracts with any of our suppliers and typically source our products from third-party suppliers under contracts of shorter period or the open market. While there have not been any disruptions in supply of our products in the last three financial year or otherwise, we cannot assure you that such incidents will not happen in the future. The absence of long-term contracts at fixed prices exposes us to volatility in the prices of products that we require and we may be unable to pass these costs onto our customers, which may reduce our profit margins. We face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure products from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect our business, financial condition and results of operations. Purchases made from our top 10 suppliers for the financial year ended March 31, 2023, 2022 and 2021, were Rs. 610.09 lakhs, Rs. 906.13 lakhs, Rs. 963.67 representing 22.75%, 81.26% and 80.51% of our total purchases for the financial year ended March 31, 2023, 2022 and 2021, respectively.

3. ***We depend on the success of our relationships with our customers. We derive a significant part of our revenue from our major customers and we do not have long term contracts with these customers. If one or more of such customers choose not to source their requirements from us, our business, financial condition and results of operations may be adversely affected.***

Of our revenue from operations for the financial year ended March 31, 2023, 2022 and 2021, our top 10 customers contributed approximately 32.52%, 87.77% and 93.46%, respectively.

Given the nature of our business, there can be no assurance that we would be able to attract new customers or reduce our dependence on any of our top customers. We expect that we will continue to be reliant on our major customers for the foreseeable future. Accordingly, any failure to retain these customers or to remain suppliers to these customers and/or negotiate and execute contracts on terms that are commercially viable, with these select customers, could adversely affect our business, financial condition and results of operations. In addition, any defaults or delays in payments by a major customer or the insolvency or financial distress by a major customer may have an adverse effect on business, financial condition and results of operations.

Cancellation by customers or delay or reduction in their orders or instances where anticipated orders fail to materialize can result in mismatch between our expectant and existing inventory levels at our unit, thereby increasing our costs relating to maintaining our inventory and reduction of our margins, which may adversely affect our profitability and liquidity. Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss. Further, our inability to find customers for surplus products may result in excessive inventories which may become obsolete and may be required to be written off in the future.

Additionally, our customers have high and stringent standards for product quality and quantity as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also several factors, other than our performance that could cause the loss of a customer, which include those customers who may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, or replace their existing products with alternative products, any of which may have an adverse effect on our business, financial condition, results of operations and prospects.

4. *We are exposed to counterparty credit risk and any delay in receiving payments or non-receipt of payments may adversely impact our results of operations.*

We are subject to counterparty credit risk and a significant delay in receiving large payments or non-receipt of large payments may adversely impact our results of operations. Our operations involve extending credit to our customers in respect of sale of our products and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. Consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. As a result of such industry conditions, we have and may continue to have high levels of outstanding receivables. For the financial year ended March 31, 2023, 2022 and 2021 our trade receivables were Rs. 1,552.62 lakhs, Rs. 1,026.57 lakhs and Rs. 1,016.96 lakhs respectively. There is no assurance that we will accurately assess the creditworthiness of our customers. Further, macroeconomic conditions which are beyond our control, such as a potential credit crisis in the global financial system, could also result in financial difficulties for our customers, including limited access to the credit markets, insolvency or bankruptcy. Such conditions could cause our customers to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. Timely collection of dues from customers also depends on our ability to complete our contractual commitments and subsequently bill for and collect from our clients. While we have not faced such incidents in the past, if we are unable to meet our contractual obligations, we may experience delays in the collection of, or be unable to collect, our customer balances, which could adversely affect our results of operations and cash flows.

5. *Our erstwhile statutory Auditor has made qualifications in the examination report of financial year ending March 2021.*

Our Erstwhile Statutory auditor has provided qualifications in the Financial Statements for Financial Year ended on March 31, 2021, relating to non creation of provision for trade receivables as the management was of the opinion that the amount can be recovered from the customer, accordingly, the trade receivables and profit of the year is overstated by Rs 1.22 crores and consequently, the reserves are overstated by Rs 1.22 crores. The opinion of our auditors is qualified in this regard, however, the amount was written off by the Company in financial year ended March 31, 2022 and no subsequent qualifications were made by the Statutory Auditor in the financial statements for the year ended March 31, 2022 and March 31, 2023. There is no assurance that our audit reports for any future fiscal periods will not contain qualifications, adverse remarks, matters of emphasis or other observations which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected. For further information, see "*Restated Financial Information*" on page 152 of this Draft Prospectus

6. *The restated financial statements have been provided by peer reviewed chartered accountants who is not statutory auditor of our Company.*

The restated financial statements of our Company for the financial year ended March 31 2023, 2022, 2021 has been provided by a peer reviewed chartered accountants who is not statutory auditor of our Company. Our statutory auditor does not hold a valid peer reviewed certificate and hence the same has been provided by the different chartered accountant.

7. *There have been instances of delays/ non-filing/ non-compliance in the past with certain statutory authorities with certain provision of statutory regulations applicable to us. If the authorities impose monetary penalties on us or take certain punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.*

In the past, there have been some instances of delays/ non-filing/ non-compliance with certain statutory authorities with certain provision of statutory regulations applicable to us such as:

- Delay in filing of Annual Returns and Financial Statements for the F.Y 2016-17, 2017-18, 2018-19, 2019-20, 2020-21, 2021-22.
- Valuation report pertaining to transfer of shares are not available with the Company and various transfer of shares between our promoter/director and public shareholders have happened at a price which is lower than the Issue price.
- Transfer of shares which took place between Meson AB to India Futuristic Marine Private Limited vide separation agreement dated September 27, 2022 has been executed at a price which is lower than the fair value of the unquoted equity shares of our Company.
- Complete set of documents for FCTRS filed by the Company with RBI for transfer of shares from Meson AB to our body corporate promoter, India Futuristic Marine Private Limited is not available with the Company.
- Form FC-GPR filed with RBI at the time of allotment of shares to Meson AB at the time of incorporation is not traceable with the Company. However, RBI acknowledgment dated March 20, 2017 is available acknowledging submission of application in Form FC-GPR in respect of equity shares / CCDS / CCPs issued at the time of incorporation to foreign investor/s by our company, on repatriation basis.

While no legal proceedings or regulatory action has been initiated against our Company in relation to such non-compliance or instances of non-filings or incorrect filings or delays in filing statutory forms with the RoC as of the date of this Draft Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future and we cannot assure you that we will not be subject to penalties imposed by concerned regulatory authorities in this respect. Therefore, if the authorities impose monetary penalties on us or take certain punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.

8. ***We are subject to quality requirements and any product defect issues or failure by us or our suppliers to comply with quality standards may lead to the cancellation of existing and future orders, recalls and exposure to potential product liability claims.***

We face an inherent business risk of exposure to product defects and subsequent liability claims if the use of any of our products results in personal injury or property damage. We may not be able to meet regulatory relevant quality standards in India, or the quality standards imposed by our customers which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

If any of our products do not meet regulatory standards or are defective, we may be, inter alia, (i) responsible for damages relating to any defective products, (ii) required to replace, recall or redesign such products or (iii) incur significant costs to defend any such claims.

The failure by us or any of our suppliers to achieve or maintain compliance with regulatory requirements or quality standards may disrupt our ability to supply products sufficient to meet demand until compliance is achieved or, until a new supplier has been identified and evaluated. There is no assurance that our products will always meet the satisfaction of our customers' quality standards. Although we have not faced any failure to comply with applicable regulations in the past in the past, we cannot assure in future if our failure to comply with applicable regulations could cause adverse consequences to be imposed on us, including fines, injunctions, civil penalties, the refusal of regulatory authorities to grant approvals or renewal, delays, suspensions or withdrawal of approvals, license revocation, seizures or recalls of products, operating restrictions and criminal prosecutions, all of which could harm our business. There can be no assurance that if we need to engage new suppliers to satisfy our business requirement, we will be able locate new suppliers in compliance with regulatory requirements in a timely manner, or at all. Failure to do so could lead to the cancellation of existing and future orders and have a material adverse effect on our business and revenue.

9. ***We may not be able to accurately manage our inventory, this may adversely affect our goodwill and business, financial condition and results of operations.***

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and trade inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, which could have an adverse impact on our income and cash flows. We estimate our sales based on the forecast, demand and requirements and also on the customer specifications. Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts may adversely impact the supply of our products and local transportation. Should our supply of our products be disrupted, we may not be able to procure an alternate source of supply in time to meet the demands of our customers. Such disruption to supply would materially and adversely affect our business, profitability and reputation. In the past we have not experienced any instances of disruptions to the delivery of product to our customer occurred for reasons such as poor handling, transportation bottlenecks which could have lead to delayed or

lost deliveries or damaged products and disrupt supply of these products, but there is not guarantee that these instances will not happen in future to improve our line capability, we try to stock our inventory. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we overstock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation.

10. *Our Company's failure to maintain the quality standards of the products or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.*

Our products depend on customer's expectations and choice or demand of the customer. Any failure to maintain the quality standards may affect our business. Although we have put in place quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Also, rapid change in our customers' expectation on account of changes in technology or introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. Our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results.

11. *The orders placed by customers may be delayed, modified or cancelled, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control caused by matters such as acts of God, strikes, civil commotion, riots, war, revolution, acts of governments, etc. or the control of our customers may postpone the delivery of such products or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customers discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the customers may default or otherwise fail to pay amounts owed.

12. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

Modernization and technology upgradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

13. *Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders.*

Our Company have entered into certain related party transactions with our Promoters and Directors in the past. For details, please see "Annexure 30" of Restated Financial Statements" under the chapter titled "Restated Financial Statements" beginning on page 152 of this Draft Prospectus. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with unrelated parties. Further, it is likely that we may enter into related party transactions in the future and such transactions may potentially involve conflicts of interest. In terms of the Companies Act, 2013 and SEBI LODR Regulations, we are required to adhere to various compliance requirements such as obtaining prior approvals from our Audit Committee, Board and Shareholders for certain party transactions and our undertakes that such related party transactions shall not be done against the interests of the Company and its shareholders as prescribed in the SEBI LODR Regulations. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

14. *Certain premises including our registered office and assembly unit are not owned by us and we have only lease rights over such premises. In the event we lose such rights or are required to negotiate it, our cash flows, business, financial conditions and results of operations could be adversely affected.*

Our Company has entered into certain lease agreements and leave and license agreements in relation to our registered and assembly unit. For further details, please see chapter titled “*Our Business*” beginning on page 106. Any of these lease or license agreements can be terminated, and any such termination could result in any of these offices being shifted. There can be no assurance that we will, in the future, be able to retain, renew or extend the leases for the existing locations on same or similar terms, or will be able to find alternate locations for these offices on similar terms favourable to us, in time or at all. Accordingly, we may experience business disruption, and this may materially and adversely affect our business, financial condition and result of operations.

- 15. *We may be unable to protect our intellectual property or knowhow from third party infringement which could harm our brand and services. If we are unable to protect our intellectual property rights, our business, financial condition and results of operations may be adversely affected.***

Logo of our Company is owned by MESON AB, Sweden as on the date of this Draft Prospectus. The Company has signed agreement for use of LOGO till December 31, 2026, however, we cannot assure you that the application will be successful and Company will be able to register its logo. We may need to litigate to protect our intellectual property or to defend against third party infringement. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorised use or take appropriate and timely steps to enforce or protect our intellectual property. Any inability to use or protect our intellectual property could affect our relationships with our customers, which could materially and adversely affect our brand, business, financial condition and results of operations.

- 16. *We depend on skilled personnel and if we are unable to recruit and retain skilled personnel, our ability to operate or grow our business could be affected.***

Our Business Operation required skilled and creative manpower intensive and we engage a considerable number of skilled personnel every year to sustain our growth. Further, we spend significant time and resources in training the manpower we hire. Our success is substantially dependent on our ability to recruit, train and retain skilled manpower. High attrition and competition for manpower may limit our ability to attract and retain the skilled manpower necessary for our future growth requirements. We cannot assure you that skilled manpower will continue to be available in sufficient numbers suitable to our requirements or that we will be able to grow our workforce in a manner consistent with our growth objectives, which may affect our business, financial condition, results of operations and prospects.

- 17. *We export our products in 9 countries. Any change in law or any other adverse events affecting these countries could have a significant adverse impact on our export orders and consequently on our results from operations.***

We derive a portion of our revenue from operations from exports. For the financial year ended March 31, 2023, 2022 and 2021 revenue from exports constituted 1.20%, 7.71% and 10.24% of the revenue from operation respectively. Our Company exports to 9 countries (Germany, South Korea, Oman, Russia, Sweden, United Arab Emirates, Srilanka, Qatar and Thailand) based on sales made for the financial year ended March 31, 2023, 2022 and 2021. Consequently, any adverse changes in these economies such as slowdown in the economy, appreciation of the Indian Rupee vis-à-vis the currencies of these economies, acts of terrorism or hostility targeting these countries, change in the economic laws would directly impact our revenues and results from operations. In the event of change in policies or laws in these regions with respect to Environment, Health and Safety (EHS) norms, quality standards, branding or restrictions on usage of certain products, our financial condition and business operations may be adversely affected. In case of any contingencies in future due to which we are unable to operate effectively in these markets, our results from operations, revenues and profitability may be adversely affected.

- 18. *We generate our major portion of sales from our operations in certain geographical regions both domestic and exports. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.***

We have two business divisions (i) domestic sales; and (ii) exports. We have presence in Andhra Pradesh, Assam, Goa, Gujarat, Kerela, Maharashtra, Tamil Nadu, Telangana, Uttar Pradesh, West Bengal and Karnataka states for our domestic market based on sales made for the year ended March 31, 2023, 2022 and 2021. Internationally we supply products in countries such as Germany, South Korea, Oman, Russia, Sweden, United Arab Emirates, Srilanka, Qatar and Thailand based on sales made for the financial year ended March 31, 2023, 2022 and 2021. For the financial year ended March 31, 2023, 2022 and 2021 our revenue from exports was Rs 43.82 lakhs, Rs 108.64 lakhs and Rs 156.97 lakhs, respectively which contributed 1.20%, 7.71% and 10.24% respectively of our revenue from operations.

Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. Our inability to expand into other countries may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in

such regions to expand our operations in other parts of India or internationally, due to factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside such markets may adversely affect our business prospects, financial conditions and results of operations. While our management has faith that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we may face and should not rely on our results of operations for any prior periods as an indication of our future performance. Our operations are also impacted by various risks inherent in international sales and operations, including:

- currency exchange rate fluctuations;
- regional economic or political uncertainty;
- currency exchange controls;
- differing accounting standards and interpretations;
- differing domestic and foreign customs, tariffs and taxes;
- current and changing regulatory environments;
- coordinating and interacting with local representatives and counterparties to fully understand local business and regulatory requirements; and

To the extent that we are unable to effectively manage our global operations and risks such as the above (in particular, as we implement our strategy to enter into new markets where we do not have local knowledge resources), we may be unable to grow or maintain our sales and profitability, or we may be subject to additional unanticipated costs or legal or regulatory action. As a consequence, our business, financial condition, results of operations and cash flows may be adversely affected.

19. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

Our financial statements are prepared in Indian Rupees. However, our sales from exports are denominated in foreign currencies. Accordingly, we have currency exposures relating to buying and selling in currencies other than in Indian Rupees. Changes in value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Fluctuations in the exchange rates may affect our Company to the extent of cost of goods. Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's results of operations.

20. *Our company is dependent on third party logistics services for the delivery of our finished goods and supply of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.*

Our Company uses third party transportation providers for delivery of our finished goods and supply of our products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition, our products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure and deliver our products on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

21. *We face significant competition in our business which could adversely affect our operations and our profitability.*

We operate in a competitive market. Many Indian and foreign players are operating in the valves market. There are several strategies adopted by our competitors to increase their market share through pricing, service, new product introductions and distribution reach among others. This increased competition by both traditional and new players may affect our margins. In order to protect our existing market share or capture market share, we may be required to increase expenditure for increasing our reach and to introduce and establish new products. Due to inherent risks in the marketplace associated with new product introductions, including uncertainties about user industry's response, increased expenditure may not prove successful in maintaining or enhancing our market share and could result in lower profitability. For further details, see the section titled "*Our Business – Competition*" on page 106.

22. *Our business may expose us to potential product liability claims, which could adversely affect our results operation, goodwill and the marketability of our products.*

While we are not directly exposed to potential product liability claims given the nature of our business, we may be exposed to certain risks associated with the purchase orders issued by us, and the severity and timing of such claims are unpredictable. Further, we have not faced instances of any claims from our customers in the last three financial years. We face the risk of loss resulting from, and the adverse publicity associated with, lawsuits, whether or not such claims are valid. We may also be subject to claims resulting from defects or negligence in storage or handling which may lead to the deterioration of our products. Such claims, regardless of their merits or the ultimate success of the defence against them, are expensive. Even unsuccessful claims would likely require us to incur substantial amounts on litigation and require our management's time and focus. Any loss of our reputation or brand image may lead to a loss of existing business contracts and affect our ability to enter into additional business contracts in the future, which may have an adverse effect on our business, results of operations, financial condition and cash flows. Accordingly, such claims, may adversely affect our results of operation, goodwill and the marketability of our products.

23. *We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of the approvals are required to be obtained by our Company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed period of time and need renewal from time to time. Presently, we have applied for updating licenses and approvals in the name of "Meson Valves India Limited" from "Meson Valves India Private Limited". Also, we have applied for a certificate of registration under the Maharashtra State Tax on Professions, Trades, Callings and Employments Act, 1975. Non-obtaining or non-renewal of the said permits and licenses would adversely affect our Company's business operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled "*Key Industry Regulations and Policies*" and "*Government and Other Statutory Approvals*" at pages 119 and 177 respectively of this Draft Prospectus.

24. *We engage manpower for carrying out certain business operations. Requirement to fund their wage requirements may have an adverse impact on our business, financial condition and results of operations.*

Our Company is engaged in the business of assembling, buying, selling, distributing, importing, exporting or otherwise dealing in products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We also deal in installation, maintaining, servicing or otherwise handling of equipment and services that control and manage all products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices and hence, we require manpower at our assembly unit. In order to retain operational efficiencies, we engage independent contractors through whom we engage manpower for performance of certain functions at our assembly unit. We have not entered into any agreement with these contractors for supply of manpower. Although we do not engage this manpower directly, we are responsible for any wage payments to be made in the event of default by such independent contractors. While there have been no past instances where we have had instances of labour unrest or where we have had to fund wage requirements of the manpower, any requirement to fund their wage requirements may have an adverse impact on our business, financial condition and results of operations.

We also employ manpower on contract basis at our assembly unit to meet operational efficiencies.

25. Any increase in interest rates would have an adverse effect on our results of operations and will expose our Company to interest rate risks.

We are dependent upon the availability of equity, cash balances and debt financing to fund our operations and growth. Any fluctuations in interest rates may directly impact the interest costs of such loans and, in particular, any increase in interest rates could adversely affect our results of operations. Furthermore, our indebtedness means that a material portion of our expected cash flow may be required to be dedicated to the payment of interest on our indebtedness, thereby reducing the funds available to us for use in our general business operations. If interest rates increase, our interest payments will increase and our ability to obtain additional debt and non-fund-based facilities could be adversely affected with a concurrent adverse effect on our business, financial condition and results of operations. For further details, please refer chapter titled “*Financial Indebtedness*” beginning on page 155 of this Draft Prospectus.

26. Our loan agreements with various lenders have several restrictive covenants and certain unconditional rights in favour of the lenders, which could influence our ability to expand, in turn affecting our business and results of operations.

We have entered into agreements for short term and long-term borrowings with certain lenders. The total amounts outstanding and payable by us as secured loans and unsecured loans were Rs. 1,124.16 lakhs, Rs 923.93 lakhs and Rs 918.26 lakhs as on March 31, 2023, 2022 and 2021 as per the restated financial statements. The credit facilities availed by our Company are secured by way of mortgage of fixed assets, hypothecation of assets. There may have been instances of delay in payment of our dues in time to the banks, in case we are not able to pay our dues in time, the same may amount to a default under the loan documentation and all the penal and termination provisions therein would get triggered and the loans granted to the Company may be recalled with penal interest. This could severely affect our operations and financial condition. In addition to the above, our loan documentation includes certain conditions and covenants that require us to obtain consents from the aforesaid banks prior to carrying out certain activities like entering into any amalgamation, demerger, merger and corporate reconstruction, changing our management and operating structure, making any fresh borrowings or creating fresh charges on assets, etc. Any failure to comply with any condition or covenant under our financing agreements that is not waived by the lending banks or is not otherwise cured by us, may lead to a termination of our credit facilities, acceleration of all amounts due under the said credit facility, which may adversely affect our ability to conduct our business and operations or implement our business plans. Further, the said credit facilities can be renewed/enhanced/cancelled/suspended/reduced and the terms and conditions of the same can be altered by the lending banks, at their discretion. In the event, the lending banks refuse to renew / enhance the credit facilities and/or cancels / suspends / reduces the said credit facilities and/or alters the terms and conditions to the derogation of our Company, our existing operations as well as our future business prospects and financial condition may be severely affected. As on the date of the Draft Prospectus, we have not received NOC for the Issue from our lenders.

27. Unsecured loans taken by our Company can be recalled by the lenders at any time.

Our Company has unsecured loans amounting to Rs. 610.77 lakhs, Rs. 46.00 lakhs and Rs. 31.00 lakhs for the financial year ending March 31, 2023, 2022 and 2021 as per the restated financial statements from banks that are repayable on demand to the relevant lender. These loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. In such cases, our Company may be required to repay the entirety of the unsecured loans together with accrued interest. Our Company may not be able to generate sufficient funds at short notice to be able to repay such loans and may resort to refinancing such loans at a higher rate of interest and on terms not favourable to it. Failure to repay unsecured loans in a timely manner may have a material adverse effect on our business, cash flows and financial condition. For further details of unsecured loans of our Company, please refer the chapter titled “*Restated Financial Statements*” beginning on page 152 of this Draft Prospectus.

28. We have taken guarantees from our directors in relation to debt facilities provided to us.

We have taken guarantees from our directors in relation to our secured debt facilities availed from our Bankers. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled “*Financial Indebtedness*” beginning on page 155 of this Draft Prospectus.

29. Our Company had negative cash flows in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

We have experienced negative cash flows in the past which have been set out below as per the restated financial statements:

(Rs. in Lakhs)

Particulars	March 31, 2023	March 31, 2022	March 31, 2021
Net cash generated from/ (used in) operating activities	(718.69)	(71.12)	405.19
Net cash generated from/ (used in) investing activities	(48.62)	(82.03)	(45.17)
Net cash generated from/ (used in) financing activities	780.88	(71.63)	(59.90)

Cash flows of a company is a key indicator to show the extent of cash generated from the operations of a company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details, see section titled “*Restated Financial Statements*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 152 and 155, respectively of this Draft Prospectus.

30. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. Summary of our working capital position as per our Restated Financial Information is given below: -

(Rs. in Lakhs)

Particulars	March 31, 2023	March 31, 2022	March 31, 2021
A: Current Assets			
Inventories	1,260.34	1,010.31	290.53
Trade Receivables	1,552.62	1,026.57	1,016.96
Cash and Cash Equivalents	237.11	218.46	440.76
Short-Term Loans and Advances	1,167.65	97.51	21.92
Other Current Assets	125.27	227.66	223.71
B: Current Liabilities			
Trade Payables	704.67	1,170.15	1,064.67
Other Current Liabilities	397.35	272.70	47.78
Short Term Provisions	264.50	98.61	16.50
C: Working Capital (A-B)	2,976.46	1,039.05	864.93

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of our current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 74 of this Draft Prospectus.

31. The Company is yet to place orders for 100% of the plant & machineries for our proposed object, as specified in the Objects of the Issue. Any delay in placing orders, procurement of plant & machineries may delay our implementation schedule and may also lead to increase in price of these plant & machineries, further affecting our revenue and profitability.

Although we have identified the type of plant and machineries required to be bought however, we are yet to place orders for 100% of the plant & machinery worth Rs 1,137.33 lakhs as detailed in the “*Objects of the Issue*” beginning on page 74 of this Draft Prospectus. These are based on our estimates and on third-party quotations, which are subject to a number of variables, including possible cost overruns, changes in management’s views of the desirability of current plans, change in supplier of plant & machineries, equipments among others, which may have an adverse effect on our business and results of operations. Further, we cannot assure that we would be able to procure these plant and machineries, or procure the same within budgeted costs and timelines. Delays in acquisition of the same could result in the cost and time overrun, which would have a material adverse effect on our business, results of operations and financial condition. For further details, please refer to the chapter titled “*Objects of the Issue*” beginning on page 74 of this Draft Prospectus.

32. We may not be fully insured for all losses we may incur.

Although we attempt to limit and mitigate our liability for damages arising from negligent acts, errors or omissions through contractual provisions, limitations of liability set forth in our contracts may not be enforceable in all instances or may not otherwise protect us from liability for damages. In addition, certain liabilities, such as claims of third parties for which we may be required to indemnify our clients, are generally not limited under those agreements. We have taken insurance policies as mentioned in the section titled, “*Insurance*” under the chapter titled, “*Our Business*” on page 106 of the Draft Prospectus. Although we believe we have adequate insurance coverage but that coverage may not continue to be available on reasonable terms or to be available in sufficient amounts to cover one or more large claims, and our insurers may disclaim

coverage as to any future claim. Insurance coverage may be an inadequate remedy where the loss suffered is not easily quantifiable, for example, in the event of severe damage to our reputation. The successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have a material adverse effect on our business, reputation, results of operations, financial condition and cash flows.

33. *Failure or disruption of our IT, automation systems may adversely affect our business, financial condition and results of operations.*

We have implemented various information technology (“IT”) systems to cover key areas of our operations, procurement, dispatch and accounting. These systems are potentially vulnerable to damage or interruption from a variety of sources, which could result from (among other causes) cyber-attacks on or failures of such infrastructure or compromises to its physical security, as well as from damaging weather or other acts of nature. A significant or large-scale malfunction or interruption of one or more of our IT systems or automation systems could adversely affect our ability to keep our operations running efficiently and affect product availability, particularly in the country, region or functional area in which the malfunction occurs, and wider or sustained disruption to our business cannot be excluded. In addition, it is possible that a malfunction of our data system security measures could enable unauthorized persons to access sensitive business data, including information relating to our intellectual property or business strategy or those of our customers. While we have not faced significant disruptions in past, any such malfunction or disruptions in future could cause economic losses for which we could be held liable or cause damage to our reputation. Any of these developments, alone or in combination, could have a material adverse effect on our business, financial condition and results of operations. Further, unavailability of, or failure to retain, well trained employees capable of constantly servicing our IT, automation systems may lead to inefficiency or disruption of our operations and thereby adversely affecting our business, financial condition and results of operations.

34. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 151 of this Draft Prospectus.

35. *Our success largely depends upon the knowledge and experience of our Promoters, Directors, our Key Managerial Personnel and Senior Management as well as our ability to attract and retain personnel with technical expertise. Any loss of our Promoter, Directors, Key Managerial Personnel, Senior Management or our ability to attract and retain them and other personnel with technical expertise could adversely affect our business, financial condition and results of operations.*

Our success largely depends upon the knowledge and experience of our Promoters, Directors, Key Managerial Personnel and Senior Management as well as our ability to attract and retain skilled personnel. Any loss of our Promoters, Directors, Key Managerial Personnel and Senior Management or our ability to attract and retain them and other skilled personnel could adversely affect our business, financial condition and results of operations. We depend on the management skills and guidance of our Promoters for development of business strategies, monitoring their successful implementation and meeting future challenges. Further, we also significantly depend on the expertise, experience and continued efforts of our Key Managerial Personnel and Senior Management. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our Key Managerial Personnel or Senior Management are unable or unwilling to continue in his or her present position, it could be difficult for us to find a suitable or timely replacement and our business, financial condition and results of operations could be adversely affected.

In addition, we may require a long period of time to hire and train replacement personnel when personnel with technical expertise terminate their employment with us. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting and retaining personnel with technical expertise that our business requires. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

There is significant competition for management and other skilled personnel in our industry in which we operate, and it may be difficult to attract and retain the personnel we require in the future. There can be no assurance that our competitors will not offer better compensation packages, incentives and other perquisites to such skilled personnel. If we are not able to attract and retain talented employees as required for conducting our business, or if we experience high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, financial condition and results of operations may be adversely affected. For further information, see “*Our Management*” on page 130.

36. *Our failure to manage growth effectively may adversely impact our business, prospects, financial condition and results of operations.*

For the financial year ended March 31, 2023, 2022 and 2021, our revenue from operations were Rs. 3,665.04 lakhs, Rs. 1,409.66 lakhs and Rs. 1,532.20 lakhs, respectively and our restated profit after tax was Rs. 452.43 lakhs, Rs. 212.54 lakhs and Rs. 11.81 lakhs, respectively. Our ability to sustain growth depends primarily upon our ability to manage key issues such as our ability to sustain existing relationships with our clients, ability to compete effectively, ability to scaling up our operations, ability to bring new products to the market in a timely manner and in a cost effective way, adhering to high quality and execution standards, our ability to expand our presence in India as well as globally, the effectiveness of our marketing initiatives, selecting and retaining skilled personnel. Sustained growth also puts pressure on our ability to effectively manage and control historical and emerging risks. Our inability to effectively manage any of these issues may adversely affect our business growth and, as a result, impact our businesses, financial condition, results of operations and prospects.

37. *Pricing pressure from customers may affect our gross margins and ability to increase our prices, which in turn may adversely affect our revenue from operations, profits and cash flows.*

Consumer demand for our products depends in part on the pricing of our products. We differentiate certain of our products based on their economical pricing coupled with their quality. Our pricing depends on various factors, from time to time. We cannot assure you that we will be able to maintain our margins while offering discounts, or that our discounts will continue to attract consumer demand for our products. The pricing of our products is agreed between us and customers, and changes to such prices require mutual agreement. The pricing is determined by our cost of products and other costs and other factors. Our cost of products may increase in the future due to various factors, including factors beyond our control caused by matters such as acts of God, strikes, civil commotion, riots, war, revolution, acts of governments, lack of adequate, etc. We cannot assure that, in the future, we would be able to pass increased costs on to our customers. Any inability to do so may adversely affect our business and results of operation.

38. *Our inability to effectively manage our growth or to successfully implement our business plan and growth strategies could have an adverse effect on our business, results of operations and financial condition. The success of our business will depend greatly on our ability to effectively implement our business and growth strategies.*

Our growth strategies require us to develop and strengthen relationships with existing customers for our business who may drive high volume orders on an ongoing basis. To remain competitive, we seek to increase our business from existing customers and by adding new customers, as well as expanding into new geographical markets. Our success in implementing our growth strategies may be affected by:

- our ability to maintain the quality of our products;
- our ability to increase our geographic international presence;
- the general condition of the global economy (particularly of India and the other markets that we currently or may operate in);
- our ability to compete effectively with existing and future competitors,
- changes in the Indian or international regulatory environment applicable to us.

Many of these factors are beyond our control and there is no assurance that we will succeed in implementing our strategies. While we have successfully executed our business strategies in the past, there can be no assurance that we will be able to execute our strategies on time and within our estimated budget, or that our expansion and development plans will increase our profitability. Any of these factors could adversely impact our results of operations. We expect our growth strategies to place significant demands on our management, financial and other resources and require us to continue developing and

improving our operational, financial and other internal controls. Our inability to manage our business and growth strategies could have a material adverse effect on our business, financial condition and profitability.

39. *Any inability to address changing industry standards and consumer trends may adversely affect our business, results of operations and financial condition.*

The future success of our business will depend in part on our ability to respond to technological advances, consumer preferences and emerging industry standards and practices in a cost-effective and timely manner. The development and implementation of such new technology entails technical and business risks. While we continue to invest in adding new products in the product basket, we are subject to general risks associated with introduction and implementation of new products including the lack of market acceptance and delays in product development. There can be no assurance that we will be able to successfully procure new products or that such new products will receive market acceptance or address changing consumer trends or emerging industry standards. Any rapid change in the expectations of our customers, in our business on account of changes in technology or introduction of new alternate products could adversely affect our business, results of operations and financial condition.

40. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since, the Proceeds from Issue is less than Rs.10,000 lakh, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials. However, as per the Section 177 of the Companies Act, 2013 and applicable laws, the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

41. *Within the parameters as mentioned in the chapter titled “Objects of this Issue” beginning on page 74 of this Draft Prospectus, our Company’s management will have flexibility in applying the proceeds of the Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use Net Proceeds towards meeting the funding the purchase of plant and machineries for setting up of our manufacturing unit, meeting the working capital requirements of the Company and General corporate purposes. We intend to deploy the Net Proceeds in financial year 2023-24 and 2024-25 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Net Proceeds, please refer chapter titled “Objects of the Issue” beginning on page 74 of this Draft Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “Objects of the Issue” beginning on page 74 of this Draft Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However, in accordance with Section 27 of the Companies Act, 2013, and relevant provisions of SEBI ICDR Regulations, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoter and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

42. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, Our Promoters and Promoter Group will collectively own 32.83% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AOA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

43. *We might infringe upon the intellectual property rights of others and any misappropriation of our intellectual property could harm our competitive position.*

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty as to whether we are infringing on any existing third-party intellectual property rights, which may require us to alter our technologies, obtain licenses or cease some of our operations. We may also be susceptible to claims from third parties asserting infringement and other related claims. If such claims are raised, those claims could: (a) adversely affect our relationships with current or future customers; (b) result in costly litigation; (c) cause product shipment delays or stoppages; (d) divert management’s attention and resources; (e) subject us to significant liabilities; (f) require us to enter into potentially expensive royalty or licensing agreements and (g) require us to cease certain activities. While in the last three financial years we have not been involved in litigation or incurred litigation expenses in connection with our trademarks or intellectual property rights, in the case of an infringement claim made by a third party, we may be required to defend such claims at our own cost and liability and may need to indemnify and hold harmless our customers. Furthermore, necessary licenses may not be available to us on satisfactory terms, if at all. In addition, we may decide to settle a claim or action against us, which settlement could be costly. We may also be liable for any past infringement that we are not aware of. Any of the foregoing could adversely affect our business, financial condition and results of operations.

44. *Employee misconduct including misuse of confidential data and failure to maintain confidentiality of information could harm us and is difficult to detect and deter.*

We could be harmed by employee misconduct if our customers confidential information is misappropriated by us or our employees, our customers may consider us liable for that act and seek damages and compensation from us, in addition, to seeking termination of the contract. While there have been no instances during the last three financial years of information technology breach or instances of cyber-attack, assertions of misappropriation of confidential information or the intellectual property of our customers against us, if successful, could have a material adverse effect on our business, financial condition and results of operations. Even if such assertions against us are unsuccessful, they may cause us to incur reputational harm and substantial cost.

Although we closely monitor our employees, misconduct, including acts of bribery, corruption or fraud by employees or executives, such acts could include binding us to transactions that exceed authorized limits or present unacceptable risks, or they may hide unauthorized or unlawful activities from us, which may result insubstantial financial losses and damage to our reputation and loss of business from our customers. Employee or executive misconduct could also involve the improper use or disclosure of confidential information, which could result in regulatory sanctions and serious reputational or financial harm, including harm to our brand. While we have not experienced any such employee misconduct in the past, it is not always possible to deter employee or executive misconduct and the precautions taken and systems put in place to prevent and detect such activities may not be effective in all cases. Any instances of such misconduct could adversely affect our business and our reputation.

45. *Our Group Companies has incurred losses in past financial years.*

Our Group Companies, Sung MI India Private Limited have incurred losses in the following financial years for which their respective audited financial statements were available, as set forth in the table below-

46. *Industry information included in this Draft Prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Draft Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although, we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the

information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Prospectus.

47. If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis so that our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. While our code of conduct requires our employees and intermediaries to comply with all applicable laws, and we continue to enhance our policies and procedures in an effort to ensure compliance with applicable laws and regulations. If we are not in compliance with applicable laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition and results of operations. Likewise, any investigation of any potential violations of laws by the relevant authorities could also have an adverse impact on our business and reputation.

48. Our Directors, Key Managerial Personnel and Senior Management may have interests other than reimbursement of expenses incurred and normal remuneration or benefits in our Company.

Our Directors, Key Managerial Personnel and Senior Management may be interested in our Company, in addition to regular remuneration, sitting fees or benefits and reimbursement of expenses, to the extent of the Equity Shares held by them in our Company, and bonuses, dividend payable or other distributions on such Equity Shares. Our directors may be regarded as interested to the extent of the transactions entered into in the ordinary course of business with the companies in which our directors hold directorship and also in the Equity Shares held by them or by their relatives, if any, or that may be subscribed by or allotted to them or the companies, firms and trusts, in which they are interested as directors, members, partners, trustees and promoter, pursuant to this Issue. Further, our Promoters, are interested in promotion and formation of the Company Further, our Executive Directors are also directors on the boards, or are shareholders, and trustees of entities with which our Company has had related party transactions and may be deemed to be interested to the extent of the payments made by our Company, if any, to these entities.

ISSUE RELATED RISKS

49. An investment in the Equity Shares is subject to general risk related to investments in Indian Companies.

Our Company is incorporated in India and all of our assets and employees are located in India. Consequently, our business, results of operations, financial condition and the market price of the Equity Shares will be affected by changes in interest rates in India, policies of the Government of India, including taxation policies along with policies relating to industry, political, social and economic developments affecting India.

50. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares has been determined by fixed price method. The price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page 83 of this Draft Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue.

The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- i. quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- ii. changes in revenue or earnings estimates or publication of research reports by analysts;
- iii. results of operations that vary from those of our competitors;
- iv. speculation in the press or investment community;
- v. new laws and governmental regulations applicable to our industry;
- vi. future sales of the Equity Shares by our shareholders;
- vii. general market conditions; and
- viii. domestic and international economic, legal and regulatory factors unrelated to our performance.

51. *Our Equity Shares have never been publicly traded, and may experience price and volume fluctuations following the completion of the Issue. Further, our Equity Shares may not result in an active or liquid market and the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Issue Price or at all.*

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for our Equity Shares will develop or, if developed, does not guarantee the liquidity of such market for the Equity Shares. Investors might not be able to rapidly sell the Equity Shares at the quoted price if there is no active trading in the Equity Shares. The Issue Price of the Equity Shares has been determined by our Company in consultation with the LM through the Fixed Price Process. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

52. *We have issued Equity Shares during the last one year at a price below the Issue Price.*

Our Company had issued Bonus shares of 67,84,050 equity shares on March 23, 2023 in the ratio 49:1 in the last 12 months which may be at lower than the Issue Price and has issued 1,89,562 equity shares vide Rights issue on April 06, 2023 at a price of Rs 83.35/- per equity share which is lower than the Issue Price. The Equity Shares allotted to shareholders pursuant to this Issue may be priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time. For further details, see “*Capital Structure*” on page 54 of this Draft Prospectus.

53. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the BSE SME in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the BSE SME. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

54. *Any future issuance of Equity Shares may dilute your shareholding and sale of our Equity Shares by our Promoters or other shareholders may adversely affect the trading price of the Equity Shares.*

Any future equity issuances by us, including in a primary offering, may lead to the dilution of investors’ shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoter or other major shareholders may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

55. *There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder’s ability to sell for the price at which it can sell, equity shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

56. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any capital gain exceeding ₹100,000, realized on the sale of equity shares held for more than 12 months immediately preceding the date of transfer, which are sold using any other platform other than on a recognized stock exchange and on which no STT has been paid, are subject to long gains tax in India.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a nondelivered basis is specified at 0.003% of the consideration amount. The Finance Act, 2020, has, among other things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, both resident as well as non resident, and that such dividends likely be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. In cases where the seller is a non resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Historically, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity shares.

Further, we cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our business, financial condition, results of operations and cash flows. The Government of India had announced the union budget for financial year 2023 and the Finance Act, 2023 received assent from the President of India on March 31, 2023. There is no certainty on the impact that the Finance Act, 2023 may have on our business and operations or in the industry we operate in.

57. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors assessments of Our Company's financial condition. Our failure to successfully adopt IFRS may have an adverse effect on the price of our Equity Shares. The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our restated financial statements, including the financial statements provided in this Draft Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Draft Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For details, refer chapter titled “*Presentation of Financial Industry and Market Data*” beginning on Page 13 of this Draft Prospectus.

Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited. India has decided to adopt the “Convergence of its existing standards with IFRS” and not the “International Financial Reporting Standards” (“IFRS”), which was announced by the MCA, through the press note dated January 22, 2010. These “IFRS based / synchronized Accounting Standards” are referred to in India as IND

(AS). Public companies in India, including our Company, may be required to prepare annual and interim financial statements under IND (AS). The MCA, through a press release dated February 25, 2011, announced that it will implement the converged accounting standards in a phased manner after various issues, including tax related issues, are resolved. Further, MCA Notification dated February 16, 2015, has provided an exemption to the Companies proposing to list their shares on the SME Exchange as per Chapter IX of the SEBI ICDR Regulations and hence the adoption of IND (AS) by a SME exchange listed Company is voluntary. Accordingly, we have made no attempt to quantify or identify the impact of the differences between Indian GAAP and IFRS or to quantify the impact of the difference between Indian GAAP and IFRS as applied to its financial statements. There can be no assurance that the adoption of IND-AS will not affect our reported results of operations or financial condition. Any failure to successfully adopt IND-AS may have an adverse effect on the trading price of our Equity Shares. Currently, it is not possible to quantify whether our financial results will vary significantly due to the convergence to IND (AS), given that the accounting principles laid down in the IND (AS) are to be applied to transactions and balances carried in books of accounts as on the date of the applicability of the converged standards, i.e., IND (AS) and for future periods.

Moreover, if we volunteer for transition to IND (AS) reporting, the same may be hampered by increasing competition and increased costs for the relatively small number of IND (AS)-experienced accounting personnel available as more Indian companies begin to prepare IND (AS) financial statements. Any of these factors relating to the use of converged Indian Accounting Standards may adversely affect our financial condition.

58. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

EXTERNAL RISKS

59. *A slowdown in economic growth in India could cause our business to suffer.*

Our performance and the growth of our business are necessarily dependent on the health of the overall Indian economy. Any slowdown or perceived slowdown in the Indian economy or future volatility in global commodity prices could adversely affect our business. Additionally, an increase in trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. In particular, the COVID-19 pandemic caused an economic downturn in India and globally. Any downturn in the macroeconomic environment in India could also adversely affect our business, financial condition, results of operations and prospects.

India's economy could be adversely affected by a general rise in interest rates or inflation, adverse weather conditions affecting agriculture, commodity and energy prices as well as various other factors. A slowdown in the Indian economy could adversely affect the policy of the GOI towards our industry, which may in turn adversely affect our financial performance and our ability to implement our business strategy.

The Indian economy is also influenced by economic and market conditions in other countries, particularly emerging market conditions in Asia. A decline in India's foreign exchange reserves and exchange rate fluctuations may also affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business, financial condition, results of operations and prospects.

Further, other factors which may adversely affect the Indian economy are scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing of our expansions; volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges; changes in India's tax, trade, fiscal or monetary policies, like application of GST; political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries; occurrence of natural or man-made disasters; infectious disease outbreaks or other serious public health concerns; prevailing regional or global economic conditions, including in India's principal export markets; and other significant regulatory or economic developments in or affecting India or its financial services sectors.

60. *Our business is affected by global economic conditions, especially in the geographies we cater to, which may have an adverse effect on our business, financial condition, results of operations and prospects.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Financial turmoil in Asia, U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. Financial disruptions may occur again and could harm our business, financial condition and results of operations.

The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections in recent years. Financial markets and the supply of credit could continue to be negatively impacted by ongoing concerns surrounding the sovereign debts and/or fiscal deficits of several countries in Europe, the possibility of further downgrades of, or defaults on, sovereign debt, concerns about a slowdown in growth in certain economies and uncertainties regarding the stability and overall standing of the European Monetary Union.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian financial markets and indirectly in the Indian economy in general. Any worldwide financial instability could influence the Indian economy. In response to such developments, legislators and financial regulators in the United States, Europe and other jurisdictions, including India, have implemented several policy measures designed to add stability to the financial markets. In addition, any increase in interest rates by the United States Federal Reserve will lead to an increase in the borrowing costs in the United States which may in turn impact global borrowing as well. Furthermore, in several parts of the world, there are signs of increasing retreat from globalization of goods, services and people, as pressure for the introduction of a protectionist regime is building and such developments could adversely affect Indian exports. However, the overall impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. In the event that the current adverse conditions in the global credit markets continue or if there is any significant financial disruption, this could have an adverse effect on our business, financial condition and results of operations.

In February 2022, hostilities between Russia and the Ukraine commenced, which has led stock, commodities and foreign exchange markets worldwide to fluctuate. In addition, the market price of oil has risen sharply since the commencement of hostilities in the Ukraine, which may have an inflationary effect in India and other countries. A prolonged war or a protracted period of hostilities in the Ukraine may lead to global economic disturbances.

If we are unable to successfully anticipate and respond to changing economic and market conditions, our business, financial condition, results of operations and prospects may be adversely affected.

61. *Changing regulations in India could lead to new compliance requirements that are uncertain.*

The regulatory and policy environment in which we operate is evolving and is subject to change. The GoI may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements.

The regulatory and policy environment in which we operate is evolving and is subject to change. The GoI may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, financial condition, results of operations and prospects.

62. *A slowdown in our exports due to tariffs and trade barriers and international sanctions could adversely affect our business, financial condition and results of operations.*

A significant portion of our revenue is derived from exports. From time to time, tariffs, quotas and other tariff and non-tariff trade barriers may be imposed on our products in jurisdictions in which we operate or seek to sell our products. There

can be no assurance that the European Community and the United States, among others, where we seek to sell our products will not impose trade restrictions on us in future. We may also be prohibited from exporting to certain restricted countries that may be added to a sanctions list maintained by the Government of India or other foreign governments, such as the Specially Designated Nationals and Blocked Persons list maintained by the Office of Foreign Assets Control of the US Department of Treasury in the United States. In February 2022, hostilities between Russia and the Ukraine commenced, which has led to the imposition of sanctions of various Russian interests (and in some cases Belarus) by the European Union, Australia, Canada, Japan, New Zealand, Switzerland, South Korea, the United Kingdom and the United States. Any such imposition of trade barriers or international sanctions may have an adverse effect on our business, financial condition and results of operations.

63. Natural calamities, climate change and health epidemics could adversely affect the Indian economy and our business, financial condition, and results of operations. In addition, hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect our business, financial condition and results of operations.

Our operations including our manufacturing facilities and research and development activities may be damaged or disrupted as a result of natural calamities. Such events may lead to the disruption of information systems and telecommunication services for sustained periods. They also may make it difficult or impossible for employees to reach our business locations. Damage or destruction that interrupts our provision of services could adversely affect our reputation, our relationships with our customers, our Senior Management team's ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or rebuild parts of our facilities. Any of the above factors may adversely affect our business, financial condition and results of operations.

India has from time-to-time experienced instances of social, religious and civil unrest and hostilities between neighbouring countries. Present relations between India and Pakistan continue to be fragile on the issues of terrorism, armaments and Kashmir. In April 2019, skirmishes along India's border with Pakistan and the downing of an Indian military jet fighter plane significantly escalated tensions between the two countries. India has also experienced terrorist attacks in some parts of the country. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies.

64. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

In recent months, consumer and wholesale prices in India have exhibited increased inflationary trends, as the result of an increase in crude oil prices, higher international commodity prices, and higher domestic consumer and supplier prices. The Consumer Price Index increased from 3.4% (average) in Fiscal 2019 to 4.8% (average) in Fiscal 2020 to an estimated 6.2% (average) in Fiscal 2021 although the RBI has enacted certain policy measures designed to curb inflation, these policies may not be successful. In February 2022, hostilities between Russia and the Ukraine commenced. The market price of oil has risen sharply since the commencement of these hostilities which could have an inflationary effect in India. Continued high rates of inflation may increase our expenses related to salaries or wages payable to our employees, raw materials and other expenses. There can be no assurance that we will be able to pass on any additional expenses to our customers or that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our business, financial condition and results of operations.

65. The extent and reliability of Indian infrastructure, to the extent insufficient, could adversely impact our business, financial condition and results of operations.

India's physical infrastructure is less developed than that of many developed nations. Any congestion or disruption with its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies including our chemical products, and add costs to doing business in India. These problems could interrupt our business operations, which could have adverse effect on our business, financial condition and results of operations.

66. Foreign investors are subject to foreign investment restrictions under Indian laws that may limit our ability to attract foreign investors, which may have a material adverse impact on the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. For further details, see "Restrictions on Foreign Ownership of Indian Securities" on page 221. If the transfer of shares is not in compliance with such pricing guidelines or reporting requirements or falls under any of the

exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection or a tax clearance certificate from the income tax authority. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, Government of India, investments where the beneficial owner of the Equity Shares is situated in or is a citizen of a country which shares land border with India, can only be made through the Government approval route, as prescribed in FDI Policy. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

67. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, financial condition and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. In such instances, and including the instances mentioned below, our business, results of operations and prospects may be adversely impacted, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. Any political instability in India, such as corruption, scandals and protests against certain economic reforms, which have occurred in the past, could slow the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well.

Additionally, the Government of India has introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. While the rules for implementation under these codes have not been notified, the implementation of such laws could increase our employee and labour costs, thereby adversely impacting our results of operations, cash flows, business and financial performance.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. For instance, companies can voluntarily opt in favour of a concessional tax regime (subject to no other special benefits/exemptions being claimed), which reduces the rate of income tax payable to 22% subject to compliance with conditions prescribed, from the erstwhile 25% or 30% depending upon the total turnover or gross receipt in the relevant period. Any such future amendments may affect our other benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability.

Further, the GoI has announced the union budget for Fiscal 2024, pursuant to which the Finance Bill, 2023 (“Finance Bill”), has introduced various amendments. The Finance Bill has received assent from the President of India on March 31, 2023, and has been enacted as the Finance Act, 2023. We cannot predict whether any amendments made pursuant to the Finance Act, 2023 would have an adverse effect on our business, financial condition and results of operations. Furthermore, changes in capital gains tax or tax on capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

There can be no assurance that the GoI will not implement new regulations and policies requiring us to obtain approvals and licenses from the GoI or other regulatory bodies, or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment or change to governing laws, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent in the jurisdictions in which we operate may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. It may also have a material adverse effect on our business, financial condition, cash flows and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which could materially harm our results of operations or cash flows. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

We are unable to determine the impact of any changes in or interpretations of existing, or the promulgation of, new, laws, rules and regulations applicable to us and our business. If that was to occur it could result in us, our business, operations or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial

precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

68. *A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian Law.*

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI SAST Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of SEBI SAST Regulations.

69. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have in the past experienced substantial dislocations, liquidity disruptions and market corrections.

DETAILS OF THE MARKET MAKING AGREEMENT

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Lead Manager and the Market Maker (duly registered with BSE to fulfil the obligations of Market Making) dated July 07, 2023 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issue.

Shreni Shares Limited (Formerly known as Shreni Shares Private Limited), registered with BSE SME Platform will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange from time to time. Further, the Market Maker shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The prices quoted by the Market Maker shall be in compliance with the Market Maker Spread requirements and other particulars as specified or as per the requirements of BSE SME and SEBI from time to time.
3. The minimum depth of the quote shall be ₹ 1,00,000. However, the investors with holdings of value less than ₹ 1,00,000 shall be allowed to issue their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip.

in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of ₹ 102/- per share the minimum lot size is 1,200 Equity Shares thus minimum depth of the quote shall be 1,200 until the same, would be revised by BSE.

4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Equity Shares of market maker in our Company reaches to 25%. Or upper limit (Including the 5% of Equity Shares ought to be allotted under this Offer). Any Equity Shares allotted to Market Maker under this Offer over and above 25% equity shares would not be taken into consideration of computing the threshold of 25%. As soon as the Shares of market maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the market maker exhausts his inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
6. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in Special Pre-Open Session (SPOS) and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity shares on the Stock Exchange.
7. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non- controllable reasons would be final.
8. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and BSE SME from time to time.
9. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
10. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
11. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on BSE SME and market maker will remain present as per the guidelines mentioned under BSE and SEBI circulars.
12. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
13. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
14. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Company, who shall then be responsible to appoint a replacement Market Maker.
15. In case of termination of the abovementioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Company to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI ICDR Regulations. Further the Company reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.
16. **Risk containment measures and monitoring for Market Maker:** BSE SME will have all margins which are applicable on the Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
17. **Punitive Action in case of default by Market Maker:** BSE SME will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a

penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

18. **Price Band and Spreads:** SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Offer size up to ₹ 250 Crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

19. The following spread will be applicable on the BSE SME:

Sr. No.	Market Price Slab (in ₹)	Proposed spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	7
4.	Above 100	6

20. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Maker during market making process has been made applicable, based on the Issue size and as follows:

Offer Size	Buy quote exemption threshold (Including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (Including mandatory initial inventory of 5% of the Issue Size)
Up to ₹20 Crore	25%	24%
₹20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

21. The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI/ BSE from time to time.
22. All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.
23. On the first day of listing, there will be a pre-open session (call auction) and there after trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity Shares on the Stock Exchange.

- We further confirm that our Promoters' Contribution of minimum 20% of the Post Issue Equity does not include any contribution from Alternative Investment Funds or FVCI or Scheduled Commercial Banks or Public Financial Institutions or Insurance Companies registered with Insurance Regulatory and Development Authority of India.

Equity Shares locked-in for one year other than Minimum Promoters' Contribution

Pursuant to Regulation 238(b) and 239 of the SEBI ICDR Regulations, other than the Equity Shares held by our Promoters, which will be locked-in as minimum Promoters' contribution for three years, all pre-issue 50,12,062 Equity Shares shall be subject to lock-in for a period of one year from the date of Allotment in this Issue.

Inscription or recording of non-transferability

In terms of Regulation 241 of the SEBI ICDR Regulations, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription "Non-Transferable" and specify the lock - in period and in case such equity shares are dematerialized, the Company shall ensure that the lock - in is recorded by the Depository.

Pledge of Locked in Equity Shares

Pursuant to Regulation 242 of the SEBI ICDR Regulations, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution or systematically important non-banking finance company or a housing finance company as collateral security for loans granted by them, provided that:

- (a) if the equity shares are locked-in in terms of clause (a) of Regulation 238, the loan has been granted to the company or its subsidiary(ies) for the purpose of financing one or more of the objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan;
- (b) if the specified securities are locked-in in terms of clause (b) of Regulation 238 and the pledge of specified securities is one of the terms of sanction of the loan.

Provided that such lock-in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock-in period stipulated in these regulations has expired.

Transferability of Locked in Equity Shares

- (a) Pursuant to Regulation 243 of the SEBI ICDR Regulations, Equity Shares held by our Promoters, which are locked in as per Regulation 238 of the SEBI ICDR Regulations, may be transferred to and amongst our Promoters/ Promoter Group or to a new promoter or persons in control of our Company subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with SEBI SAST Regulations as applicable.
- (b) Pursuant to Regulation 243 of the SEBI ICDR Regulations, Equity Shares held by shareholders other than our Promoters, which are locked-in as per Regulation 239 of the SEBI ICDR Regulations, may be transferred to any other person holding shares, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with SEBI SAST Regulations as applicable.

21. Neither the Company, nor its Promoters, Directors or the Lead Manager have entered into any buyback and/or standby arrangements for purchase of Equity Shares of the Company from any person.

22. All Equity Shares issued pursuant to the Issue shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of this Draft Prospectus. Further, since the entire money in respect of the Issue is being called on application, all the successful Applicants will be issued fully paid-up Equity Shares.
23. As on the date of this Draft Prospectus, the Lead Manager and their respective associates (as defined under the SEBI MB Regulations 1992) do not hold any Equity Shares of our Company. The Lead Manager and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.
24. As on date of this Draft Prospectus, there are no outstanding ESOP's, warrants, options or rights to convert debentures, loans or other instruments convertible into the Equity Shares, nor has the company ever allotted any equity shares pursuant to conversion of ESOPs till date. As and when, options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.
25. Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under "*Basis of Allotment*" in the chapter titled "*Issue Procedure*" beginning on page 199 of this Draft Prospectus. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 253 (2) of SEBI ICDR Regulations, as amended from time to time.
26. An over-subscription to the extent of 10% of the Net Issue can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Issue. Consequently, the actual allotment may go up by a maximum of 10% of the Net Issue, as a result of which, the post Issue paid up capital after the Issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock-in shall be suitably increased; so as to ensure that 20% of the post Issue paid-up capital is locked in.
27. Subject to valid applications being received at or above the Issue Price, under subscription, if any, in any of the categories, would be allowed to be met with spill-over from any of the other categories or a combination of categories at the discretion of our Company in consultation with the Lead Manager and Designated Stock Exchange. Such inter-se spill over, if any, would be affected in accordance with applicable laws, rules, regulations and guidelines.
28. We have 77 (Seventy Seven) Shareholders as on the date of filing of the Draft Prospectus.
29. There shall be only one denomination of Equity Shares of our Company unless otherwise permitted by law. Our Company shall comply with disclosure and accounting norms as may be specified by SEBI from time to time.
30. No payment, direct, indirect in the nature of discount, commission, and allowance, or otherwise shall be made either by us or by our Promoters to the persons who receive allotments, if any, in this Issue.
31. Our Company shall ensure that transactions in the Equity Shares by our Promoters and our Promoter Group between the date of this Draft Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within 24 hours of such transaction.
32. Our Promoters and Promoter Group will not participate in the Issue.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan and circumstances, management estimates, prevailing market conditions and other external commercial and technical factors including interest rates, exchange rate fluctuations and other charges, which are subject to change from time to time. However, such fund requirements and deployment of funds have not been verified or appraised by any bank, financial institution, or any other external agency or party. We may have to revise our funding requirements and deployment schedule on account of a variety of factors such as our financial and market condition, business and strategy, competition, contractual terms and conditions and negotiation with lenders, variation in cost estimates and other external factors such as changes in the business environment and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to compliance with applicable laws. For details in relation to the discretion available to our management in respect of use of the Net Proceeds. For further details on the risks involved in our proposed fund utilization as well as executing our business strategies, please refer the section titled “*Risk Factors*” on page 23 of this Draft Prospectus.

Our Company proposes to deploy the entire Net Proceeds towards the aforementioned Objects during Fiscal 2024 and 2025. In the event that the estimated utilization of the Net Proceeds in scheduled fiscal years is not completely met, due to the reasons stated above, the same shall be utilized in the next fiscal year, as may be determined by the Board, in accordance with applicable laws. If the actual utilization towards any of the Objects is lower than the proposed deployment, such balance will be used towards general corporate purposes, to the extent that the total amount to be utilized towards general corporate purposes is within the permissible limits in accordance with the SEBI ICDR Regulations. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue, subject to compliance with applicable laws.

MEANS OF FINANCE

The fund requirements set out for the aforesaid Objects are proposed to be met entirely from the Net Proceeds, internal accruals, net worth and existing debt financing. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

**Excluding GST. GST payable on such machineries will be paid from our internal accruals. Certain quotations are subject to additional costs including freight, installation and commissioning costs, transportation costs, packaging and forwarding costs, insurance, customs, duties and other government levies, as applicable shall be paid out of Internal Accruals.*

Notes:

- (a) We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary.
- (b) Quotation received from the vendor mentioned above is valid as on the date of this Draft Prospectus. However, we have not entered into any definitive agreements with any of the vendor and there can be no assurance that the same vendor would be engaged to eventually supply the machineries/equipment or at the same costs.
- (c) The machinery/equipment models and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of vendor or any modification/addition/deletion of machineries or equipment) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other machinery, equipment or utilities, as required. Furthermore, if any surplus from the proceeds remains after meeting the total cost of machineries, equipment and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 25% of the amount raised by our Company through this Issue.
- (d) We are not acquiring any second-hand machinery.
- (e) The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of machineries proposed to be acquired by us at the actual time of purchase, resulting in increase in the estimated cost.

2. Funding working capital requirements

Our Company is engaged in the business of assembling, buying, selling, distributing, importing, exporting or otherwise dealing in products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We also deal in installation, maintaining, servicing or otherwise handling of equipment and services that control and manage all products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We derive our revenue from domestic sales and export sales. Our revenue from operations were ₹3,665.04 Lakhs, ₹1,409.66 Lakhs and ₹1,532.20 Lakhs for the Fiscals 2023, 2022 and 2021, respectively. We intend to expand our operations by entering into manufacturing segment across existing and new products, expand our overseas markets through own dedicated presence, and enhance our domestic presence. All these factors may result in increase in the quantum of working capital requirements. For further details, please refer the chapter titled “Our Business” on page 106 of this Draft Prospectus.

Our business is working capital intensive. We fund the majority of our working capital requirements in the ordinary course of our business from our internal accruals and financing from banks. As on March 31, 2023, the aggregate amount sanctioned by the banks to our Company under the fund-based cash credit facilities amounted to ₹500.00 Lakhs. For details

of facilities availed by us, see chapter titled “*Financial Indebtedness*” beginning on page 155 of this Draft Prospectus. We propose to utilise ₹ 1,195.00 Lakhs from the Net Proceeds to fund the working capital requirements of our Company in Fiscal Year 2024 and 2025.

Existing Working Capital requirements:

The details of our Company’s working capital as at March 31, 2021, March 31, 2022 and March 31, 2023 derived from Restated Financial Statements, and source of funding of the same are provided in the table below:

The projected working capital details as at March 31, 2024 and March 31, 2025 has been certified by our statutory auditor, M/s Mehta and Associates, Chartered Accountants pursuant to their certificate dated July 12, 2023.

Assumptions for working capital projections made by our Company:

The table below sets forth the details of holding levels (in days) for Fiscal 2021, Fiscal 2022, Fiscal 2023 as well as projections for Fiscal 2024 and Fiscal 2025:

Particulars	Actual	Actual	Actual	Estimated	Projected
	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24	FY 2024-25
Debtor Holding Days	245	270	155	100	100
Creditor Holding Days	325	383	96	76	57
Inventory Holding Days	93	848	186	107	91

The assumptions for working capital projections as at March 31, 2021, 2022, 2023, 2024 and 2025 has been certified by our statutory auditor, M/s Mehta and Associates, Chartered Accountants pursuant to their certificate dated July 12, 2023.

Justification:

Sr. No.	Particulars
Debtor days	We expect debtor days to be at 100 Days approx. for FY 2023-24 and FY 2024-25 based on increased sales of our products and better credit management policies ensuring timely recovery of dues.
Creditor Payments days	We expect creditor payment days to be at 76 Days approx. for FY 2023-24 and 57 Days approx. for FY 2024-25. Our Company has reduced the same and assumed the holding level for trade payables as 57 days in line with projected sale and increased business operations. This is expected to enable our Company to get better terms from our vendors.
Inventory Holding Days	We expect inventory holding days to be at 107 Days approx. for FY 2023-24 and 91 Days approx. for FY 2024-25.

3. General Corporate Purpose

Our management will have flexibility to deploy the balance Net Proceeds of the Issue towards general corporate purposes, to be deployed towards including but not restricted to strategic initiatives, partnerships, joint ventures and acquisitions, meeting exigencies which our Company may face in the ordinary course of business, to renovate and refurbish certain of our existing Company owned/leased and operated facilities or premises, towards brand promotion activities or repayment of liabilities (on demand) if any or any other purposes as may be approved by our Board, subject to compliance with the necessary provisions of the Companies Act.

The quantum of utilization of funds towards any of the above purposes will be determined based on the amount actually available under this head and the business requirements of our Company, from time to time. This may also include rescheduling the proposed utilization of Net Proceeds. Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. In the event that we are unable to utilize the entire amount that we have currently estimated for use out of Net Proceeds in a Fiscal, we will utilize such unutilized amount in the subsequent Fiscals.

We further confirm that in terms of the SEBI ICDR Regulations, the extent of the Net Proceeds proposed to be utilized for general corporate purposes shall not exceed 25.00% of the gross proceeds of the issue

Our Company will indicate investments, if any, of unutilized Net Proceeds in the balance sheet of our Company for the relevant financial years subsequent to the completion of the Issue.

Pursuant to SEBI LODR Regulations, our Company shall disclose to the Audit Committee of the Board of Directors the uses and applications of the Net Proceeds. Our Company shall prepare a statement of funds utilized for purposes other than those stated in this Prospectus and place it before the Audit Committee of the Board of Directors, as required under applicable law. Such disclosure shall be made only until such time that all the Net Proceeds have been utilized in full. The statement shall be certified by the statutory auditor of our Company. Furthermore, in accordance with the Regulation 32 of the SEBI LODR Regulations, our Company shall furnish to the Stock Exchange on a half yearly basis, a statement indicating (i) deviations, if any, in the utilization of the proceeds of the Issue from the Objects; and (ii) details of category wise variations in the utilization of the proceeds from the Issue from the Objects. This information will also be published in newspapers simultaneously with the interim or annual financial results, after placing the same before the Audit Committee of the Board of Directors.

INTERIM USE OF FUNDS

Pending utilization of the Net Proceeds for the purposes described above, our Company will deposit the Net Proceeds only with scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board. In accordance with Section 27 of the Companies Act, 2013, our company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

VARIATION IN OBJECTS

In accordance with Sections 13(8) and 27 of the Companies Act and applicable rules, our Company shall not vary the Objects without our Company being authorized to do so by the Shareholders by way of a special resolution through a postal

ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the “Postal Ballot Notice”) shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where our Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such shareholders who do not agree to the above stated proposal, at a price as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS / PAYMENT TO PROMOTERS AND PROMOTER’S GROUP FROM THE IPO PROCEEDS

There is no proposal whereby any portion of the Net Proceeds will be paid to Our Promoters, Promoter Group, Directors and Key Managerial Personnel, Group Companies, except in the ordinary course of business. Further, there are no existing or anticipated transactions in relation to the utilisation of the Net Proceeds entered into or to be entered into by our Company with Our Promoters, Promoter Group, Directors Group Companies, and/or Key Managerial Personnel.

BASIS FOR ISSUE PRICE

The Issue Price has been determined by our Company in consultation with the LM on the basis of an assessment of market demand for the Equity Shares issued through the fixed price method and on the basis of the qualitative and quantitative factors as described below. The face value of the Equity Shares of our Company is ₹10/- each and the Issue Price is 10.2 times of the face value.

Investors should read the following basis with the section titled “Risk Factors” and chapters titled “Restated Financial Statements”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Our Business” beginning on page 23, 152, 155 and 106 respectively, of this Draft Prospectus to get a more informed view before making any investment decisions. The trading price of the Equity Shares of our Company could decline due to these risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors and our strengths which form the basis for the issue price is:

- Customer base across geographies and industries
- Our Product Portfolio

Explanation of KPIs:

- (1) Revenue from operations means the revenue from operations as appearing in the restated financial information
- (2) ‘EBITDA’ is calculated as Profit before tax + Depreciation + Interest Expenses
- (3) ‘EBITDA Margin’ is calculated as EBITDA divided by Revenue from Operations.
- (4) ‘PAT Margin’ is calculated as PAT for the period/year divided by revenue from operations.
- (5) This metric enables us to track the progress of our revenues in the export markets
- (6) This metric enables us to track the progress of our revenues in the domestic markets

b) Description on the historic use of the KPIs by our Company to analyse, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Financial Information. We use these KPIs to evaluate our performance. Some of these KPIs are not defined under applicable Accounting Standards and are not presented in accordance with applicable Accounting Standards. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Although these KPIs are not a measure of performance

calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing results, when taken collectively with financial measures prepared in accordance with applicable Accounting Standards.

7. Justification for Basis for Issue price

a) The price per share of our Company based on the primary/ new issue of shares (equity / convertible securities), excluding shares issued under ESOP/ESOS and issuance of bonus shares

Except as mentioned below, there has been no issuance of Equity Shares or convertible securities during the 18 months preceding the date of this Draft Prospectus, excluding the shares issued under the ESOP Schemes and issuance of bonus shares, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-Issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of 30 days.

Date of Allotment	No. of Equity Shares allotted	Face Value (₹)	Issue Price (₹)	Nature of Consideration	Nature of Allotment	Total Consideration (₹ in lakhs)
February 15, 2023	68,450	10/-	1,650/-	Cash	Rights Issue ⁽ⁱⁱ⁾	1129.43
April 06, 2023	1,89,562	10/-	83.35/-	Cash	Rights Issue ^(iv)	158.00
Weighted average cost of acquisition (WACA) Primary issuances (in ₹ per Equity Share)						498.98

*As certified by M/s PSV Jain & Associates., Chartered Accountants, by way of their certificate dated July 09, 2023.

b) The price per share of our Company based on the secondary sale / acquisition of shares (equity shares)

There have been no secondary sale / acquisitions of Equity Shares, where the promoters, members of the promoter group, selling shareholders or shareholder(s) having the right to nominate director(s) in the board of directors of the Company are a party to the transaction (excluding gifts), during the 18 months preceding the date of this Draft Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue share capital before such transaction/s and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

c) Since there is an eligible transaction of our Company reported in (a) above in accordance with paragraph (9)(K)(4)(a) of the SEBI ICDR Regulations, the price per Equity Share of our Company based on the last five primary or secondary transactions in Equity Shares (secondary transactions where the Promoters/Promoter Group entities, Selling Shareholders or Shareholders having the right to nominate director on the Board are a party to the transaction) not older than 3 years prior to the date of filing of this Draft Prospectus has not been computed.

d) Weighted average cost of acquisition, Issue Price

Based on the disclosures in (a) above, the weighted average cost of acquisition of Equity Shares as compared with the Offer Price is set forth below:

Types of transactions	Weighted average cost of acquisition (₹ per Equity Share)	Issue Price (₹ 102/-)
Weighted average cost of acquisition of primary issuances	498.98	0.20
Weighted average cost of acquisition for secondary transactions	N.A.	N.A.

e) Explanation for Offer Price being 0.20 times of weighted average cost of acquisition of primary issuance price of Equity Shares (set out in 7(d) above) along with our Company's key performance indicators and financial ratios for the financial year ended March 31, 2023, 2022 and 2021.

SECTION VI – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this chapter has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. None of the Company and any other person connected with the Issue have independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projection forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on information.

GLOBAL ECONOMY OVERVIEW

Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, then rise to 3.1 percent in 2024. The forecast for 2023 is 0.2 percentage point higher than predicted in the October 2022 World Economic Outlook (WEO) but below the historical (2000–19) average of 3.8 percent. The rise in central bank rates to fight inflation and Russia’s war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.

The balance of risks remains tilted to the downside, but adverse risks have moderated since the October 2022 WEO. On the upside, a stronger boost from pent-up demand in numerous economies or a faster fall in inflation are plausible. On the downside, severe health outcomes in China could hold back the recovery, Russia’s war in Ukraine could escalate, and tighter global financing costs could worsen debt distress. Financial markets could also suddenly reprice in response to adverse inflation news, while further geopolitical fragmentation could hamper economic progress.

In most economies, amid the cost-of-living crisis, the priority remains achieving sustained disinflation. With tighter monetary conditions and lower growth potentially affecting financial and debt stability, it is necessary to deploy macroprudential tools and strengthen debt restructuring frameworks. Accelerating COVID-19 vaccinations in China would safeguard the recovery, with positive cross-border spillovers. Fiscal support should be better targeted at those most affected by elevated food and energy prices, and broad-based fiscal relief measures should be withdrawn. Stronger multilateral cooperation is essential to preserve the gains from the rules-based multilateral system and to mitigate climate change by limiting emissions and raising green investment.

THE FORCES SHAPING THE OUTLOOK

The global fight against inflation, Russia’s war in Ukraine, and a resurgence of COVID-19 in China weighed on global economic activity in 2022, and the first two factors will continue to do so in 2023.

Despite these headwinds, real GDP was surprisingly strong in the third quarter of 2022 in numerous economies, including the United States, the euro area, and major emerging market and developing economies. The sources of these surprises were in many cases domestic: stronger-than-expected private consumption and investment amid tight labor markets and greater-than-anticipated fiscal support. Households spent more to satisfy pent-up demand, particularly on services, partly by drawing down their stock of savings as economies reopened. Business investment rose to meet demand. On the supply side, easing bottlenecks and declining transportation costs reduced pressures on input prices and allowed for a rebound in previously constrained sectors, such as motor vehicles. Energy markets have adjusted faster than expected to the shock from Russia's invasion of Ukraine.

In the fourth quarter of 2022, however, this uptick is estimated to have faded in most—though not all—major economies. US growth remains stronger than expected, with consumers continuing to spend from their stock of savings (the personal saving rate is at its lowest in more than 60 years, except for July 2005), unemployment near historic lows, and plentiful job opportunities. But elsewhere, high-frequency activity indicators (such as business and consumer sentiment, purchasing manager surveys, and mobility indicators) generally point to a slowdown.

INDIAN ECONOMY OVERVIEW

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022–23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

MARKET SIZE

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritize lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.
- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.
- Merchandise exports in September 2022 stood at US\$ 32.62 billion.
- PMI Services remained comfortably in the expansionary zone at 56.7 during April-September 2022
- In September 2022, the gross Goods and Services Tax (GST) revenue collection stood at Rs. 147,686 crore (US\$ 17.92 billion).
- Between April 2000-June 2022, cumulative FDI equity inflows to India stood at US\$ 604,996 million.
- In August 2022, the overall IIP (Index of Industrial Production) stood at 131.3. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 99.6, 131.0 and 191.3, respectively, in August 2022.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 7.41% in September 2022.
- In FY 2022-23, (until October 28, 2022), Foreign Portfolio Investment (FPI) outflows stood at Rs. 58,762 crore (US\$ 7.13 billion).
- The wheat procurement in Rabi 2021-22 and the anticipated paddy purchase in Kharif 2021-22 would include 1208 lakh (120.8 million) metric tonnes of wheat and paddy from 163 lakh (16.7 million) farmers, as well as a direct payment of MSP value of Rs. 2.37 lakh crore (US\$ 31.74 billion) to their accounts.

GOVERNMENT INITIATIVES

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, are aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- Home & Cooperation Minister Mr. Amit Shah, laid the foundation stone and performed Bhoomi Pujan of Shri Tanot Mandir Complex Project under Border Tourism Development Programme in Jaisalmer in September 2022.
- In August 2022, Mr. Narendra Singh Tomar, Minister of Agriculture and Farmers Welfare inaugurated four new facilities at the Central Arid Zone Research Institute (CAZRI), which has been rendering excellent services for more than 60 years under the Indian Council of Agricultural Research (ICAR).

- In August 2022, a Special Food Processing Fund of Rs. 2,000 crore (US\$ 242.72 million) was set up with National Bank for Agriculture and Rural Development (NABARD) to provide affordable credit for investments in setting up Mega Food Parks (MFP) as well as processing units in the MFPs.
- In July 2022, Deendayal Port Authority (DPA) announced plans to develop two Mega Cargo Handling Terminals on a Build-Operate-Transfer (BOT) basis under Public-Private Partnership (PPP) Mode at an estimated cost of Rs. 5,963 crore (US\$ 747.64 million).
- In July 2022, the Union Cabinet chaired by the Prime Minister Mr. Narendra Modi, approved the signing of the Memorandum of Understanding (MoU) between India & Maldives. This MoU will provide a platform to tap the benefits of information technology for court digitization and can be a potential growth area for the IT companies and start-ups in both the countries.
- India and Namibia entered into a Memorandum of Understanding (MoU) on wildlife conservation and sustainable biodiversity utilization on July 20, 2022, for establishing the cheetah into the historical range in India.
- In July 2022, the Reserve Bank of India (RBI) approved international trade settlements in Indian rupees (INR) in order to promote the growth of global trade with emphasis on exports from India and to support the increasing interest of the global trading community.
- In June 2022, Prime Minister Mr. Narendra Modi inaugurated and laid the foundation stone of development projects worth Rs. 21,000 crore (US\$ 2.63 billion) at Gujarat Gaurav Abhiyan at Vadodara.
- Mr. Rajnath Singh, Minister of Defence, launched 75 newly-developed Artificial Intelligence (AI) products/technologies during the first-ever 'AI in Defence' (AIDef) symposium and exhibition organized by the Ministry of Defence in New Delhi on 11 July 2022.
- In June 2022:
 - Prime Minister Mr. Narendra Modi, laid the foundation stone of 1,406 projects worth more than Rs. 80,000 crore (US\$ 10.01 billion) at the ground breaking ceremony of the UP Investors Summit in Lucknow.
 - The Projects encompass diverse sectors like Agriculture and Allied industries, IT and Electronics, MSME, Manufacturing, Renewable Energy, Pharma, Tourism, Defence & Aerospace, Handloom & Textiles.
- The Indian Institute of Spices Research (IISR) under the Indian Council for Agricultural Research (ICAR) inked a Memorandum of Understanding (MoU) with Lysterra LLC, a Russia-based company for the commercialization of biocapsule, an encapsulation technology for bio-fertilization on 30 June, 2022.
- As of April 2022, India signed 13 Free Trade Agreements (FTAs) with its trading partners including major trade agreements like the India-UAE Comprehensive Partnership Agreement (CEPA) and the India-Australia Economic Cooperation and Trade Agreement (IndAus ECTA).
- The Union Budget of 2022-23 was presented on February 1, 2022, by the Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman. The budget had four priorities PM GatiShakti, Inclusive Development, Productivity Enhancement and Investment, and Financing of Investments. In the Union Budget 2022-23, effective capital expenditure is expected to increase by 27% at Rs. 10.68 lakh crore (US\$ 142.93 billion) to boost the economy. This will be 4.1% of the total Gross Domestic Production (GDP).
- Under PM GatiShakti Master Plan, the National Highway Network will develop 25,000 km of new highways network, which will be worth Rs. 20,000 crore (US\$ 2.67 billion). In 2022-23. Increased government expenditure is expected to attract private investments, with a production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded, and measured policy support is anticipated to boost the Indian economy.
- In February 2022, Minister for Finance and Corporate Affairs Ms. Nirmala Sitharaman said that productivity linked incentive (PLI) schemes would be extended to 14 sectors to achieve the mission of AtmaNirbhar Bharat and create 60 lakh jobs with an additional production capacity of Rs. 30 lakh crore (US\$ 401.49 billion) in the next five years.
- In the Union Budget of 2022-23, the government announced funding for the production linked incentive (PLI) scheme for domestic solar cells and module manufacturing of Rs. 24,000 crore (US\$ 3.21 billion).

- In the Union Budget of 2022, Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman announced that a scheme for design-led manufacturing in 5G would be launched as part of the PLI scheme.
- In September 2021, Union Cabinet approved major reforms in the telecom sector, which are expected to boost employment, growth, competition, and consumer interests. Key reforms include rationalization of adjusted gross revenue, rationalization of bank guarantees (BGs), and encouragement of spectrum sharing.
- In the Union Budget of 2022-23, the government has allocated Rs. 44,720 crore (US\$ 5.98 billion) to Bharat Sanchar Nigam Limited (BSNL) for capital investments in the 4G spectrum.
- Minister for Finance & Corporate Affairs Ms. Nirmala Sitharaman allocated Rs. 650 crore (US\$ 86.69 million) for the Deep Ocean mission that seeks to explore vast marine living and non-living resources.
- Department of Space (DoS) has got Rs. 13,700 crore (US\$ 1.83 billion) in 2022-23 for several key space missions like Gaganyaan, Chandrayaan-3, and Aditya L-1 (sun).
- In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs. 18,100 crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs. 45,000 crore (US\$ 6.07 billion).
- Minister for Finance & Corporate Affairs Ms Nirmala Sitharaman announced in the Union Budget of 2022-23 that the Reserve Bank of India (RBI) would issue Digital Rupee using blockchain and other technologies.
- In the Union Budget of 2022-23, Railway got an investment of Rs. 2.38 lakh crore (US\$ 31.88 billion) and over 400 new high-speed trains were announced. The concept of "One Station, One Product" was also introduced.
- To boost competitiveness, Budget 2022-23 has announced reforming the 16-year-old Special Economic Zone (SEZ) act.
- In June 2021, the RBI (Reserve Bank of India) announced that the investment limit for FPI (foreign portfolio investors) in the State Development Loans (SDLs) and government securities (G-secs) would persist unaffected at 2% and 6%, respectively, in FY22.
- In November 2020, the Government of India announced Rs. 2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction, and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs. 2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.
- Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Prime Minister of India Mr. Narendra Modi launched the Make in India initiative with an aim to boost the country's manufacturing sector and increase the purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the government has also come up with the Digital India initiative, which focuses on three core components: the creation of digital infrastructure, delivering services digitally, and increasing digital literacy.
- On January 29, 2022, the National Asset Reconstruction Company Ltd (NARCL) will acquire bad loans worth up to Rs. 50,000 crore (US\$ 6.69 billion) about 15 accounts by March 31, 2022. India Debt Resolution Co. Ltd (IDRCL) will control the resolution process. This will clean up India's financial system and help fuel liquidity and boost the Indian economy.
- National Bank for Financing Infrastructure and Development (NaBFID) is a bank that will provide non-recourse infrastructure financing and is expected to support projects from the first quarter of FY2022-23; it is expected to raise Rs. 4 lakh crore (US\$ 53.58 billion) in the next three years.
- By November 1, 2021, India and the United Kingdom hope to begin negotiations on a free trade agreement. The proposed FTA between these two countries is likely to unlock business opportunities and generate jobs. Both sides have renewed their commitment to boost trade in a manner that benefits all.
- In August 2021, Prime Minister Mr. Narendra Modi announced an initiative to start a national mission to reach the US\$ 400 billion merchandise export target by FY22.

- In August 2021, Prime Minister Mr. Narendra Modi launched a digital payment solution, e-RUPI, a contactless and cashless instrument for digital payments.
- In April 2021, Dr. Ahmed Abdul Rahman AlBanna, Ambassador of the UAE to India and Founding Patron of IFIICC, stated that trilateral trade between India, the UAE and Israel is expected to reach US\$ 110 billion by 2030.
- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is expected to increase public health spending to 2.5% of the GDP by 2025.

ROAD AHEAD

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

GLOBAL TRADE INDUSTRY

Trading globally gives consumers and countries the opportunity to be exposed to goods and services not available in their own countries, or more expensive domestically.

International trade was key to the rise of the global economy. In the global economy, supply and demand—and thus prices—both impact and are impacted by global events.

Political change in Asia, for example, could result in an increase in the cost of labor. This could increase the manufacturing costs for an American sneaker company that is based in Malaysia, which would then result in an increase in the price charged for a pair of sneakers that an American consumer might purchase at their local mall.

Imports and Exports

A product that is sold to the global market is called an export, and a product that is bought from the global market is an import. Imports and exports are accounted for in the current account section of a country's balance of payments.

Global trade allows wealthy countries to use their resources—for example, labor, technology, or capital—more efficiently. Different countries are endowed with different assets and natural resources: land, labor, capital, technology, etc.

This allows some countries to produce the same good more efficiently; in other words, more quickly and at a lower cost. Therefore, they may sell it more cheaply than other countries. If a country cannot efficiently produce an item, it can obtain it by trading with another country that can. This is known as specialization in international trade.

Comparative Advantage

According to the theory of comparative advantage, each country would eventually recognize these facts and stop attempting to make the product that was more costly to generate domestically in favor of engaging in trade. Indeed, over time, England

would likely stop producing wine, and Portugal stop manufacturing cloth. Both countries would realize that it was to their advantage to redirect their efforts at producing what they were relatively better at domestically and, instead, to trade with each other in order to acquire the other.

These two countries realized that they could produce more by focusing on those products for which they have a comparative advantage. In such a case, the Portuguese would begin to produce only wine, and the English only cotton.

Each country can now create a specialized output of 20 units per year and trade equal proportions of both products. As such, each country now has access to both products at lower costs. We can see then that for both countries, the opportunity cost of producing both products is greater than the cost of specializing.

Comparative advantage can contrast with absolute advantage. Absolute advantage leads to unambiguous gains from specialization and trade only in cases wherein each producer has an absolute advantage in producing some good.

If a producer lacked any absolute advantage, then they would never export anything. But we do see that countries without any clear absolute advantage do gain from trade because they have a comparative advantage.

INDIAN TRADING AND DISTRIBUTION INDUSTRY

The distribution network in India

There has been a significant expansion in distribution channels in India during the past few years. Indian retail industry is one of the fastest growing in the world. According to Invest India, the overall retail market is set to cross the \$2 trillion mark by 2032 from \$690 billion in 2021. The Indian retail e-commerce market, which amounted to \$72 billion in 2021, is also set to grow at an annual growth rate of 30% for a gross value of goods of \$350 billion by 2030. Retail is India's largest industrial sector, currently accounting for over 10% of India's GDP and 8% of total employment.

Most Indian manufacturers use a three-tier selling and distribution structure that has evolved over the years. This structure involves redistribution stockists, wholesalers, and retailers. As an example, an FMCG company operating on an all-India basis could have between 40 and 80 redistribution stockists (RS). The RS will sell the product to between 100 and 450 wholesalers. Finally, both the RS and wholesalers will service between 250,000-750,000 retailers throughout the country. The RS will sell to both large and small retailers in the cities as well as interior parts of India. Depending on how a company chooses to manage and supervise these relations, its sales staff may vary from 75 to 500 employees. Wholesaling is profitable by maintaining low costs with high turnover, with typical FMCG product margins anywhere from 4-5%. Many wholesalers operate out of wholesale markets. In urban areas, the more enterprising retailers provide credit and home-delivery. Now, with the advent of shopping malls, companies talk of direct delivery and discounts for large retail outlets.

In 2021, e-commerce generated \$63 billion in revenues, growing by 26% compared to 2020 (ecommerceDB). India will have 500 million online buyers by 2030, compared to 150 million in 2020, with digital spending projected to increase more than tenfold to \$800 billion and account for more than a third of all retail sales by 2030.

Market share

India's food and grocery retail industry is considered the third largest in the world with sales reaching \$858 billion in 2022 and expected to grow annually by 8.17% (Statista). The food and grocery sector constitutes nearly 70% of the total retail market in India. The food retail sector in India is comprised of modern grocery retailers along with e-commerce, representing 10% of the market share and traditional retail formats, specifically neighborhood shops called kirana stores, which account for 90% of all retail sales.

Due to the Covid-19 crisis, the food retail sector in India has undergone changes. India's largest food retailer, Reliance, has worked with WhatsApp to expand its presence in the e-commerce market by linking kirana shops to its online platform and supply chain. Due to blocking restrictions and social distance regulations, Indian customers have increasingly turned to e-commerce platforms to secure essential food supplies. Thus, many retailers have organised themselves with and commerce services, Amazon India has expanded its Amazon Pantry services to over 300 cities.

The unorganized sector in food retail is predominantly dominated by general stores, kirana stores, convenience stores and street markets. On the other hand, the organized sector includes gourmet stores, department stores, discount stores, supermarkets and hypermarkets, e-tailers and cash-and-carry formats; there are mainly Indian firms.

The major food retail chains in India are: Reliance Retail, Future Value Retail, Avenue Supermarts Limited, More Retail Limited, Star Bazaar, Spencer's Retail, Walmart India, Spar Hypermarket and Namdhari's Fresh.

INTRODUCTION TO VALVES

A valve is a very valuable device for industrial applications and is used to control, regulate and direct the flow of liquids and gases in pipelines by opening, closing or partially opening the passageways for pipeline flow. They may be hand wheel operated or motor operated (i.e., actuator operated).

At their most basic, valves are devices that work to control, regulate or direct flow within a system or process. They often feature a range of characteristics that help to define their ideal application. However, whether you're looking to control flow, provide safety in a system that is piping liquids, solids, gasses or anything in between, there are likely [stainless steel valves](#) available to help.

Valves provide several functions, including:

- Starting or stopping flow based on the valve state
- Regulating flow and pressure within a piping system
- Controlling the direction of flow within a piping system
- Throttling flow rates within a piping system
- Improving safety through relieving pressure or vacuum in a piping system

VALVE OPENING METHODS EXPLAINED

While many valves accomplish similar goals, how they do so mechanically can vary.

How a valve opens and closes will not only impact the overall performance but also determine how much control you have over the flow and how quickly the valve can operate.

Most valves fit into one of three categories:

Multi-Turn valves: Think of these valves like a screw or piston. You crank the handle and the plug, plate, membrane, or other controlling obstruction moves into the path of the pipe blocking access. Depending on the valve, these can have higher or lower differentials allowing you to open or close them at various speeds.

Quarter turn valves: Quarter-turn valves offer a full range of motion in a 90-degree turn of the handle. This makes them ideal for situations where precision isn't as important as rapid action and easy opening or closing.

On top of the mechanical motion involved with a valve, also consider the method of actuation. In most cases, **valves fall into one of three categories:**

Manual Valves: Typically adjusted by hand, these valves use handwheels, hand levels, gear wheels, or chains to actuate.

Actuated Valves: Often connected to electric motors, air or pneumatic systems, hydraulic systems, or solenoids, these valves allow remote control and automation for high-precision or large-scale applications.

Automatic Valves: Some valves activate when a specific flow condition is met. Examples include check valves closing during backflow or pressure release valves activating when an over-pressure condition is detected.

COMMON VALVE TYPES AND THEIR APPLICATIONS

Valves feature a range of characteristics, standards, and groupings that help to give you an idea of their intended applications and expected performance. Valve designs are one of the most basic ways to sort the huge range of valves available and finding a good fit for a project or process.

Common types of valves include:

Ball Valve

Predominantly equipped with quick-acting 90-degree turn handles, these valves use a ball to control flow to provide easy on-off control. Generally accepted by operators to be faster and easier to operate than gate valves.

Butterfly Valve

Using a compact design, the butterfly valve is a quick-acting rotary motion valve ideal for tight spaces thanks to its wafer type design. Butterfly valve bodies are offered in many different configurations.

Check Valve

Used to prevent backflow, these valves are typically self-activated allowing the valve automatically opens when media passes through the valve in the intended direction and close should flow reverse.

Gate Valve

As one of the most common valve types, gate valves use linear motion to start and stop the flow. These are typically not used for flow regulation. Instead, they used in the fully open or closed positions.

Globe Valve

Globe valves are typically applied in modulating control operations. Typically, available in three body types, T-body (as shown above), Y-Pattern, and Angle body.

Needle Valve

Typically used in small diameter piping systems when fine, accurate flow control is needed, Needle valves get their name from the point on a conical disc used within.

Pinch Valve

Often used for handling solid materials, slurries and liquids with suspended solids, pinch valves use a linear motion. Typically Pinch Valves feature an internal sleeve to isolate the media.

Quick Closing Valves

Often used In fuel oil or lube oil system of Ships and Naval Crafts. This valves are used in emergency control or shutting of the fuel lines from Remote location.

GLOBAL VALVES INDUSTRY

The global industrial valves market size is estimated to be USD 80.4 billion in 2023 and is projected to reach USD 99.8 billion by 2028 at a CAGR of 4.4%. The rising demand for valves from healthcare and pharmaceutical industries, establishment of smart cities globally, and rapid deployment of connected networks to monitor valve conditions and predict system failures are the major factors driving the growth of the industrial valves market.

Valve Condition Monitoring

Plant operators should always be aware of the valve conditions to ensure operational safety and improve productivity. There is a growing demand for remote condition monitoring worldwide among end-user industries to reduce unplanned downtime, increase workplace safety, and substantially reduce maintenance and repair costs. Many valve manufacturers have started providing end-user industries with condition monitoring solutions. For instance, Emerson's valve condition monitoring is a real-time, non-intrusive health monitoring solution that helps improve overall plant safety and productivity. Once the data communication architecture is reviewed and established, Emerson provides detailed instrument configuration, and Secure First Mile data transfer methods are installed and validated. As the setup of valve condition monitoring is completed, the technology starts interpreting time-series analysis of valve data and executes automated data analytics processing. Data is then reviewed weekly, and if any urgent issues are identified, they are communicated in real time. Further, monthly reports are generated summarizing the condition of valve assets.

Industrial Valves Market Dynamics

DRIVERS: Increasing need to establish new power plants and revamp existing ones

Although valves make up a small portion of a power plant, they play a vital role. In the case of large power plants, hundreds of valves are used to manage steam and water flows. In recent years, improvements in material technology and manufacturing techniques have enabled the newly developed valves to offer optimum performance even in increased pressure and temperature conditions. Control valves are used to diagnose problems and improve the overall performance efficiency of the power plant. With the establishment of new nuclear plants and revamping existing ones, the demand for valves is expected to increase to protect turbines and boilers from vibration or corrosion as valves are used in safety-related applications in nuclear power plants. Piping is a primary process in the nuclear power plant, which acts as a channel for

transporting necessary fluids for producing and managing nuclear energy. For the piping system to work seamlessly, valves and fittings play a pivotal role in preventing nuclear disasters by effectively controlling the flow of the fluids.

OPPORTUNITIES - Rising demand for AI-integrated valves for intelligent water supply

Artificial intelligence (AI) can be described as any algorithm that allows processing data and learning, thereby increasing the system's performance over time as its algorithm becomes better tested and trained. In a water distribution network, AI can be integrated into various applications, such as predicting flow at one location at one time based on what happened at a previous location, forecasting future scenarios to deal with any contingencies, and choosing the best options available for solving a particular problem or eliminating any bottleneck. AI algorithms for decision-making involve optimization techniques for finding the suitable combination of factors that minimize or maximize a numerical objective function. For implementing contingency plans and protocols, AI assists in optimizing a response based on the level of risks, which can either be predefined or determined in real time, including the response to close certain valves to minimize the impact of a pipe burst. There is a rising necessity to integrate AI for implementing decision-making algorithms and related optimization techniques into the operation of most water utilities. The AI-induced operational analysis enables real-time and optimized control of certain parts of the water distribution network, such as pressure or flow control valves and pumping stations, which helps reduce energy consumption and efficiently monitors water quality.

CHALLENGES – Unplanned downtime due to malfunctioning and failure of valves

Malfunctioning or failure of valves results in unplanned downtime or shutdown of a plant. As a result, the facility faces enormous consequences, such as loss in production, heightened repair costs, related labor costs, and wastage of raw materials. Furthermore, this can put a strain on customer relationships as a result of delayed deliveries or poor product quality. In this scenario, replacing or repairing the valves are the only options. However, industry players are trying to overcome this issue by adopting predictive maintenance, connected infrastructure, or condition monitoring solutions. Smart valve monitoring is another development through which manufacturers can overcome the issue of downtime and help customers improve process efficiency.

Globe valves held the largest share of the industrial valves market in 2022

The major advantage of globe valves is the minimal leakage. Other advantages include better full-closing characteristics, shorter opening and closing time, and positive shutoff drive; therefore, the adoption rate of these valves is much higher across various industries.

Actuators held the largest share of the industrial valves market in 2022

Modern actuators enable opening and closing operations and provide intermediate positioning with high accuracy. The valve actuator can be used with a logic controller and digital communication system to monitor remote operations and provide predictive maintenance data. Selecting the right actuator can reduce maintenance costs, increase uptime, and enhance plant safety.

On/off segment held the largest share of the industrial valves market in 2022

Isolation valves are available in a comprehensive range of designs, materials, and sizes to suit a wide range of applications and processes in industries such as oil & gas, energy & power, water & wastewater treatment, food & beverage, chemical, pharmaceutical, metal & mining, pulp & paper, and agriculture. Several key players, such as Emerson, Metso, Cameron, IMI Plc, and Flowsolve, offer a robust and extensive portfolio of on/off valves.

Steel segment held the largest share of the industrial valves market in 2022

Steel offers efficient mechanical properties and good resistance against stress corrosion cracking and sulfides due to which it has become the most widely used material for the construction of valves. Carbon steel offers high- and low-temperature strength and the valves made using this type of steel can be used in applications where extreme pressure and temperatures make other materials unusable.

Energy & power industry held the largest share of the industrial valves market in 2022

Countries worldwide are struggling to fulfill the growing requirement for energy, and the energy & power industry is constantly seeking ways to produce energy faster, safer, and more efficiently with minimal environmental impact. Also, it is crucial to utilize the available resources efficiently, as most of these are nonrenewable. Control valves are key components in power generation plants. In the energy and power industry, valves need tight shutoffs for handling high-integrity slurry.

Also, the disc should be easily replaceable because most of the time, the slurries passing through are abrasive. Therefore, specialized valves are employed in the energy and power industry for varied applications.

Asia Pacific held the largest share of the industrial valves market in 2022

Owing to the increasing urban population in the region, there is a high demand for new and improved wastewater treatment systems. The increasing need for proper utilization of water and the growing demand for advanced water & wastewater treatment techniques are creating a demand for industrial valves in Asia Pacific countries. Pharmaceutical manufacturers in China are increasingly adopting IoT-integrated industrial valves to optimize and automate a broad spectrum of tasks, including transporting accurate doses of fluids to manufacture drugs. Due to the high-precision requirements of the semiconductor industry, Japanese manufacturers are adopting PFA/PTFE-lined industrial valves to ensure high seal ability, better corrosion resistance, and longer service life.

Industrial Valves Market by Region

(Source: <https://www.marketsandmarkets.com/Market-Reports/industrial-valve-market-256097136.html>)

INDIAN VALVES INDUSTRY

OVERVIEW

The growth of the India Industrial Valves Market can be attributed to rapid industrialization coupled with increasing automation of industrial processes. In addition, the increasing number of oil and gas (O&G) exploration activities in offshore areas, associated with increasing energy demand, is also a key growth driver. Moreover, the expansion of nuclear power plants and oil refineries will enhance the growth of the market. In addition, increasing pipeline installations and growing demand for pipeline monitoring and control from a central location are having a positive impact on the market.

India Industrial Valves Market- Industry Trends & Forecast Report 2028

India industrial valves market was valued at USD 2.6 billion in 2021 and is projected to reach USD 3.7 billion by 2028, growing at a CAGR of 5.2% during the forecast period. Technological upgrades and product development highly influence the Indian industrial valves market. Also, the increasing adoption of industrial valves in sewage pumps, sewage treatment plants, and several other applications further fuels the growth of the industrial valve market. Recent technological developments have led companies to use cutting-edge tools such as artificial intelligence (AI) and Internet of Things (IoT) technologies to reduce unplanned downtime and other adverse conditions caused by valve failure. These valve technologies allow professionals to remotely verify the functionality and health of industrial valves. As industrialization progresses, the industry implements censored valves to minimize failure rates and overall maintenance costs. Adoption of these cutting-edge assets is expected to strengthen the market during the forecast period.

INDIA INDUSTRIAL VALVES – OVERVIEW

Industrial valves are electromechanical devices used to regulate the flow and pressure of liquids, gases, vapors, powders, and slurries in piping systems. These valves consist of bodies, trims, discs, seats, stem packings, end connections, seal rings, bonnet bodies, union bolts, yokes and yoke nuts, and drivers and controls. They help stop the flow through the pipe when necessary, prevent backflow to the discharge side, and protect equipment from overpressure hazards. There are various types of industrial valves on the market today based on size, design, function, and operation. These valves are widely used in the refineries, chemical, pharmaceutical, water and wastewater treatment, food and beverage (F&B), energy, oil, and gas sectors.

INDIA INDUSTRIAL VALVES MARKET – INDUSTRY TRENDS AND MARKET FORECAST

Starting of Make in India movement

Since the start of the Make in India initiative, many foreign companies have entered India and established manufacturing facilities to support the growth of the Indian economy and produce many products. The initiative has also increased exports of Indian products to overseas markets and added value to the industrial valve market. The boycott of Chinese products has proven beneficial for Indian companies as consumers look forward to Indian products.

Industrial valves have applications in those industries that contribute significantly to India's GDP, so these valves are in great demand in the forecast period as well.

Huge increase in power consumption

Increasing urbanization has led not only the urban population growth but also to the launch of new projects such as smart cities, commercial hubs, and other initiatives. From inception to maintenance, these projects require 24/7 electrification to meet all requirements. Uninterrupted electrical power is required for the smooth operation of commercial centers and all related facilities, so industrial valves play a key role in this process. In the power industry, valves are used in a variety of applications such as Boiler start-up, feed pump recirculation, steam regulation, and turbine bypass. In power industry water systems, valves are used to recirculate boiler feed pumps. Valves play an important role in this scenario as they are designed to work with on/off and modulated operations.

Additionally, valves are used in mainstream systems, such as for superheaters, turbine bypasses, and superheater bypasses. Regulating valves are used to control pressure. A report from the Government of India's ministry of power stated that the generation of power increased 7.96% from 1,381.827 BU in 2020–21 to 1,491.859 BU in 2021–22. Furthermore, with the increase in disposable income in both urban and rural areas, the demand for energy is increasing rapidly, which increases the demand for industrial valves in the forecast period.

Restraints

Lack of standardization coupled with high maintenance costs restrain the market growth

Although the industrial valve market is experiencing tremendous growth, several factors restrain its growth. The lack of standardization in these valve industries hinders the market growth. In addition, various regulations and guidelines from governments regarding the use of valves are also restricting market growth. Moreover, high maintenance costs are another factor hindering market growth in the market.

Impact of COVID–19 on India Industrial Valves Market

The COVID-19 pandemic has affected a large portion of the population. This global pandemic has left many people without their livelihoods. It has influenced the dynamism and growth of several industries. Under lockdown conditions, various end-user industries have shut down, reducing demand in the industrial valve market and further leading to lower sales. Supply chain networks are also in turmoil, leading to lower profit margins. However, the market is expected to grow steadily until the end of 2022 by making appropriate strategies according to market needs.

India Industrial Valves Market – By End User Industry

Based on the end-user industry, India's industrial valves market is segmented into oil & gas, power generation, wastewater effluent, chemicals & petrochemicals, food & beverages, and others. The oil & gas segment has the highest share in 2021 and is expected to dominate the market in the forecast period. Increased application of industrial valves in the oil and gas sector with more than 21 refineries. India is one of the largest countries with large-scale refineries, offering a wide range of opportunities for valve manufacturers. Upcoming projects such as GAIL's oil and gas exploration in Gujarat are also

expected to drive the growth of the oil & gas sub-segment in the coming years. The Power generation sector is expected to grow fastest during the forecast period, supported by installing new power plants and expanding existing power plants in the country.

Competitive Landscape

The Indian industrial valve market is highly fragmented, with around 600 companies. The industry faces consolidation as large multinational valve suppliers are expected to acquire smaller companies to leverage their strong distribution and supply chain networks. Fueled by an optimistic investment scenario and a slowdown in the Middle East market growth, major global players have shifted their focus to India. Key Players operating in India Industrial Valves Market are L&T Valves, Kirloskar Brothers Limited, Ampo Valves, Emerson Electric Co., CRI Pumps, VIP Valves Private Limited India, Amco Industrial Valves, Amtech Valves, Hawa Engineers Ltd, Novel Valves, and other players. Market leaders maintain their growth advantage by investing in research and development, incorporating cutting-edge technology into their products, and releasing improved items to their customers.

GLOBAL DEFENSE MARKET OUTLOOK

The defense refers to a range activity including production of air-based, sea-based, and land-based military equipment, including support and auxiliary equipment such as radar, satellites, sonars, and other auxiliary equipment, or maintain, repair, and overhaul defense equipment.

The main defense types are air-based defense equipment, sea-based defense equipment, land-based defense equipment, defense equipment maintenance, repair, and overhaul services, defense support, and auxiliary equipment. Air-based defense equipment includes support and auxiliary equipment for air-based defense, such as radar, satellites, sonar, and other auxiliary equipment. The various operations include autonomous defense equipment, manuals and involve various platforms such as airborne, land, and naval.

The defense market research report is one of a series of new reports from The Business Research Company that provides defense market statistics, including defense industry global market size, regional shares, competitors with a defense market share, detailed defense market segments, market trends and opportunities, and any further data you may need to thrive in the defense industry. This defense market research report delivers a complete perspective of everything you need, with an in-depth analysis of the current and future scenarios of the industry.

The global defense market grew from \$534.79 billion in 2022 to \$577.19 billion in 2023 at a compound annual growth rate (CAGR) of 7.9%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The defense market is expected to grow to \$718.12 billion in 2027 at a CAGR of 5.6%.

The adoption of unmanned combat vehicles is one of the major trends in this market. An unmanned combat vehicle is a machine or motorized vehicle that runs without any physical human intervention. These vehicles have a set of sensors for 360-degree situational awareness and for optical avoidance, steering actuators, brakes, and laser scanners, along with other autonomous features enabling remote or autonomous functioning of the vehicle. It is mostly used to inspect the surroundings and transfer the information to the operator through teleoperation or make autonomous decisions to deal with situations involving several technical challenges. For instance, in January 2020, the U.S. Army awarded contracts for the development of robotic combat vehicles (RCV-M). It is an unmanned robotic teleoperation combat vehicle with an onboard 20-to 50-millimeter automatic cannon. It can fight alongside infantry and destroy enemy armored personnel carriers, trucks, and troops.

Corner shot weapons are increasingly becoming popular due to the safety features they offer. A corner shot is a specialized weapon accessory, essentially a hinged chassis installed on a pistol such as a Glock, a handgun, or a Beretta 92. The hinge chassis allows the gun's frame to bend around the corner and attack the target without exposing the soldiers. It is also equipped with a bore-sighted, high-resolution video camera, an LCD monitor, and a built-in tactical light for navigation and illumination. The corner shot rifles or guns are widely used in battlefields, inside armored vehicles and tanks, on a turret up top, which will allow for a full 360-degree field of cover while the triggerman remains safely inside the vehicle. The weapon is accurate and effective up to 100 to 200 meters, depending on the type of weapon.

Companies in the air-based defense equipment manufacturing market are increasingly investing in the development of autonomous fighter jets. Autonomous fighter jets are jets that do not require human pilots to fly and can fly for longer

periods of time. Autonomous jets are equipped with sensors to scan for potential threats and process more information at a given time. These jets are well equipped to collect intelligence about the enemy, block the electronic systems of enemy aircraft, and shoot down other threats in the air. Following the trend, in October 2021, Northrop Grumman Corporation, a US-based aerospace and defense technology company, developed a new autonomous aircraft called the Model 437, a stealth jet with a range of 3,000 miles that was created in partnership with Scaled Composites. The Scaled Composites-developed Model 401 Sierra, a low-cost manufacturing technology demonstrator aircraft, serves as the foundation for the Model 437.

Major companies in the defense market include Lockheed Martin Corporation, Raytheon Technologies Corporation, The Boeing Company, Raytheon Co, Northrop Grumman Corp, Bae Systems plc, Airbus Group SE, Leonardo SpA, Thales group, and General Dynamics.

Asia-Pacific was the largest region in the defense market in 2022. Western Europe is expected to be the fastest growing region in the forecast period. The regions covered in the defense market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.

The countries covered in the defense market report are Argentina, Australia, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, Czech Republic, Denmark, Egypt, Finland, France, Germany, Hong Kong, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Nigeria, Norway, Peru, Philippines, Poland, Portugal, Romania, Russia, Saudi Arabia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Thailand, Turkey, UAE, UK, USA, Venezuela, and Vietnam.

The defense market consists of sales of air-based, sea-based, and land-based defense equipment such as military aircraft, helicopter, satellites, and radars, as well as support services. Values in this market are ‘factory gate’ values, that is the value of goods sold by the manufacturers or creators of the goods, whether to other entities (including downstream manufacturers, wholesalers, distributors, and retailers) or directly to end customers. The value of goods in this market includes related services sold by the creators of the goods.

The market value is defined as the revenues that enterprises gain from the sale of goods and/or services within the specified market and geography through sales, grants, or donations in terms of the currency (in USD, unless otherwise specified).

The revenues for a specified geography are consumption values that are revenues generated by organizations in the specified geography within the market, irrespective of where they are produced. It does not include revenues from resales along the supply chain, either further along the supply chain or as part of other products.

The global defense market is segmented –

By Type: Air based Defense Equipment, Sea based Defense Equipment, Land based Defense Equipment, Defense Equipment Maintenance, Repair and Overhauling Services, Defense Support and Auxiliary Equipment.

By Operation: Autonomous Defense Equipment, Manual

By Platform: Airborne, Land, Naval

OUR BUSINESS

This chapter should be read in conjunction with, and is qualified in its entirety by, the more detailed information about our Company and its financial statements, including the notes thereto, in the section titled “Risk Factors” and chapters titled “Restated Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 23, 152 and 155 respectively, of this Draft Prospectus.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Statements for the Financial Years ended on March 31, 2023, 2022 and 2021 included in this Draft Prospectus. For further information, see “Restated Financial Statements” beginning on page 152 of this Draft Prospectus.

OVERVIEW

Our company, Meson Valves India Limited is engaged in the business of supplying of valves, actuators, Strainers and remote-control valves systems to the industries both in domestic and international markets. We supply mainly to Naval, Oil and gas industries, Power, Refineries and General Industries, both in domestic and international markets.

Our Company is engaged in the business of assembling, buying, selling, distributing, importing, exporting or otherwise dealing in products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We also deal in installation, maintaining, servicing or otherwise handling of equipment and services that control and manage all products like valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices.

Our Company has been accredited with various quality certifications such as ISO 14001:2015, ISO 9001: 2015, and ISO 45001: 2018 certified by TUV Austria, certifying the design, development, manufacturing, supplying, marketing, sales and servicing of all types of valves, control valves, actuators, strainers, fluid control, management systems and related accessories.

Our assembly unit is situated at Gut No-324, MIDC Phase-II, Chakan Industrial Area, Opp. Berger Paints, Village Bhamboli, Khed, Pune-410501, Maharashtra, India. The unit is well equipped with CNC machines, all necessary Fixtures for assembly and test machinery for quality assurance, other handling Equipment’s to facilitate smooth assembly process and easy logistics. We endeavour to maintain safety in our premises by adhering to key safety norms, established through our internal health and safety manual, accompanied by regular safety meetings. We follow ERP System for our routine from Customer enquiry to Dispatch of Goods.

We procure our products for further assembly and supply from various countries across the globe such as Denmark, Germany, Poland, South Korea, Netherlands, Sweden, Turkey and United Arab Emirates and in the domestic market, we procure the products from states such as Goa, Gujarat, Maharashtra, Karnataka, Tamilnadu, Andhra Pradesh, Dadra and Nagar Haveli, Delhi and Telangana based on purchases made for the financial year ended March 31, 2023, 2022 and 2021. We have two business divisions (i) domestic sales; and (ii) exports. We have presence in Andhra Pradesh, Assam, Goa, Gujarat, Kerala, Maharashtra, Tamil Nadu, Telangana, Uttar Pradesh, West Bengal and Karnataka states for our domestic market based on sales made for the year ended March 31, 2023, 2022 and 2021. Internationally we supply products in countries such as Germany, South Korea, Oman, Russia, Sweden, United Arab Emirates, Srilanka, Qatar and Thailand based on sales made for the financial year ended March 31, 2023, 2022 and 2021. For the financial year ended March 31, 2023, 2022 and 2021 our revenue from exports was Rs. 43.82 lakhs, Rs. 108.64 lakhs and Rs. 156.97 lakhs, respectively which contributed 1.20%, 7.71% and 10.24% respectively of our revenue from operations.

Our Company is promoted by India Futuristic Marine Private Limited, Swaroop Raghuvir Natekar, Brijesh Madhav Manerikar & Vivekanand Maruti Redekar. Our Promoters manage and control the major affairs of our business operations with their considerable experience in our Industry. We believe our success is the result of sustained efforts over the years in key aspects of our business, such as product portfolio, process improvements and increased scale of operations. For more details, please see the chapter titled, “Our Management” and “Our Promoters and Promoter Group” on page 130 and 144 of this Draft Prospectus.

Our product mix has evolved over the past several years as we have entered into new product categories. We are focused at consistently expanding our product portfolio by adding new designs and types in our existing portfolio. We constantly engage with our customers through marketing via personal interactions with them. Our sales team works closely with our customers to obtain their insights and feedback about the upcoming trends in the industry which enables us to improve our product portfolio to fulfil the requirements of the market.

Our company intends to expand its business operations by entering into segment of manufacturing of valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We are currently engaged in the business of supplying of valves, actuators, Strainers and remote-control valves systems to the industries both in domestic and international markets. Hence, in order to now expand our business operations, we intend to enter into manufacturing segment. We also have an assembly unit situated at Gut No-324, MIDC Phase-II, Chakan Industrial Area, Opp. Berger Paints, Village Bhamboli, Khed, Pune-410501, Maharashtra, India and we intend to install further machineries in the said unit required for manufacturing concern. We intend to purchase these machineries from the IPO proceeds, details of which have been mentioned in the chapter titled, “*Objects of the Issue*” on page 74 of this Draft Prospectus. We also have the required licenses in place for the same. For further details pertaining to licenses/approvals required, kindly refer to the chapter titled “*Government and Statutory Approvals*” on page 177 of this Draft Prospectus.

Notes:

- (1) Revenue from operation means revenue from sales.
- (2) ‘EBITDA’ is calculated as Profit before tax + Depreciation + Interest Expenses
- (3) ‘EBITDA Margin’ is calculated as EBITDA divided by Revenue from Operations.
- (4) ‘PAT Margin’ is calculated as PAT for the period/year divided by revenue from operations.
- (5) This metric enables us to track the progress of our revenues in the export markets.
- (6) This metric enables us to track the progress of our revenues in the domestic markets.

OUR STRENGTHS

1. Experienced Promoters and Management Team

The Promoters and the senior management team of our Company have significant industry experience and have been instrumental in the high growth of our company in the recent few years. Our Company is promoted individually by Swaroop Raghuvir Natekar, Brijesh Madhav Manerikar & Vivekanand Maruti Redekar, possessing an average experience of more than 6 years in the field of supply of valves, actuators, Strainers and remote-control valves systems. We have an experienced management team with significant experience in the industry. We believe this facilitates effective operational coordination and continuation of business strategies. Their individual industry experience enables us to anticipate and address market trends, manage and grow our operations. We will continue to leverage on the experience of our management team and their understanding of the industry we operate in, to take advantage of current and future market opportunities. For further details of the educational qualifications and experience of our promoters and senior management please refer to the chapter titled “Our Management” on page 130 of this Draft Prospectus.

2. Customer base across geographies and industries

Our company is engaged in the business of supplying of valves, actuators, Strainers and supply of remote-control valves systems to the industries both in domestic and international markets. Our Company has a customer base across industries and geographies both at domestic and overseas. We follow B2B customer segment catering the Marine, Offshore, Oil and gas industries, Power, Refineries and General Industries. We procure our products for further assembly and supply from various countries across the globe such as Denmark, Germany, Poland, South Korea, Netherlands, Sweden, Turkey and United Arab Emirates and in the domestic market, we procure the products from states such as Goa, Gujarat, Maharashtra, Karnataka, Tamilnadu, Andhra Pradesh, Dadra and Nagar Haveli, Delhi and Telangana based on purchases made for the financial year ended March 31, 2023, 2022 and 2021. For the financial year ended March 31, 2023, 2022 and 2021 our revenue from exports was Rs. 43.82 lakhs, Rs. 108.64 lakhs and Rs. 156.97 lakhs, respectively which contributed 1.16%, 7.71% and 10.24% respectively of our revenue from operations.

3. *Quality Assurance*

We believe that we are a quality focused company. Our Company has been accredited with ISO 45001: 2018, ISO 9001: 2015 & ISO 14001: 2015 certifying Design, Development, Manufacture, Supply, Marketing, Sales and Service of all types of valves, Control Valves, Actuators, Strainers, Fluid Control and Management Systems and related Accessories, certified by TUV Austria CERT auditing and certification, which has a wider global recognition. Our Company has a culture of the above quality systems, which is not only visible throughout the entire organisation, but also verified through periodic customer audits, TUV re-certification and surveillance audits, and also quarterly internal quality audits.

4. *Our Product Portfolio*

Our product mix has evolved over the past several years as we have entered into new product categories. We continuously develop products to meet new demands and by controlling the complete supply chain from assembling, testing to delivery and commissioning, we are able to offer quality and cost effective solutions with shorter lead time. We also arrange to supply tailor made products to meet specific requirements of the customers. We trust that maintaining a variety of products in our business provides us with an opportunity to cater to diverse needs of different customer segment.

OUR STRATEGIES

1. *Enter into manufacturing segment*

Our company intends to expand its business operations by entering into segment of manufacturing of valves, actuators, remote control system, control cabinets, tanks, visualization system, piping, pumps, fittings, gaskets, flanges and measurement devices. We are currently engaged in the business of supplying of valves, actuators, Strainers and remote-control valves systems to the industries both in domestic and international markets. Internationally we supply products in countries such as Germany, South Korea, Oman, Russia, Sweden, United Arab Emirates, Sri Lanka, Qatar and Thailand based on sales made for the financial year ended March 31, 2023, 2022 and 2021. For the financial year ended March 31, 2023, 2022 and 2021 our revenue from exports was Rs. 43.82 lakhs, Rs. 108.64 lakhs and Rs. 156.97 lakhs, respectively which contributed 1.20%, 7.71% and 10.24% respectively of our revenue from operations. As a business strategy, we intend to widen our reach by increasing our international presence.

4. Continue to maintain good relationships with our customers

We believe that maintaining good relationships with customers is a most critical factor in our business to keep growing. Through regular interaction with our clients and understanding the client requirements enables us to not only attract new customers but also leads to recurring business with our existing clients. We will continue to focus on timely and accurate delivery of quality services which will help in forging strong relationships with our customers and gaining increased business from them.

5. Brand Image

We would continue to associate ourselves with corporate and quality customers and provide services to their utmost satisfaction. We are highly conscious about our brand image and intend to have our brand building exercise by providing quality services to the satisfaction of the customers.

CAPACITY AND CAPACITY UTILISATION

Capacity and capacity utilization is not applicable to our Company since our business is not in the nature of a manufacturing concern with specified installed capacity.

PRICING

We determine the prices for our products based on various parameters, including market demand, transportation costs, supply costs, inventory levels, credit terms and sometimes it is fixed for particular customer to maintain the relationship. Our sales and marketing team takes into consideration the margins of intermediaries at different stages, in accordance with market practice, and applicable taxes to arrive at the list price of our offerings.

UTILITIES

Our registered office is situated at Goa. The office is equipped with computer systems, internet connectivity and other communication equipment and other facilities required for our business operations to function smoothly. Further the assembly unit is well equipped with requisite utilities and facilities including the following:

Power

Our assembly unit requires uninterrupted supply of Electric & Power. Our power requirements are met through Electricity Department, Maharashtra State Electricity Distribution Co. Ltd. To meet exigencies in case of power failure, we have also installed D.G. sets at our assembly units.

Water

To meet drinking and sanitary water requirements at our registered office and assembly unit, we utilise water supply from local authorities.

CUSTOMERS, SALES AND MARKETING

Our business operations and products primarily cater to the various customers based mainly out of the pump and valve industry. Our marketing activities include, but are not limited to working with existing customers to expand into existing products and also get into new product lines.

The efficiency of the marketing network is critical to the success of our Company. Our success lies in the strength of our relationship with our customers who have been associated with our Company. Our team through their vast experience owing to timely and quality delivery of services plays an instrumental role in creating and expanding a work platform for our Company. We have in-house team which looks after the sales and marketing of our products. Our in-house team work closely with our existing and prospective customers to understand their technical needs and specifications, evolving

preferences and meet their requirements. We also participate in various exhibitions for marine, oil and gas and power exhibition in India as a part of our marketing strategy.

INVENTORY AND DATA MANAGEMENT

Our products are mainly stored on-site at our assembly unit. We maintain a quantity of products that is determined based on a combination of confirmed and expected orders. In some cases, according to customer demand we hold strategic stock, so our lead times can be reduced according to a stocking policy with customers to ensure better supply chain management.

LOGISTICS

Our suppliers directly deliver our products to our assembly unit. We outsource the delivery of our products to either third-party logistics companies or as mutually agreed shipment terms as decided between the customer and Company.

COMPETITION

We operate in a competitive atmosphere. Some of our competitors may have greater resources than those available to us. While product quality, brand value, distribution network, etc are key factors in client decisions among competitors, however, reliability and competitive pricing is the deciding factor in most cases. We face fair competition from both organized and unorganized players in the market.

We believe that our experience, and reliability record with our customers will be key to overcome competition posed by such organized and unorganized players. Although, a competitive market, there are not enough number of competitors offering services similar to us. We believe that we are able to compete effectively in the market with our quality of services and our reputation. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the relative quality and price of the services.

INFORMATION TECHNOLOGY

We believe that an appropriate information technology infrastructure is important in order to support the growth of our business. Our IT infrastructure enables us to track procurement of our products, supply of products, payments to vendors and receivables from customers. We are using ERP Software for Inventory Management and Data Management Software with Cloud base Server for Data Storage and Data Safety.

QUALITY CONTROL

Our business demand critical control over our quality system. Our Company has installed quality management systems in house, accredited with ISO 45001: 2018, ISO 9001: 2015 & ISO 14001: 2015, for the purpose of Design, Development, Manufacture, Supply, Marketing, Sales and Service of all types of valves, Control Valves, Actuators, Strainers, Fluid Control and Management Systems and related Accessories, certified by TUV Austria CERT auditing and certification, which has wider global recognition.

ENVIRONMENT, HEALTH & SAFETY

We continue to ensure compliance with applicable health and safety regulations and other requirements in our operations. We have complied, and will continue to comply, with all applicable environmental and associated laws, rules and regulations. We have obtained, or are in the process of obtaining or renewing, all material environmental consents and licenses from the relevant governmental agencies that are necessary for us to carry on our business. For further information, see “Key Industry Regulations and Policies” beginning on page 119. and “Government and Other Statutory Approvals” beginning on page 177.

INSURANCE

Our operations are subject to various risks inherent in our industry. We have obtained insurance in order to manage the risk of losses from potentially harmful events. We believe that our insurance coverage is in accordance with industry custom, including the terms of and the coverage provided by such insurance. Our policies are subject to standard limitations. Therefore, insurance might not necessarily cover all losses incurred by us and we cannot provide any assurance that we will not incur losses or suffer claims beyond the limits of, or outside the relevant coverage of, our insurance policies.

GENERAL CORPORATE COMPLIANCE

Companies Act, 2013 (the “Companies Act”)

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of President of India on 29th August 2013.

The Companies Act deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act, 2013. The procedure related to appointment of Directors. The procedure relating to winding up, voluntary winding up, appointment of liquidator also forms part of the Act.

Further, Schedule V (read with sections 196 and 197), Part I lays down the conditions to be fulfilled for the appointment of a managing or whole-time director or manager. It provides the list of Acts under which if a person is prosecuted, he cannot be appointed as the director or Managing Director or Manager of a Company. The provisions relating to remuneration of the directors payable by the companies is under Part II of the said schedule.

The Registration Act, 1908 (the “Registration Act”)

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

EMPLOYMENT AND LABOUR LAWS

The Code on Wages, 2019 (the “Code”)

The Code received the assent of the President of India on August 8, 2019. The Code is yet to be notified by the Central Government. The Code will replace the four existing ancient laws namely (i) the Payment of Wages Act, 1936, (ii) the Minimum Wages Act, 1948, (iii) the Payment of Bonus Act, 1965, and (iv) the Equal Remuneration Act, 1976. The Code will apply to all employees and allows the Central Government to set a minimum statutory wage.

The four existing laws are as follows:

- **The Payment of Wages Act, 1936**

Payment of Wages Act, 1936, as amended, Payment of Wages (Amendment) Act, 2017 is aimed at regulating the payment of wages to certain classes of persons employed in certain specified industries and to ensure a speedy and effective remedy for them against illegal deductions or unjustified delay caused in paying wages to them. The Act confers on the person(s)

responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

- **The Minimum Wages Act, 1948**

The Minimum Wages Act, 1948 came into force with an objective to provide for the fixation of a minimum wage payable by the employer to the employee. Every employer is mandated to pay the minimum wages to all employees engaged to do any work skilled, unskilled, and manual or clerical (including out-workers) in any employment listed in the schedule to this Act, in respect of which minimum rates of wages have been fixed or revised under the Act.

- **The Payment of Bonus Act, 1965 (the “PoB Act”)**

The PoB Act provides for payment of minimum bonus to factory employees and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due.

- **The Equal Remuneration Act, 1976**

The Equal Remuneration Act 1979 provides for payment of equal remuneration to men and women workers and for prevention discrimination, on the ground of sex, against female employees in the matters of employment and for matters connected therewith. The Act was enacted with the aim of state to provide Equal Pay and Equal Work as envisaged under Article 39 of the Constitution.

Factories Act, 1948 (the “Factories Act”)

The Factories Act, 1948, as amended, defines a “factory” to cover any premises which employs 10 or more workers on any day of the preceding 12 months and in which a manufacturing process is carried on with the aid of power or any premises where at least 20 workers are employed, and where a manufacturing process is carried on without the aid of power. Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration/licensing thereof. The Factories Act provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of the provisions of the Factories Act.

Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 (“the EPF Act”) and the Employees’ Provident Fund Scheme, 1952

The EPF Act is applicable to an establishment employing more than 20 employees and as notified by the government from time to time. All the establishments under the EPF Act are required to be registered with the appropriate Provident Fund Commissioner. Also, in accordance with the provisions of the EPF Act, the employers are required to contribute to the employees’ provident fund the prescribed percentage of the basic wages, dearness allowances and remaining allowance (if any) payable to the employees. The employee shall also be required to make the equal contribution to the fund. The Central Government under Section 5 of the EPF Act (as mentioned above) frames Employees Provident Scheme, 1952.

Employees’ Deposit Linked Insurance Scheme, 1976

The scheme shall be administered by the Central Board constituted under section 6C of the EPF Act. The provisions relating to recovery of damages for default in payment of contribution with the percentage of damages are laid down under Section 8A of the Act. The employer falling under the scheme shall send to the Commissioner within fifteen days of the close of each month a return in the prescribed form. The register and other records shall be produced by every employer to Commissioner or other officer so authorized shall be produced for inspection from time to time. The amount received as the employer’s contribution and also Central Government’s contribution to the insurance fund shall be credited to an account called as “Deposit-Linked Insurance Fund Account.”

The Employees’ Pension Scheme, 1995

Family pension in relation to this Act means the regular monthly amount payable to a person belonging to the family of the member of the Family Pension Fund in the event of his death during the period of reckonable service. The scheme shall apply to all the employees who become a member of the EPF or PF of the factories provided that the age of the employee should not be more than 59 years in order to be eligible for membership under this Act. Every employee who is member of EPF or PF has an option of the joining the scheme. The employer shall prepare a Family Pension Fund contribution card in respect of the all the employees who are members of the fund.

Employees’ State Insurance Act, 1948 (the “ESI Act”)

It is an Act to provide for certain benefits to employees in case of sickness, maternity and 'employment injury' and to make provision for certain other matters in relation thereto. It shall apply to all factories (including factories belonging to the Government) other than seasonal factories. The ESI Act requires all the employees of the establishments to which this Act applies to be insured in the manner provided there under. Employer and employees both are required to make contribution to the fund. The return of the contribution made is required to be filed with the Employee State Insurance department.

The Employees' Compensation Act, 1923 (the "Employees' Act")

The Employees' Compensation Act, 1923 provides for payment of compensation to injured employees or workmen by certain classes of employers for personal injuries caused due to an accident arising out of and during the course of employment. Under the Employees' Act, the amount of compensation to be paid depends on the nature and severity of the injury. The Employees' Act also lays down the duties/obligations of an employer and penalties in cases of non-fulfilment of such obligations thereof. There are separate methods of calculation or estimation of compensation for injury sustained by the employee. The employer is required to submit to the Commissioner for Employees' Compensation a report regarding any fatal or serious bodily injury suffered by an employee within seven days of death/serious bodily injury.

Equal Remuneration Act, 1976 (the "Remuneration Act")

The Equal Remuneration Act, 1976 aims to provide for the payment of equal remuneration to men and women workers and for the prevention of discrimination, on the ground of sex, against women in the matter of employment and for matters connected therewith or incidental thereto. According to the Remuneration Act, no employer shall pay to any worker, employed by him/her in an establishment, a remuneration (whether payable in cash or in kind) at rates less favourable than those at which remuneration is paid by him to the workers of the opposite sex in such establishment for performing the same work or work of a similar nature. In addition, no employer shall for complying with the foregoing provisions of the Remuneration Act, reduce the rate of remuneration of any worker. No employer shall, while making recruitment for the same work or work of a similar nature, or in any condition of service subsequent to recruitment such as promotions, training or transfer, make any discrimination against women except where the employment of women in such work is prohibited or restricted by or under any law for the time being in force.

Industrial Disputes Act, 1947 (the "ID Act")

The Industrial Disputes Act, 1947 provides the procedure for investigation and settlement of industrial disputes. When a dispute exists or is apprehended, the appropriate Government may refer the dispute to a labour court, tribunal, or arbitrator, to prevent the occurrence or continuance of the dispute, or a strike or lock-out while a proceeding is pending. The labour courts and tribunals may grant appropriate relief including ordering modification of contracts of employment or reinstatement of workers. The ID Act further provides for direct access for the workers to labour courts or tribunals in case of individual disputes and provided for the constitution of grievance settlement machineries in any establishment having twenty or more workers.

Payment of Gratuity Act, 1972 (the "Act")

The Act shall apply to every factory, mine plantation, port and railway company; to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; such other establishments or class of establishments, in which ten or more employees are employed, on any day of the preceding twelve months, as the Central Government, may by notification, specify in this behalf. A shop or establishment to which this Act has become applicable shall be continued to be governed by this Act irrespective of the number of persons falling below ten at any day. The gratuity shall be payable to an employee on termination of his employment after he has rendered continuous service of not less than five years on superannuation or his retirement or resignation or death or disablement due to accident or disease. The five-year period shall be relaxed in case of termination of service due to death or disablement.

Maternity Benefit Act, 1961 (the "Act")

The Act provides for leave and right to payment of maternity benefits to women employees in case of confinement or miscarriage etc. The Act is applicable to every establishment which is a factory, mine or plantation including any such establishment belonging to government and to every establishment of equestrian, acrobatic and other performances, to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the state government may, with the approval of the Central Government, after giving at least two months' notice shall apply any of the provisions of this Act to establishments or class of establishments, industrial, commercial, agricultural or otherwise.

Trade Unions Act, 1926 (the “Act”)

Provisions of the Trade Union Act, 1926 provides that any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment, or non-employment, or the terms of employment or the conditions of labour, of any person shall be treated as trade dispute. For every trade dispute a trade union has to be formed. For the purpose of Trade Union Act, 1926, Trade Union means combination, whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, or for imposing restrictive condition on the conduct of any trade or business etc.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (the “Act”)

In order to curb the rise in sexual harassment of women at workplace, this Act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms sexual harassment and workplace are both defined in the Act. Every employer should also constitute an “Internal Complaints Committee” and every officer and member of the company shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organizing awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Child Labour (Prohibition and Regulation) Act, 1986 (the “CLPR Act”)

The “CLPR Act seeks to prohibit the engagement of children in certain employments and to regulate the conditions of work of children in certain other employments. Part B of the Schedule to the CLPR Act strictly prohibits employment of children in cloth printing, dyeing and weaving processes and cotton ginning and processing and production of hosiery goods.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020 and proposes to subsume certain existing legislations, including the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 and the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996. The provisions of this code are to be notified by the Central Government. The Central Government has issued the draft rules under the Occupational Safety, Health and Working Conditions Code, 2020. The draft rules provide for operationalization of provisions in the Occupational Safety, Health and Working Conditions Code, 2020 relating to safety, health and working conditions of the dock workers, building or other construction workers, mines workers, inter-state migrant workers, contract labour, journalists, audio-visual workers and sales promotion employees.

The Code on Social Security, 2020

The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume certain existing legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganized Workers' Social Security Act, 2008. The provisions of this code will be brought into force on a date to be notified by the Central Government. The Central Government has issued the draft rules under the Code on Social Security, 2020. The draft rules provide for operationalization of provisions in the Code on Social Security, 2020 relating to employees' provident fund, employees' state insurance corporation, gratuity, maternity benefit, social security and cess in respect of building and other construction workers, social security for unorganized workers, gig workers and platform workers.

INTELLECTUAL PROPERTY LAWS

Certain laws relating to intellectual property rights such as copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999 are also applicable to us. The Trade Marks Act, 1999 (the “Trade Marks Act”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the Trade Marks Act is to grant exclusive rights to marks such as a brand, label and heading, and to obtain relief

in case of infringement. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

TAX RELATED LEGISLATIONS

Income Tax Act, 1961 (the "IT Act")

The IT Act is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of the IT Act or Rules made thereunder depending upon its Residential Status and Type of Income involved. The IT Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every Company assessable to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns by September 30 of each assessment year.

Central Goods and Services Tax Act, 2017 (the "GST Act")

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state is levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

ANTI-TRUST LAWS

Competition Act, 2002 (the "Act")

The Act is to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect interest of consumer and to ensure freedom of trade in India. The Act deals with prohibition of anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Act.

GENERAL LAWS

Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Negotiable Instrument Act 1881, Employment Exchanges (Compulsory Notification Of Vacancies) Act, 1959, Consumer Protection Act 2019, Indian Contract Act, 1872, Transfer of Property Act, 1882, Information Technology Act, 2000 etc.

OTHER LAWS:

Foreign Exchange Management Act, 1999 ("FEMA")

FEMA was enacted by the Government of India to replace the erstwhile Foreign Exchange Regulation Act, 1973 ("FERA"). The Act was aimed at consolidating and amending the law relating to foreign exchange with the objective of facilitating external trade and payments and for promoting the orderly development and maintenance of foreign exchange market in India. FEMA has removed restrictions on trade in goods and services to and from India, except for the enabling provision for the Central Government to impose reasonable restrictions in the interest of public when required.

Foreign Trade (Development and Regulation) Act, 1992 (the "Act")

The Act regulates and governs the foreign policy of India in relation to trade of goods and services. The Act was enacted in the year 1992 as a replacement of the Import and Exports (Control) Act, 1947. The objective of the Act was to provide for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. Through the Foreign Trade (Development and Regulation) Amendment Act of 2010, "services" was also included in the ambit of import and export of trade in the purview of the Act.

Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”), has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DPIIT that were in force.

ANNEXURE-4

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE RESTATED FINANCIAL STATEMENTS

A. BACKGROUND

The Company was originally incorporated as a Private Limited Company in the name Meson Valves India Private Limited domiciled in India under the provisions of the Companies Act, 1956 and now governed by Provisions of Companies Act 2013. Subsequently, the company was converted from a Private Limited Company to Public Limited Company and the name of the company was changed to “Meson Valves India Limited” having Company Incorporation No. (CIN) U29299GA2016PLC01297 the Company was incorporated in 2016 and is engaged in manufacturing of special purpose machinery.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Statement of Assets and Liabilities of the Company as on March 31, 2023, March 31, 2022 and March 31, 2021, and the Restated Statement of Profit and Loss and Restated Statements of Cash Flows for the year ended on March 31, 2023, March 31, 2022 and March 31, 2021 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Audited Financial Statements of the Company for the year ended March 31, 2023, March 31, 2022 and March 31, 2021.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2014 as per section 133 of the Companies Act, 2013.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles (‘GAAP’) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements, and the reported amount of revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management’s evaluation of the relevant facts and circumstances as of the date of the financial statements which in management’s opinion are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in current and future periods.

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation is provided on a straight line basis over the useful lives of assets, which is as stated in Schedule II of the Companies Act 2013 or based on technical estimation made by the Company.

Depreciation and amortization methods, useful lives and residual values are reviewed at each reporting date.

5. BORROWING COSTS

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred. Capitalization of borrowing costs is suspended during the extended period in which active development is interrupted. Capitalization of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Other borrowing costs are charged to statement of profit and loss as and when incurred.

6. IMPAIRMENT OF ASSETS

In accordance with AS 28 on 'Impairment of assets' as prescribed in the Companies (Accounting Standards) Rules, 2006, the Company assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss or against revaluation surplus, where applicable. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciated historical cost.

7. INVENTORIES

Raw materials, stores and spares and trading goods are valued at lower of cost and net realizable value.

Finished goods and Stock in Trade are valued at the lower of cost and net realizable value. Cost includes direct materials and labour and a part of manufacturing overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Cost comprises of cost of Purchase & other costs incurred in bringing them to their respective present location and condition and are determined on First-in-First-Out (FIFO) basis.

8. CURRENT/NON CURRENT CLASSIFICATIONS

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the balance sheet date; or
- d) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the balance sheet date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the balance sheet date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

9. REVENUE RECOGNITION

- i) Revenue from sale of goods is recognizing when the significant risks and rewards of ownership have been transferred to the buyer. Revenue from sale of goods is net of sales tax, trade discounts, rebates etc.
- ii) Service income is recognized as and when services are rendered in accordance with the terms of the specific contracts, net of all contractual deductions. Revenue is recognized net of all taxes and levies.
- iii) Interest income is recognized on a time proportion basis.

10. EMPLOYEE BENEFITS

Short Term Employee Benefits

The short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits

Defined Contribution Plans

The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is made.

Defined Benefits Plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

11. ACCOUNTING FOR TAXES ON INCOME

Current Tax

Current tax is determined as the amount of tax payable under the provisions of Income Tax Act, 1961, in respect of taxable income for the year.

Deferred Tax

Deferred income taxes reflect the impact of current year timing difference between taxable income and accounting income for the year and reversal of timing difference of earlier year. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

12. CONTINGENT LIABILITIES AND PROVISIONS

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

13. EARNINGS PER SHARE:

Basic earnings per share are computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

14. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

15. FOREIGN CURRENCY TRANSLATION

INITIAL RECOGNITION

Transactions in foreign currency entered during the year are recorded at the exchange rates prevailing on the date of the transaction.

CONVERSION

Monetary assets and liabilities dominated in foreign currency are translated into rupees at exchange rate prevailing on the date of Balance Sheet.

EXCHANGE DIFFERENCE

Exchange differences in respect of borrowing costs are adjusted with inventories.

C. NOTES TO THE RESTATED FINANCIAL STATEMENTS

1. NON-ADJUSTMENT ITEMS:

No Audit qualifications for the respective periods which require any corrective adjustment in these Restated Financial Statements of the Company have been pointed out during the restated period.

2. MATERIAL REGROUPING

The Company was originally incorporated as a Private Limited Company in the name Meson Valves India Private Limited domiciled in India under the provisions of the Companies Act, 1956 and now governed by Provisions of Companies Act 2013. Subsequently, the company was converted from a Private Limited Company to Public Limited Company and the name of the company was changed to “Meson Valves India Limited” having Company Incorporation No. (CIN) U29299GA2016PLC01297 the Company was incorporated in 2016 and is engaged in manufacturing of special purpose machinery.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Statement of Assets and Liabilities of the Company as on March 31, 2023, March 31, 2022 and March 31, 2021, and the Restated Statement of Profit and Loss and Restated Statements of Cash Flows for the year ended on March 31, 2023, March 31, 2022 and March 31, 2021 and the annexure thereto (collectively, the “Restated Financial Statements” or “Restated Summary Statements”) have been extracted by the management from the Audited Financial Statements of the Company for the year ended March 31, 2023, March 31, 2022 and March 31, 2021.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India

(Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2014 as per section 133 of the Companies Act, 2013.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements, and the reported amount of revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements which in management's opinion are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in current and future periods.

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation is provided on a straight line basis over the useful lives of assets, which is as stated in Schedule II of the Companies Act 2013 or based on technical estimation made by the Company.

Depreciation and amortization methods, useful lives and residual values are reviewed at each reporting date.

5. BORROWING COSTS

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred. Capitalization of borrowing costs is suspended during the extended period in which active development is interrupted. Capitalization of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Other borrowing costs are charged to statement of profit and loss as and when incurred.

6. IMPAIRMENT OF ASSETS

In accordance with AS 28 on 'Impairment of assets' as prescribed in the Companies (Accounting Standards) Rules, 2006, the Company assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss or against revaluation surplus, where applicable. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciated historical cost.

7. INVENTORIES

Raw materials, stores and spares and trading goods are valued at lower of cost and net realizable value.

Finished goods and Stock in Trade are valued at the lower of cost and net realizable value. Cost includes direct materials and labour and a part of manufacturing overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Cost comprises of cost of Purchase & other costs incurred in bringing them to their respective present location and condition and are determined on First-in-First-Out (FIFO) basis.

8. CURRENT/NON CURRENT CLASSIFICATIONS

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the balance sheet date; or
- d) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the balance sheet date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current. A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the balance sheet date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

9. REVENUE RECOGNITION

- i) Revenue from sale of goods is recognizing when the significant risks and rewards of ownership have been transferred to the buyer. Revenue from sale of goods is net of sales tax, trade discounts, rebates etc.
- ii) Service income is recognized as and when services are rendered in accordance with the terms of the specific contracts, net of all contractual deductions. Revenue is recognized net of all taxes and levies.
- iii) Interest income is recognized on a time proportion basis.

10. EMPLOYEE BENEFITS

Short Term Employee Benefits

The short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits

Defined Contribution Plans

The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is made.

Defined Benefits Plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

11. ACCOUNTING FOR TAXES ON INCOME

Current Tax

Current tax is determined as the amount of tax payable under the provisions of Income Tax Act, 1961, in respect of taxable income for the year.

Deferred Tax

Deferred income taxes reflect the impact of current year timing difference between taxable income and accounting income for the year and reversal of timing difference of earlier year. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

12. CONTINGENT LIABILITIES AND PROVISIONS

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

13. EARNINGS PER SHARE:

Basic earnings per share are computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

14. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

15. FOREIGN CURRENCY TRANSLATION

INITIAL RECOGNITION

Transactions in foreign currency entered during the year are recorded at the exchange rates prevailing on the date of the transaction.

CONVERSION

Monetary assets and liabilities dominated in foreign currency are translated into rupees at exchange rate prevailing on the date of Balance Sheet.

EXCHANGE DIFFERENCE

Exchange differences in respect of borrowing costs are adjusted with inventories.

B. NOTES TO THE RESTATED FINANCIAL STATEMENTS

Status of any publicly announced new products or business segments

Please refer to the chapter titled “*Our Business*” beginning on page 106 of this Draft Prospectus for new products or business segments.

The extent to which the business is seasonal

Our business is not seasonal in nature.

Competitive Conditions

We operate in a competitive atmosphere. Some of our competitors may have greater resources than those available to us. While product quality, brand value, distribution network, etc are key factors in client decisions among competitors, however, reliability and competitive pricing is the deciding factor in most cases. We face fair competition from both organized and unorganized players in the market.

We believe that our experience, and reliability record with our customers will be key to overcome competition posed by such organized and unorganized players. Although, a competitive market, there are not enough number of competitors offering services similar to us. We believe that we are able to compete effectively in the market with our quality of services and our reputation. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the relative quality and price of the services

SEBI FURTHER RESERVES THE RIGHT TO TAKE UP AT ANY POINT OF TIME, WITH THE LEAD MANAGER ANY IRREGULARITIES OR LAPSES IN THIS ISSUE DOCUMENT.

Note: All legal requirements pertaining to the Issue will be complied with at the time of registration of this Prospectus with the RoC in terms of section 26 of the Companies Act, 2013.

DISCLAIMER FROM OUR COMPANY AND THE LEAD MANAGER

Our Company and the Lead Manager accept no responsibility for statements made otherwise than in this Draft Prospectus or in the advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, including our Company's website, www.mvi.ltd, or the website of any affiliate of our Company, would be doing so at his or her own risk.

The Lead Manager accept no responsibility, save to the limited extent as provided in the Issue Agreement and the Underwriting Agreement to be entered into between the Underwriter and our Company and Market Maker Agreement entered into among Market Maker and our Company.

All information shall be made available by our Company and the Lead Manager to the public and investors at large and no selective or additional information would be available for a section of the investors in any manner whatsoever including at road show presentations, in research or sales reports or at collection centres etc.

The Lead Manager and its associates and affiliates may engage in transactions with and perform services for, our Company and associates of our Company in the ordinary course of business and may in future engage in the provision of services for which they may in future receive compensation. Shreni Shares Limited (Formerly known as Shreni Shares Private Limited) is not an associate of the Company and is eligible to be appointed as the Lead Manager in this Issue, under SEBI MB Regulations.

Investors who apply in this Issue will be required to confirm and will be deemed to have represented to our Company and the Underwriter and their respective directors, officers, agents, affiliates and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares and will not issue, sell, pledge or transfer the Equity Shares to any person who is not eligible under applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares. Our Company and the Lead Manager and their respective directors, officers, agents, affiliates and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares.

Neither our Company nor Lead Manager is liable for any failure in (i) uploading the Applications due to faults in any software/ hardware system or otherwise, or (ii) the blocking of the Application Amount in the ASBA Account on receipt of instructions from the Sponsor Bank on the account of any errors, omissions or non-compliance by various parties involved, or any other fault, malfunctioning, breakdown or otherwise, in the UPI Mechanism.

DISCLAIMER IN RESPECT OF JURISDICTION

This Issue is being made in India to persons resident in India including Indian nationals resident in India (who are not minors, except through their legal guardian), Hindu Undivided Families (HUFs), companies, corporate bodies and societies registered under the applicable laws in India and authorized to invest in shares, Mutual Funds, Indian financial institutions, commercial banks, regional rural banks, co-operative banks (subject to RBI permission), Trusts registered under the Societies Registration Act, 1860, as amended from time to time, or any other trust law and who are authorised under their constitution to hold and invest in shares, permitted insurance companies and pension funds and to non-residents including NRIs and FIIs. This Draft Prospectus does not, however, constitute an offer to sell or an invitation to subscribe to Equity Shares offered hereby in any other jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession the Draft Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Any dispute arising out of this Issue will be subject to the jurisdiction of appropriate court(s) in Mumbai only.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. Accordingly, the Equity Shares represented thereby may not be issued or sold, directly or indirectly, and the Draft Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of the Draft Prospectus nor any sale hereunder shall, under any circumstances, create any implication that there has been any change in the affairs of our Company since the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Eligibility and Transfer Restrictions

The Equity Shares offered in the Issue have not been, and will not be, registered under the U.S. Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and accordingly, the Equity Shares are being offered and sold (i) within the United States solely to persons who are reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act) in transactions exempt from the registration requirements of the U.S. Securities Act,

and (ii) outside the United States in “offshore transactions” as defined in and in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been, and will not be, registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Applicants are advised to ensure that any application from them does not exceed investment limits or maximum number of Equity Shares that can be held by them under applicable law.

DISCLAIMER CLAUSE OF THE BSE

Trading of the Equity Shares will happen in the minimum contract size of 1,200 Equity Shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012 and the same may be modified by BSE SME from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Issue will be done in multiples of 1,200 Equity Share subject to a minimum allotment of 1,200 Equity Shares to the successful Applicants.

Further, in accordance with SEBI ICDR Regulations the minimum application size in terms of number of specified securities shall not be less than ₹1.00 Lakh per application.

JOINT HOLDERS

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

JURISDICTION

The courts of Mumbai, Maharashtra, India will have exclusive jurisdiction in relation to this Issue.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 (1) & 72 (2) of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 (3) of the Companies Act, 2013, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in accordance to Section 72 (4) of the Companies Act, 2013, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Articles of Association of the Company, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

1. to register himself or herself as the holder of the Equity Shares; or
2. to make such transfer of the Equity Shares, as the deceased holder could have made

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Applicant would prevail. If the Applicant wants to change the nomination, they are requested to inform their respective Depository Participant.

OPTION TO RECEIVE EQUITY SHARES IN DEMATERIALIZED FORM

Allotment of Equity Shares to successful Applicants will only be in the dematerialized form. Applicants will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchange.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the Lead Manager, reserve the right to not to proceed with the Issue after the Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-issue advertisements were published, within two (2) days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Lead Manager through, the Registrar to the Issue, shall notify the SCSBs or the Sponsor Bank to unblock the bank accounts of the ASBA Applicants within one (1) working day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchange on which Equity Shares are proposed to be listed. If the Issue is withdrawn after the designated Date, amounts that have been credited to the Public Issue Account shall be transferred to the Refund Account.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final ROC approval of the Prospectus after it is filed with the ROC. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an Issue, our Company shall file a fresh Prospectus.

ISSUE PROGRAM

An indicative timetable in respect of the Issue is set out below:

Issue Opens on	[●]
Issue Closes on	[●]
Finalization of Basis of Allotment with the Designated Stock Exchange	On or before [●]
Initiation of Refunds / unblocking of funds from ASBA Account*	On or before [●]
Credit of Equity Shares to demat account of the Allottees	On or before [●]
Commencement of trading of the Equity Shares on the Stock Exchanges	On or before [●]

1. Our Company shall, in consultation with the Lead Manager, consider closing the Issue Period for QIBs, one Working Day prior to the Issue Closing Date in accordance with the SEBI ICDR Regulations.
2. UPI mandate end time and date shall be at 5.00 p.m. on Issue Closing Date.

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Issue Closing Date, the applicant shall be compensated in accordance with applicable law. Further, investors shall be entitled to compensation in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

The above timetable is indicative and does not constitute any obligation or liability on our Company or the Lead Manager.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Issue Closing Date or such other time as may be prescribed by SEBI, the timetable may change due to various factors, such as extension of the Issue Period by our Company in consultation with the Lead Manager, or any delays in receiving the final listing and trading approval from the Stock Exchange or delay in receipt of final certificates from

SCSBs, etc. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Applications and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m.** (IST) during the Issue Period (except for the Issue Closing Date). On the Issue Closing Date, the Applications and any revision to the same shall be accepted between **10.00 a.m. and 3.00 p.m.** (IST) or such extended time as permitted by the Stock Exchanges, in case of Applications by Retail Individual Investors after taking into account the total number of applications received up to the closure of timings and reported by the Lead Manager to the Stock Exchanges. It is clarified that Applications not uploaded on the electronic system would be rejected. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Applications on the Issue Closing Date, the Applicants are advised to submit their applications one day prior to the Issue Closing Date and, in any case, no later than 3.00 p.m. (IST) on the Issue Closing Date. All times mentioned in this Draft Prospectus are Indian Standard Times. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, as is typically experienced in public offerings, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on Business Days. Neither our Company nor the Lead Manager is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise.

In terms of the UPI Circulars, in relation to the Issue, the Lead Manager will submit reports of compliance with T+6 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it. In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding Four (4) Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹100/- per day for the entire duration of delay exceeding Four (4) Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The Lead Manager shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. SEBI is in the process of streamlining and reducing the post issue timeline for IPOs. Any circulars or notifications from SEBI after the date of this Prospectus may result in changes to the above-mentioned timelines. Further, the issue procedure is subject to change basis any revised SEBI circulars to this effect.

In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) for cancelled/ withdrawn/ deleted ASBA Forms, the Applicant shall be compensated at a uniform rate of ₹ 100/- per day or 15% per annum of the Application Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchange Applying platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Applicant shall be compensated at a uniform rate ₹ 100/- per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Application Amount, the Applicant shall be compensated at a uniform rate of ₹ 100/- per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Application, exceeding four Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹ 100/- per day or 15% per annum of the Application Amount, whichever is higher for the entire duration of delay exceeding four Working Days from the Issue Closing Date by the SCSB responsible for causing such delay in unblocking. The post issue LM shall be liable for compensating the Applicant at a uniform rate of ₹100/- per day or 15% per annum of the Application Amount, whichever is higher from the date of receipt of the Investor grievance until the date on which the blocked amounts are unblocked. For the avoidance of doubt, the provisions of the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs to the extent applicable. SEBI is in the process of streamlining and reducing the post issue timeline for IPOs. Any further notification from the SEBI after filing of this Prospectus may result in changes in the timelines.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Issue closure time from the Issue Opening Date till the Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the Working Day.

It is clarified that applications not uploaded on the electronic bidding system or in respect of which the full application Amount is not blocked by SCSBs or under the UPI Mechanism, as the case may be, would be rejected.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the (Issue) period disclosed in the Prospectus, for a minimum period of three (3) working days, subject to the Issue Period not exceeding ten (10) working days.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Applications Amount) at any stage. Retail Individual Investors can revise or withdraw their Applications prior to the Issue Closing Date. Except Allocation to Retail Individual Investors, Allocation in the Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic Application Form, for a particular Applicant, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSB or the member of the Syndicate for rectified data.

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten per Regulation 260(1) of SEBI ICDR Regulations.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the Issue through the Issue Document including devolvement of Underwriters, our Company shall forthwith refund the entire subscription amount received within 15 days from the closure of the issue, if there is a delay beyond such time, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest as prescribed under the SEBI ICDR Regulations, the Companies Act, 2013 and applicable laws.

The minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than fifty (50), no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within four (4) working days of closure of Issue.

In accordance with Regulation 260 (1) of the SEBI ICDR Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the Issue through this Draft Prospectus and shall not be restricted to the minimum subscription level. Further, in accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than ₹ 1,00,000 (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the application law of such jurisdiction.

ARRANGEMENTS FOR DISPOSAL OF ODD LOTS

The trading of the Equity Shares will happen in the minimum contract size of 1,200 shares in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the BSE SME.

RESTRICTIONS, IF ANY ON TRANSFER AND TRANSMISSION OF EQUITY SHARES

Except for the lock-in of the pre- issue capital of our Company as provided in “*Capital Structure*” beginning on page 54 of this Draft Prospectus and except as provided in our Articles of Association there are no restrictions on transfer of Equity Shares. Further, there are no restrictions on the transmission of shares/debentures and on their consolidation/splitting, except as provided in the Articles of Association. For details, see “*Main Provisions of the Articles of Association*” beginning on page 222 of this Draft Prospectus.

NEW FINANCIAL INSTRUMENTS

As on the date of this Draft Prospectus, there are no outstanding warrants, new financial instruments or any rights, which would entitle the shareholders of our Company, including our Promoter, to acquire or receive any Equity Shares after the Issue. Further, our Company is not issuing any new financial instruments through this Issue.

AS PER THE EXTENT GUIDELINES OF THE GOVERNMENT OF INDIA, OCBS CANNOT PARTICIPATE IN THIS ISSUE

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors. The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

MIGRATION TO MAIN BOARD

In accordance with the BSE Circular dated November 26, 2012, our Company will have to be mandatorily listed and traded on the BSE SME for a minimum period of two years from the date of listing and only after that it can migrate to the Main Board of the BSE as per the guidelines specified by SEBI and as per the procedures laid down under Chapter IX of the SEBI ICDR Regulations.

As per the provisions of the Chapter IX of the SEBI ICDR Regulations, our Company may migrate to the mainboard of BSE from the BSE SME on a later date subject to the following:

1. If the paid-up capital of the Company is likely to increase above ₹ 25 crores by virtue of any further offer of capital by way of rights, preferential offer, bonus offer etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the Company has obtained in-principal approval from the main board), we shall have to apply to BSE for listing our shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.
2. If the paid-up capital of the Company is more than ₹ 10 crores but below ₹ 25 crores, we may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoter shareholders in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

MARKET MAKING

The shares offered through this Offer are proposed to be listed on the BSE SME with compulsory market making through the registered Market Maker of the SME Exchange for a minimum period of three years or such other time as may be prescribed by the Stock Exchange, from the date of listing on BSE SME. For further details of the market making arrangement please refer the chapter titled “*General Information*” beginning on page 49 of this Draft Prospectus.

SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, all the ASBA applications in public issues shall be processed only after the application monies are blocked in the investor's bank accounts. Stock Exchange shall accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. The circular shall be applicable for all categories of investors viz. Retail Individual Investors, QIBs, Non-Institutional Investors, and also for all modes through which the applications are processed.

⁽¹⁾ Since present Issue is a fixed price Issue, the allocation in the net Issue to the public category in terms of Regulation 253(2) of the SEBI ICDR Regulations, shall be made as follows:

(a) Minimum fifty per cent to retail individual investors; and

(b) Remaining to:

(i) individual applicants other than retail individual investors; and

(ii) other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;

Provided that the unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

Explanation - For the purpose of sub-regulation (2), if the retail individual investor category is entitled to more than fifty per cent of the Issue size on a proportionate basis, the retail individual investors shall be allocated that higher percentage."

⁽²⁾ In case of joint Applications, the Application Form should contain only the name of the first Applicant whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders.

⁽³⁾ In case of ASBA Applicants, the SCSB shall be authorised to block such funds in the bank account of the ASBA Applicant (including Retail Individual Investors applying through UPI mechanism) that are specified in the Application Form. SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB.

This Issue is being made in terms of Chapter IX of the SEBI ICDR Regulations. For further details, please refer chapter titled "Issue Procedure" beginning on page 199 of this Draft Prospectus.

SEBI vide the UPI Circulars, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. SEBI vide the UPI Circulars, has introduced an alternate payment mechanism using UPI and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI mechanisms for RIIs applying through Designated Intermediaries have been made effective along with the existing process and existing timeline of T+6 days (“UPI Phase I”). The same was applicable until June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Applications by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Applications with existing timeline of T+6 days will continue for a period of three months or launch of five main board public offers, whichever is later (“UPI Phase II”), Further pursuant to SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. However, given the prevailing uncertainty due to the COVID-19 pandemic, SEBI vide its circular no. The final reduced timeline of T+3 days be made effective using the UPI Mechanism for applications by RIIs (“UPI Phase III”), as may be prescribed by SEBI. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on/or after May 01, 2021, except as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, are deemed to form part of the Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual applicants in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism. If the Issue is made under UPI Phase III, the same will be advertised in all editions of the English national daily newspaper, all editions of the Hindi national daily newspaper, regional edition of the regional daily newspaper on or prior to the Issue Opening Date and such advertisement shall also be made available to the Stock Exchange for the purpose of uploading on their website. Subsequently, pursuant to SEBI circular no SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding Four (4) Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding Four (4) Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The LM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the timelines for refund of Application money to four days.

Applicants are advised to make their

independent investigations and ensure that their applications are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Draft Prospectus and the Prospectus.

Further, the Company and the Lead Manager are not liable for any adverse occurrences' consequent to the implementation of the UPI Mechanism for application in this Issue.

Investors must ensure that their PAN is linked with Aadhar and are in compliance with the notification by the Central Board of Direct Taxes dated February 13, 2020 read with press release dated June 25, 2021 and September 17, 2021.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, PAN and UPI ID, for UPI Bidders using the UPI Mechanism, shall be treated as incomplete and will be rejected. However, they may get the Equity Share rematerialized subject to allotment of the equity shares in the Issue, subject to applicable laws.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public Issue of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public Issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 and will continue till June 30, 2019. Under this phase, a Retail Individual Investor would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing would continue to be six working days.

Phase II: This phase commenced on completion of Phase I, i.e., with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public offers, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing would continue to be six working days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public Issue closure to listing is proposed to be reduced to three working days.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful applicants to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post – issue LM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Issue Opening Date. All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI.

Our Company will be required to appoint one or more of the SCSBs as a Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Investors.

The processing fees may be released to the remitter banks (SCSBs) only after an application is made by the SCSBs to the LM with a copy to the Registrar, and such application shall be made only after (i) unblocking of application amounts for

each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB in accordance with April 20, 2022 Circular.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the LM.

FIXED PRICE ISSUE PROCEDURE

The Issue is being made in compliance with the provisions of Chapter IX of SEBI ICDR Regulations through a Fixed Price Process wherein 50% of the Net Issue is allocated for Retail Individual Investors and the balance shall be issued to individual applicants other than Retail Individual Investors and other investors including Corporate Bodies or Institutions, QIBs and Non-Institutional Investors. However, if the aggregate demand from the Retail Individual Investors is less than 50%, then the balance Equity Shares in that portion will be added to the non-retail portion issued to the remaining investors including QIBs and NIIs and vice-versa subject to valid Applications being received from them at or above the Issue Price.

Additionally, if the Retail Individual Investors category is entitled to more than 50% on proportionate basis, the Retail Individual Investors shall be allocated that higher percentage. However, the Application by an Applicant should not exceed the investment limits prescribed under the relevant regulations/statutory guidelines.

Subject to the valid Applications being received at the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for the Retail Portion where Allotment to each Retail Individual Investors shall not be less than the minimum lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under subscription if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the LM and the Stock Exchange.

Investors should note that according to section 29(1) of the Companies Act, 2013, allotment of Equity Shares to all successful Applicants will only be in the dematerialised form. The Application Forms which do not have the details of the Applicant's depository account including DP ID, PAN and Beneficiary Account Number/UPI ID (for UPI applicants using the UPI Mechanism), shall be treated as incomplete and rejected. In case DP ID, Client ID and PAN mentioned in the Application Form and entered into the electronic system of the stock exchanges, do not match with the DP ID, Client ID and PAN available in the depository database, the application is liable to be rejected. Applicants will not have the option of getting allotment of the Equity Shares in physical form. The Equity Shares on allotment shall be traded only in the dematerialised segment of the Stock Exchange.

AVAILABILITY OF DRAFT PROSPECTUS, PROSPECTUS AND APPLICATION FORMS

MAXIMUM AND MINIMUM APPLICATION SIZE

For Retail Individual Investors

The Application must be for a minimum of 1,200 Equity Shares and in multiples of 1,200 Equity Shares thereafter, so as to ensure that the Application Price payable by the Applicant does not exceed ₹2,00,000. In case of revision of Applications, the Retail Individual Investors have to ensure that the Application Price does not exceed ₹2,00,000.

For Other than Retail Individual Investors (Non-Institutional Investors and QIBs)

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹2,00,000 and in multiples of 1,200 Equity Shares thereafter. An application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Investors, who are individuals, have to ensure that the Application Amount is greater than ₹2,00,000 for being considered for allocation in the Non-Institutional Portion.

Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Prospectus.

The above information is given for the benefit of the Applicants. The Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio). For applications where the proportionate allotment works out to less than 1,200 Equity shares the allotment will be made as follows:
 - a) Each successful applicant shall be allotted 1,200 Equity shares; and
 - b) The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
3. If the proportionate allotment to an applicant works out to a number that is not a multiple of 1,200 Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of 1,200 Equity shares subject to a minimum allotment of 1,200 Equity shares.
4. If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1,200 Equity shares, results in the actual allotment being higher than the shares issued, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the issue specified under the Capital Structure mentioned in this Draft Prospectus.
5. The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for small individual applicants as described below:
 - (a) As the retail individual investor category is entitled to more than fifty percent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - (b) The balance net issue of shares to the public shall be made available for allotment to:
 - i. Individual applicants other than retails individual investors; and
 - ii. Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.
 - (c) The unsubscribed portion of the net issue to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.
6. Retail Individual Investors' means an investor who applies for shares of value of not more than ₹2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with Stock Exchange. The Executive Director / Managing Director of Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI ICDR Regulations.

Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

For further details, see "*Restrictions on Foreign Ownership of Indian Securities*" on page 221 of this Draft Prospectus.

APPLICATION BY FPIs AND FIIs

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our post- Issue Equity Share capital. Further, in terms of the FEMA Non-Debt Instruments Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid -up Equity Share capital of our Company and the total holdings of all FPIs put together with effect from April 1, 2020, can be up to the sectoral cap

applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Non -Debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

Additionally, the aggregate foreign portfolio investment up to 49% of the paid -up capital on a fully diluted basis or the sectoral / statutory cap, whichever is lower, does not require Government approval or compliance of sectoral conditions as the case may be, if such investment does not result in transfer of ownership and control of the resident Indian company from resident Indian citizens or transfer of ownership or control to persons resident outside India. Other investments by a person resident outside India will be subject to conditions of Government approval and compliance with sectoral conditions as laid down in these regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for Issue procedure, as prescribed by SEBI from time to time.

A FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognized stock exchange in India, and/ or may purchase or sell securities other than equity instruments FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, inter alia, the following conditions:

- (a) each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

The FPIs who wish to participate in the Issue is advised to use the Application Form for non-residents.

Further, Bids received from FPIs bearing the same PAN will be treated as multiple Applications and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants which were issued in November 2019 to facilitate implementation of SEBI FPI Regulations (such structure "MIM Structure") provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Application Forms that the relevant FPIs making multiple Applications utilize the MIM Structure and indicate the names of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Applications will be rejected.

APPLICATION BY SEBI REGISTERED AIF, VCF AND FVCI

The SEBI VCF Regulations, the SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs.

The holding by any individual VCF or FVCI registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the Lead Manager will not be responsible for loss, if any, incurred by the Applicant on account of conversion of foreign currency.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Applicants will be treated on the same basis with other categories for the purpose of allocation.

APPLICATIONS BY LIMITED LIABILITY PARTNERSHIPS

In case of applications made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Application Form. Failing which, the Company in consultation with the LM, reserves the right to reject any application, without assigning any reason thereof.

APPLICATIONS BY INSURANCE COMPANIES

In case of Applications made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Application Form. Failing this, our company in consultation with the Lead Manager reserves the right to reject any Application without assigning any reason thereof.

The exposure norms for insurers prescribed in Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 (“IRDAI Investment Regulations”) are set forth below:

Equity shares of a company: the lower of 10%⁽¹⁾ of the investee company’s outstanding equity shares (face value) or 10% of the respective fund in case of a life insurer or 10% of investment assets in case of a general insurer or a reinsurer;

The entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or a reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and

The industry sector in which the investee company operates: not more than 15% of the respective fund of a life insurer or a reinsurer or health insurer or general insurance or 15% of the investment assets, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under points (i), (ii) or (iii) above, as the case may be.

(1) The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of Rs.2,500,000 million or more and 12% of outstanding equity shares (face value) for insurers with investment assets of Rs.500,000 million or more but less than Rs.2,500,000 million.

Insurer companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars Issued by the IRDA from time to time including the Insurance Regulatory and Development Authority (Investment) Regulations, 2016 (“IRDA Investment Regulations”).

APPLICATION BY PROVIDENT FUNDS / PENSION FUNDS

In case of applications made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs. 25 Crores, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/ pension fund must be attached to the Application Form. METHOD AND PROCESS OF APPLICATIONS

The Designated Intermediaries shall accept applications from the Applicants during the Issue Period.

The Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Issue Period may be extended, if required, by an additional three Working Days, subject to the total Issue Period not exceeding 10 Working Days.

During the Issue Period, Applicants who are interested in subscribing to the Equity Shares should approach the Designated Intermediaries to register their applications.

The Applicant cannot apply on another Application Form after applications on one Application Form have been submitted to the Designated Intermediaries. Submission of a second Application form to either the same or to another Designated Intermediaries will be treated as multiple applications and is liable to be rejected either before entering the application into the electronic collecting system or at any point prior to the allocation or Allotment of Equity Shares in this Issue.

Designated Intermediaries accepting the application forms shall be responsible for uploading the application along with other relevant details in application forms on the electronic bidding system of stock exchange and submitting the form to SCSBs for blocking of funds (except in case of SCSBs, where blocking of funds will be done by respective SCSBs only). All applications shall be stamped and thereby acknowledged by the Designated Intermediaries at the time of receipt.

The Designated Intermediaries will enter each application option into the electronic collecting system as a separate application and generate a TRS and give the same to the applicant.

Upon receipt of the Application Form, submitted whether in physical or electronic mode, the Designated Intermediaries shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form, prior to uploading such applications with the Stock Exchange.

If sufficient funds are not available in the ASBA Account, the Designated Intermediaries shall reject such applications and shall not upload such applications with the Stock Exchange.

If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Application Amount mentioned in the Application Form and will enter each application option into the electronic collecting system as a separate application and generate a TRS for each price and demand option. The TRS shall be furnished to the Applicant on request.

The Application Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Application Amount against the Allotted Equity Shares to the Public Issue Account, or until withdraw/ failure of the Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Applicants to the

Public Issue Account. In case of withdrawal/ failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

TERMS OF PAYMENT

The entire Issue price of ₹ 102/- per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Applicants. SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The applicants should note that the arrangement with Bankers to the Issue or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Issue and the Registrar to the Issue to facilitate collections from the Applicants.

PAYMENT MECHANISM

The applicants shall specify the bank account number in their Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Retail Individual Investors shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Application Form or for unsuccessful Application Forms, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application by the ASBA Applicant, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI ICDR Regulations, all the investors applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Retail Individual Investors applying in public issue have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued, issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”), which, with effect from October 15, 2020, subsumes and supersedes all press notes, press releases, clarifications, circulars issued by the DPIIT, which were in force as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the SEBI SAST Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Issue shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Nondebt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India.

As per the FDI policy, the sector in which our Company operates, is permitted up to 100% of the paid-up share capital of such company under the automatic route.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. For further details, see “*Issue Procedure*” on page 199 of this Prospectus. Each Applicant should seek independent legal advice about its ability to participate in the issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Issue Period.

The Equity Shares issued in the Issue have not been and will not be registered under the U.S. Securities Act or any state securities laws of the United States and, unless so registered, may not be issued or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws of the United States. Accordingly, the Equity Shares are only being issued and sold only outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations, seek independent legal advice about its ability to participate in the issue and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
